How to work with project

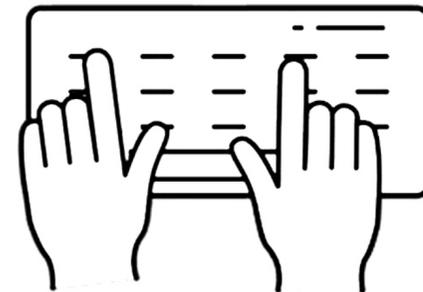

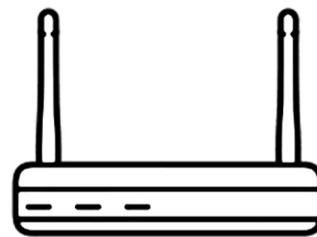

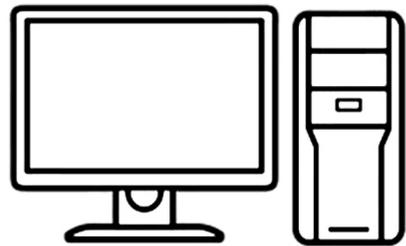

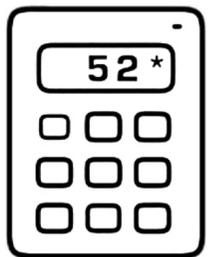

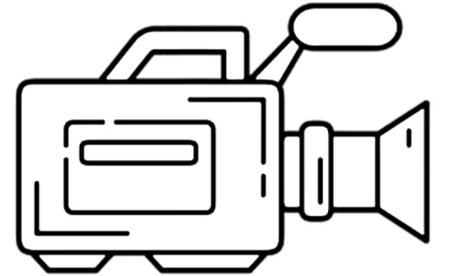

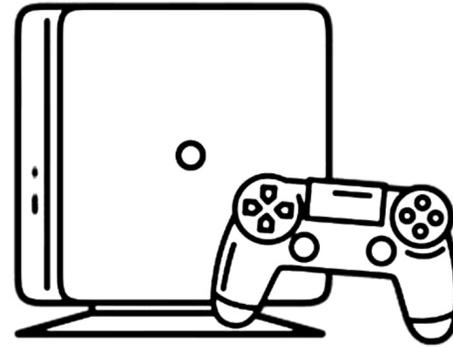

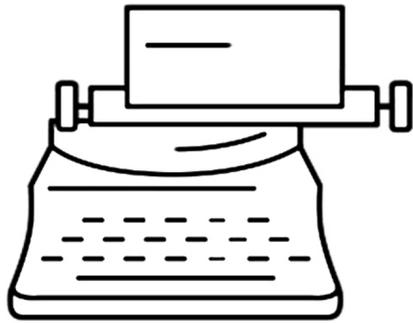

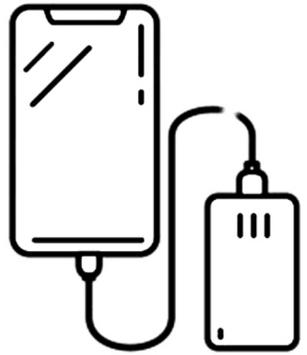

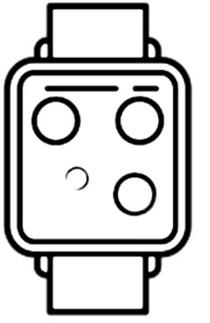

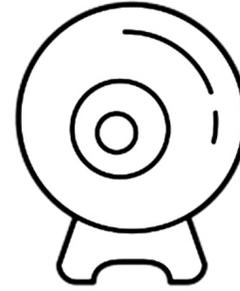

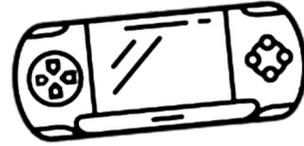

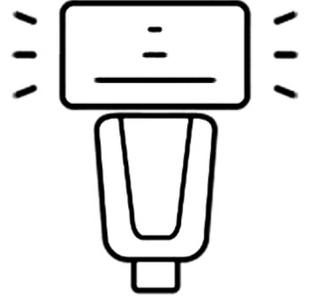

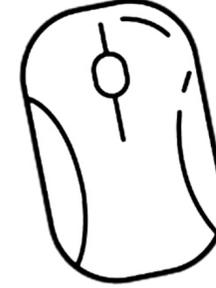

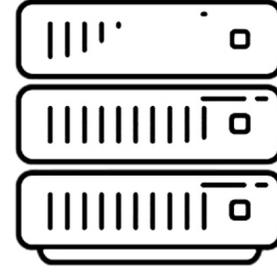

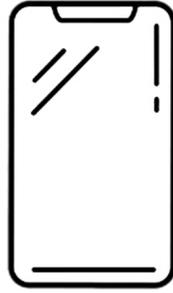

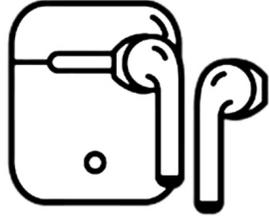

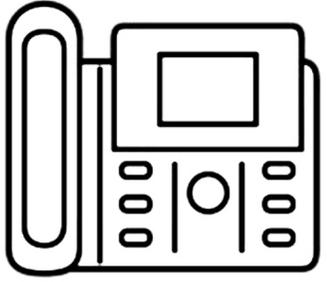

How to work with project:

