Online Course Intro 3 in 1

After Effects template 3 in 1 for creating an online training course opener or presentation, webinar, workshop, online education platform, online school or an online university promo, a new distant tutorial or an education academy intro. Publish it on YouTube and your social media.

Bright colors, dynamic and optimistic atmosphere – this template is full of energy and life. It includes all the necessary compositions for an education course intro. It has a modular structure, so you can change the order of the scenes and the duration of the video presentation. Motivating and encouraging students, our template helps to do it fast and easy.

Showcase the keywords, the advantages of the univercity, program, and video lectures on web design, UI/UX, animation, marketing, and so on – how available, convenient and easy to study there. Introduce the timeline, certificates, and the number of educational areas. Inspire the students with the career they can have.

How to edit a project.

1) To edit a project, open the Edit folder. In it, you will see compositions with text and images that you can change. All of them are marked on the timeline, so you can edit the project sequentially and not get confused

2) for example, open the song Part_3. Text editing layers are highlighted in green. Double click and you will be able to enter your text. In addition, you can see the composition for your placeholder on the timeline or in the Part_3 folder. Open it to insert your photos or videos.

Other compositions in the project are edited using the same principle.
