## How to edit a project.

- 1) To edit a project, open the Edit folder. In it, you will see compositions with text and images that you can change. All of them are marked on the timeline, so you can edit the project sequentially and not get confused

- 2) for example, open the song Part\_3. Text editing layers are highlighted in green. Double click and you will be able to enter your text. In addition, you can see the composition for your placeholder on the timeline or in the Part\_3 folder. Open it to insert your photos or videos.

Other compositions in the project are edited using the same principle.
