

Hello!

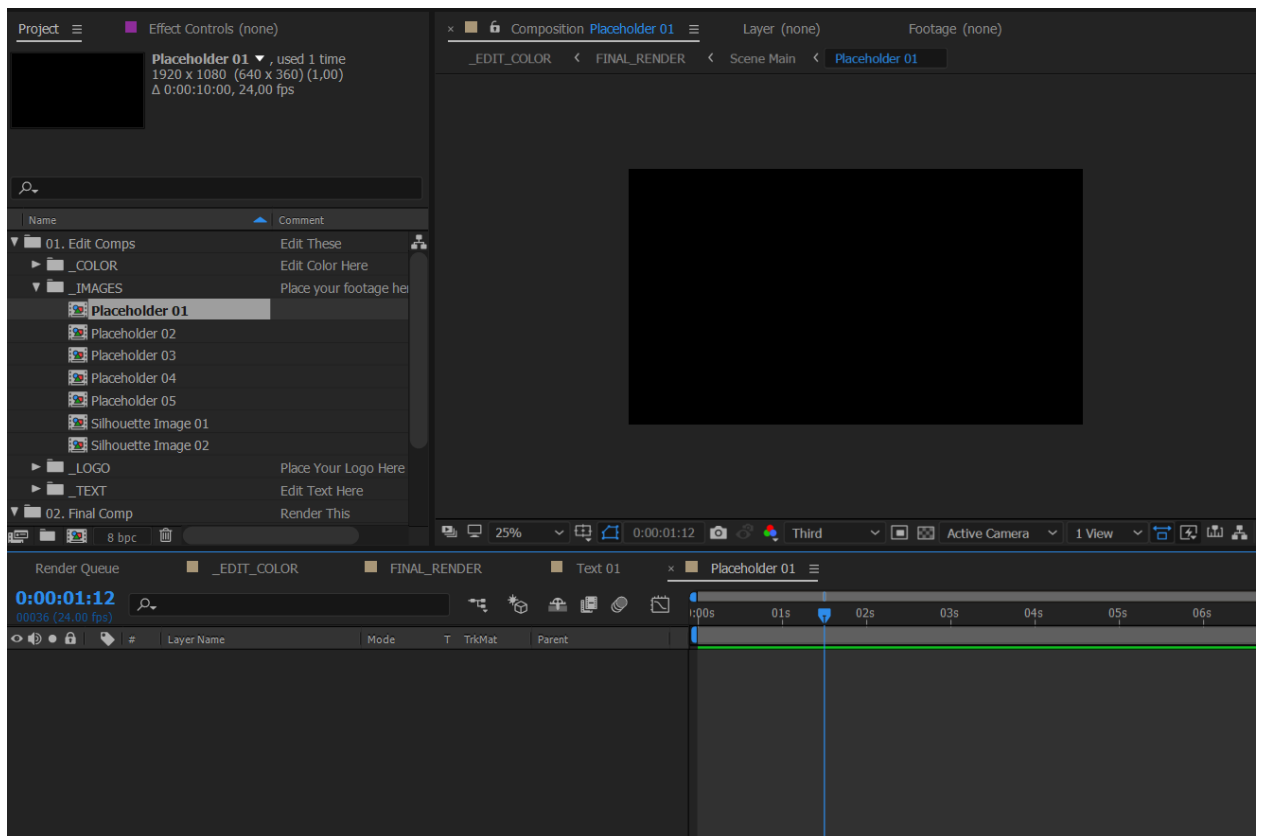

Thanks for purchasing this «**Generation Intro**» much appreciated and I hope this project will fit your needs!

