

## **Woodie – Theme Documentation**

Thank you for purchasing Woodie! This documentation covers the installation and the usage of this theme, so we encourage you to read through this document and keep it handy for reference. If you have any questions about your theme, or need assistance with something, please feel free to contact us and our dedicated support staff will be happy to assist you.

**Contact Support:** <http://community.mythemeshop.com/>

### **A) Getting Started**

#### **A1. Installing Woodie:**

- 1) First, make sure you have the latest WordPress installation, by checking the update panel within your current WordPress installation. If you don't have WordPress already, you can download it from the WordPress repository here: <http://wordpress.org/download/>
- 2) Download the WordPress theme ZIP file from the MyThemeShop admin panel, and save it somewhere handy on your computer, as you will be using the included files for the rest of the installation process. Unzip the downloaded ZIP file onto your computer, but don't upload the unzipped folder to your WordPress installation just yet.
- 3) Inside the unzipped folder, you will notice a variety of files and folders such as theme PSDs, documentation, your license, and also a Woodie.zip file. From here, you have two options for installation, outlined below and explained in detail in the following sections:
  - Installation from the WordPress admin panel: If you want to upload the theme via WordPress admin, simply navigate to the 'Appearance' tab, choose the 'Themes' tab, and select 'Install Themes'. Then, simply select Woodie.zip from the extracted folder, and upload it using the WordPress integrated uploader.
  - Installation via FTP: If you are using FTP client (such as FileZilla) to upload your theme files, simply extract Woodie.zip from within the unzipped folder, and then upload the resulting Woodie folder to /wp-content/themes.

#### **A2. Installing via WordPress Admin panel:**

Login to your WordPress admin panel, such as [yoursite.com/wp-admin/](http://yoursite.com/wp-admin/) and then navigate to Appearance > Themes > Install Themes, and upload Woodie.zip file.

**Install a theme in .zip format**

*If you have a theme in a .zip format, you may install it by uploading it here.*

**Choose File** No file chosen **Install Now**

**Step 3**

OR

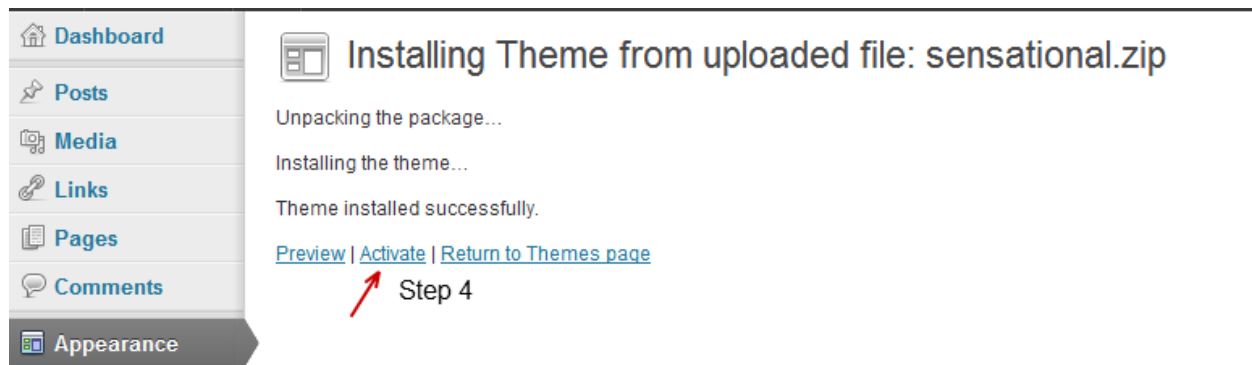

### A.3 Installing via FTP:

- 1) Open your FTP client application (example: FileZilla).
- 2) Fill in your login details (host, username, and password), then press connect.
- 3) Once connected, navigate to 'wp-content' folder.
- 4) Navigate to 'themes' folder.
- 5) Now upload the "Woodie" folder to /wp-content/themes.

### A4. Activating the theme:

If you installed from the admin panel, after the theme .zip file has finished uploading, you should be presented with three options (Preview, Activate, Return to Themes). Select the “Activate” option.

If you installed via FTP, you will see these options appear on the Themes page.

