

Menus

Manage and organize your menus with additional settings. Menu items can be filtered by the position to which they are assigned.

To configure this part go to Busis->Menus.

Footer nav

Setting	Description
Column	Display up to 4 columns within the dropdown.
Column Width	Enter a pixel value to set the width of the dropdown.
Icon	Choose an icon from the icon preview within the select box to assign it to a menu item or even a sub item. You can also use a custom image. In WordPress looks into the /wp-content/uploads folder. So you only need to enter your custom path, for example MY-IMAGE.jpg.
Subtitle	Adds subtitle under the main title.

Dropdown menu

The options in Busis->Menus help you easily distribute sub menu of any item to the desired number of columns for convenient use. To do this, just select the menu-> item of menu and specify the number of **Columns**.
