1. Edit media, text and logo

You need to open a folder named "01. Edit". Drag and drop in the comps your photos or videos in comps “Media”, then resize it. Also drag your logo in the comp called "Logo".

2. Edit text

Open the "Text" folder and change your text in each scene.

3. Render

You can use the comps, insert your music and render this comp. Here you can modify your project
