

Fast And Dynamic Slideshow

Details:

Resolution : 1920x1080 Pixels

Font Used : [Futura LT Medium](#)

Audio : [Won't Let this Moment](#)

Software : Adobe After Effects CC 2019, Adobe Premiere pro CC 2019

Important : Install the Font from the above link before Customizing the Project

Step 1 :

Create a New Project

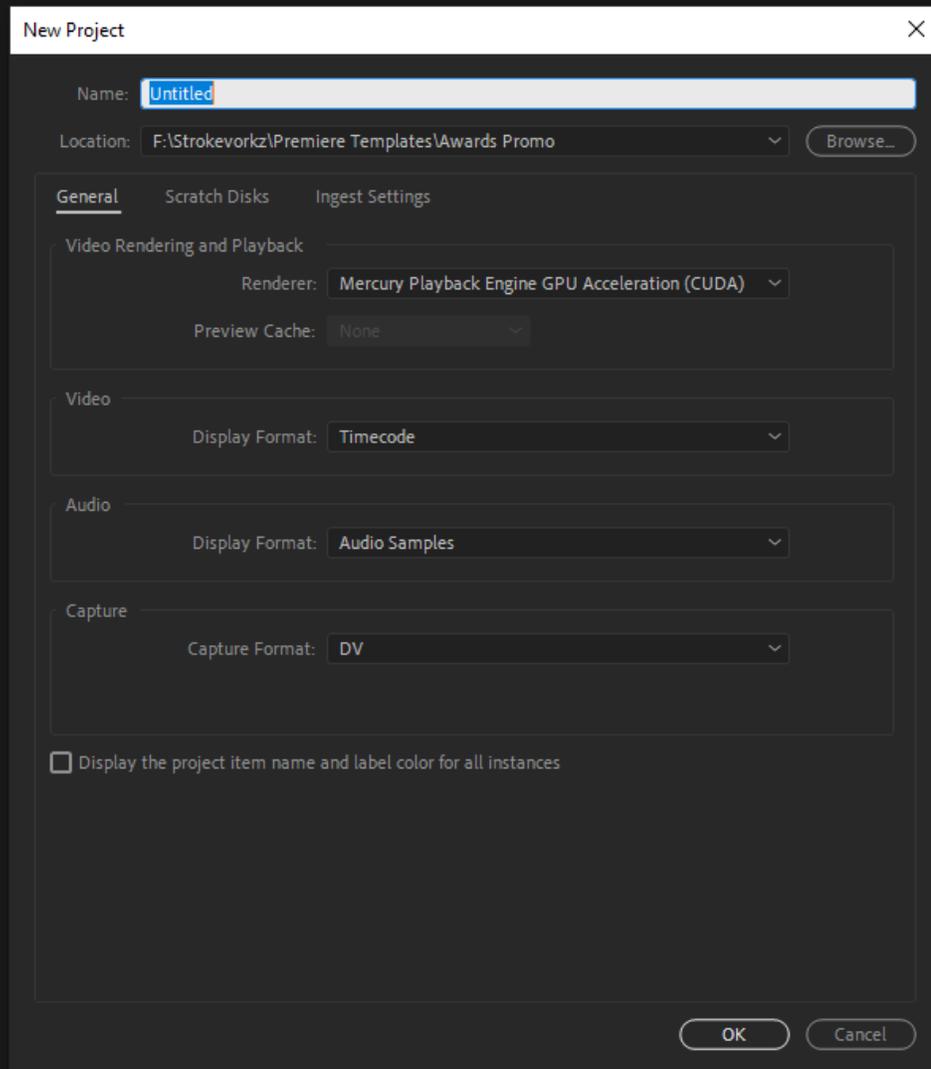

Pr Adobe Premiere Pro 2019

File Edit Clip Sequence Markers Graphics View Window Help

New >	Project... Ctrl+Alt+N
Open Project... Ctrl+O	Team Project...
Open Team Project...	Sequence... Ctrl+N
Open Recent >	Sequence From Clip
Convert Premiere Clip Project...	Bin Ctrl+/
Close Ctrl+W	Search Bin
Close Project Ctrl+Shift+W	Shared Project
Close All Projects	Linked Team Project...
Refresh All Projects	Offline File...
Save Ctrl+S	Adjustment Layer...
Save As... Ctrl+Shift+S	Legacy Title...
Save a Copy... Ctrl+Alt+S	Photoshop File...
Save All	Bars and Tone...
Revert	Black Video...
Sync Settings >	Captions...
Capture... F5	Color Matte...
Batch Capture... F6	HD Bars and Tone...
Link Media...	Universal Counting Leader...
Make Offline...	Transparent Video...
Adobe Dynamic Link >	
Import from Media Browser Ctrl+Alt+I	
Import... Ctrl+I	
Import Recent File >	
Export >	
Get Properties for >	
Project Settings >	
Project Manager...	
Exit Ctrl+Q	