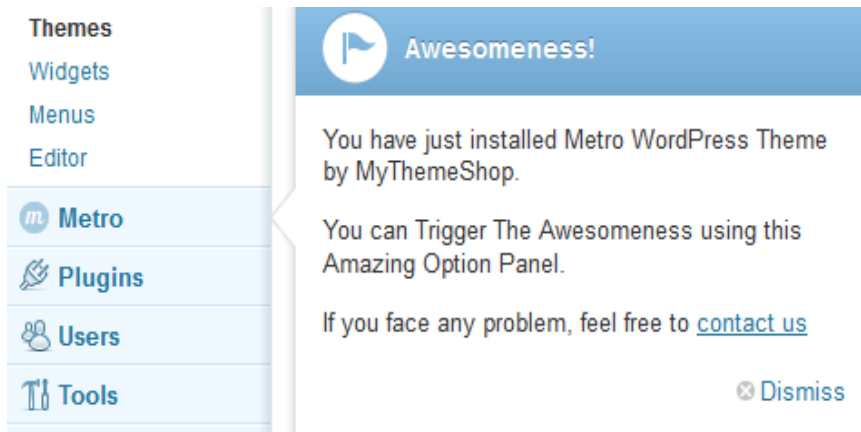

**Note:** Got an error during installation process? Try the following:

- Make sure you are using the latest version of Wordpress.
- Make sure your hosting is running the latest version of PHP and MySQL.
- Be sure you have at least PHP 5 with GD-library installed on your server. PHP 5 is better. GD library is something that can be installed by your web server admin. If you do not have this, please ask for that to your web administrator, and also at least Wordpress 3.2 engine is installed.
- Make sure your WordPress user has permissions to install themes and ability to upload to the /wp-content/themes/ folder.

## **B) Theme Options**

Once you have activated the theme, you will see a welcome message, which will show you how to use the theme options panel. The theme options panel will allow you to configure the settings of your theme.

You will find all the instructions for each setting inside the MyThemeShop options panel. Now, have fun configuring your brand new theme, and explore the various options to make your site truly customized.