It's really easy to customize:

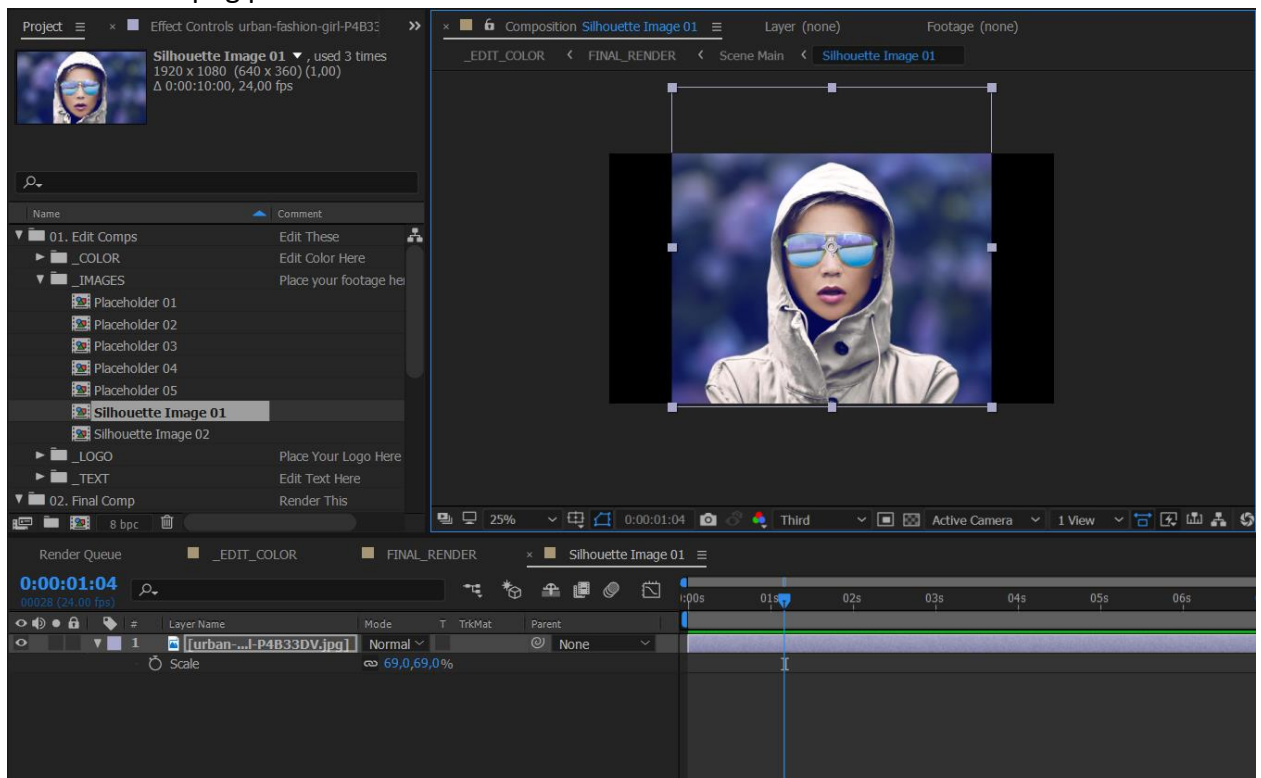

1. Edit text in “Text 01-04” compositions.

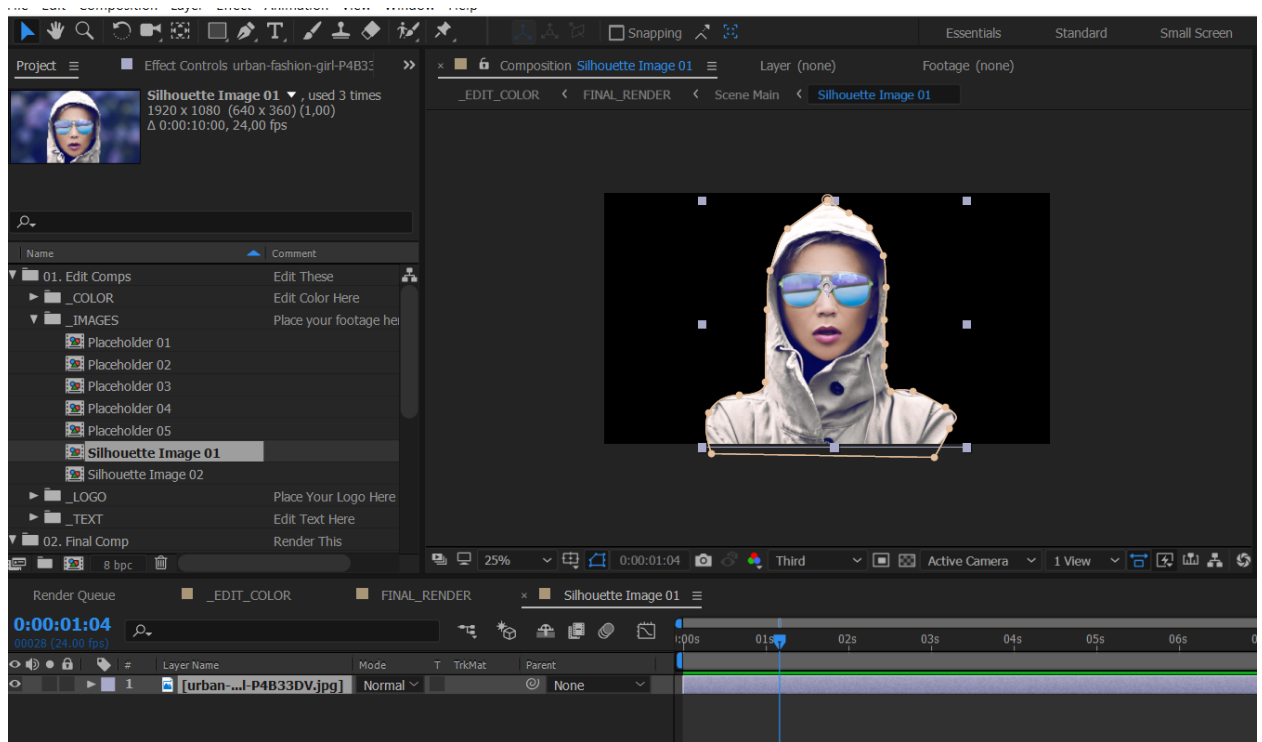

