8 Bit Logo Opener Intro

Thank you for choosing an 8 Bit Logo Opener Intro!

Font

https://www.fontspace.com/pixel-caps-font-f10279

Download and install Pixel Caps font before opening after effects project file.

Audio

Audio is not included, you can get it from the link below:

https://audiojungle.net/item/8-bit-chiptune-logo-three/19852398

From the project window, Import audio file. File/Import/File (Ctrl + I). Open **2_Audio Preview** comp in the ***EditComps** folder, drag and drop audio file inside it.

If you want to use your audio, do the same with **3_Custom Audio** comp.

Change Color

Open ***Colors** comp in the ***EditComps** folder, select the layer named Settings. Keyboard press F3 and change the settings to your needs.

Change Text

Open **4_Company Name** comp in the ***EditComps** folder, double click on the text layer to highlight and change the text. Do the same with **5_Loading Text** and **6_Press Start Text** if you need it.

Add Logo

From the project window, Import your logo. File/Import/File (Ctrl + I). Open the **1_Logo** comp in the ***EditComps** folder. Drag your logo into the comp and scale it as you need.

Hope you like it :)