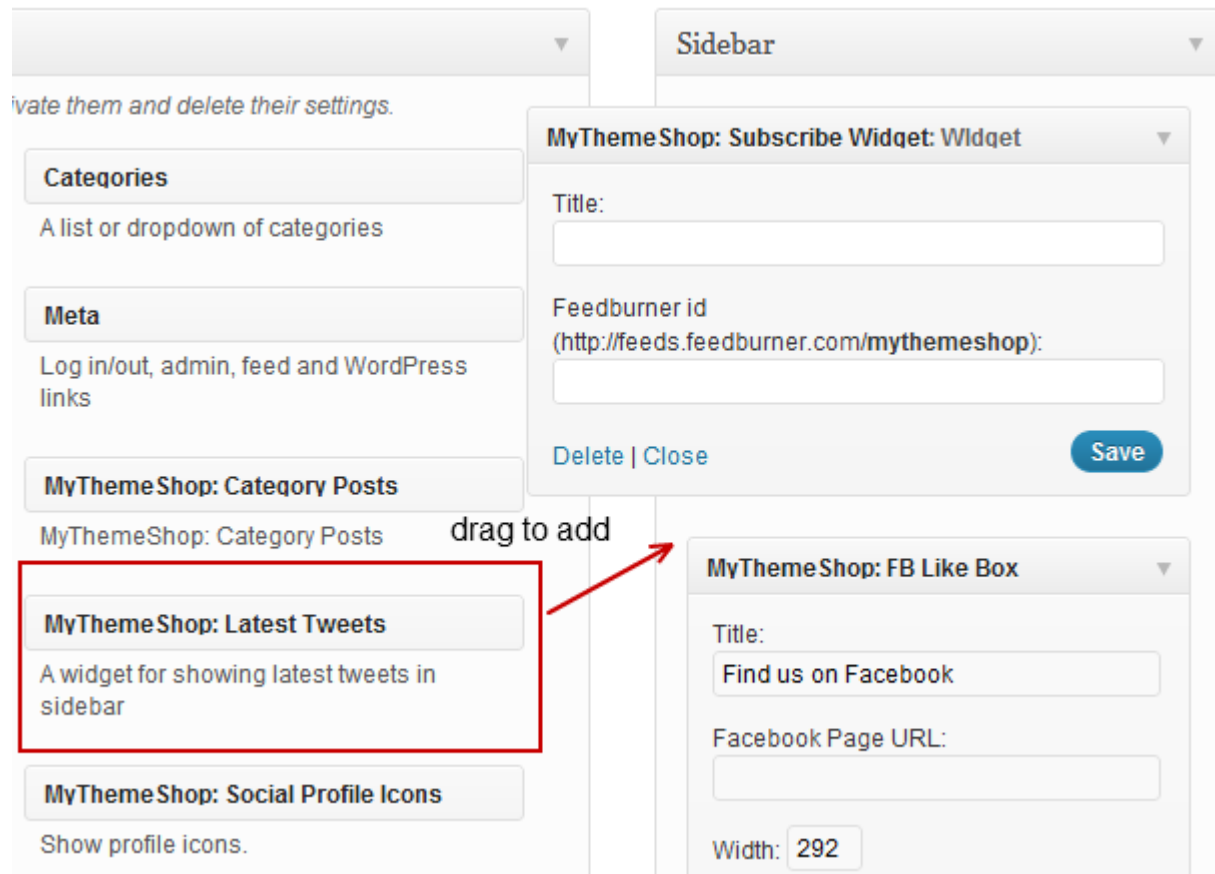

**More info:** <http://demo.mythemeshop.com/Woodie/options-panel/general-settings/>

## **C) Custom Widgets**

MyThemeShop offers 11 powerful custom widgets to help you easily add features and functionality to your WordPress theme without having to tinker with any code.

### **C1. Adding widgets:**

First, decide what widget you are looking to add, and where you want it to appear on your site. To add the custom widget in your theme, navigate to "Appearance > Widgets", and drag the desired widget to the right side, under the "Sidebar" or "Footer" widgets box.

## C2. MyThemeShop 125 x 125 Ad Widget:

This widget allows you to configure and display up-to **six** 125 x 125 banner advertisements.

- **Title:** Title of the widget.
- **Ad image url:** The URL of your banner image e.g. <http://example.com/image.jpg>.
- **Ad link url:** The destination URL of your banner ad e.g. <http://example.com>.
- **Randomize ads order?** Check this box to shuffle the display of the banners in a random order on each page load.

The screenshot shows a sidebar widget configuration window titled 'MyThemeShop: 125x125 Ads'. It contains several input fields for configuring a 125x125 advertisement. The 'Title' field is set to 'Our Sponsors'. The 'Ad 1 image url' and 'Ad 2 image url' fields both contain the URL 'http://www.digestnow.com/wp-content/themes/sensatio'. The 'Ad 1 link url' and 'Ad 2 link url' fields both contain the URL 'http://mythemeshop.com'. There is an additional 'Ad 3 image url' field at the bottom which is currently empty.

#### C4. MyThemeShop Latest Tweets Widget:

This widget allows you to configure and display your latest Twitter tweets.

- **Title:** Title of the widget
- **Twitter Username:** Enter the username of your Twitter account
- **Number of tweets:** Choose the number of tweets to display – maximum allowed tweets is 20
- **Follow Text:** Choose the anchor text of the link to your Twitter profile. Omit this option if you do not wish to display a link.

The screenshot shows a sidebar configuration window for the 'MyThemeShop: Latest Tweets' widget. The widget title is 'MyThemeShop: Latest Tweets'. The configuration fields are: 'Title' with the value 'Latest Tweets'; 'Twitter Username e.g. mythemeshopteam' with the value 'mythemeshopteam'; 'Number of tweets (max 20)' with the value '5'; and 'Follow Text e.g. Follow me on Twitter' with the value 'Follow on Twitter'. At the bottom, there are links for 'Delete' and 'Close', and a blue 'Save' button.

#### C5. MyThemeShop Category Posts Widget:

This widget allows you to display the posts from a particular category, with thumbnails.

- **Title:** Title of the widget.
- **Category:** Choose the category from which you want to display the posts.
- **Number of posts to show:** Control the number of posts that you want to display.
- **Sort by:** Order the article list by date, title, number of comments, or randomly.

## C7. MyThemeShop Facebook Like Box Widget:

This widget allows you to add the Facebook Like box, and you can also configure the look and feel of it.

- **Title:** Title of the widget.
- **Facebook Page URL:** Add the URL of your Facebook fan page.
- **Width:** Control the width of the widget with this option.
- **Color Scheme:** This allows you to control the color scheme of the Facebook box to best match your theme.
- **Show Faces:** This option controls whether or not profile pictures are displayed in the widget.

