

Setting

The general theme section allows you to control the behaviour and the overall appearance of your theme.

To configure this part go to [Buis->Settings](#).

Styles

The style section contains the customizer.

Click [Customizer](#) to create your own style for the whole site or individual pages. You can pick colors, modify sizes and much more with a real time theme preview. Choose the style to be loaded in the layout options.

Click **Copy** and enter a new name to duplicate the style. Then you choose your new style from the list and can make adjustments.

This text will be displayed on the site only if the widget positions Logo and Logo-toolbar are empty
