

Sonnois designed with Testimonial content type you can add customer's testimonial and let the world know how good you are, to start adding testimonials navigate to Testimonials → Add New

## Adding A Testimonial

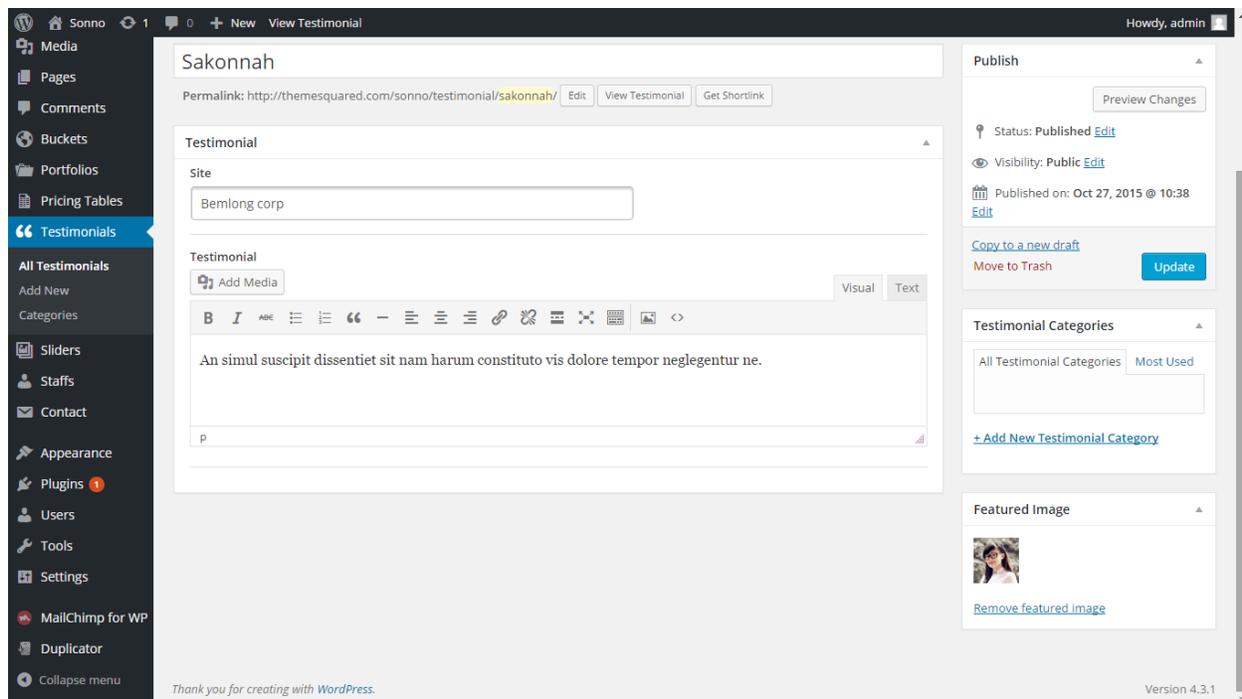

Once you're on the Add New Testimonial screen, you will then be able to add the name in the name field and also provide information such as Designation and Company

## Feature Image (Customer Photo)

You Must set this image, this image will be used as customer photo. Feature Image also appears in listing page. For best result, the original image should be minimum 60px in width.

## Testimonial Category

You can assign each testimonial to any number of categories. This is useful, when you want to select a batch of testimonials for displaying on other pages.

The screenshot shows the WordPress admin dashboard for a user named 'Howdy, admin'. The main content area is titled 'View Testimonial' and shows the 'Add New Testimonial' form. The form includes a title field with the text 'Sakonnah', a permalink field with the URL 'http://themesquared.com/sonno/testimonial/sakonnah/', and a 'Testimonial' section. The 'Testimonial' section has a 'Site' field with the text 'Bemlong corp' and a rich text editor with the placeholder text 'An simul suscipit dissentiet sit nam harum constituto vis dolore tempor neglegentur ne.'. The right sidebar contains several panels: 'Publish' with status 'Published', visibility 'Public', and a publish date of 'Oct 27, 2015 @ 10:38'; 'Testimonial Categories' with a list of categories and an 'Add New Testimonial Category' button; and 'Featured Image' with a small image and a 'Remove featured image' button. The bottom of the page shows the footer text 'Thank you for creating with WordPress.' and 'Version 4.3.1'.

## Adding Testimonial Listing to Page

Now we assume that you have added several testimonials, lets display your staff on some page.

1. Go to the Pages and select Page you want to add listing