2. Place your Image in “Placeholder 01-05” comp.

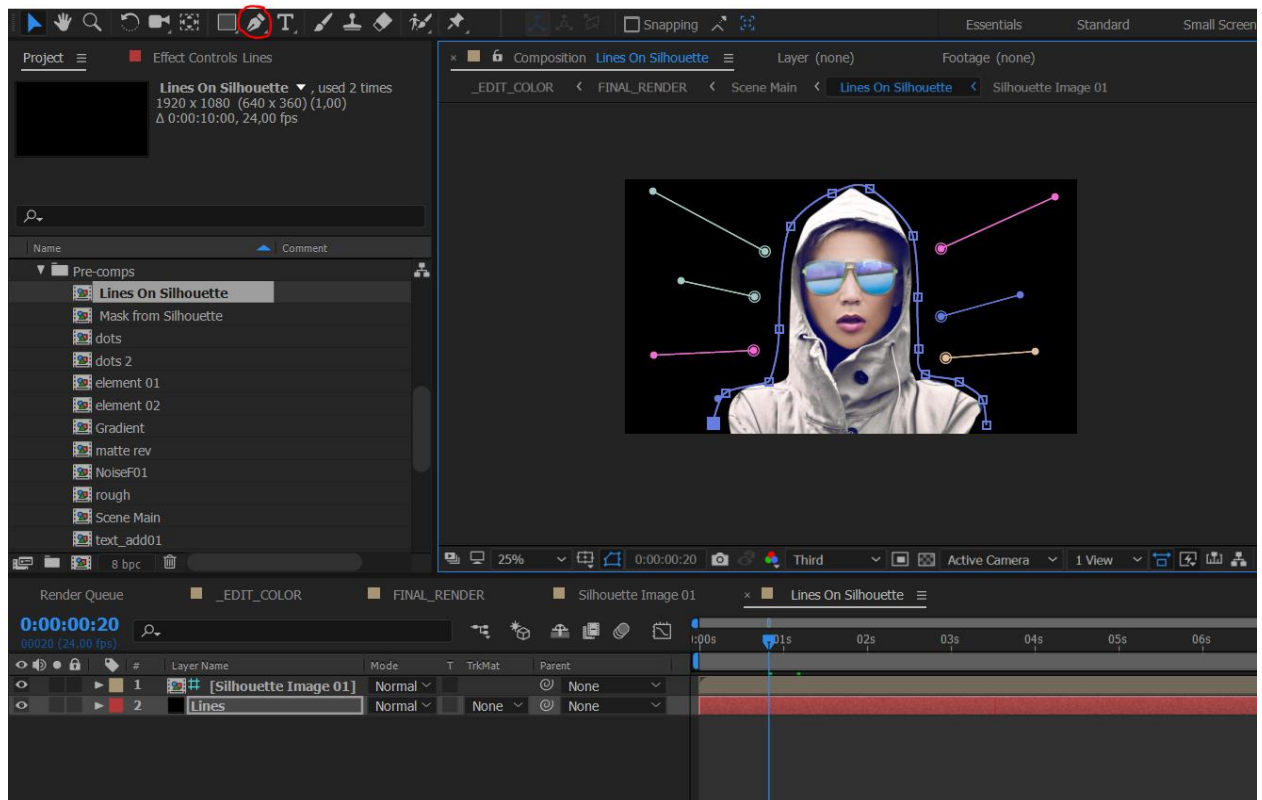

3. Place your silhouette image “Silhouette Image 01-02”. And draw a mask from the image or use png photos.

