

PDF help file

Hi, this is a little lesson for Instagram Stories. To get started, open Corporate Call Outs.aep in After Effects.

To edit the text, you should open the folder Project> 01.Edit Comps > Edit Texts, then open the composition Edit text (the composition number “Edit text” will correspond to the title number)

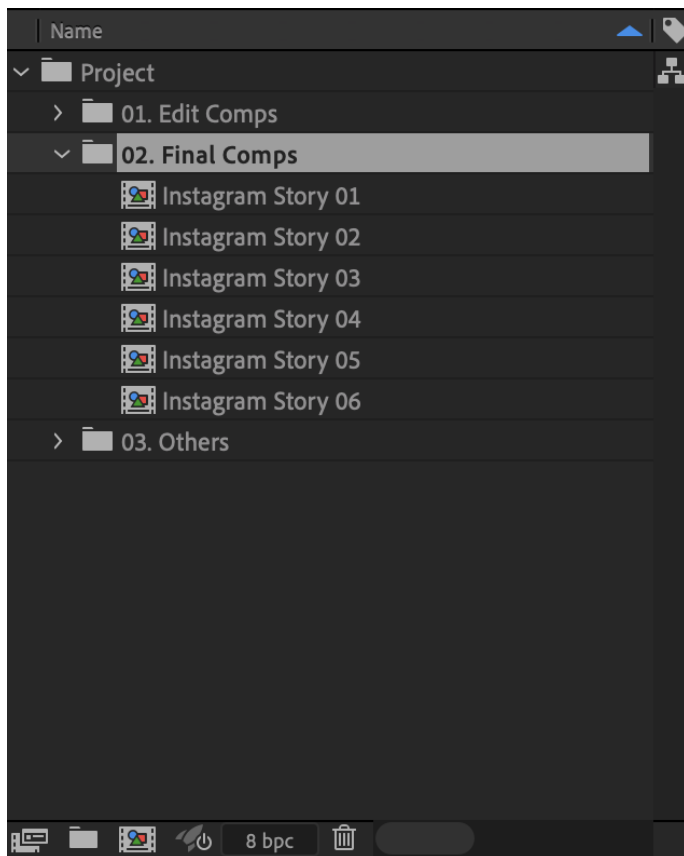

In order for you to be able to view all the Instagram Stories in a row, you should open the Project> 02. Final Comps folder, then open the Final Comp.

To edit the color, open the Project> 01 folder. Edit Comps> Edit Colors, then click on the Edit Colors Title 01 - 06 layer, go to the layer effects, edit the colors

To select a specific title, you need to open the folder Project> 02.Final Comps, then open the title composition you need.

Thank you for downloading my project.

Thanks for downloading my project, I hope you enjoy it!
I would be happy if you [subscribe to me on videohive](#), and also rate my project :)
