Blacklist Slideshow — 0:42 (33 Placeholders)

Keyframeless technology

Powered by «AVK Engine ver. 1.01»

True Modular structure

Resolution 4K (3840x2160)

No plugins required

After Effects CC 2018 or above

Help included

Well optimised project structure/Easy customization

Advanced flexible controls

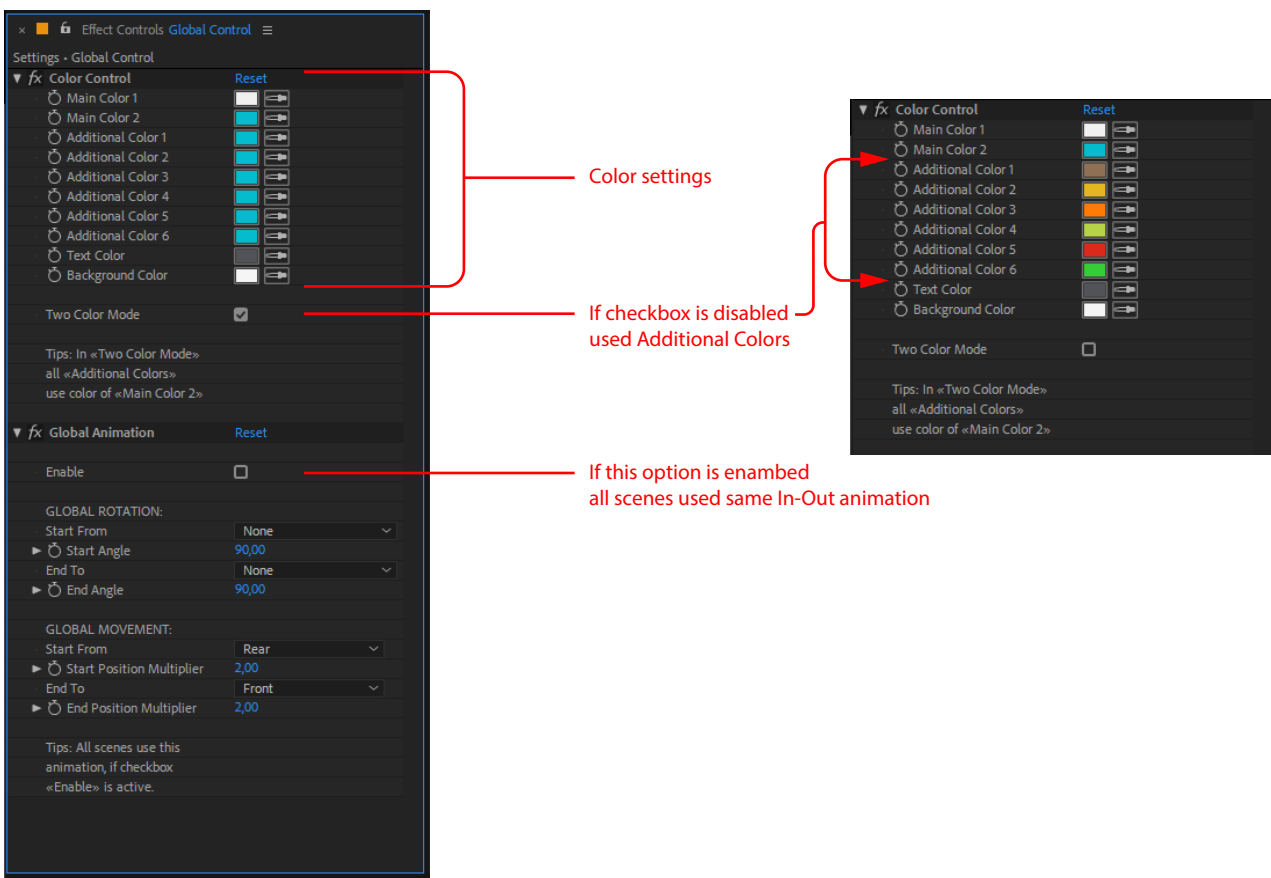

Easily change colours

Clean After Effects template featuring a stylish animation based on no keyframe technology (AVK Engine). Flexible settings include adjusting camera movement and rotation in any direction, and visually changing the duration of each scene. Excellent as an intro or outro to your presentations, events, promos and social media channels, for your opener, tv show, photo/video slide show or any media opener. Just drag and drop your images or videos, replace text, adjust colors and render.