The screenshot shows a sidebar configuration window titled "Sidebar" with a dropdown arrow. Inside, there is a widget titled "MyThemeShop: FB Like Box" with its own dropdown arrow. The widget configuration includes the following fields and options:

- Title:** A text input field containing "Find us on Facebook".
- Facebook Page URL:** An empty text input field.
- Width:** A text input field containing "292".
- Color Scheme:** A dropdown menu currently set to "light".
- Show faces:** A checked checkbox.
- Show stream:** An unchecked checkbox.
- Show facebook header:** An unchecked checkbox.
- Buttons:** "Delete | Close" and a blue "Save" button.

## C8. MyThemeShop Recent Posts Widget

This widget allows you to show the latest posts with thumbnails.

- **Title:** Title of the widget.
- **Number of posts to show:** Control the number of posts that you want to display with this option.

The image shows a 'Sidebar' configuration window. Inside, there is a 'MyThemeShop: Recent Posts' widget configuration panel. It includes a 'Title:' text input field, a 'Number of posts to show:' numeric input field set to '5', and three checkboxes: 'Include post thumbnail', 'Include post excerpt', and 'Show expert options'. At the bottom left of the panel are 'Delete' and 'Close' links, and at the bottom right is a blue 'Save' button.

### C9. MyThemeShop Social Profile Icons Widget

This widget allows you to connect with your audience on different social networks.

- **Title:** Title of the widget.
- **Open links in a new window:** When enabled, this will have the profile links all open in a new window, so that users are not directed away from your site.

**Note:** Connect with your audience/fans on different social media sites. Just enter the complete URL, e.g. <http://twitter.com/#!/mythemeshopteam>, in the box below the name of the desired social network.

The screenshot shows a sidebar widget titled "MyThemeShop: Social Profile Icons". It contains several input fields: "Title:" (empty), a checkbox for "Open links in new window?" (unchecked), "Icon Border Radius:" with a value of "3" and "px", "Icon Color:" with a value of "#999999", and "Hover Color:" with a value of "#666666". Below these are five more input fields for social media URIs: "Dribbble URI:", "Email URI:", "Facebook URI:", "Google+ URI:", and "LinkedIn URI:" (partially visible).

### C.10 MyThemeShop Subscribe Widget:

This widget allows you to add the FeedBurner email subscribe box on your blog.

- **Title:** Title of the widget
- **FeedBurner ID:** Just enter your FeedBurners ID, e.g. [mythemeshop](#)

The screenshot shows a sidebar widget titled "MyThemeShop: Subscribe Widget". It contains a "Title:" input field (empty) and a "Feedburner id (http://feeds.feedburner.com/mythemeshop):" input field with the value "mythemeshop". At the bottom, there are links for "Delete" and "Close", and a blue "Save" button.

