Hello!
Thank you for buying this item!
This document will help you to customize project to your needs.
I hope you will enjoy it!

It's **really easy** to customize:

1. Open **"Holders"** folder in the project panel and select any of composition. Here you can replace your text and logotype.
2. Open **"Project Control"** composition in the project panel. Click on **"Project Settings"** and customise your project like you want.
3. Place your music in composition **"Music"**.
4. After that - open **"RENDER ME"** composition, and render it :)

Soundtrack you can find here:
https://audiojungle.net/item/glitch-logo/22754057
Font you can find here:
https://www.fontsquirrel.com/fonts/aileron

If you have any **questions** — please, contact me via my personal page:
