

Hello, my friend!

Thanks for buying this template!

It's really easy to customize:

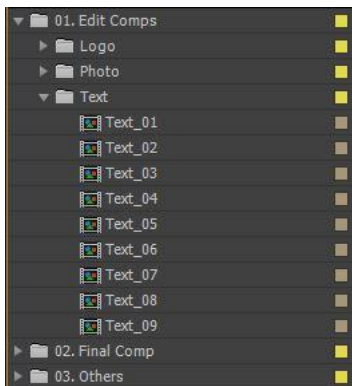

0. Open editable compositions:

1. Place your logo in folder «Logo»

2. Edit text in folder "text".

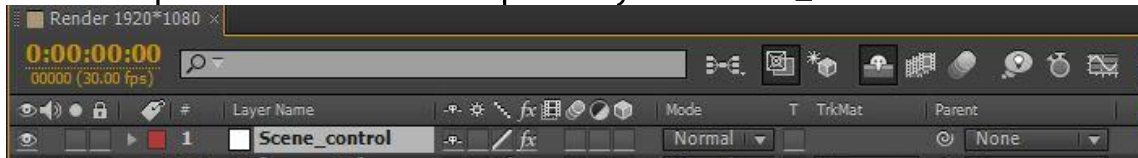

3. Edit image or video in folder "Photo"

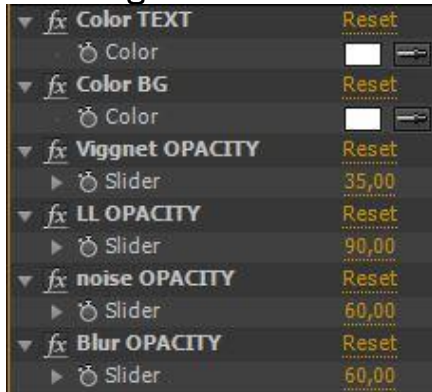

4. If you want, you can change colors of all elements:

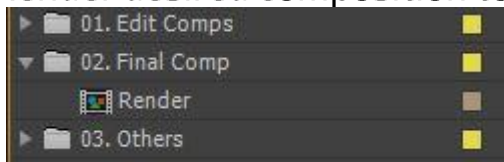

- In composition «Render» tap on layer «scene_control»

- Change colors in «Effects Controls» of layer «scene_control»

5. Render desired composition to get the final result.

That's all! ;)