## C.11 MyThemeShop Random Posts:

**Number of random posts to show:** This option allows you to control the number of posts that you want to display.

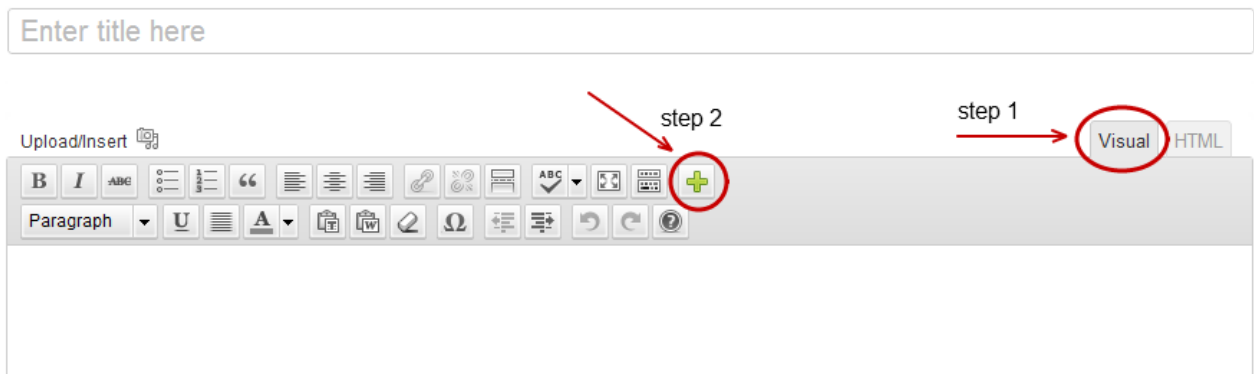

## D) Shortcodes:

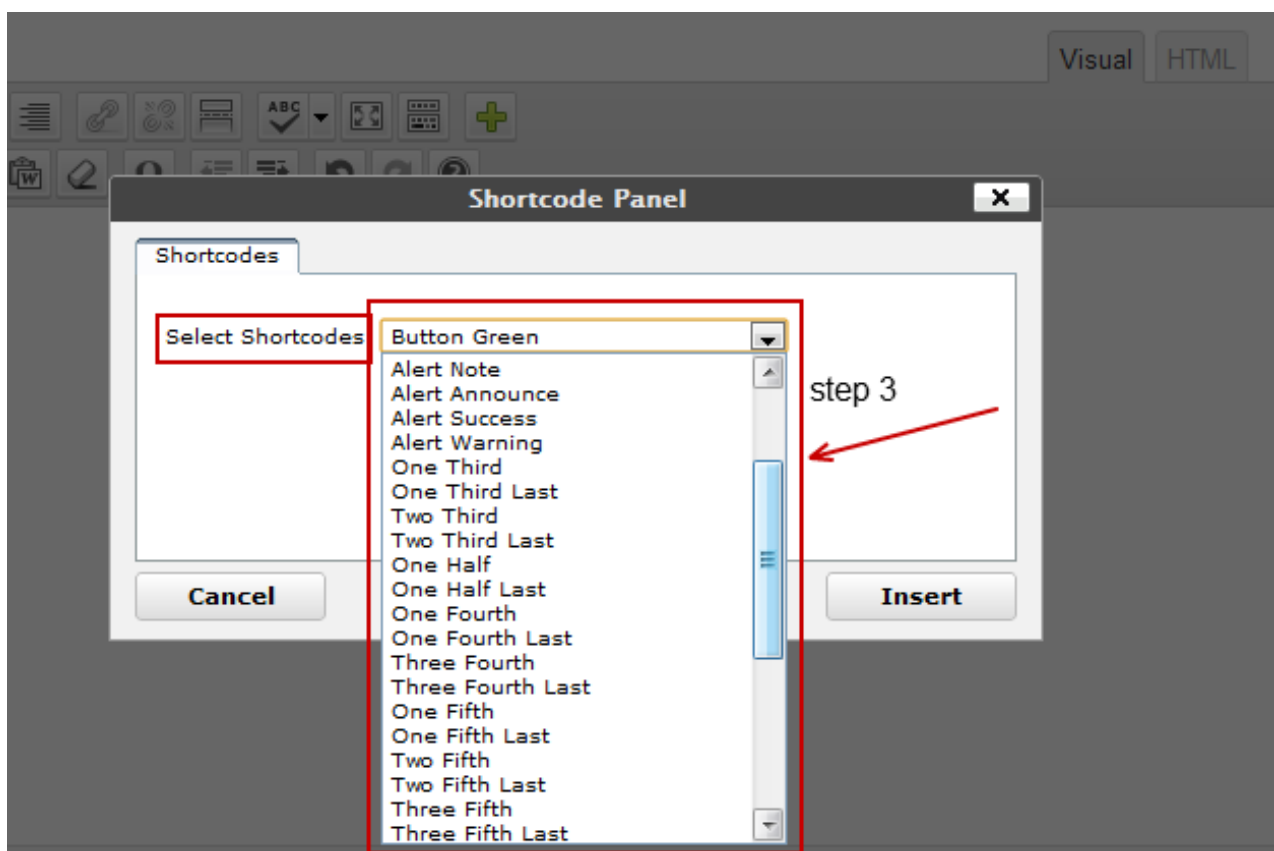

