

## Online Education Promo

After Effects template to create a colorful and stylish promotion video for your promotion video for your online school, university, courses or other educational services. Also, this template is suitable for creating a promotional video for any product or service, as well as showreel and video presentation of your work or skills.

Bright colors and trendy geometric forms set a cheerful and playful mood, disposing the viewer for a fun day and work mood.

The project is very well organized inside, simple and easy to use.

### Project features:

- Modular structure
- Ultra HD 4K Resolution (3840x2160)
- Full HD Resolution (1920x1080)
- Fast render
- After Effects CS6 and above
- No plugins required

### Fonts:

### How to edit a project:

1. To edit the texts, you need to open the composition with the text.

For example, to change the text in the first part of the project, you should do this: Open the folder "02. PARTS" > "Part\_01" > "Edit" and change the text in the composition "P01\_Text\_01".

You can also open compositions with text directly from the composition Part\_01 (See screenshot below).

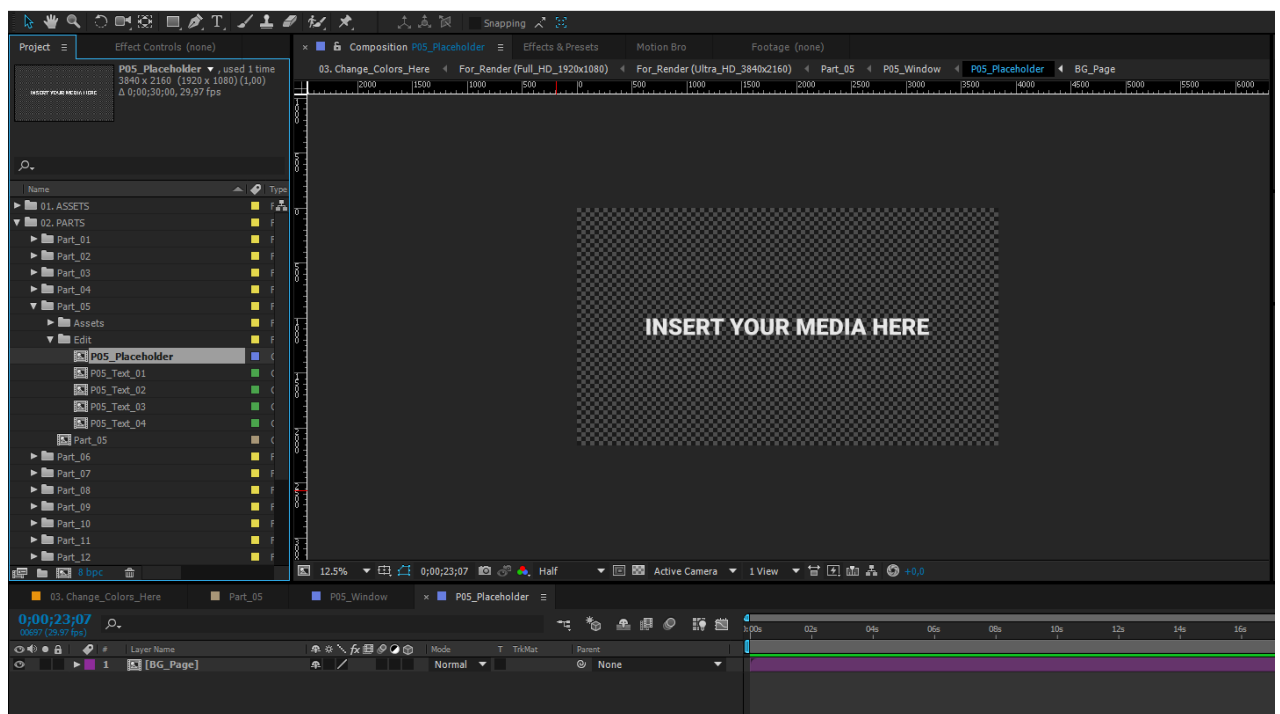

In all parts of the project, texts are edited in the same way.

