# Stroke Element

LOGO Reveal

After Effect Template

TUTORIAL

1. How to replace logo

Open one of composition "01. Placeholder > Logo Placeholder"
Import your photo or logo, then drag and drop it into the Layers panel.
Make sure you rescaled and adjusted the position as this is important for the final look.

2. How to replace logo

Open one of composition "01. Placeholder > Text Placeholder"
Double click on text and type down your text.
You can adjust the color and position on setting later.
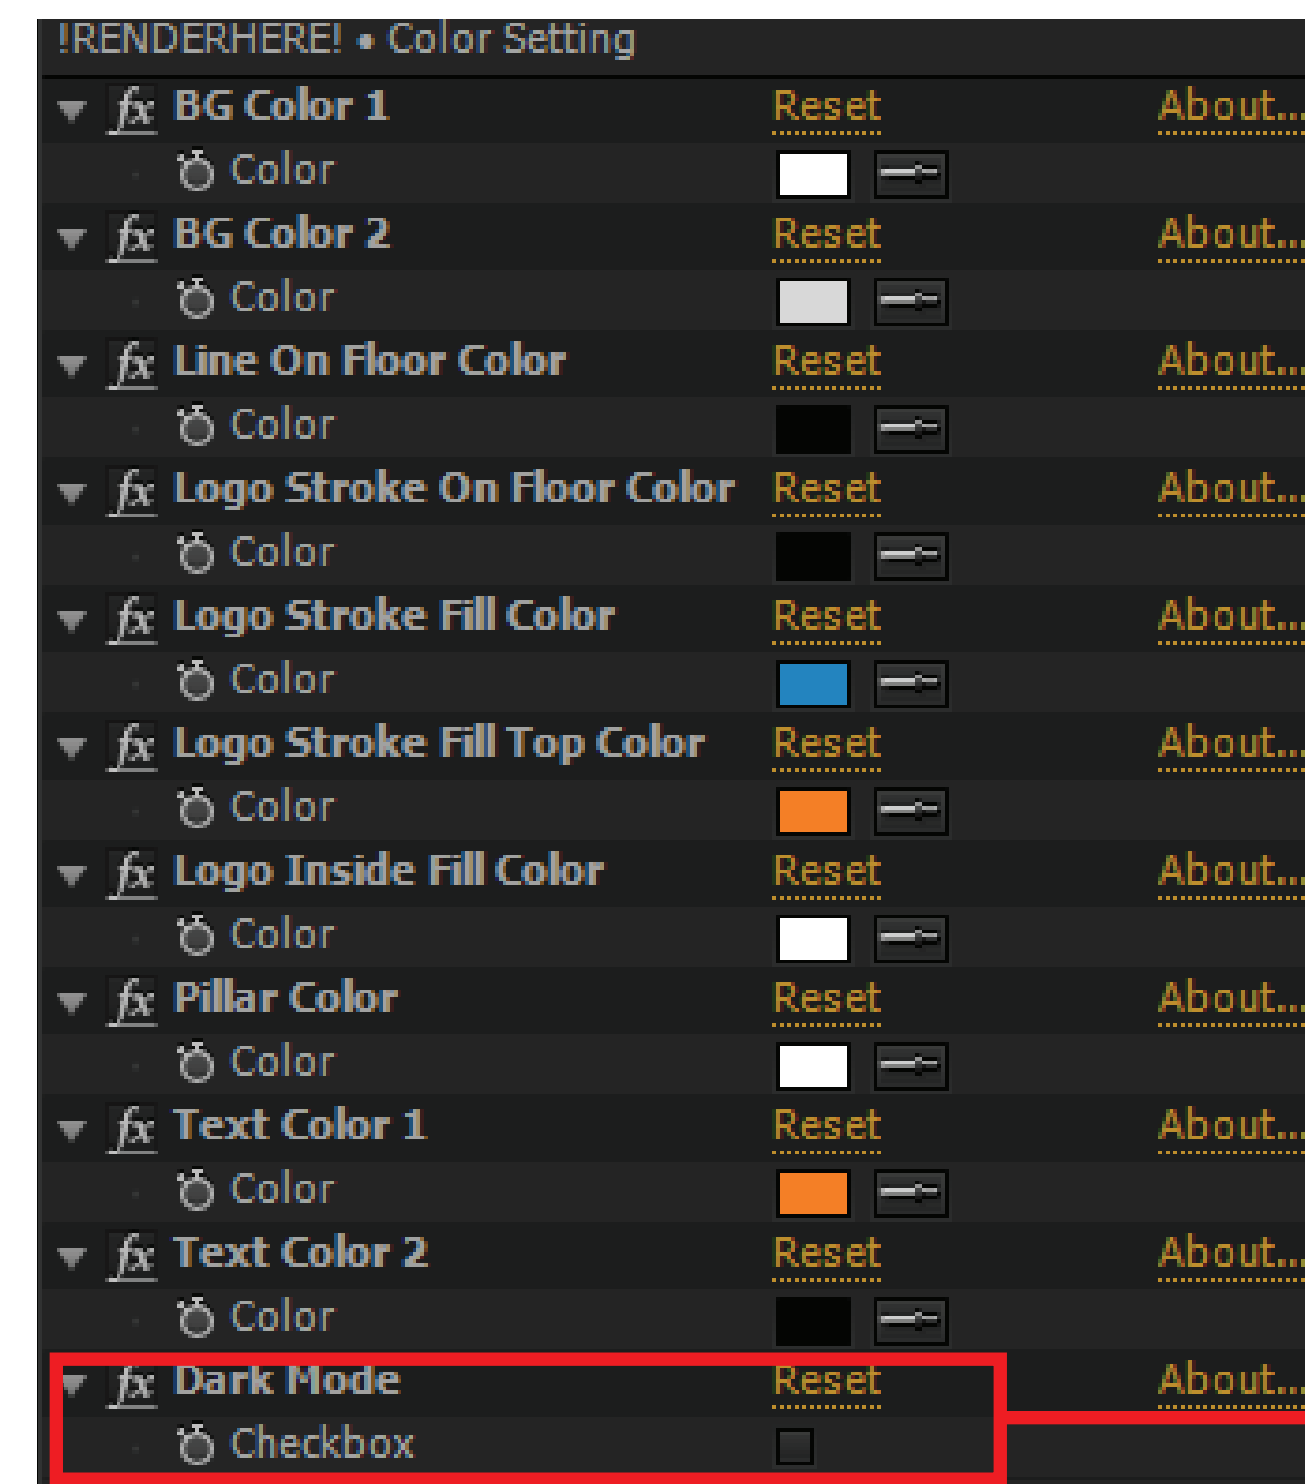

Open composition "!RENDERHERE!"
There are two setting. One for adjustment such shadow, light and shape selection.
The other one is for color adjustment.
Select the text placeholder to re-position the text.