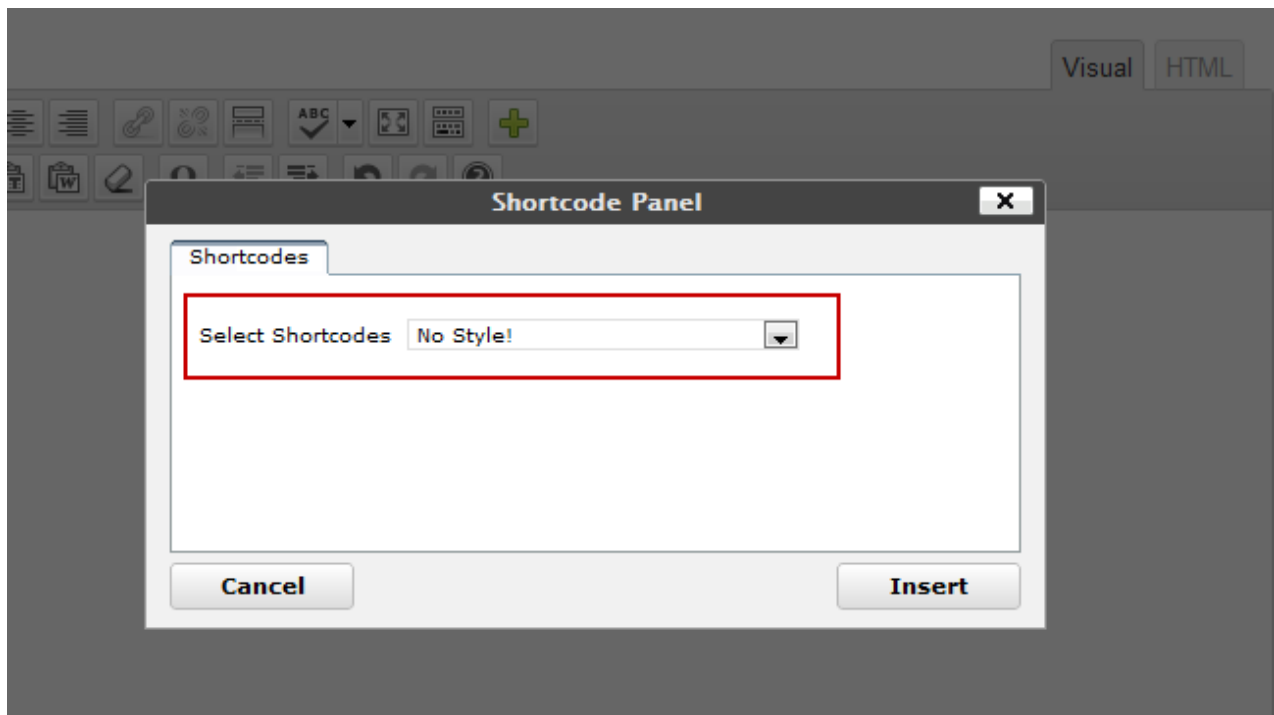

Your theme comes pre-packaged with a number of shortcodes, allowing you to add styled content to your site with little effort. For your convenience, the available shortcodes have been included in a one-click menu.

