BUNDLE
09 INSTAGRAM
STORIES

Ae After Effects

THANKS FOR PURCHASING MY ITEM, THIS INSTAGRAM STORIES BUNDLE IS VERY EASY TO USE & EDIT, JUST FOLLOW THOSE STEPS:

1. open the "Main" project file iside your Adobe After Effects, The composition "All Stories Preview" will opened automaticlly, inside this composition just click on 1 of the sto-
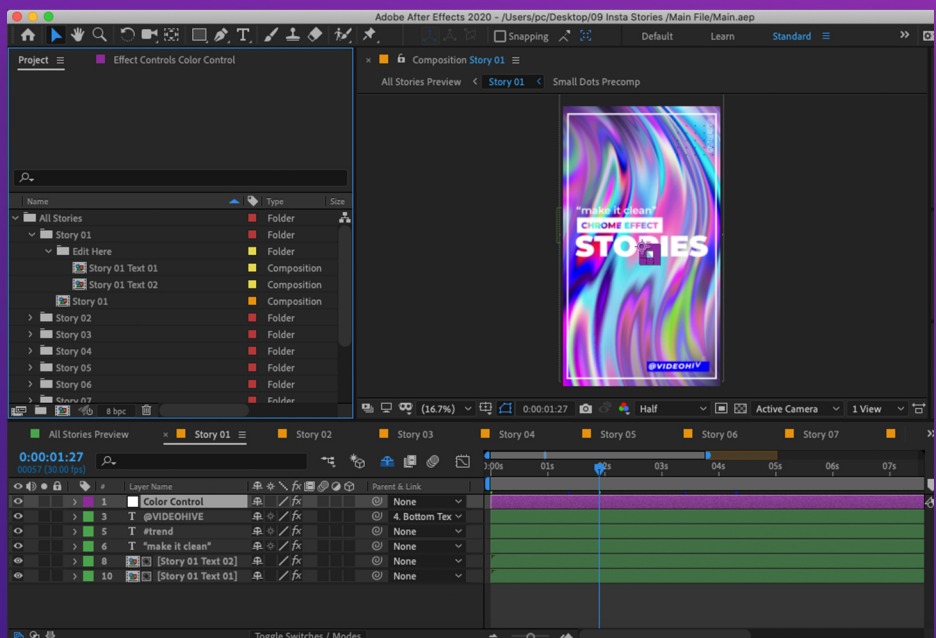

2. When you open the compostion story, you need first thing to edit the text & placeholder(if the story has a placeholder)

you can do that from the main coposition or you locate the story folder from the project folders, just go to project panel (you can open the project panel from Window -> Project)

and find the folder 'All Stories' then open the the story that you want to edit, after that you'll see 'Edit Here' folder.
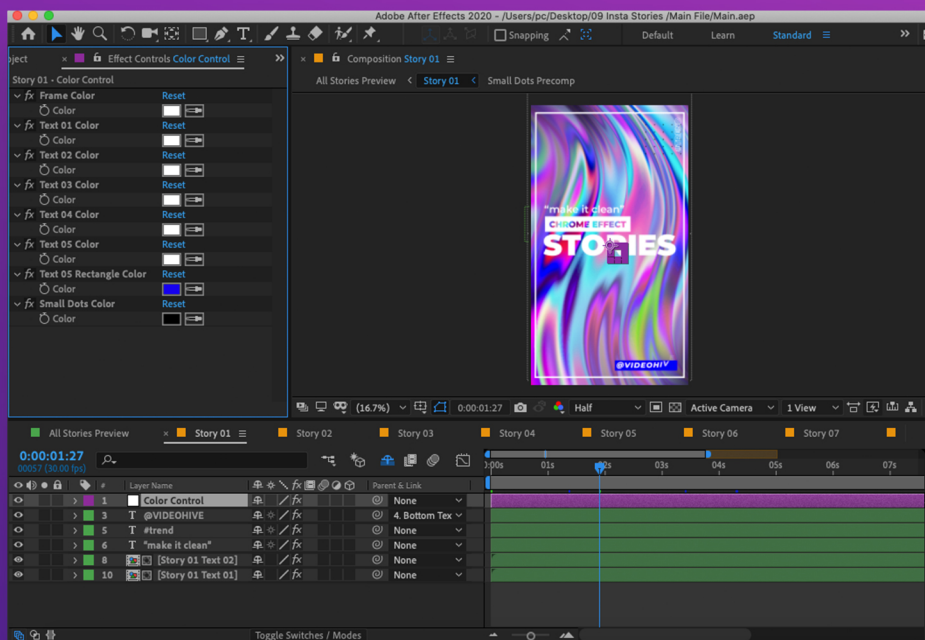

inside thaht folder you'll get all the editable compositions fro this main story, just open and edit and close.

3. After editing of the texts and the placeholders, you need now to edit the colors, every story has a top layer with that name 'Color Control'.

Select that layer and go to effect control panel, if you can't see this panel, you can open it easy from window -> Effect Controls.

Inside this panel if you're selected the control color layer you'll see a multi colors that you can use them to change the story colors.

THANK YOU!
