Hello, dear colleagues!

Thanks for buying this template.

This **ADOBE AFTER EFFECTS CC 2019 & PREMIERE PRO CC 2019** project is very easy to customize.

The font is available for free download here :
https://www.fontsquirrel.com/fonts/montserrat

The audio is available here :
https://audiojungle.net/item/movie-trailer/13639161 by the author "ALEX_BESSS"

The zip contains

After Effects project file **"Modern Parallax Timeline Slideshow(After Effects CC 2019)"** – **After Effects CC 2019** required to edit this project.

Use this AEP file to place your logo and footage media (image or video) to the placeholders in the AEP file.

The first 6 steps in the following screen shots will discuss about how to place the footage in AEP file.

Then you have to export a new MOGRT template file and use it in PREMIERE PRO to edit the text and others.

In the remaining steps you will know how to edit the MOGRT files in **ADOBE PREMIERE PRO CC2019**

Also we kept one Mogrt project file **"Modern Parallax Timeline Slideshow Mogrt"** – **Premiere Pro CC 2019** required to edit.

If you want you can use this MOGRT file and create a title sequence in Premiere Pro CC 2019.

You can check the title sequence preview here : https://www.youtube.com/channel/UCKdrseRLD8l8wFHKAkr_ANw

Please check the images in the following pages which will help you in customizing the project.

Changing Logo :
In the "=Scene_01" and "=Scene_12" you can use your company Logo or Name.
In the "=Scene_01" select the first layer "Control" and press "F3" to open the "Effects Panel". There you can switch between the logo and Your Company Name.
If you want to keep Your Company Name you can edit that in the Essential Graphics Panel in Premiere Pro.

In AFTER EFFECTS CC 2019 :
Changing Logo :
From the folder “=Scene_01” you can open the comp named “Logo”. Here you can see two precomps “Logo Comp_Square” and “Logo Comp_Rectangle”. Now select and open the precomp based on your logo shape and drag and drop your logo there.
And in “Logo” comp switch on the layer by clicking on the EYE icon and switch off the other one.
This preomp only used in the “=Scene_12”. So changing the logo here only is enough.

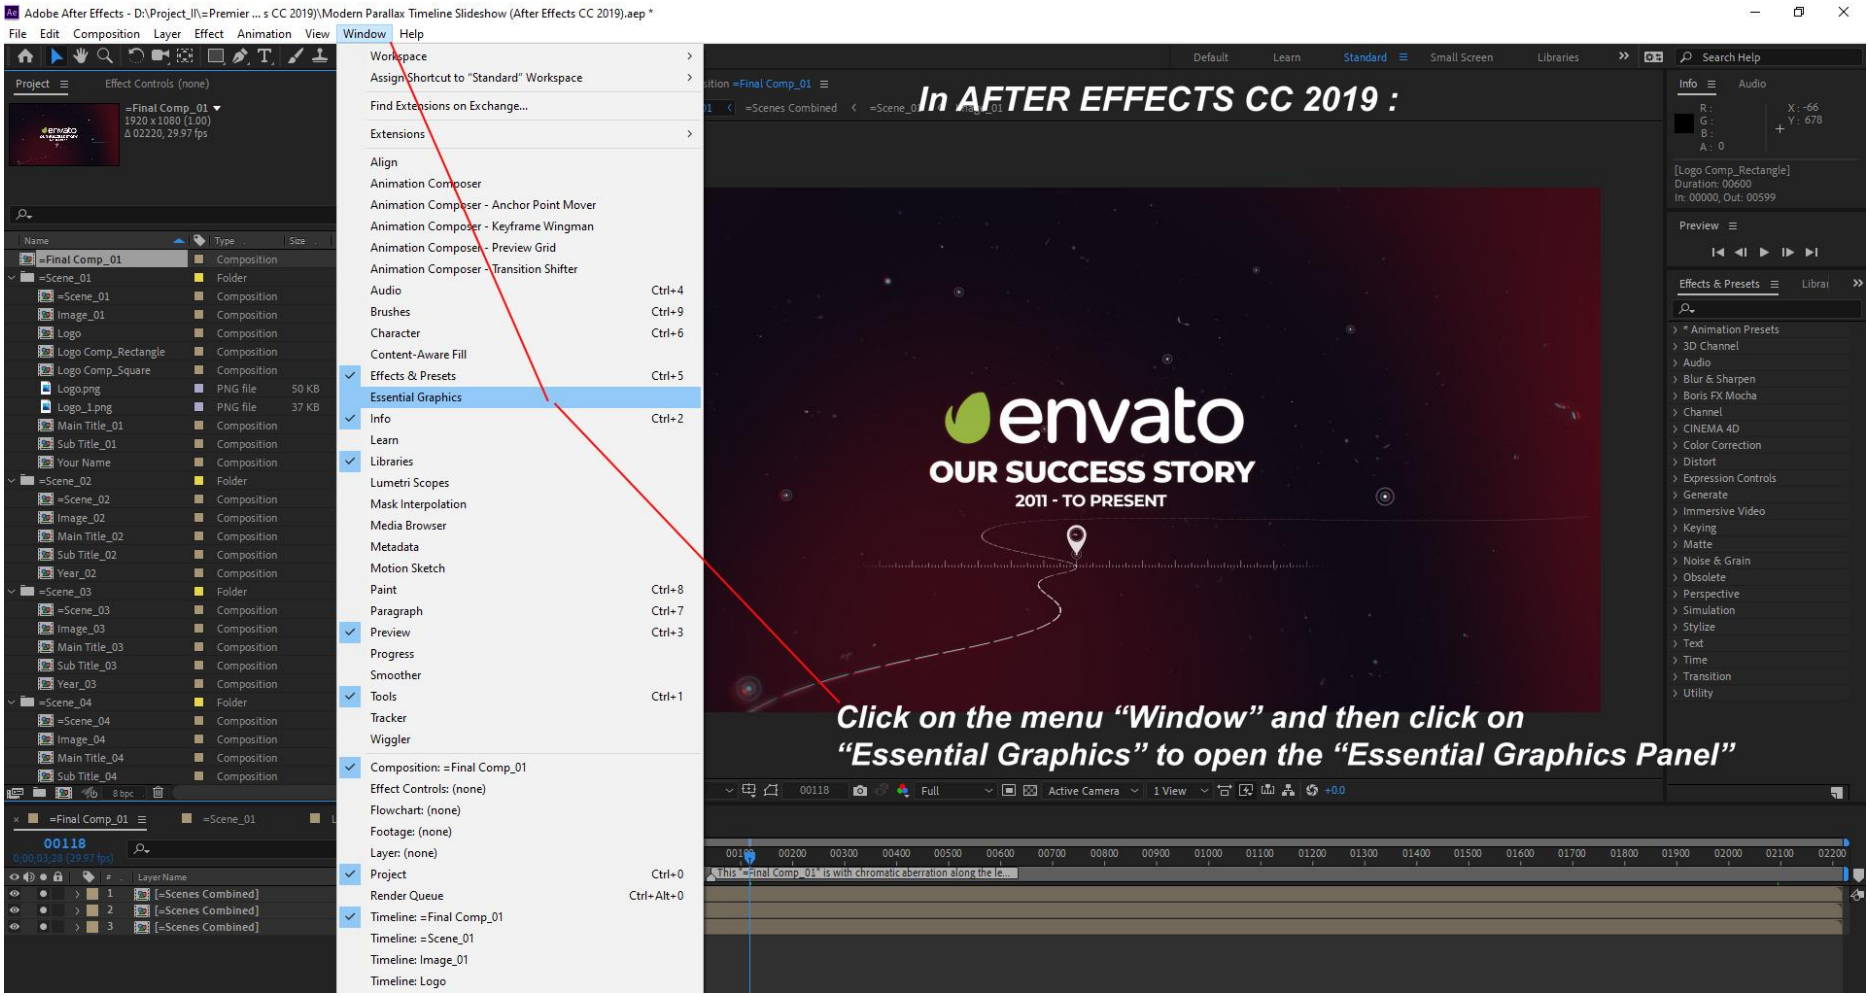
In AFTER EFFECTS CC 2019 :
First IMPORT your footage media to this project window from “File Explorer” and then open this precomp “Image_01”.
And drag and drop your media from project window to this precomp. Follow the same steps for all the Image_XX precomps.



In AFTER EFFECTS CC 2019 :
Click on the menu “Window” and then click on
“Essential Graphics” to open the “Essential Graphics Panel”