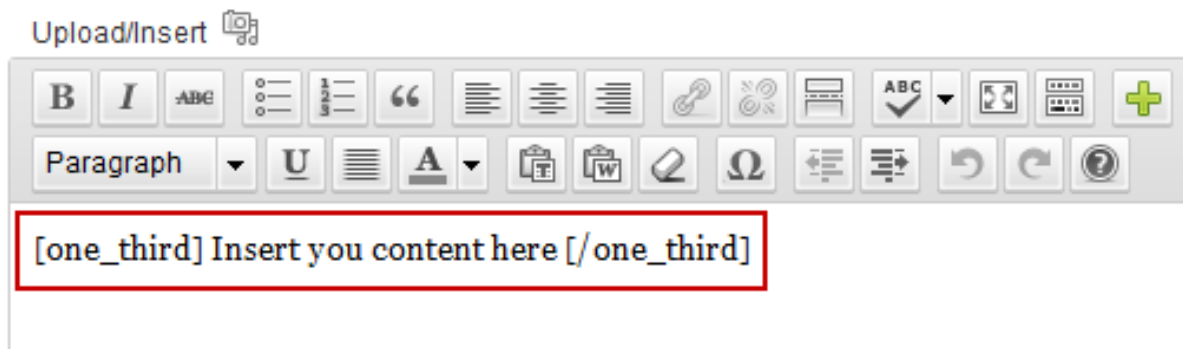

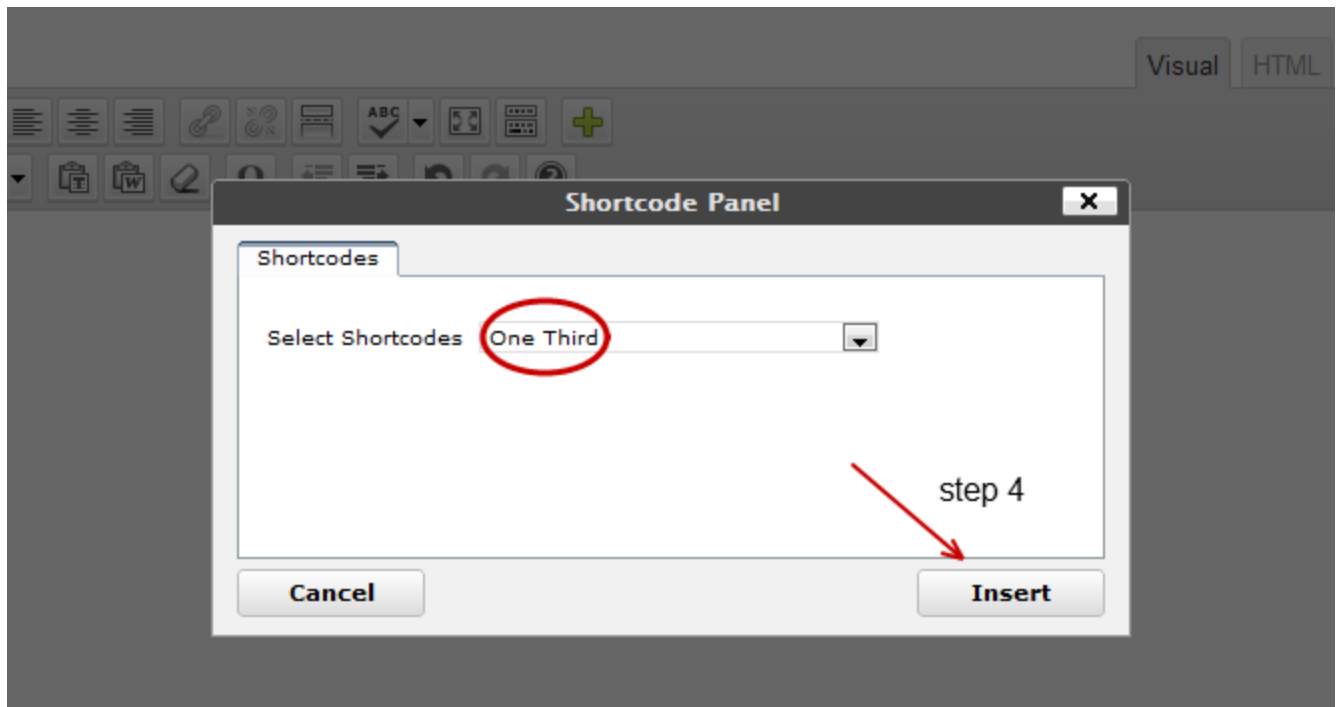

### D.1 Adding shortcodes:

When creating a page or post, choose the Visual Editor, and click the green “+” icon to reveal the list of shortcodes. Choose the functionality you wish to include, and click “insert”. This will insert the necessary code for you.

#### Add New Post

## **E) Full-Width Page**

Your theme comes with a pre-made “Page without Sidebar” template that is very easy to add into the theme.

### **E.1 Adding the full width page:**

Go to your WordPress Admin panel, navigate to Pages > Add New, go to Page Attributes > Template and choose the “Page without Sidebar” template from the drop-down menu.

## **G) Show Latest posts**

This will teach you how to show articles in Latest Posts section in the theme.

### **G.1 Adding a new page to show latest posts:**

Create one new page named latest, and in right sidebar you will find page attributes. Select Latest Post template, publish it and you are done.

## **H) Show Latest posts**

This will teach you how to fix the issue with thumbnails not showing up properly.

### **H.1 Fixing thumbnails of your articles:**

Please install this plugin and just run it once: <http://wordpress.org/extend/plugins/regenerate-thumbnails/> Our codes inside the theme shall fix everything for you.

**Contact Support:** <http://community.mythemeshop.com/>

If you have any questions about the features of your theme, issues with your installation, or just want to tell us how much you like your new theme, please feel free to contact us.
