Current Version: 4.3
Created: 2020-01-01

Thank you for purchasing my theme. If you have any questions that are beyond the scope of this help file, please feel free to email me.

Installation

How to install the Template

In order to proceed with the theme installation, you need to make sure you have the latest version of WordPress on your self-hosted site.

To install this theme you must have a working version of WordPress already installed. For information on installing the WordPress platform, please see the WordPress Codex. Upon downloading the .zip file from Themeforest, you'll have all files you need inside. Extract the .zip file and inside you will find the theme zip file called "PineCone.zip", that is the file you need to install.

Follow the steps below to install theme:

Navigate to **Appearance > Themes**.

Click **Add New** then **Upload Theme**.

Click **Choose File** and Navigate to find the PineCone.zip file on your computer and click **Install Now** button.

The theme will be uploaded and installed.

Activate the newly installed theme. Go to **Appearance > Themes** and **Activate** the installed theme.

Add Themes [Upload Theme](#)

15 Featured Popular Latest [Feature Filter](#)

Installing Theme from uploaded file:

Unpacking the package...

Installing the theme...

Theme installed successfully.

[Live Preview](#) | [Activate](#) | [Return to Themes page](#)

I have include the exported XML file from our demo, this allows you to quickly set up your theme the same way our demo is set up. Please note, the XML file does not include images or the slider data. See the slider sections of this documentation to set up the sliders.

Follow the steps below to import Demo Data XML File:

Navigate to **WP Admin > Tools > Import**
Select and **install WordPress importer**
Once its installed, **select the XML file** and upload it. It can take a few minutes to install and upload all content.

Install plugins

This theme comes bundled with next plugins:

Portfolio Installer — plugin for theme portfolio and filters

This theme requires the following plugins: *Portfolio Installer*