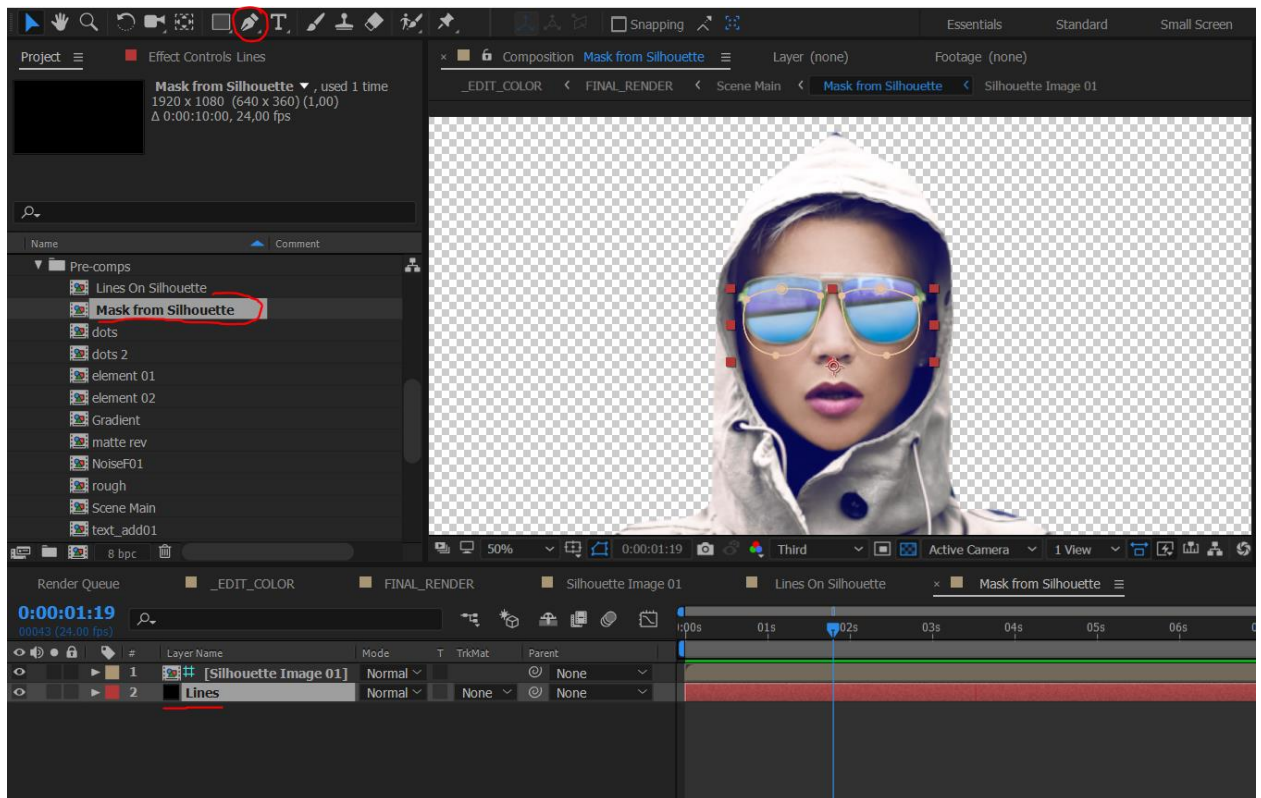

4. On the selected layer draw a mask with right click button:

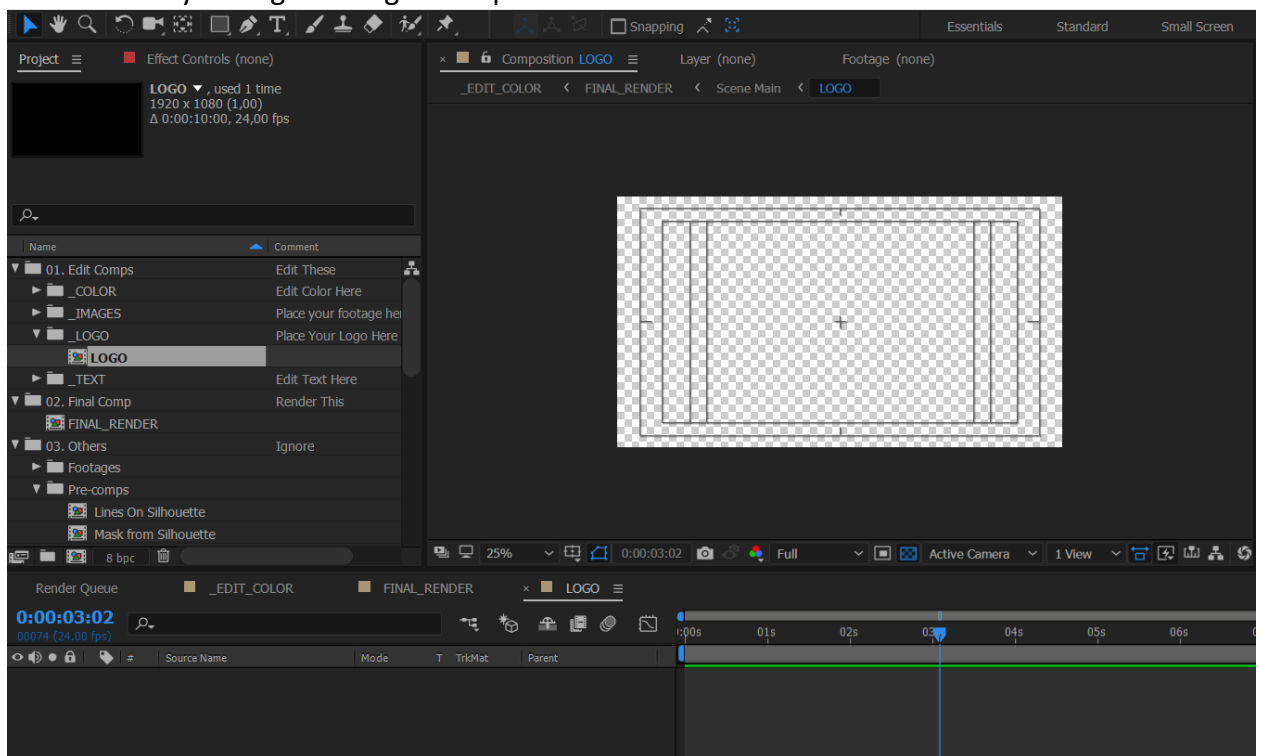

5. How to draw lines from your footages? After you place your silhouette footages, open “Lines On Silhouette”. Select solid, delete old masks and draw the new masks.