2. Insert your images or video files into compositions named as Placeholder.

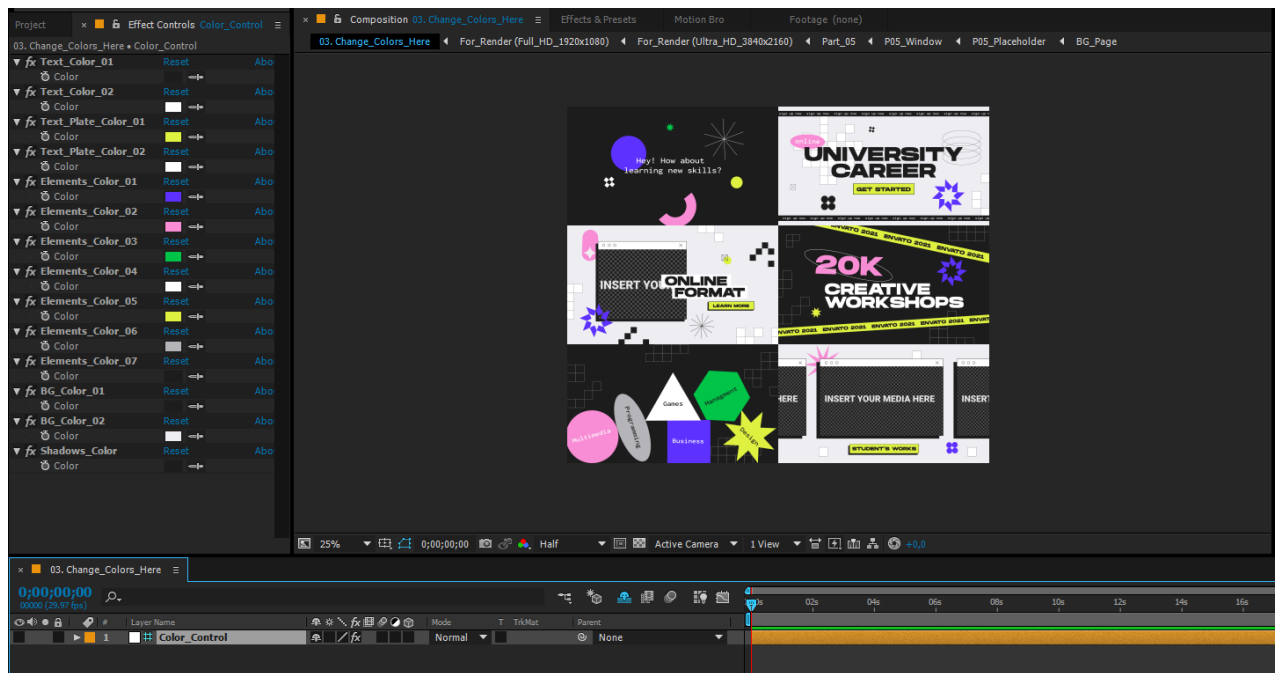

For example:

Open the folder "02. PARTS" > "Part\_05" -> "Edit" and open the composition "P05\_Placeholder", put here your video or photo (See screenshot below).

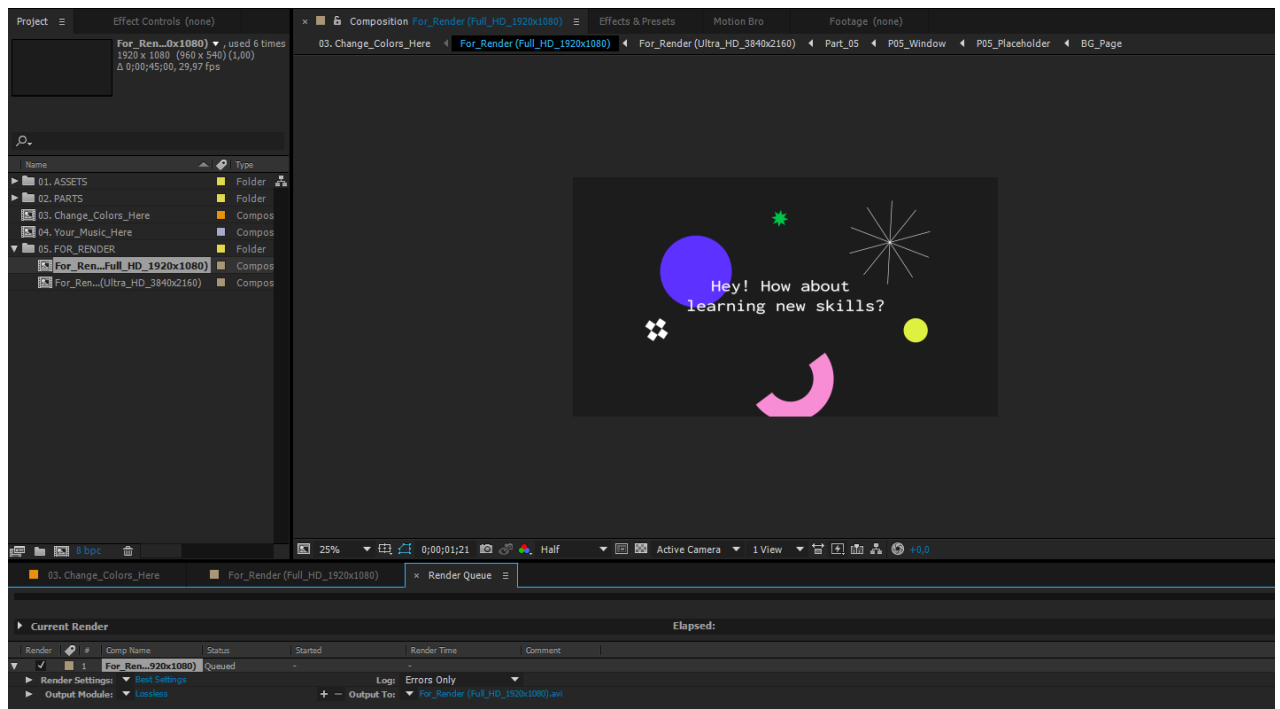

In all parts of the project, images are edited in the same way.

3. If you want to change the colors of the project, go to the composition "03. Change\_Colors\_Here" and use the layer "Color\_Control" (works on all compositions in the project). Before setting the color, we recommend that you insert your media files.

4. Place your music in composition "04. Your\_Music\_Here".

5. After all the changes in project, send the composition "For\_Render (Full\_HD\_1920x1080)" or "For\_Render (Ultra\_HD\_3840x2160)" to the Render Queue.
