

# Inbound – Translation with WPML

Inbound can be translated and used to operate a multilingual website with the help of the popular plug-in WPML.

***If you require assistance with any of our products or would like to provide feedback or bug reports, please contact us using the form here: <https://shapingrain.zendesk.com/hc/en-us/requests/new> or send an email to [support@shapingrain.com](mailto:support@shapingrain.com)***

## How can I translate posts and pages with WPML?

---

We have created all our content with SiteOrigin Page Builder. If you are using the page builder, too, please follow the steps in SiteOrigin's documentation:

<https://siteorigin.com/page-builder/using-page-builder-wpml/>

## Can I translate banners and modal windows as well?

---

Yes, you can. Banners and modal windows can be translated. If you are using the SiteOrigin Page Builder plug-in to create your banners and modal windows, please make sure that you follow SiteOrigin's documentation:

<https://siteorigin.com/page-builder/using-page-builder-wpml/>
