

Hello, dear colleagues!

Thanks for buying this template.

This **ADOBE AFTER EFFECTS CC 2019 & PREMIERE PRO CC 2019** project is very easy to customize.

---

The font is available for free download here :

<https://www.fontsquirrel.com/fonts/montserrat>

The audio is available here :

<https://audiojungle.net/item/aspire/17353933> by the author "ALEX\_BESSS"

---

The zip contains

After Effects project file "**Elegant Timeline Slideshow (After Effects CC 2019)**" – **After Effects CC 2019** required to edit this project.

Use this AEP file to place your logo and footage media (image or video) to the placeholders in the AEP file.

The first 6 steps in the following screen shots will discuss about how to place the footage in AEP file.

Then you have to export a new MOGRT template file and use it in PREMIERE PRO to edit the text and others.

In the remaining steps you will know how to edit the MOGRT files in **ADOBE PREMIERE PRO CC2019**

Also we kept one Mogrt project file "**Elegant Timeline Slideshow Mogrt**" – **Premiere Pro CC 2019** required to edit.

If you want you can use this MOGRT file and create a title sequence in Premiere Pro CC 2019.

You can check the title sequence preview here : [https://www.youtube.com/channel/UCKdrseRLD8l8wFHKAKr\\_ANw](https://www.youtube.com/channel/UCKdrseRLD8l8wFHKAKr_ANw)

Please check the images in the following pages which will help you in customizing the project.

**Changing Logo :**

From the folder “=Scene\_01” you can open the comp named “Logo”. Here you can see two precomps “Logo Comp\_Square” and “Logo Comp\_Rectangle”. Now select and open the precomp based on your logo shape and drag and drop your logo there. And in “Logo” comp switch on the layer by clicking on the EYE icon and switch off the other one. This precomp only used in the “=Scene\_12”. So changing the logo here only is enough.
