After font installation open Clean Instagram Stories Slides.aep inside 1. Main folder
Inside *aep* you will find two folders:
*Instagram Stories (Templates inside)
Do Not Touch This Folder (do not touch it)

Inside *Instagram Stories you will find 18 folders named Insta 1-18. Open Insta 1 folder, inside you will find Edit Folder and Insta_1 composition. Open Edit folder. Inside Edit folder you will find:
Image 1-5 (add your images inside)
Text 1-3 (change to yours text)

Note - then changing text, do not delete text layer, edit existing one. Unless you do not need that text line, then you can delete it. If you do not like fonts, change it to your favorite ones.

Inside Insta_1 composition select Settings layer. Here you can change:
Text Color
Bar Color (Slidebar indicator color)

BG Ramp Color *(if you select the same color for Ramp 1 and Ramp 2 you will get solid color)*
Turn On Off BG Noise

Note - Some Templates has more text and images placeholders, some less, but every template is managing the same. Add Images, replace text and edit settings.

That's it.

So let me thank you for using this template and if you like it, please rate it, it would help a lot.
