# PROJECT STRUCTURE

Project have well organized modular structure. You can use all of them or delete unnecessary.
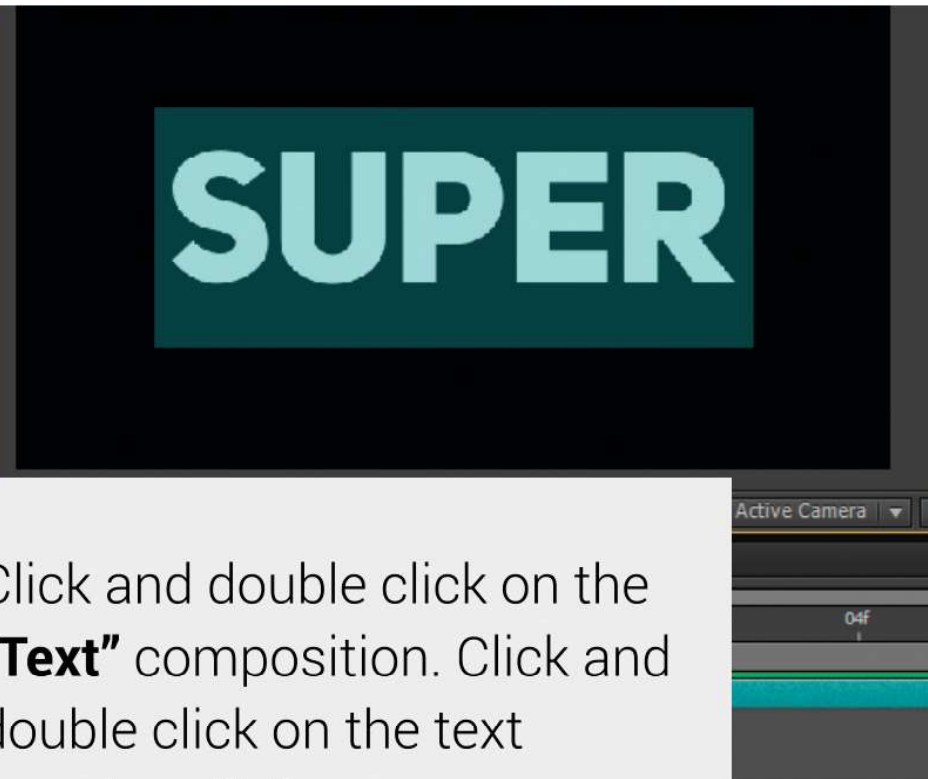

MEDIA CUSTOMIZATION

At the **"01.Edit Comps"** folder you can see all media, text and logo compositions. Just drag and drop your photo or video into **"Image"** compositions.
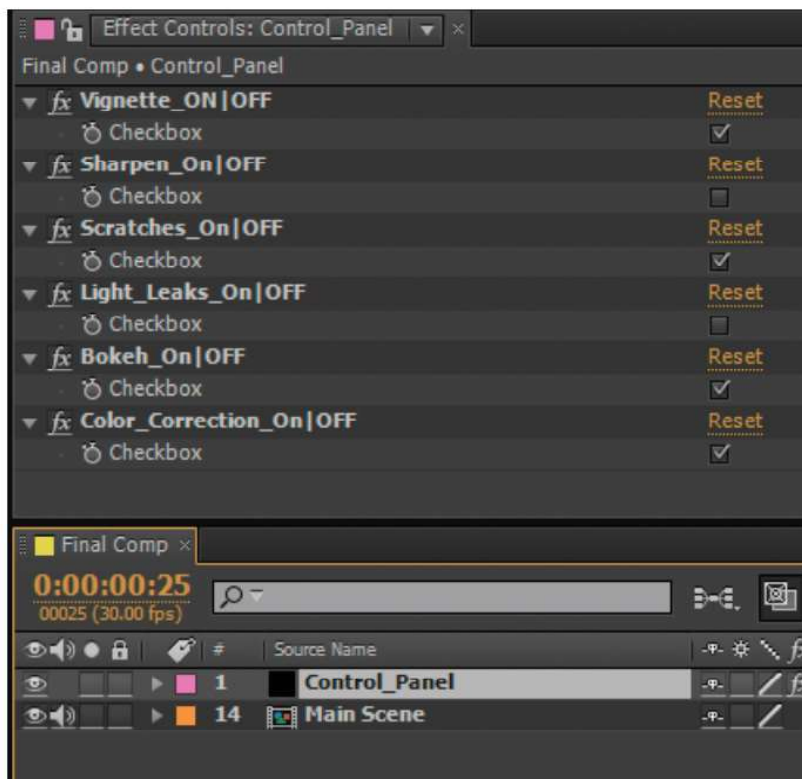

