Hello, dear colleagues!

Thanks for buying this template.
It`s really easy to customise.

Open our project in DaVinci Resolve 16
Open a composition «Title 01» and edit text there (just make double click on text layer and type what you want).

Please, follow the guide lines.
Make the same for compositions from «Title 02» to «Title 07».
Open a composition «Logos» and place the logos there, if you need it.
Open a composition «Shot 01». Place your video or images there. Make the same for compositions from «Shot 02» to «Shot 55».
Open a composition «Music» and place your audio there.
Render composition «02 Render» (I recommend to use Quick Time H. 264).

If you have any question — you can contact me via my personal page on Motion Array.
Hope you like it and again — thanks for buying.

Best regards,
Paramall Motion