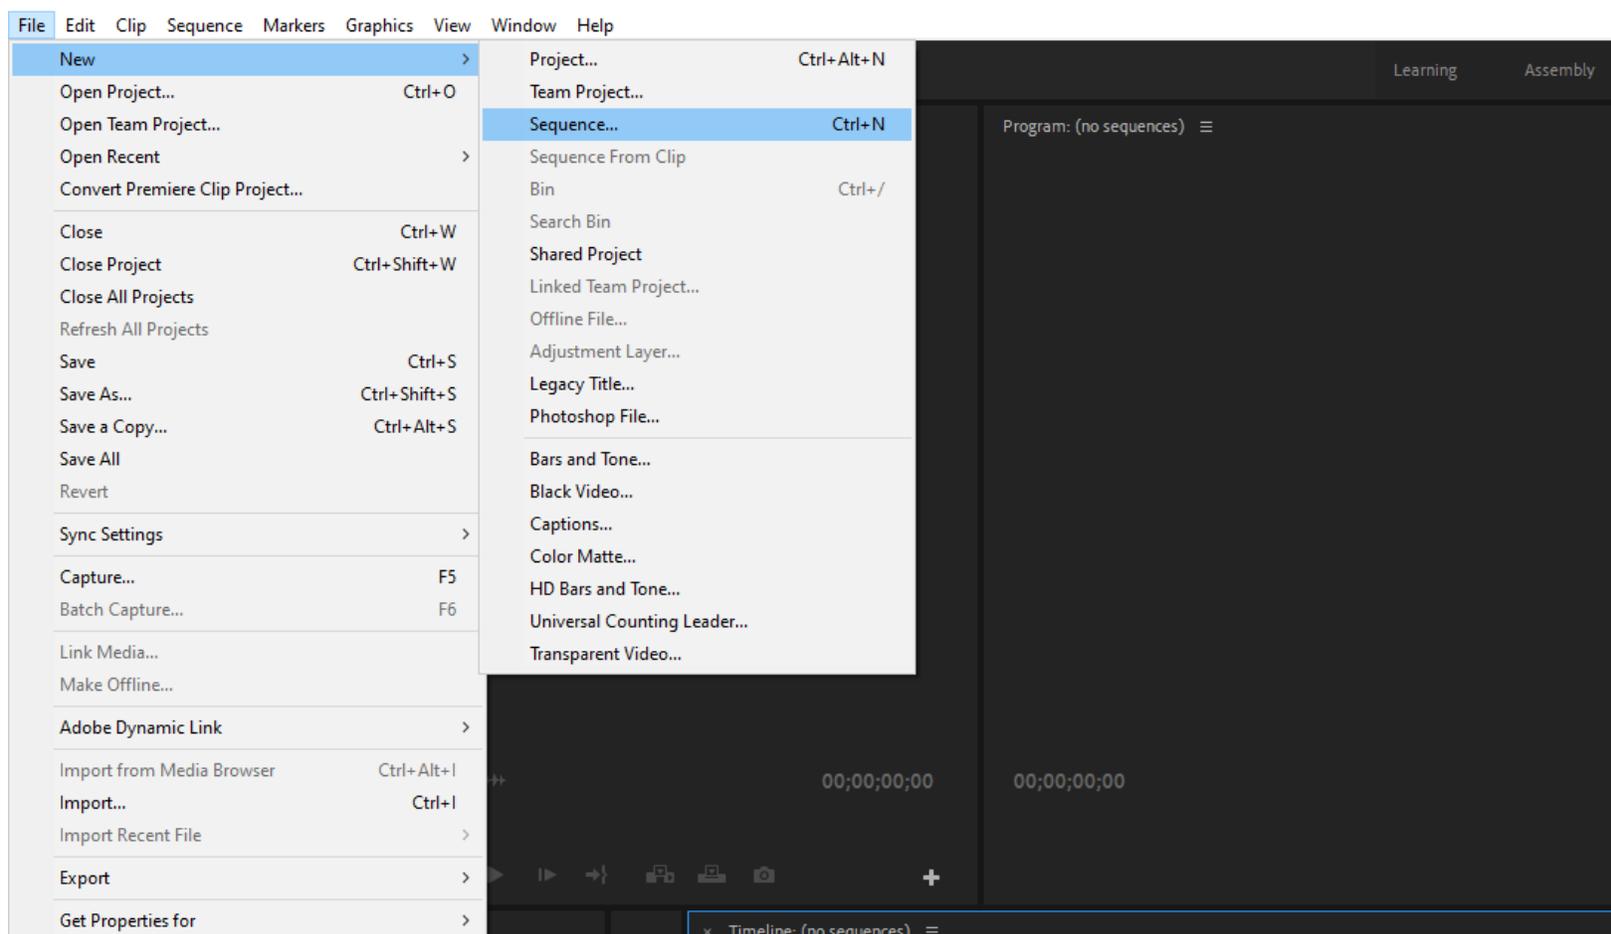

Step 2 :