TEXT CUSTOMIZATION

Click and double click on the **"Text"** composition. Click and double click on the text layer to edit it.
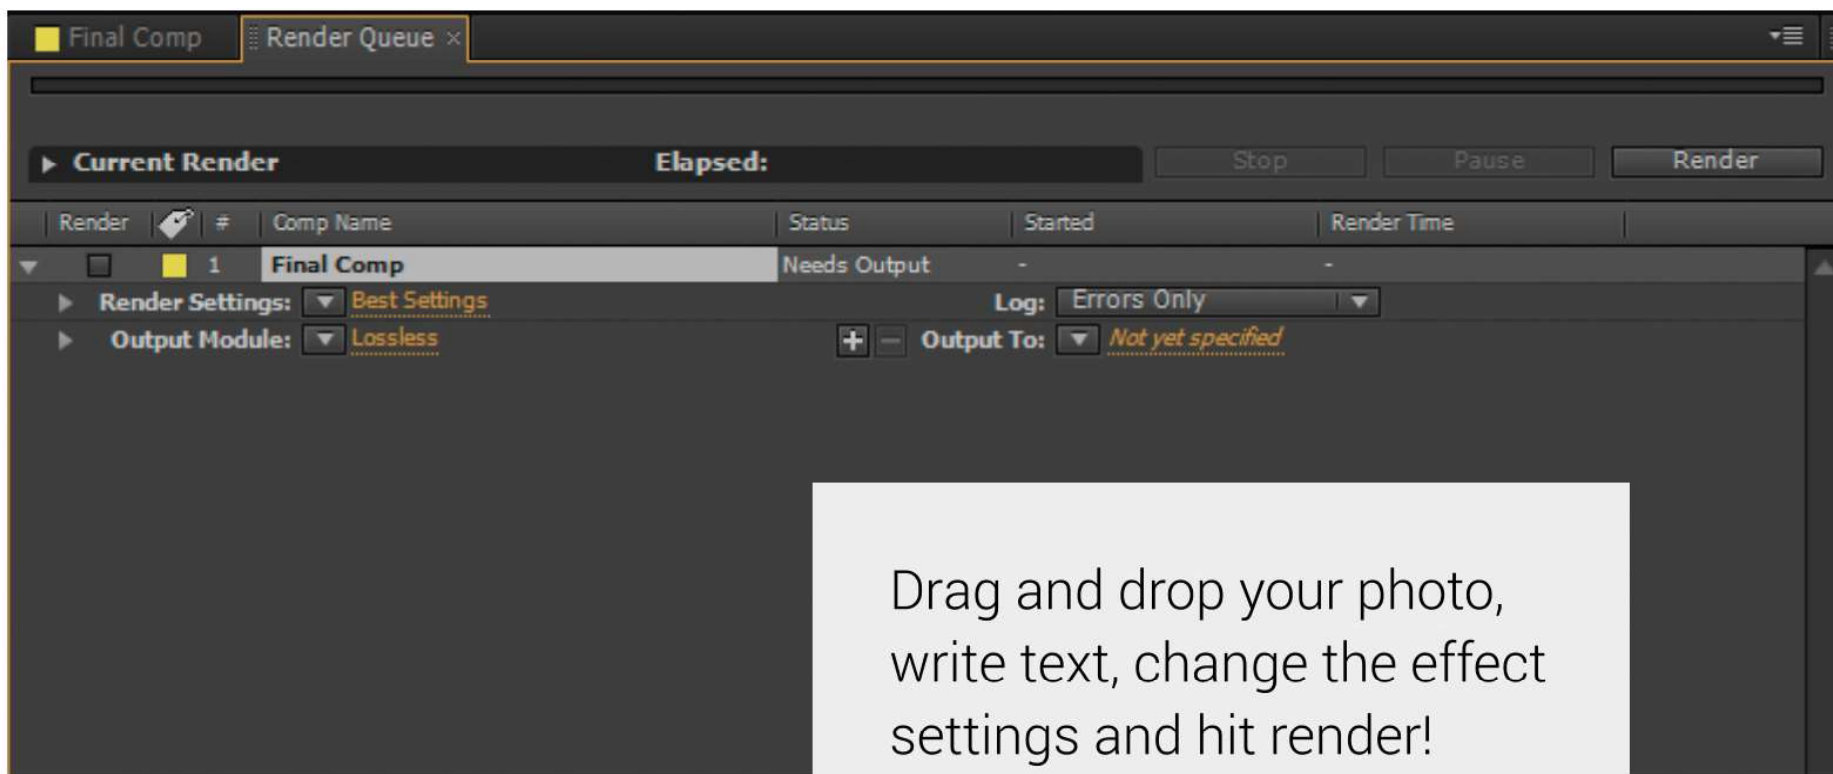

SCENE CUSTOMIZATION

Click **"Control Panel "** layer and press **F3** to reveal the controls. You can customize the final look of your video.

RENDER

Drag and drop your photo, write text, change the effect settings and hit render!
That's all.
