Control panel and edit text

The screenshot displays the Adobe After Effects interface. The main composition window shows the word "TITLES" in a large, white, sans-serif font. The left sidebar contains the "Effect Controls" panel for the "CONTROL" effect, which includes settings for "Color Text A", "Color Text B", "Color Line(and other)", "Size", "Position control", and "Angle Control 1". The bottom timeline shows a "CONTROL" layer selected, with a red box highlighting the "EDIT TEXT POSITION" button. Two text boxes provide instructions: "1. Move 'current time indicator' to position on time line named 'EDIT TEXT POSITION'. Then you may edit text." and "2. Click on 'CONTROL' 3. Select Effect controls and customize color/scale/position".