Name a Project and Save it in a Preferred Location

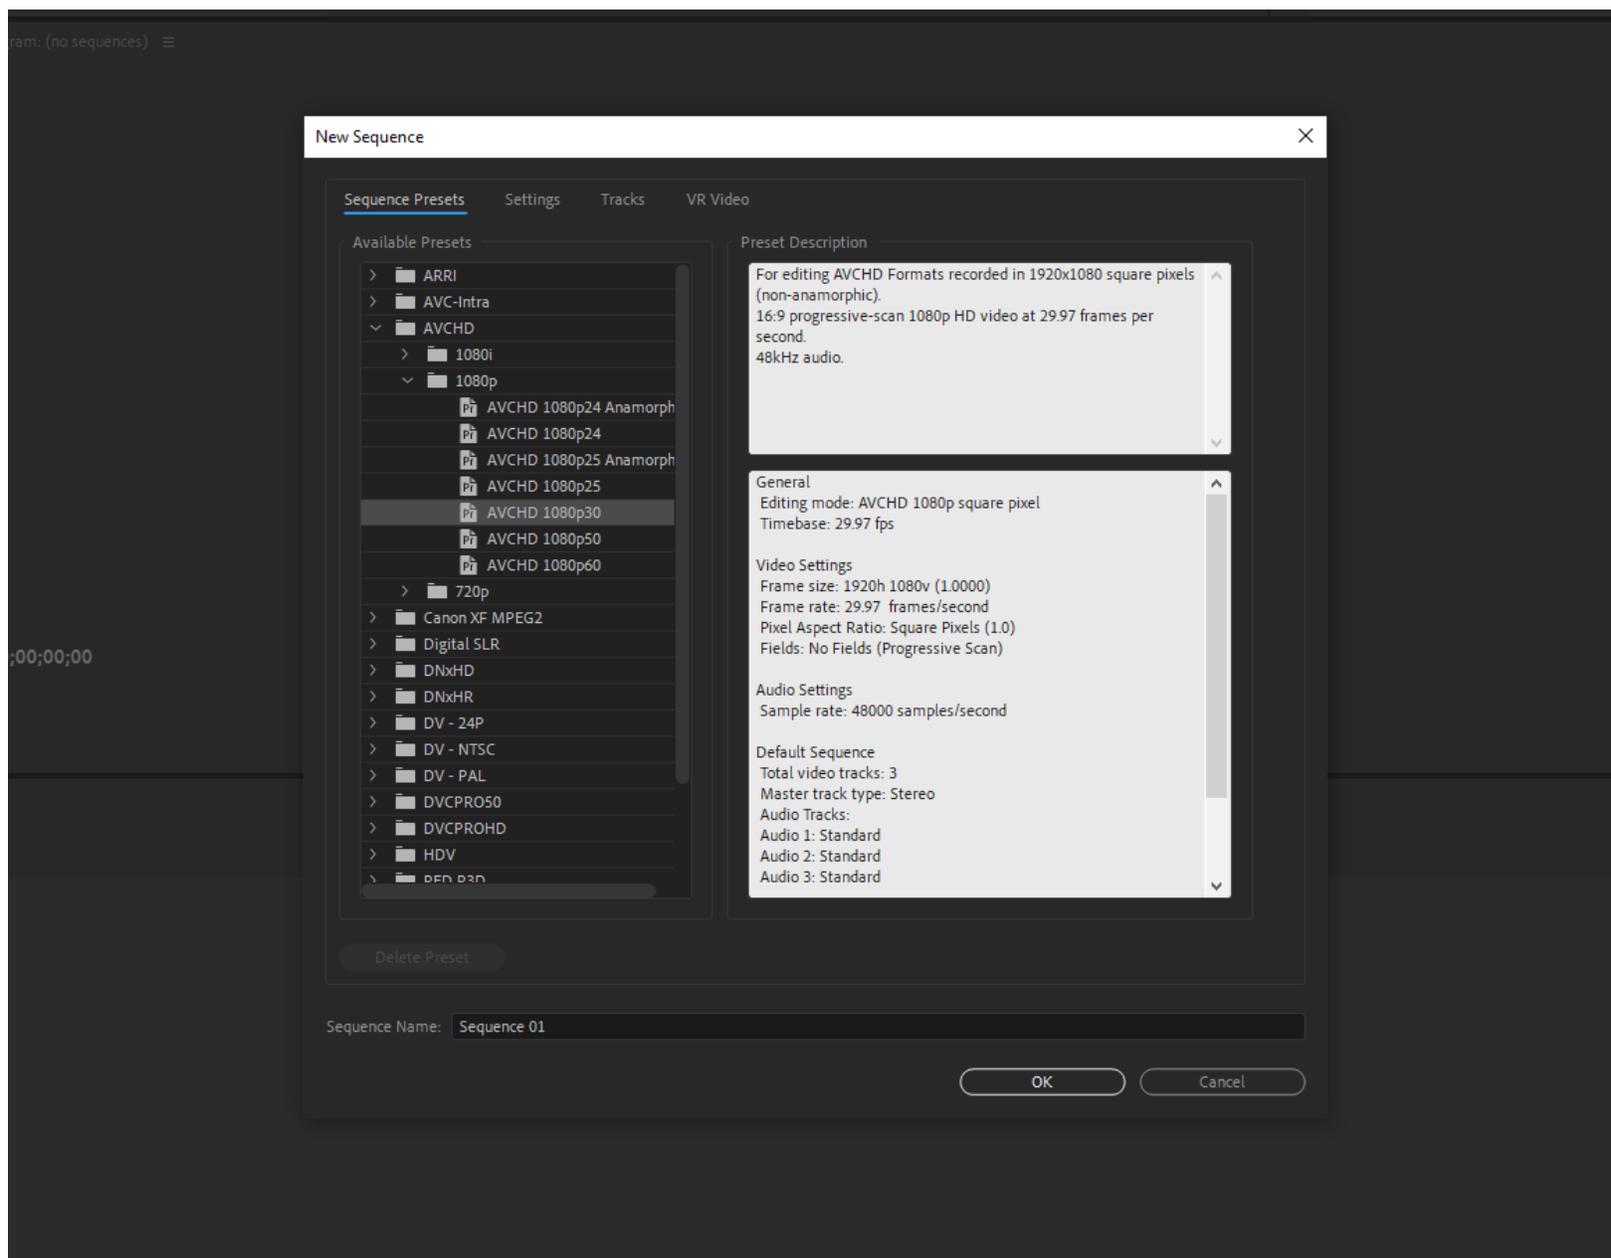

Step 3:

Create a New Sequence

Step 4:

Select 1080P (Full HD) Settings and Name the Sequence as required

Step 5:

From Window Menu Select “Essential Graphics” Panel

The screenshot shows the Adobe Premiere Pro interface with the 'Window' menu open. The 'Essential Graphics' panel is highlighted in blue. A white speech bubble points to the 'Essential Graphics' option with the text 'Enable “Essential Graphics” panel here'. The background shows the 'Project' panel with 'Untitled.prproj' and the 'Media Browser' panel.

Project: Untitled Media Browser Libraries

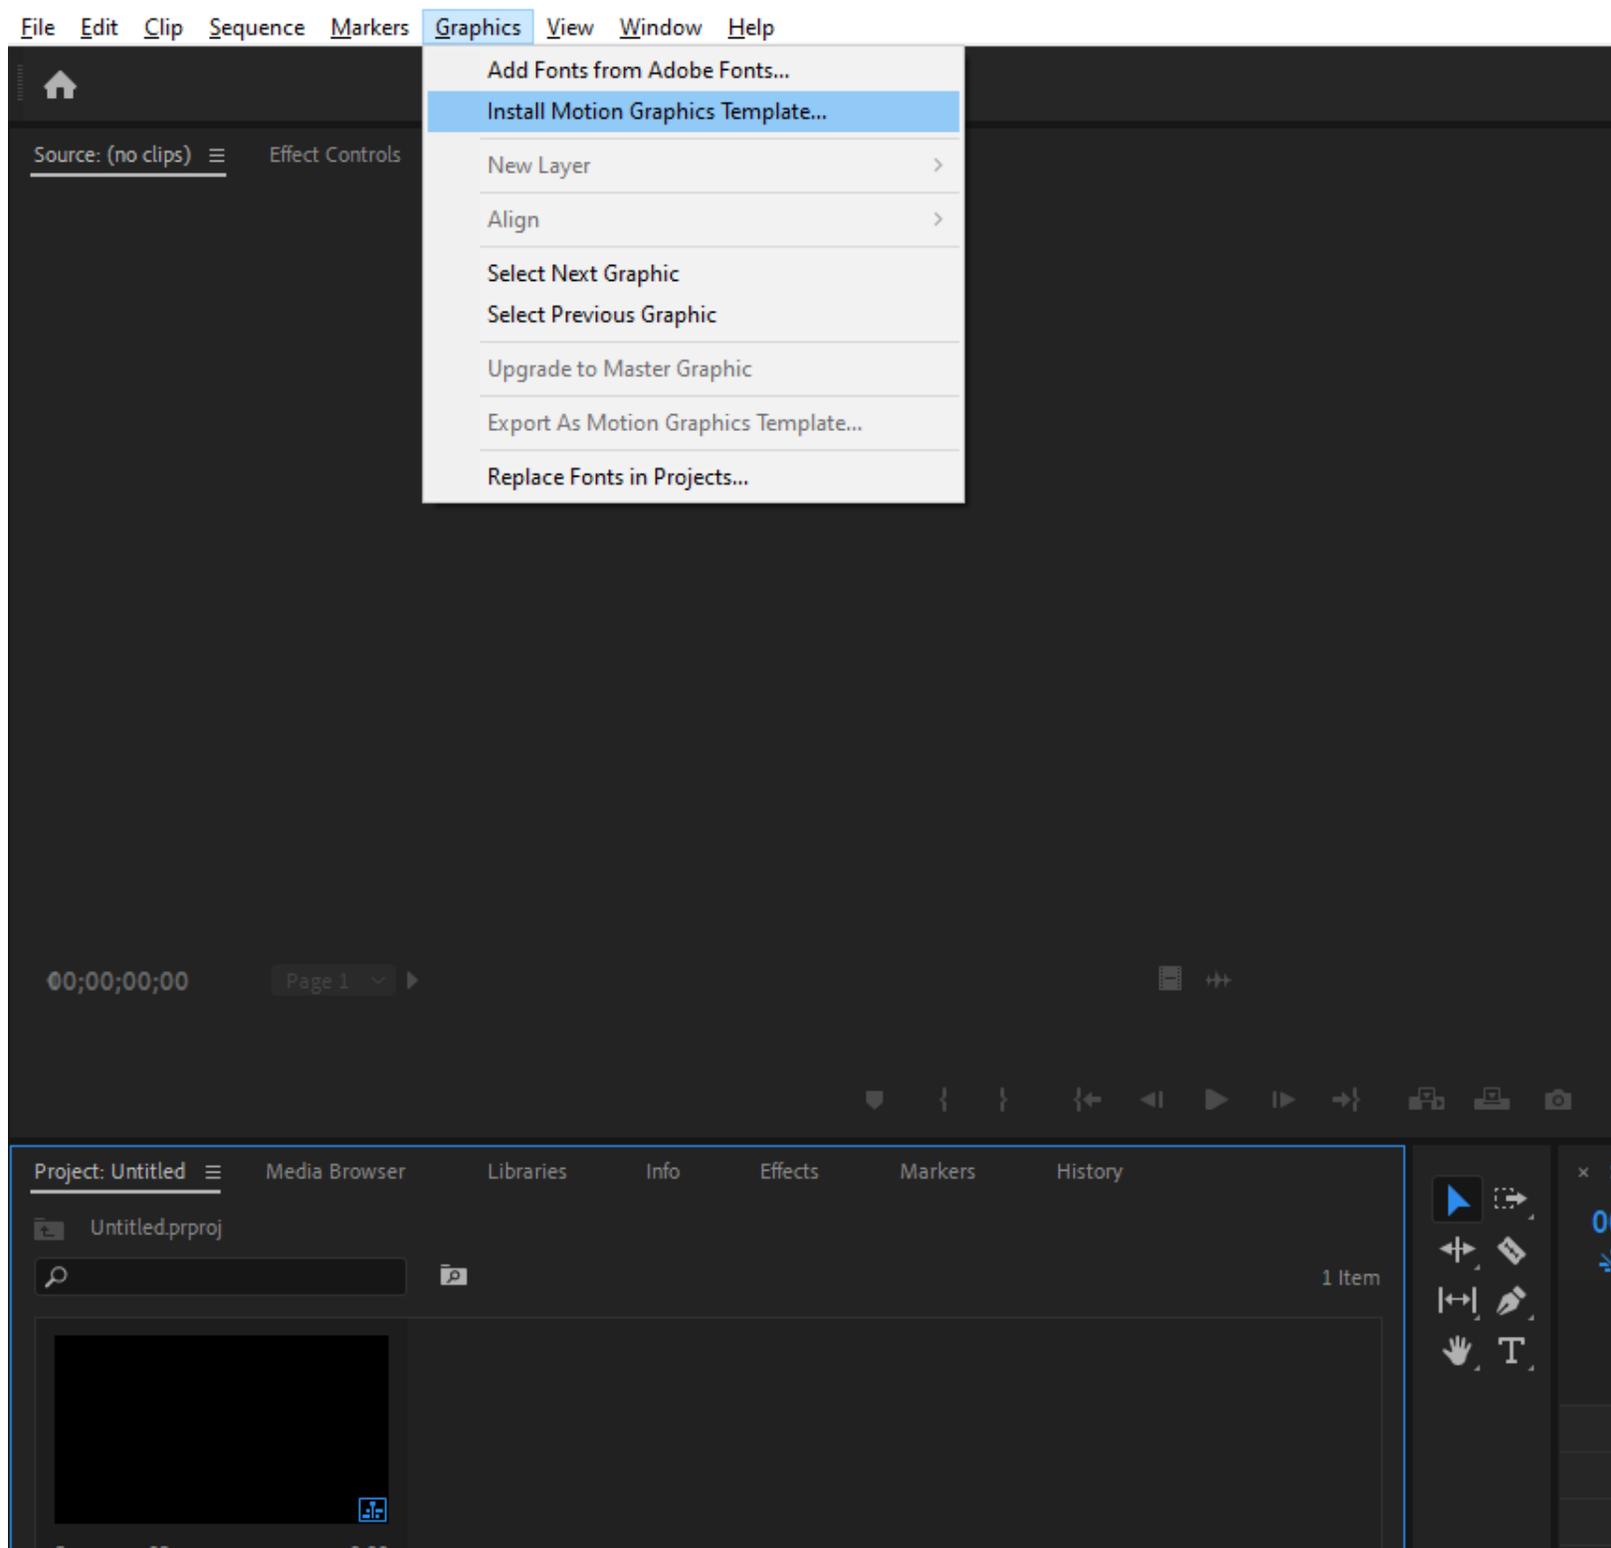

Untitled.prproj

1 Item

Sequence 02 0:00

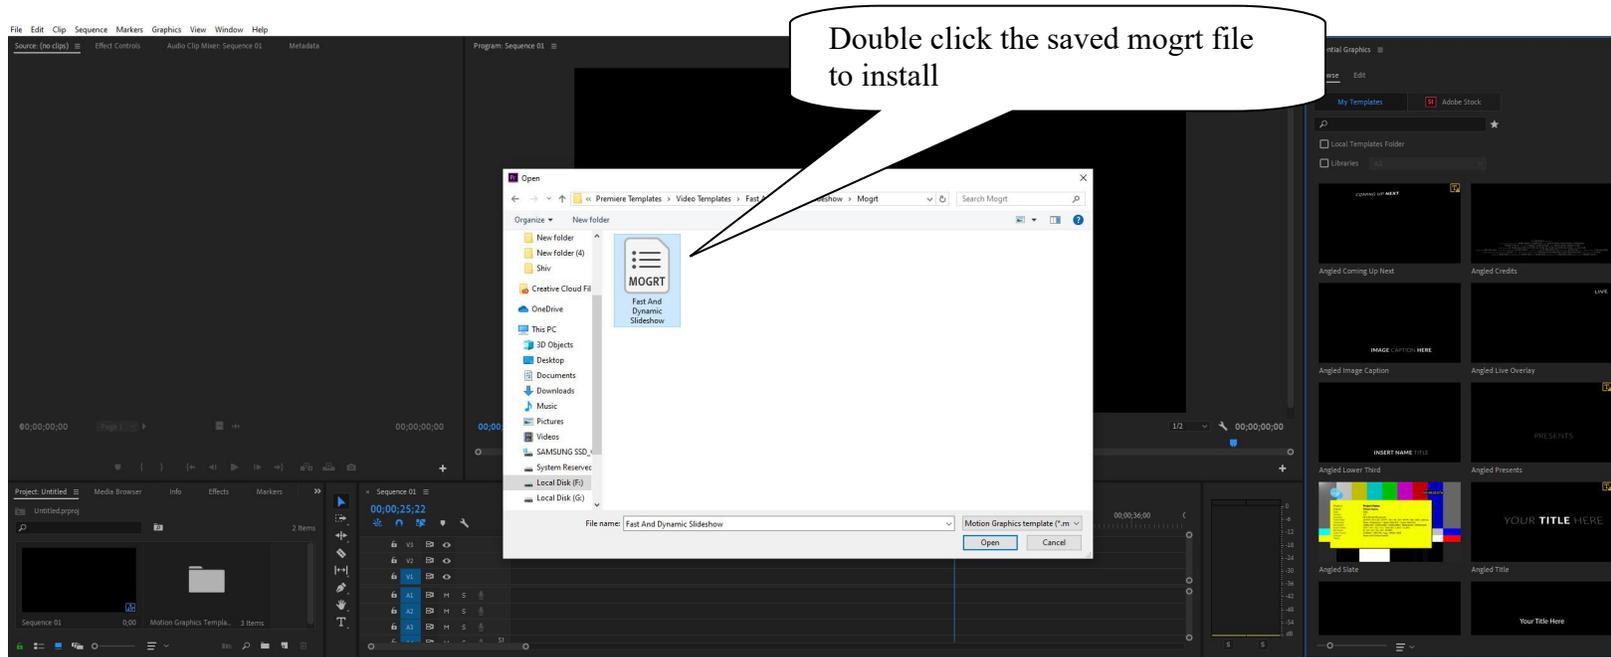

Step 6:

From “Graphics” Menu Select “Install Motion Graphics Template”

Step 7:

Open the .mogrt file created by you after replacing Videos/Images with Adobe After Effects

