Mosaic Opener 1

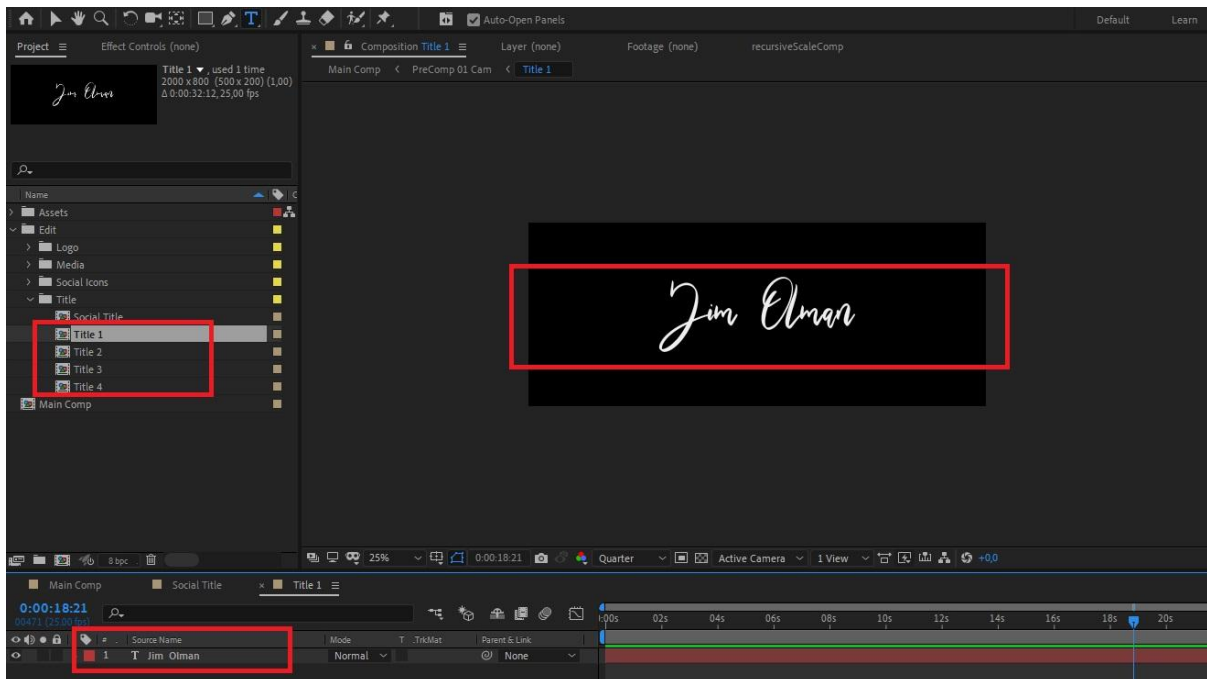

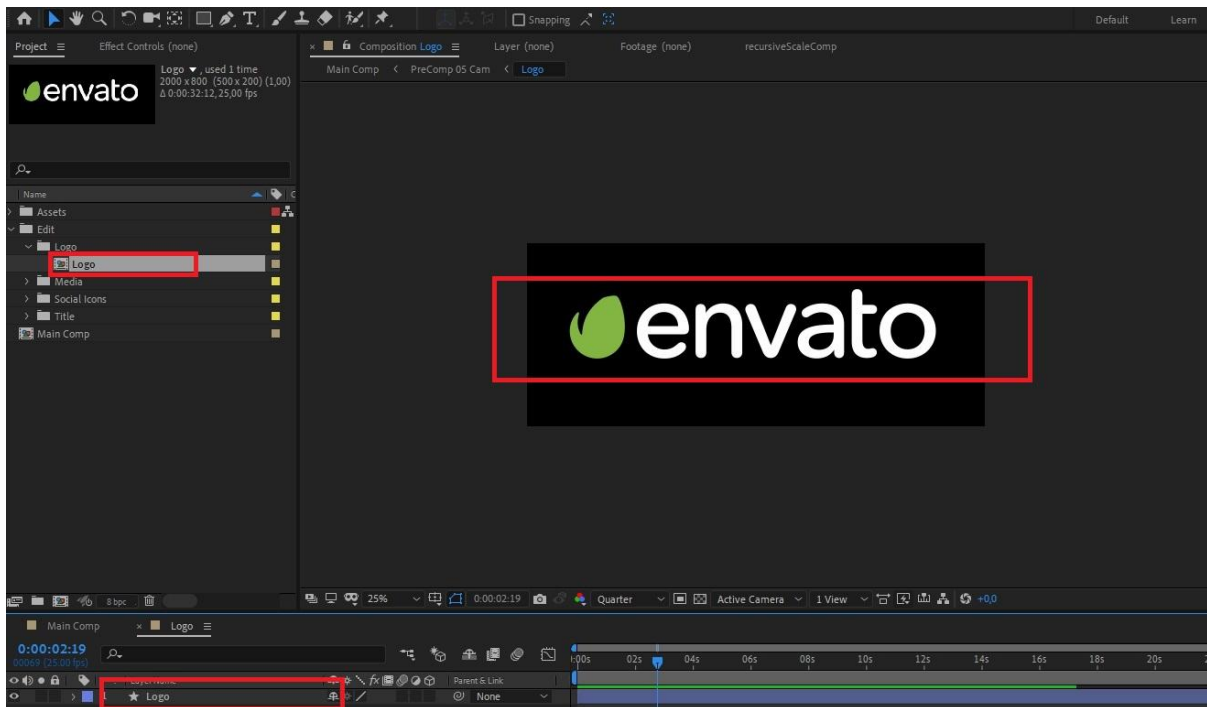

Edit:
Replace images or videos

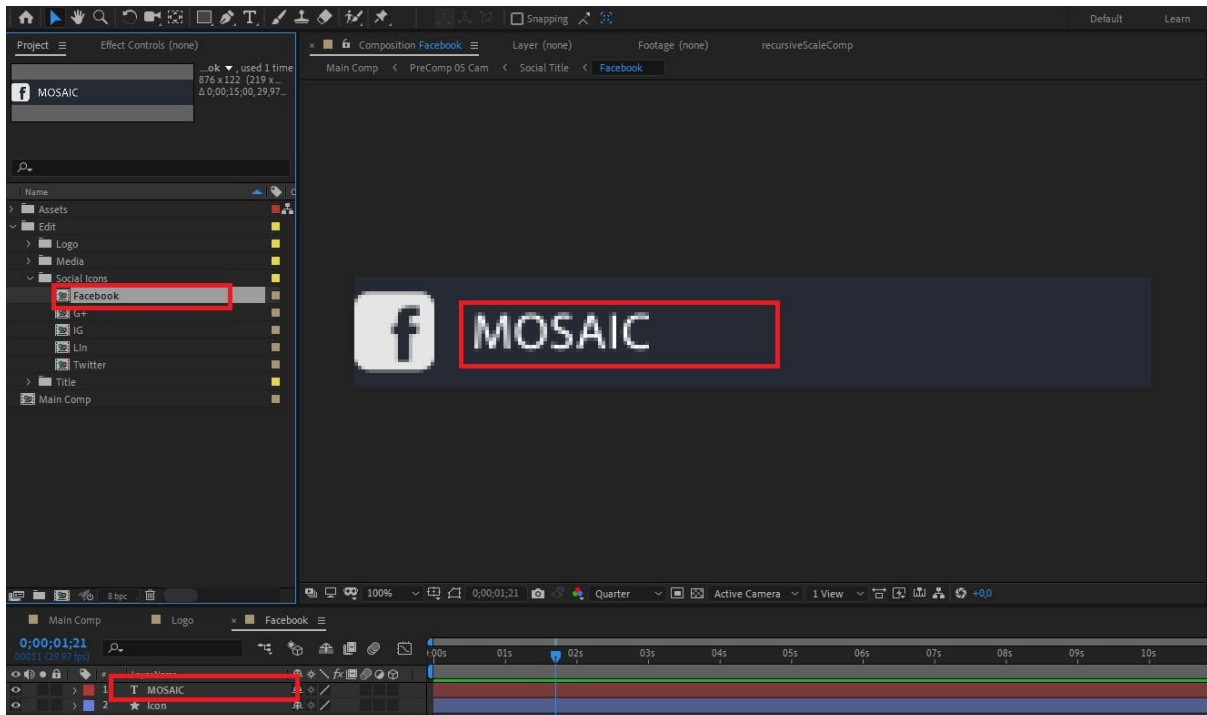

1. Go to the Main window> **Edit >Media>**. First insert Main **Photo 1-4** (cut around the contour), **and then everything else**. Each of this composition contains an image placeholder that you need to replace. Select the amount you need. Put your photo or video. Then adjust position and size of the layer.