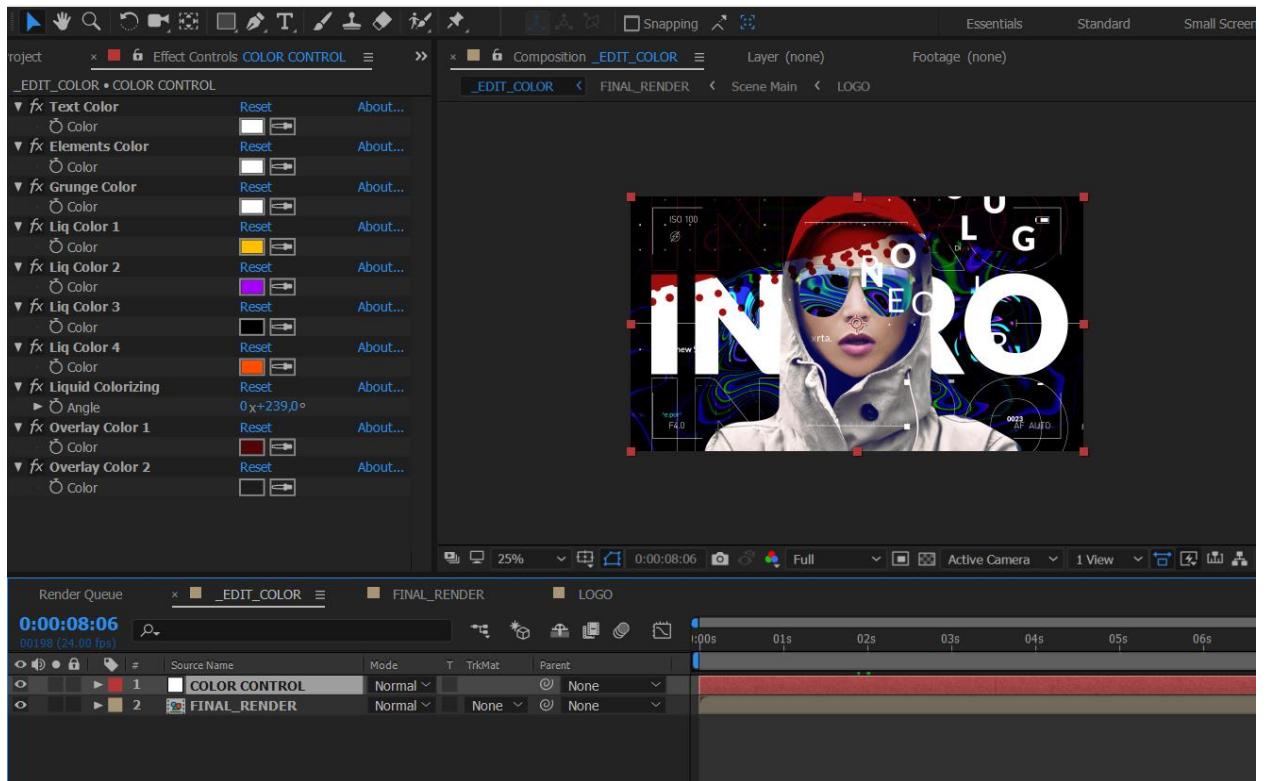

6. With same way - draw a mask from Silhouette images for a liquid effect. Find a “Mask from Silhouette”, open composition and select solid and draw a mask.

7. Place your logo in “Logo” comp.

8. You can easily change colors with «COLOR CONTROL» layer in “_EDIT_COLOR” comp.

9. After that, render “_FINAL_RENDER” composition.