### Project structure:

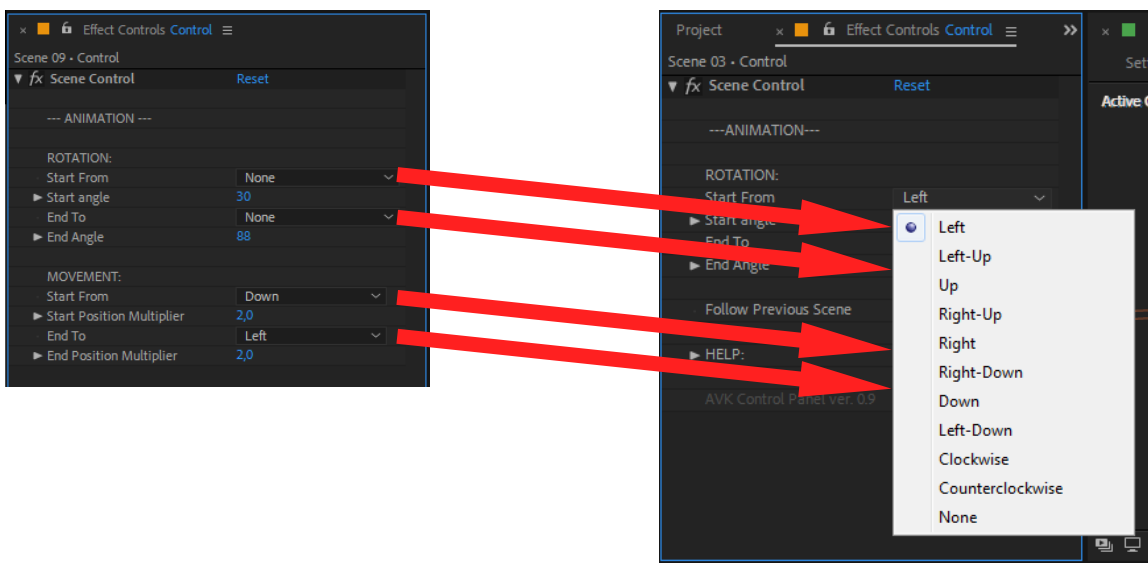

Navigate a folder "01. Edit/**Settings**":

**Composition "Settings"** contains "Global Control" layer.

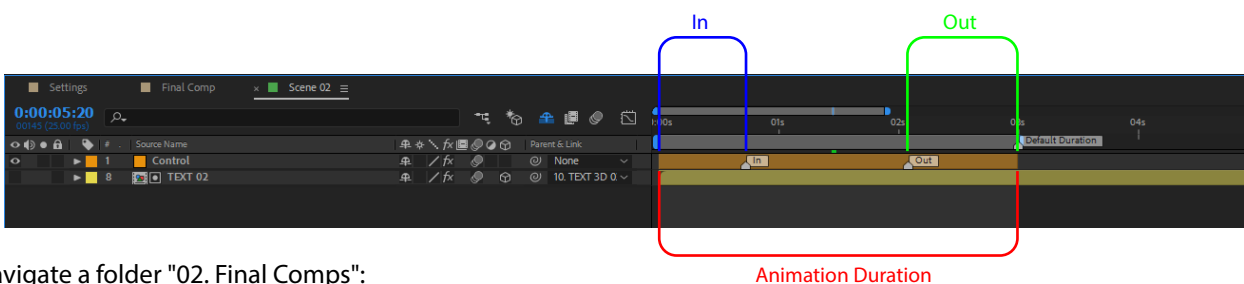

Navigate a folder "01. Edit/**Scenes**".

Each scene contains a "Control Layer". You can use a separate animation direction in each scene if the global parameter is disabled. Just select desired direction

In each scene, you can change the beginning of the animation, the duration of In and Out animation, the end of the animation. Drag "in-point", "out-point" of "Control" layer and "In", "Out" markers.

Navigate a folder "02. Final Comps":

Compositions "**Final Comp XXX**". You can render composition after all edits. Hit Ctrl+M. Then press "Render".

Folder "03. Other". You don't need to edit nothing here:)

Music track is not included, you can find it here:
