

Page Options

MENU

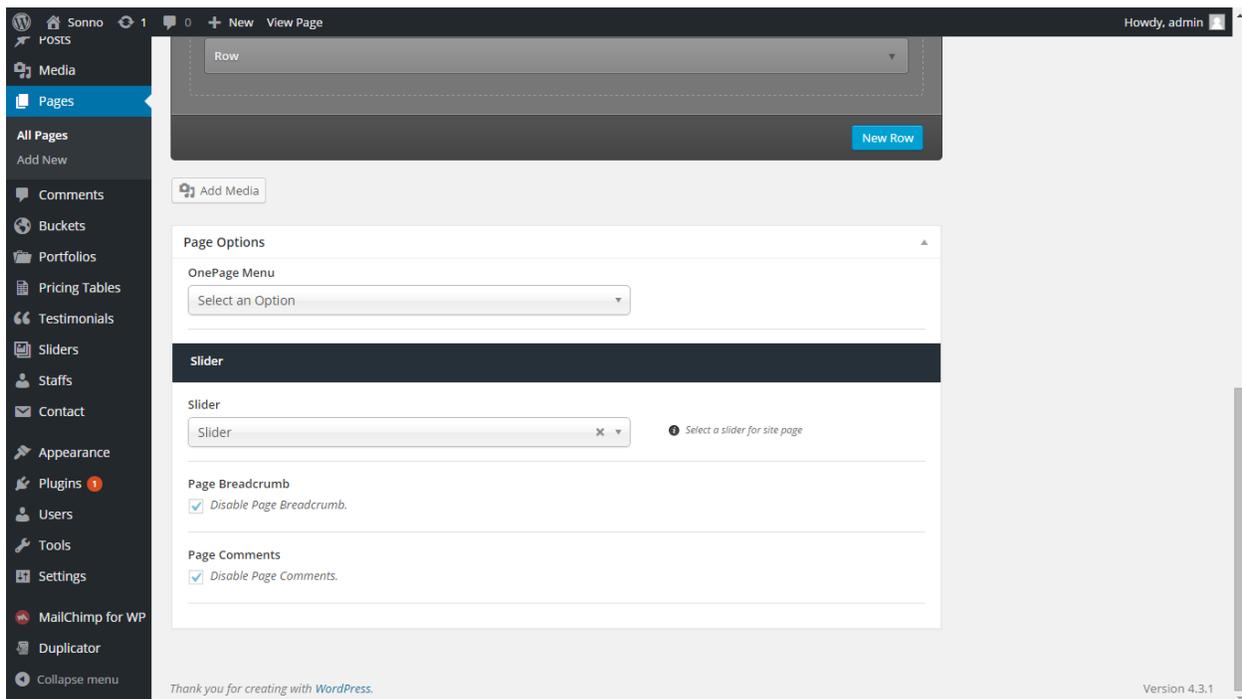

Here you can choose your menu. Like if you are demonstrating your Hosting plan with one page so you can make Menu and select it. And on other page you can show another menu if you want.

Slider

Here you can choose the different slider on each page if you want or you can disable slider on any page you want.

Others

You can also disable the Comment and Breadcrumb on Page.

The screenshot displays the WordPress admin dashboard. On the left is a dark sidebar menu with categories like 'POSTS', 'Media', 'Pages', 'Comments', 'Buckets', 'Portfolios', 'Pricing Tables', 'Testimonials', 'Sliders', 'Staffs', 'Contact', 'Appearance', 'Plugins', 'Users', 'Tools', and 'Settings'. The 'Pages' menu item is highlighted. The main content area shows the 'Page Options' panel for a page titled 'Row'. The panel includes an 'Add Media' button, a 'OnePage Menu' dropdown set to 'Select an Option', a 'Slider' section with a dropdown set to 'Slider' and a note 'Select a slider for site page', and two checkboxes: 'Disable Page Breadcrumb' (checked) and 'Disable Page Comments' (checked). The footer of the page contains the text 'Thank you for creating with WordPress.' and 'Version 4.3.1'.