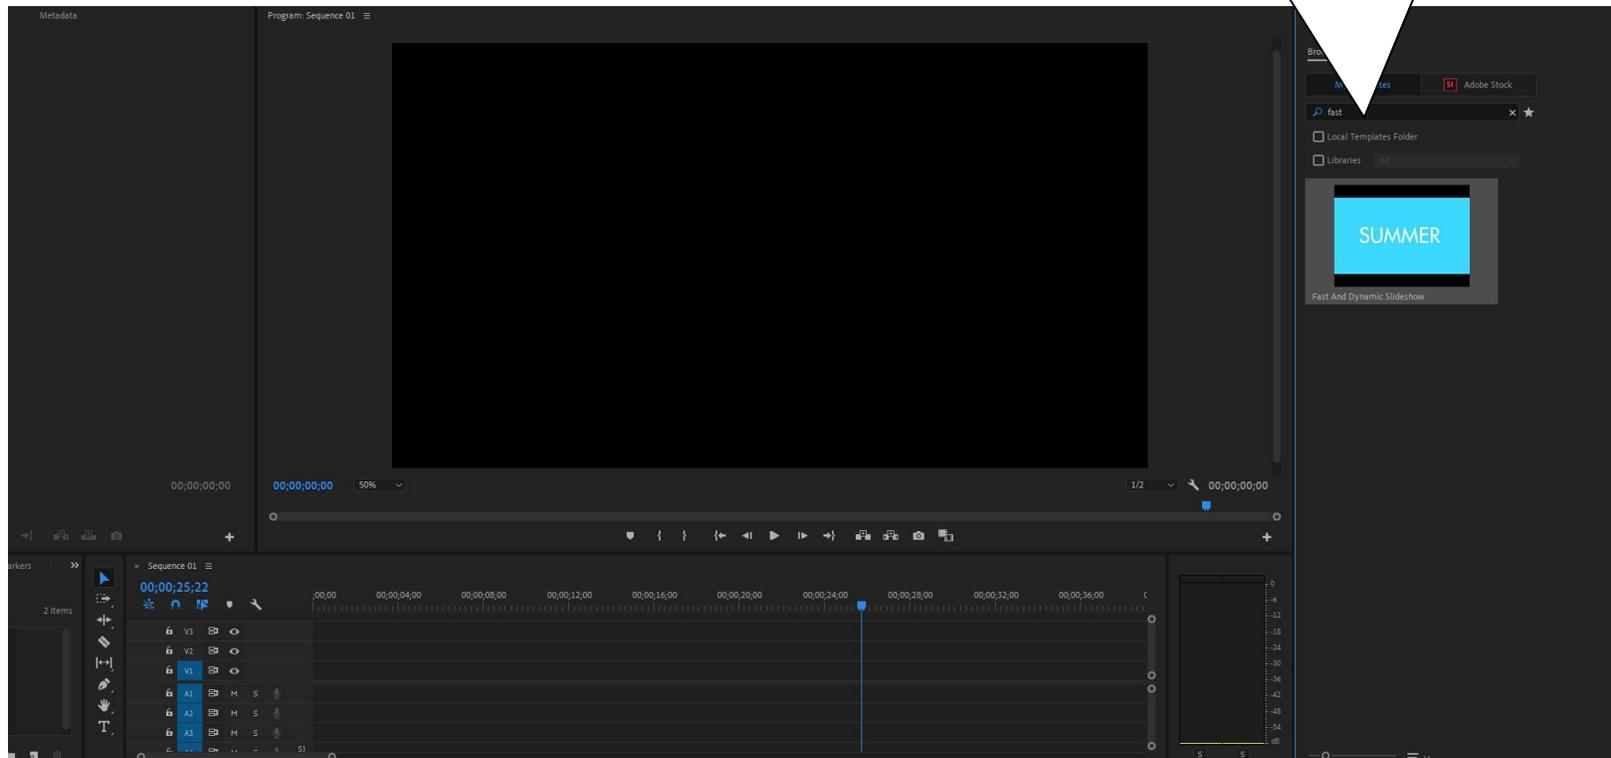

Install the .mogrt file created by you after replacing Your Logo in After Effects

Step 8:

Mogrt file will be installed in Essential Graphics, It may take few minutes to shown up in the panel

You can search and find using the project name for easy navigation

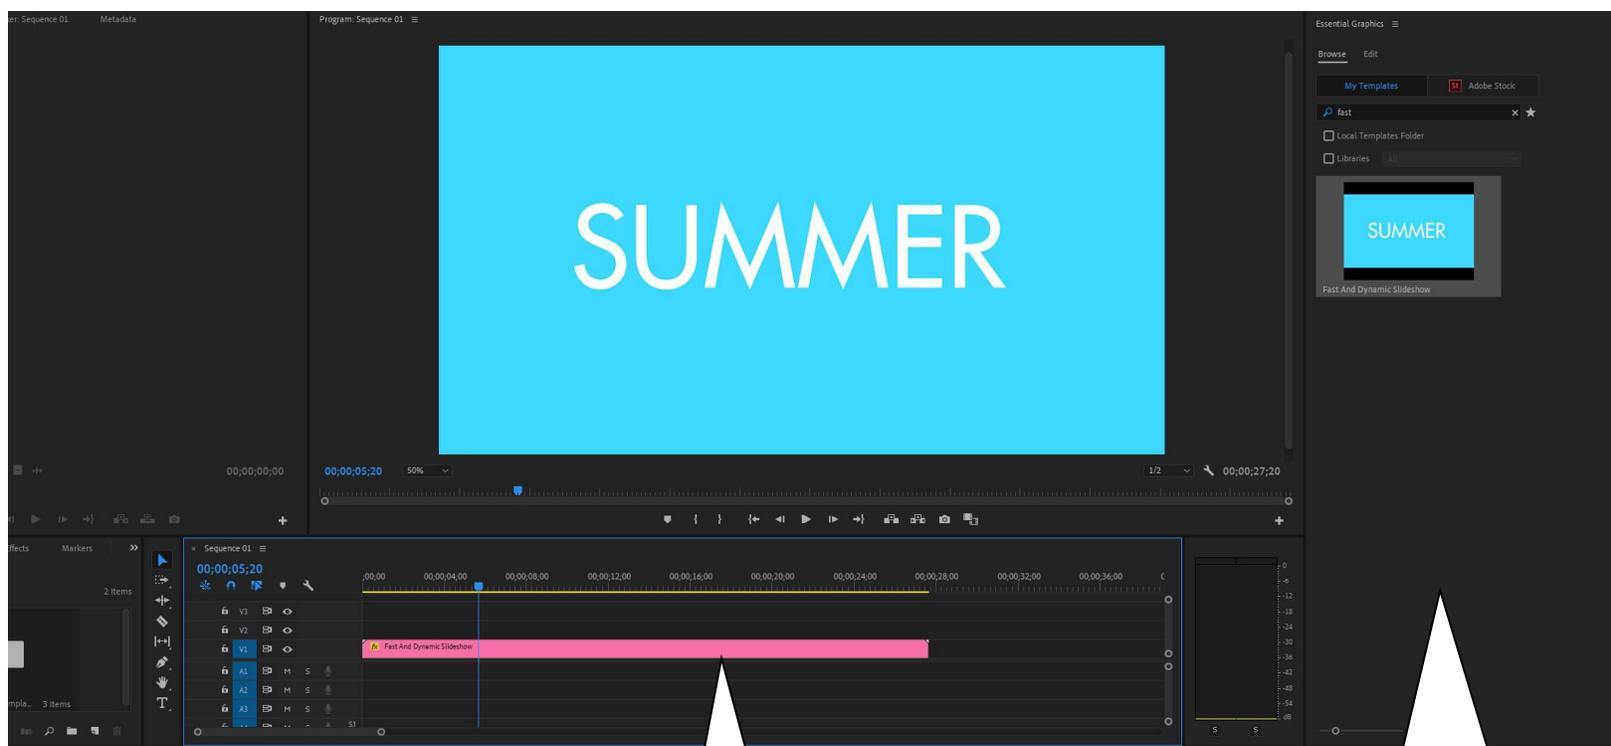

You can also search using the few words of project name (Fast) here

Search "Fast" as a word in the search box, Your installed .mogrt files will show up

Step 9:

Drag and drop the installed file from Essential Graphics panel to a Timeline, Select the required option in the Pop up Window

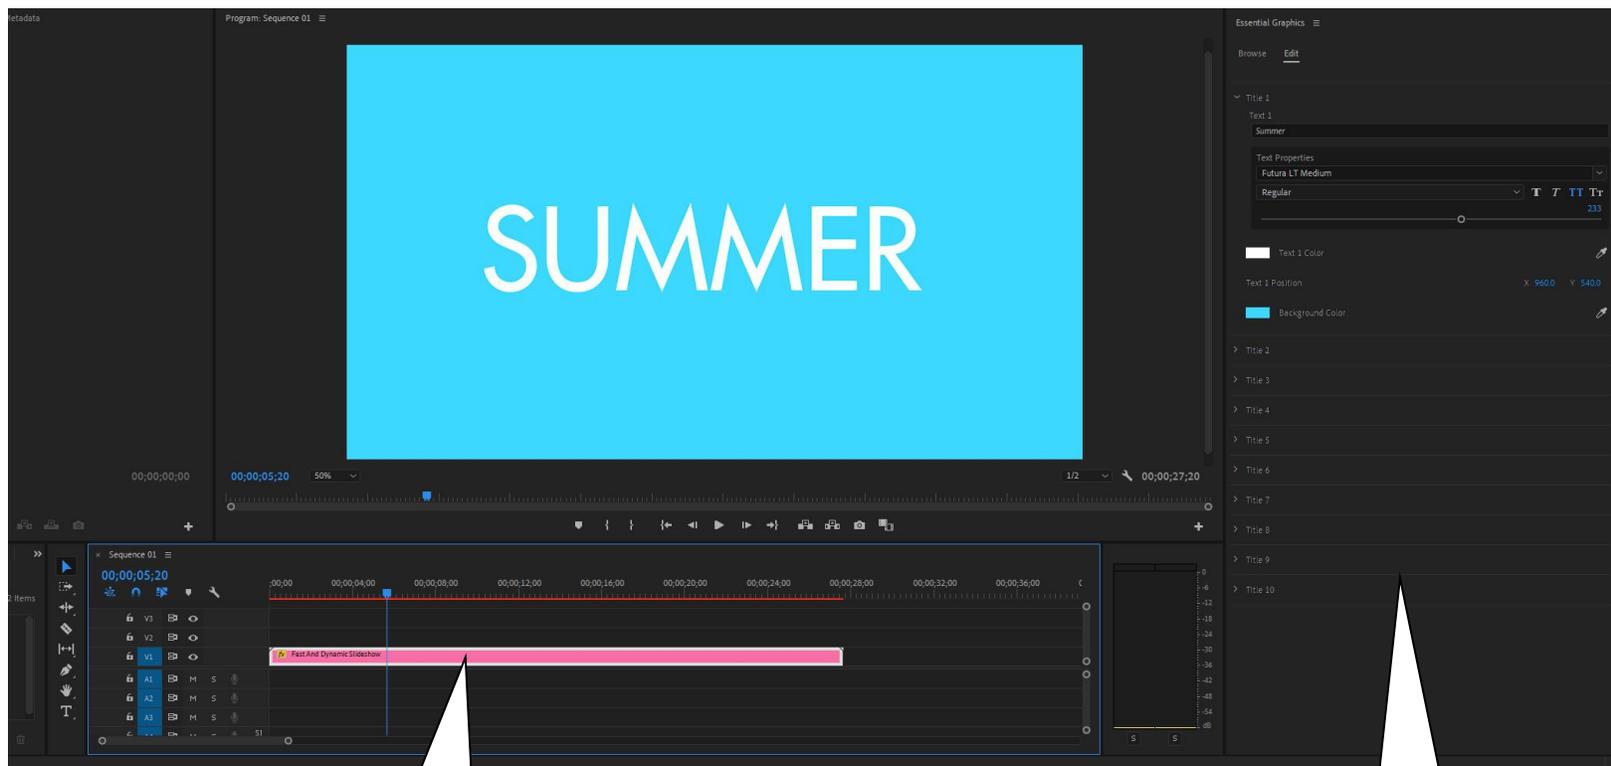

Drag and drop the required projects from Essential Graphics panel to a timeline

Drag the installed Project and drop It in a timeline

Step 10:

Now you can edit the Project using Essential Graphics Panel, Edit the Text, Change font as required, Font Size can be changes, Position can be adjusted in the same Panel

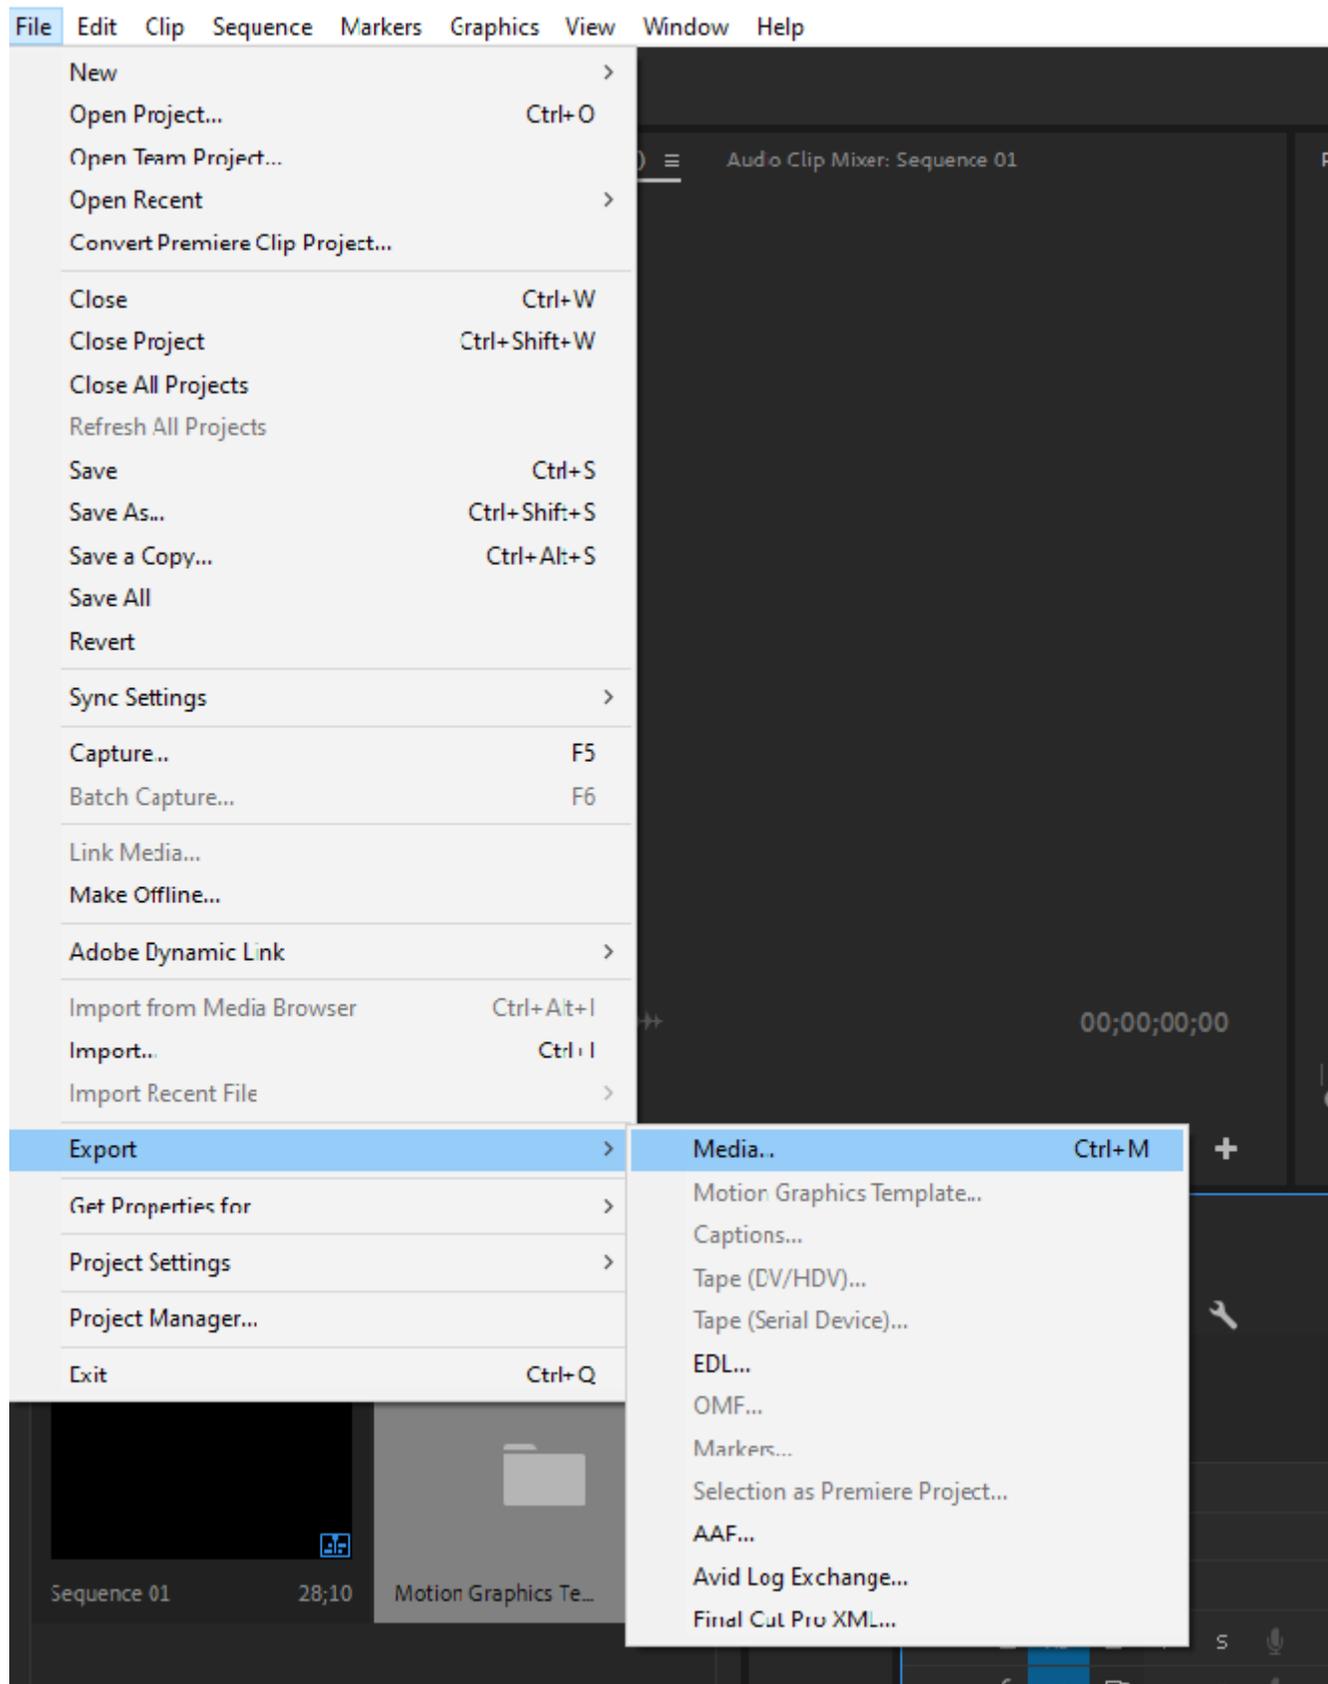

Select the Project in timeline

Edit your Text and its Parameters here

Step 11:

Export the media after customization, Open File menu, Select “Export” and select “Media”

Step 12:

Select the Video and Audio format as required and press Export for Final output

Export Settings