STEP BY STEP TUTORIAL

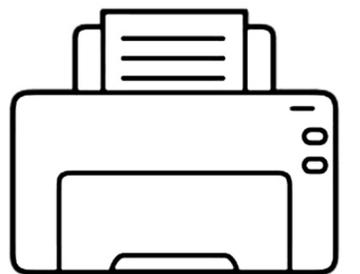

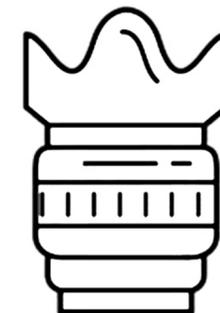

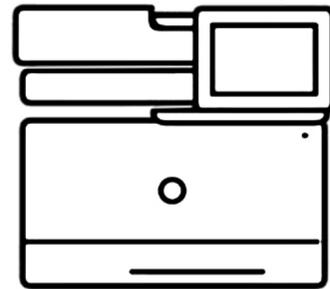

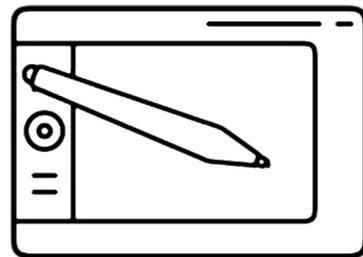

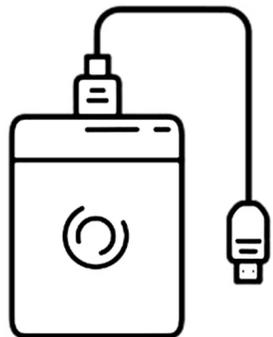

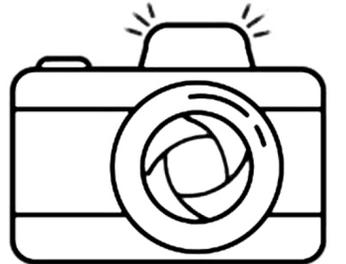

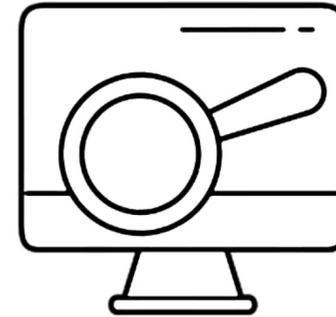

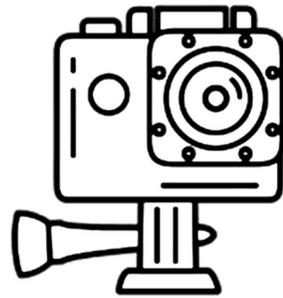

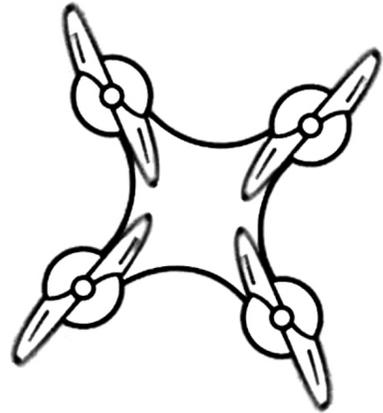

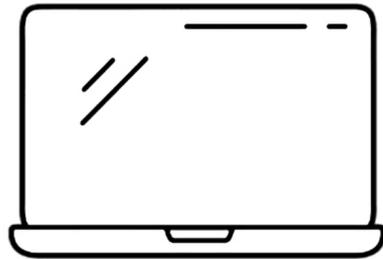

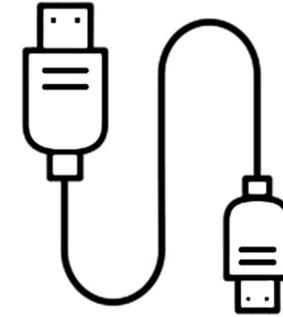

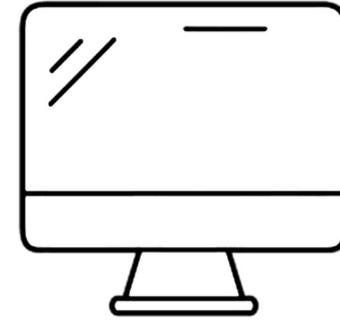

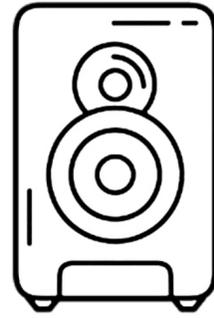

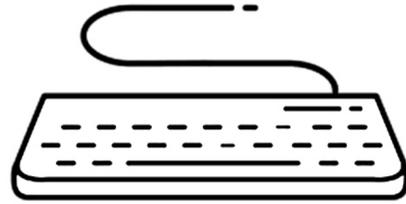

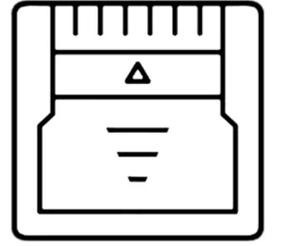

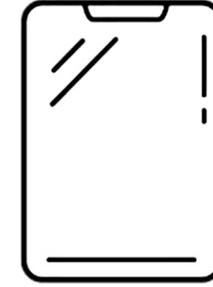

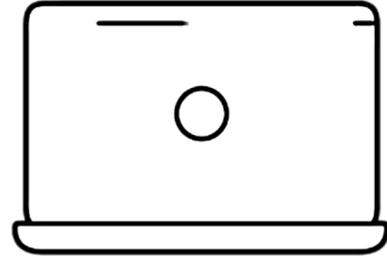

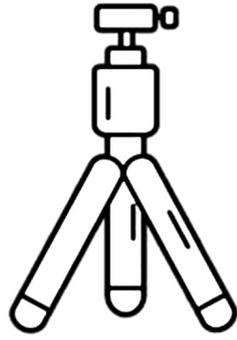

- ① Find in the project window "**01. Edit_Comp**" folder. Open it.
- ② Open "**Color**" folder.
- ③ Open "**Color_Control**" composition.
- ④ In the Effects of the "**Icons_Preview**" layer are Checkboxes.
By switching them you can choose icon preview.
- ⑤ In the Effects of the "**Color_Control**" layer you can change Stroke color, Fill color, Stroke width and enable or disable Icon Fill.

Your changes will affect the whole package of icons at once.
This will allow you to edit the entire set in a couple of minutes.
- ⑥ If you finished editing find in project window "**02.Render_Comps**" folder. Open it.
- ⑦ Select folder with the theme name
- ⑧ Add To Render Queue compositions you want.