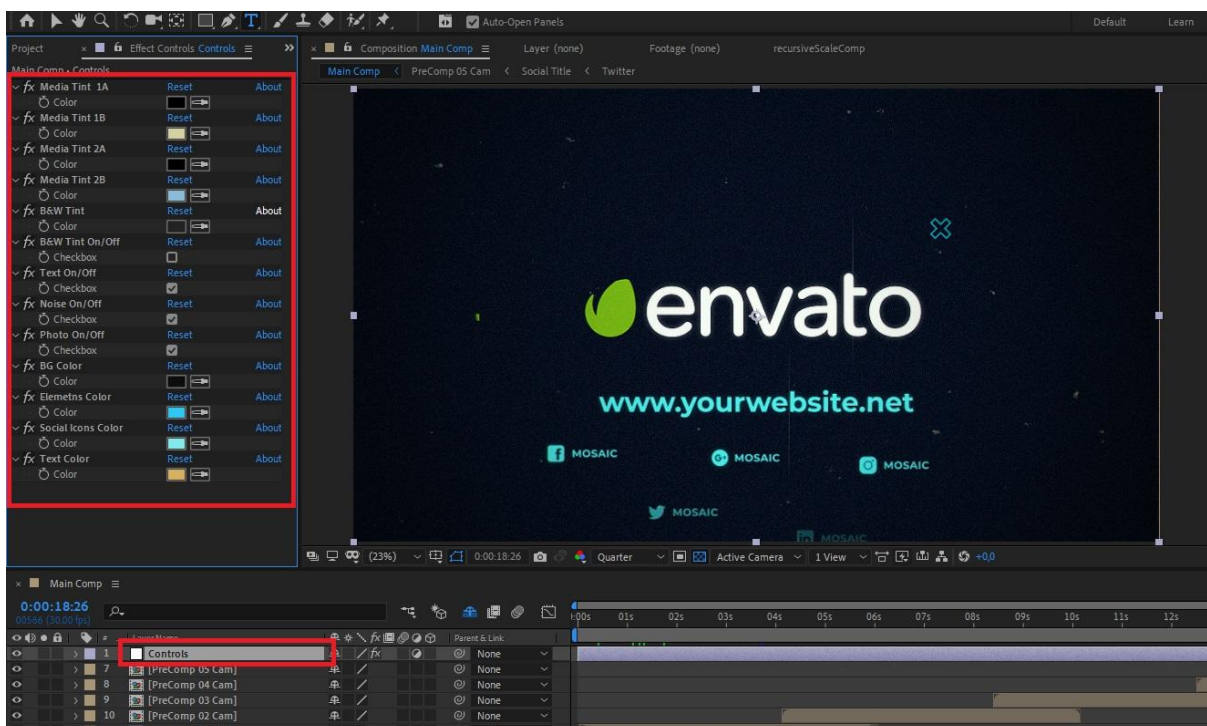

Replace Title, Icons & logo

2. Go to the Main window> **Edit >Title or Logo & Social Icons** These folders contain Text, Icons and logos. Replace it with his own material, and also edit the rest.

Customization and Color Correction

3. To adjust the preliminary composition before the final render, you need to open the project Main window> **MAIN COMP**> select layer "**Controls**" and choose according to your taste.

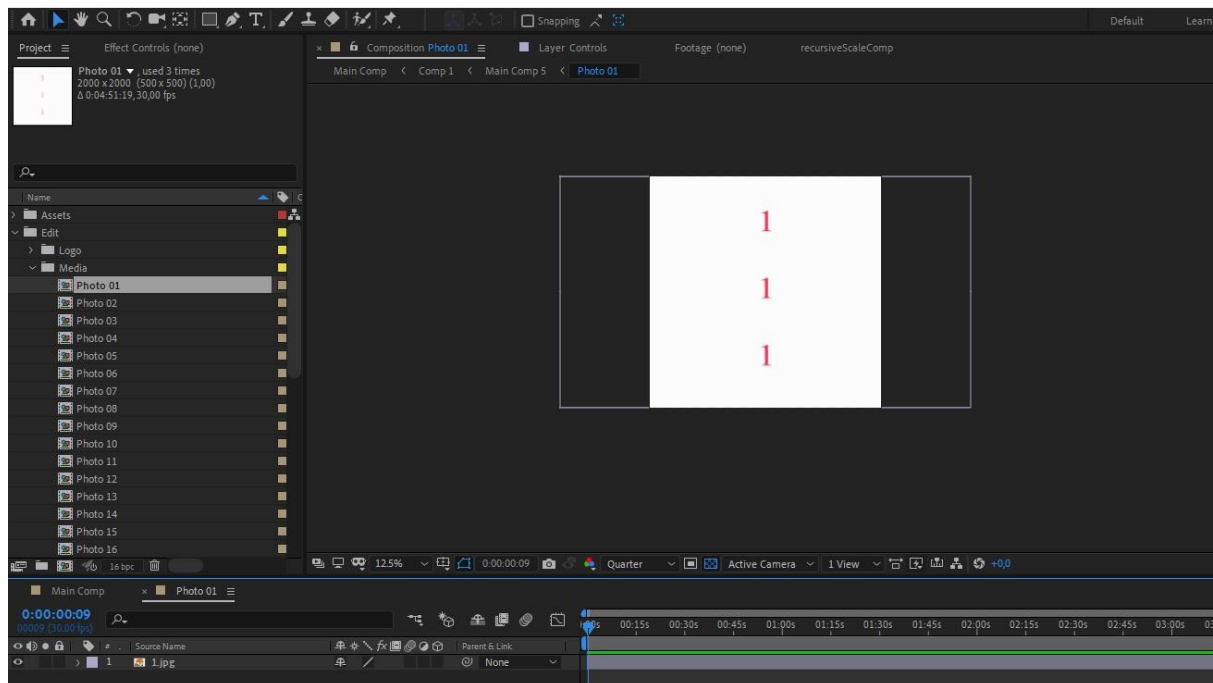

Rendering

You need render MAIN COMP. Select MAIN COMP >Add to Render Queue from the dropdown menus. You can change format you want by adjusting the settings in Render Settings and Output Module. Also you can change save location of the file that you render. When you're all done, click on render and wait while After Effects renders.

Mosaic Opener 2
