Step 2 :

Name a Project and Save it in a Preferred Location

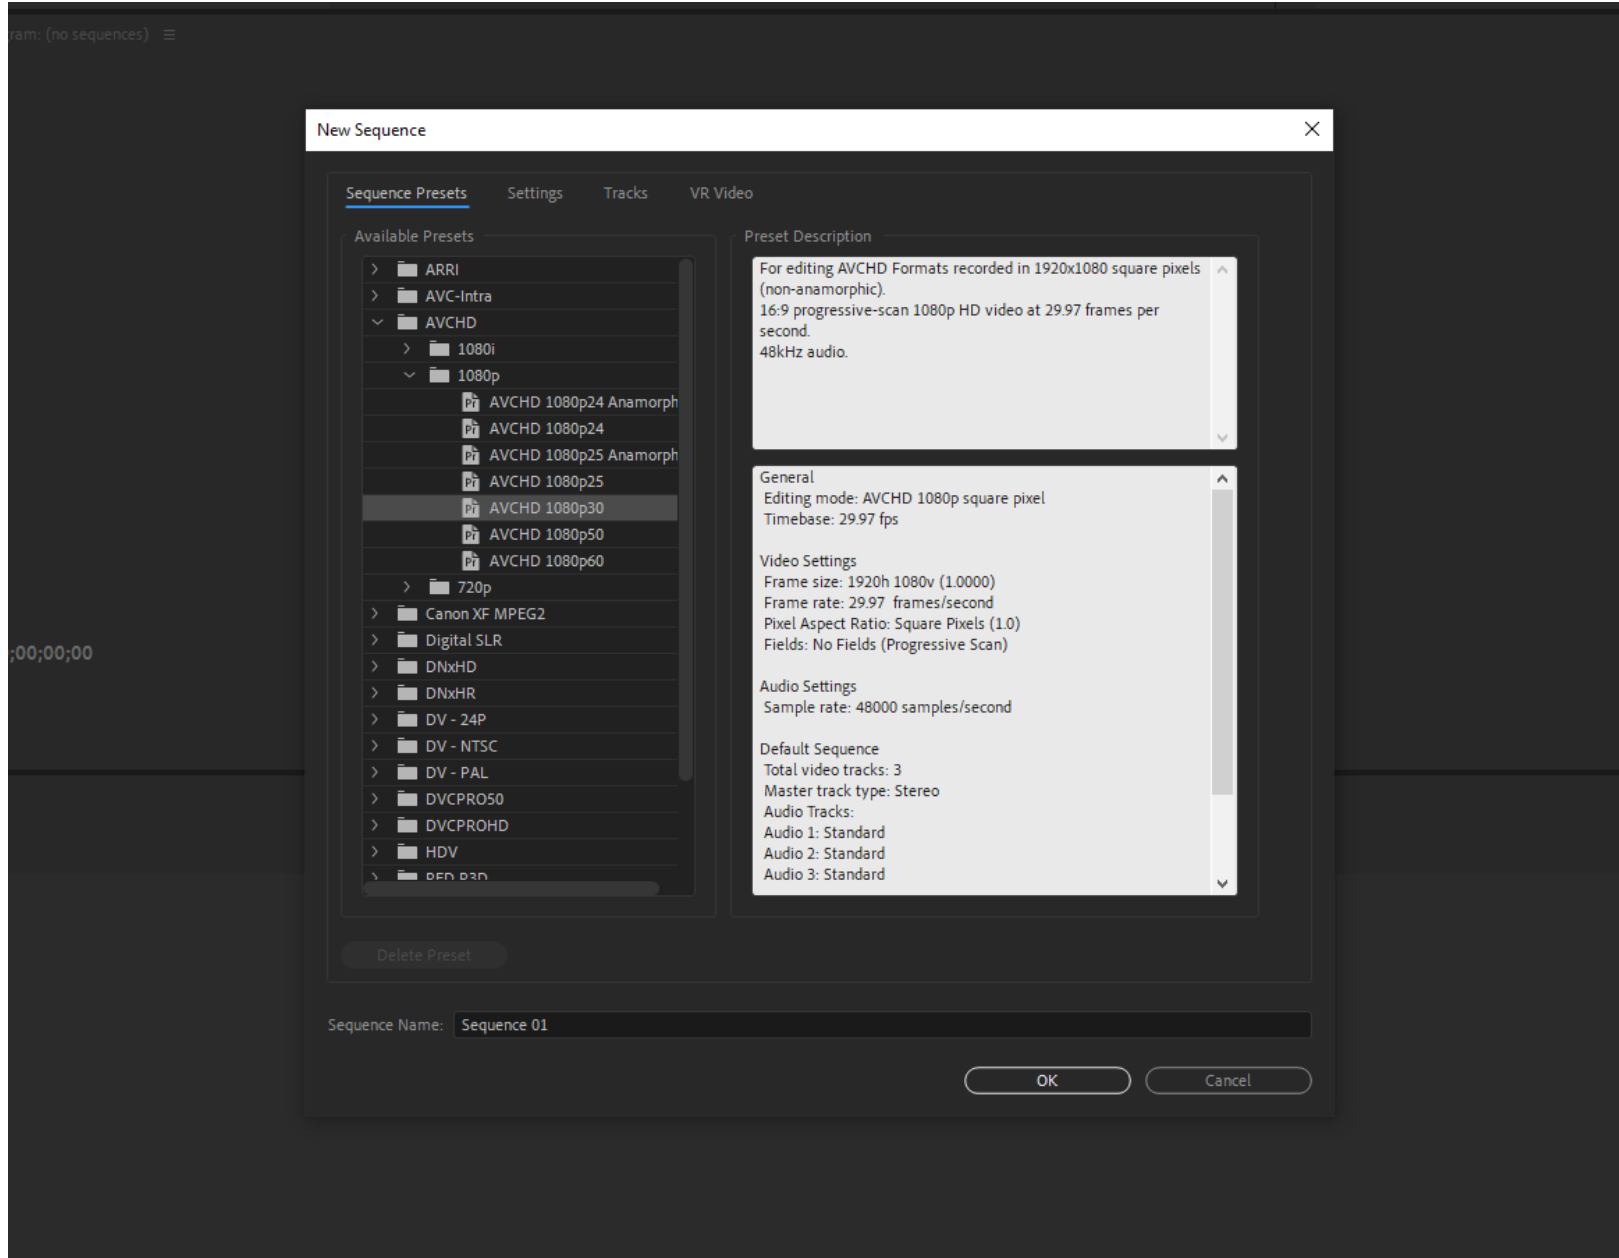

Step 3:

Create a New Sequence

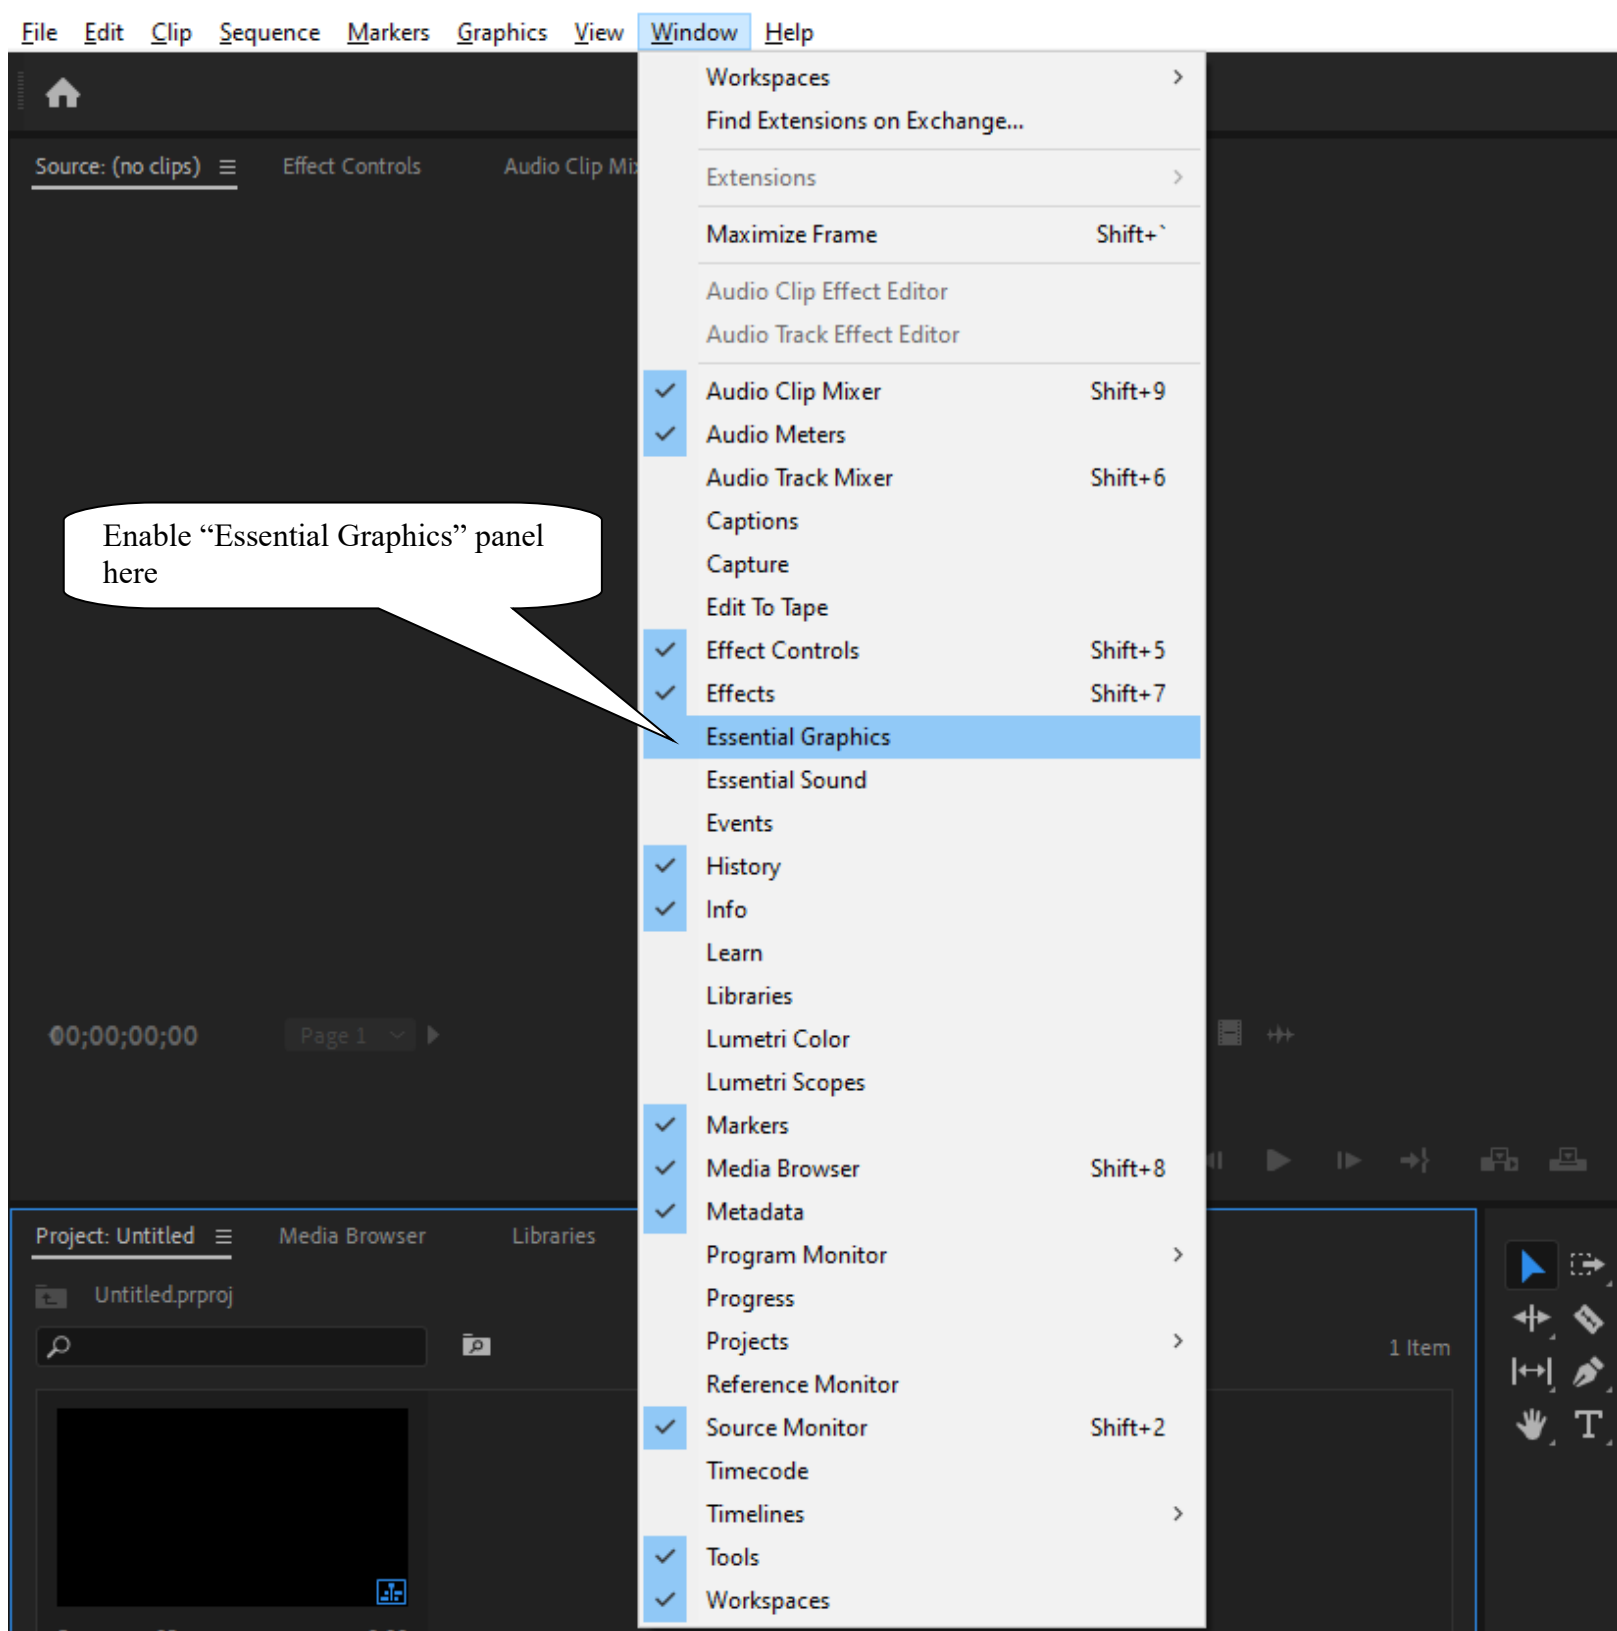

Step 4:

Select 1080P (Full HD) Settings and Name the Sequence as required

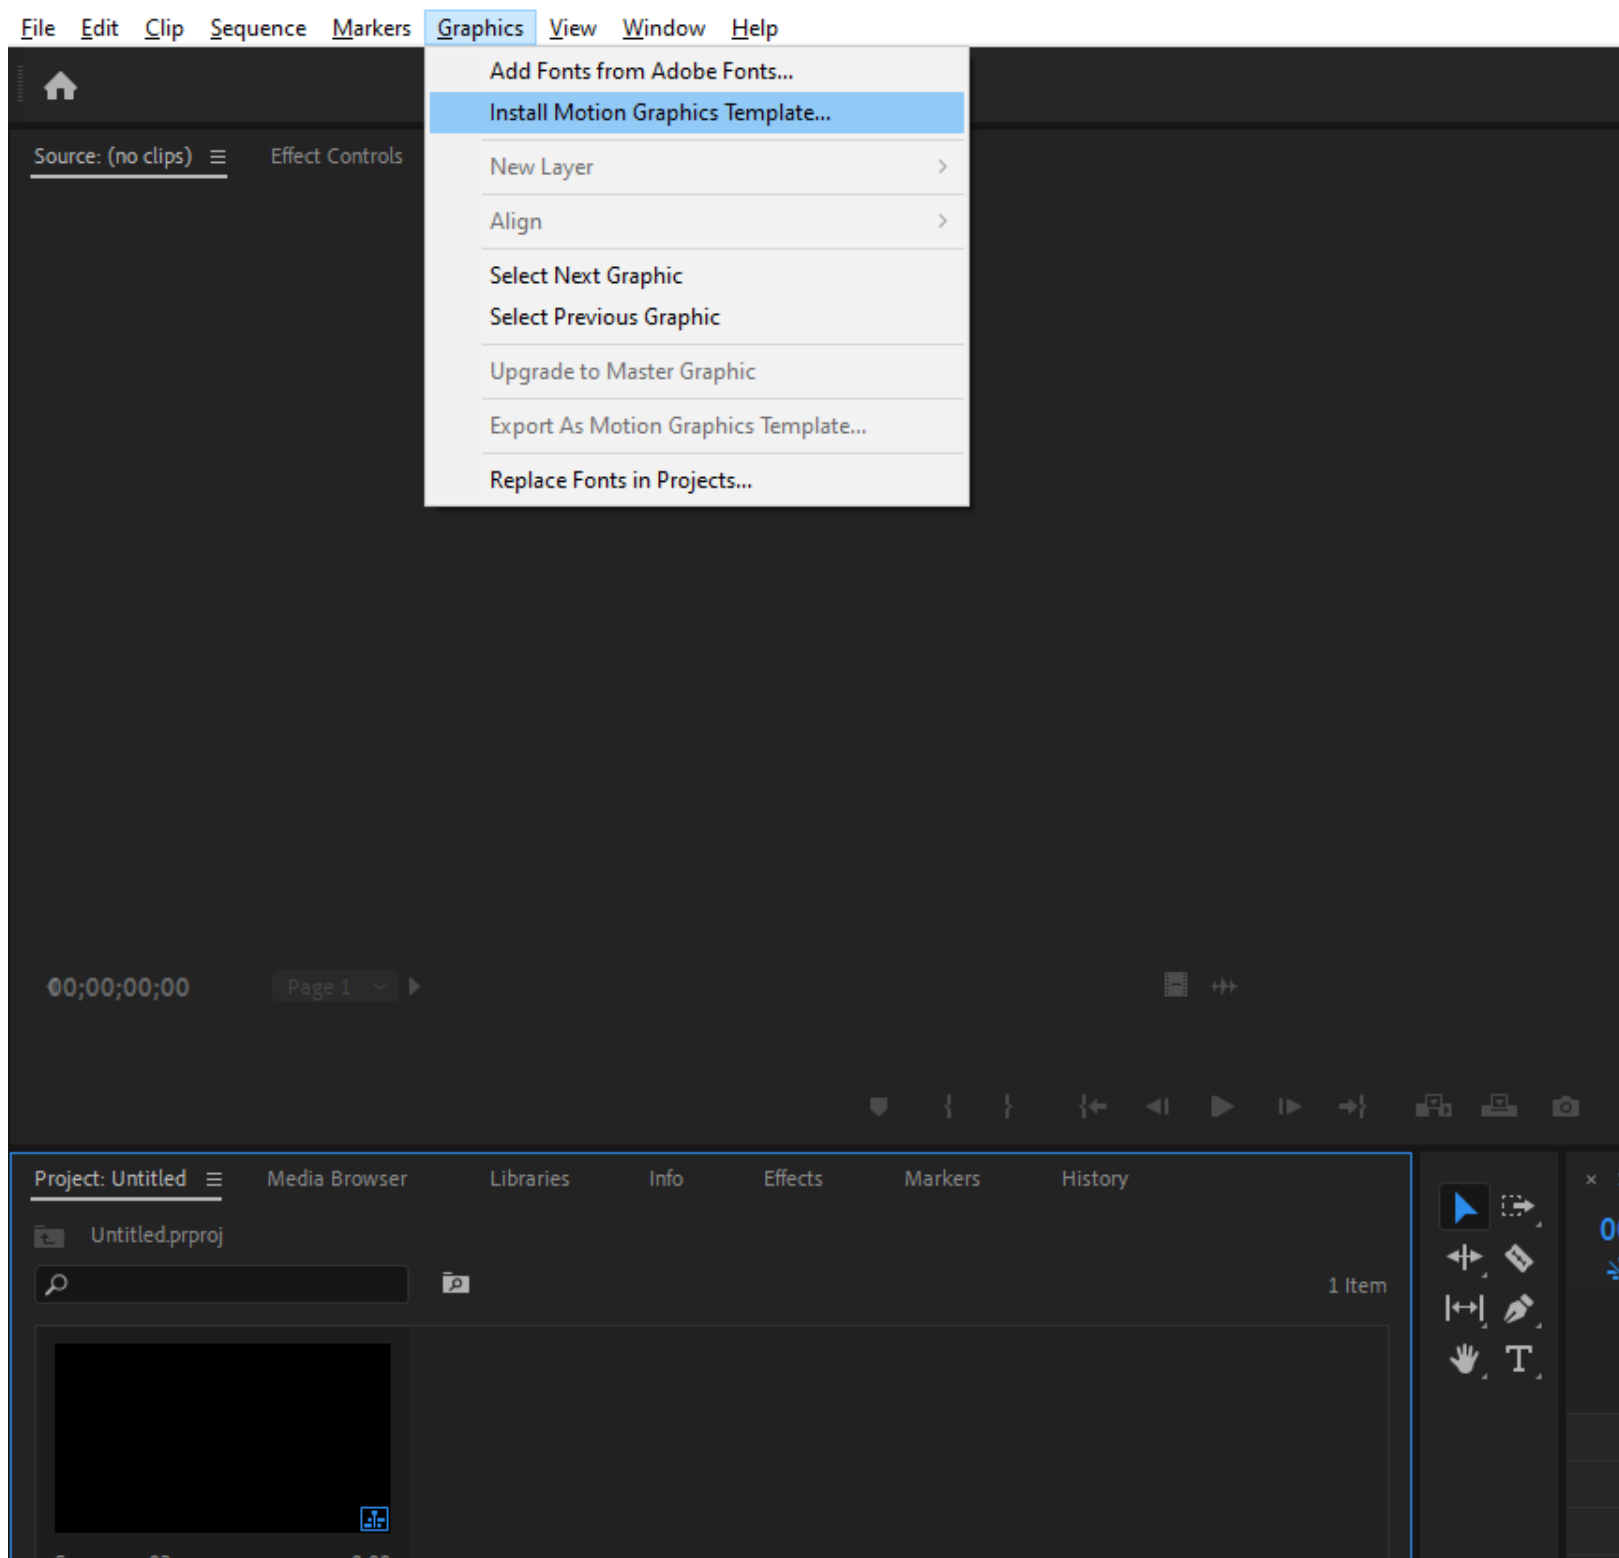

Step 5:

From Window Menu Select “Essential Graphics” Panel

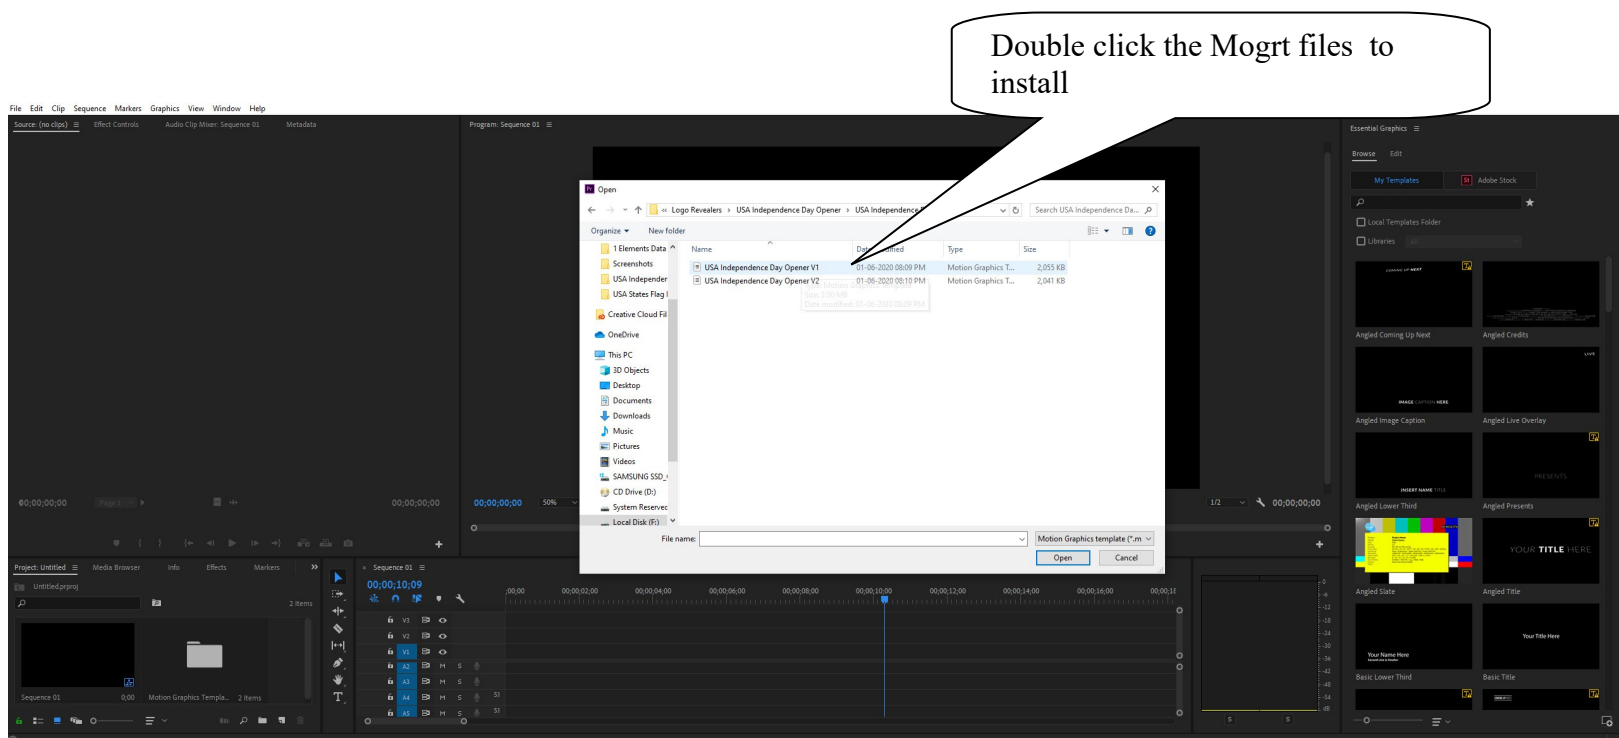

Step 6:

From “Graphics” Menu Select “Install Motion Graphics Template”

Step 7:

Unzip the Project downloaded from Videohive and Open the the Mogrt files

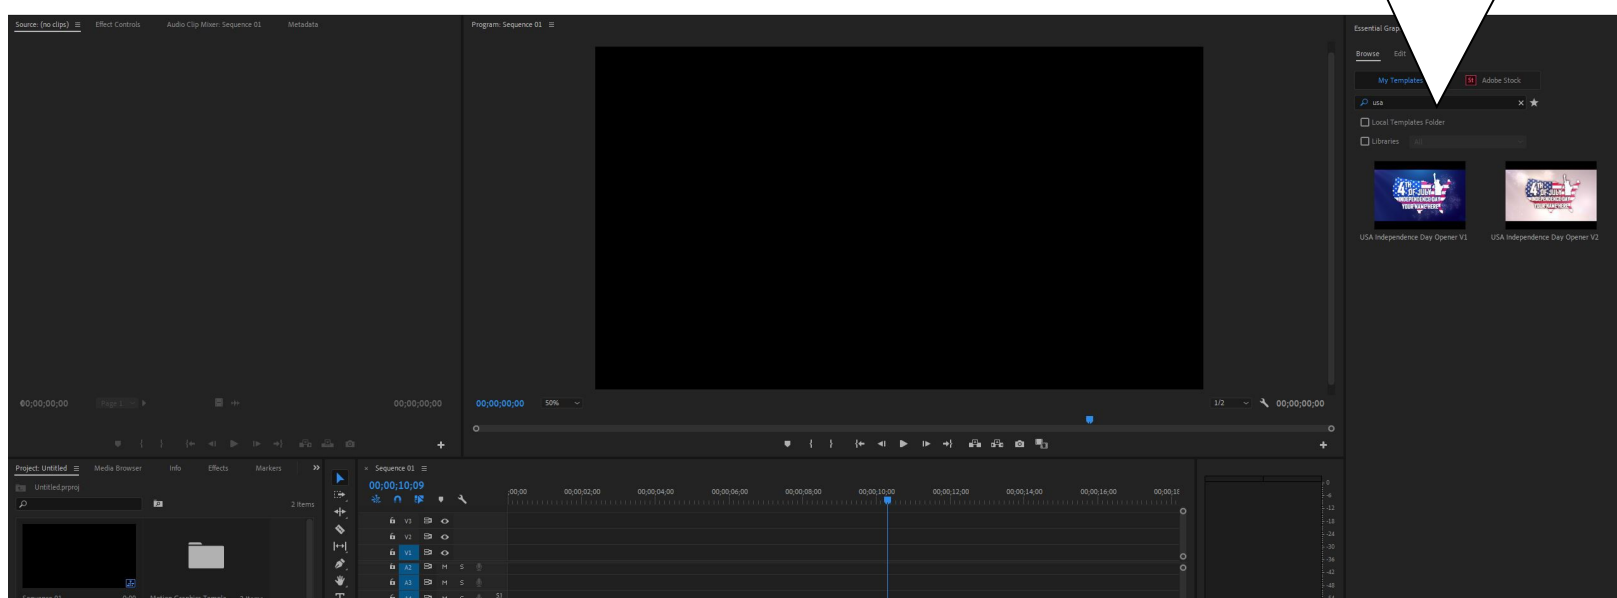

Install both Versions of Mogrt projects in the Same method

Step 8:

Mogrt files will be installed in Essential Graphics, It may take few minutes to shown up in the panel

You can search and find using the project name for easy navigation

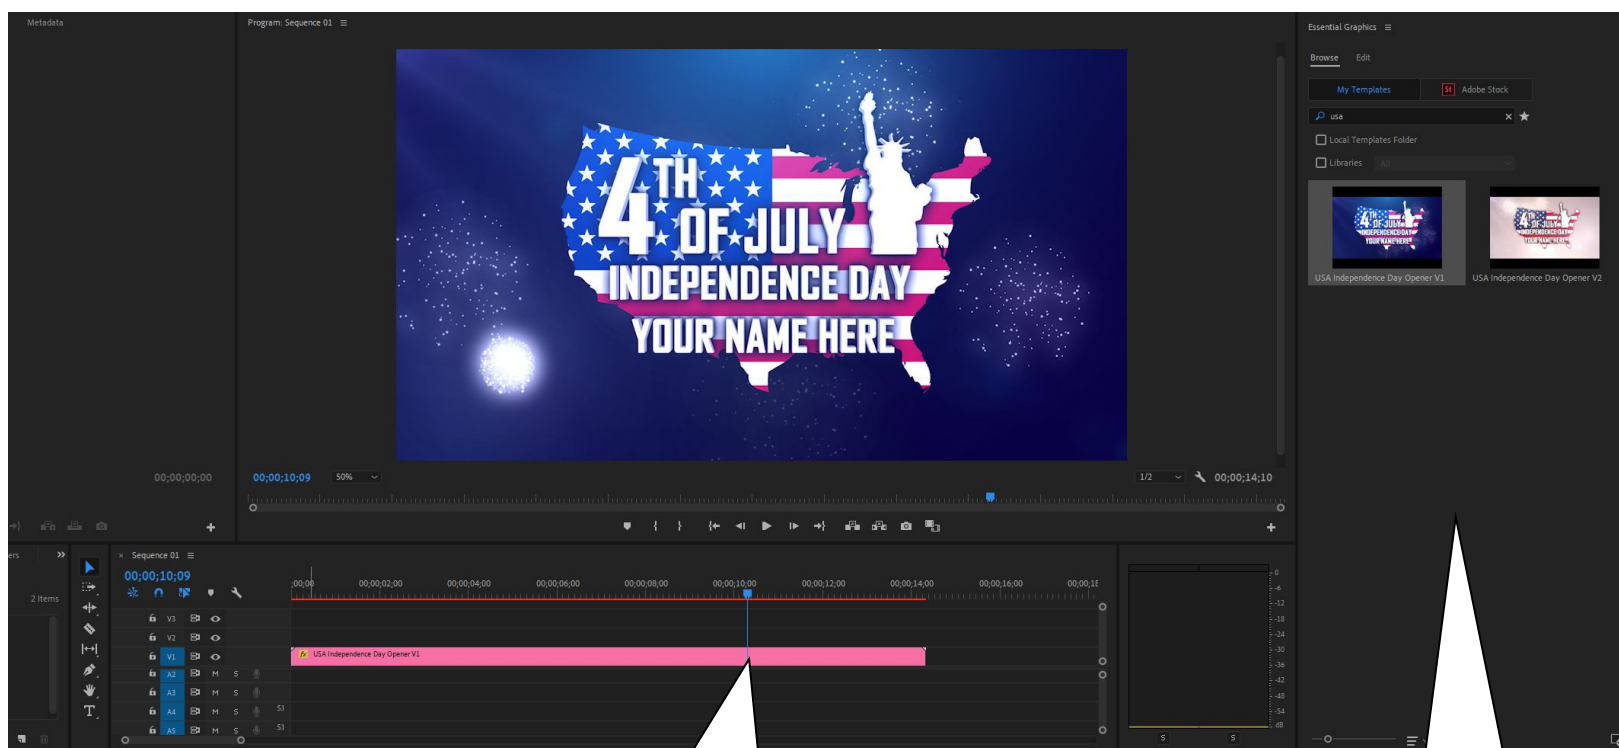

You can also search using the few words of project name (USA) here

Search “USA” as a word in the search box, Your installed .mogrt files (2 Projects) will show up

Step 9:

**Drag and drop the installed file from Essential Graphics panel to a Timeline,
Select the required option in the Pop up Window**

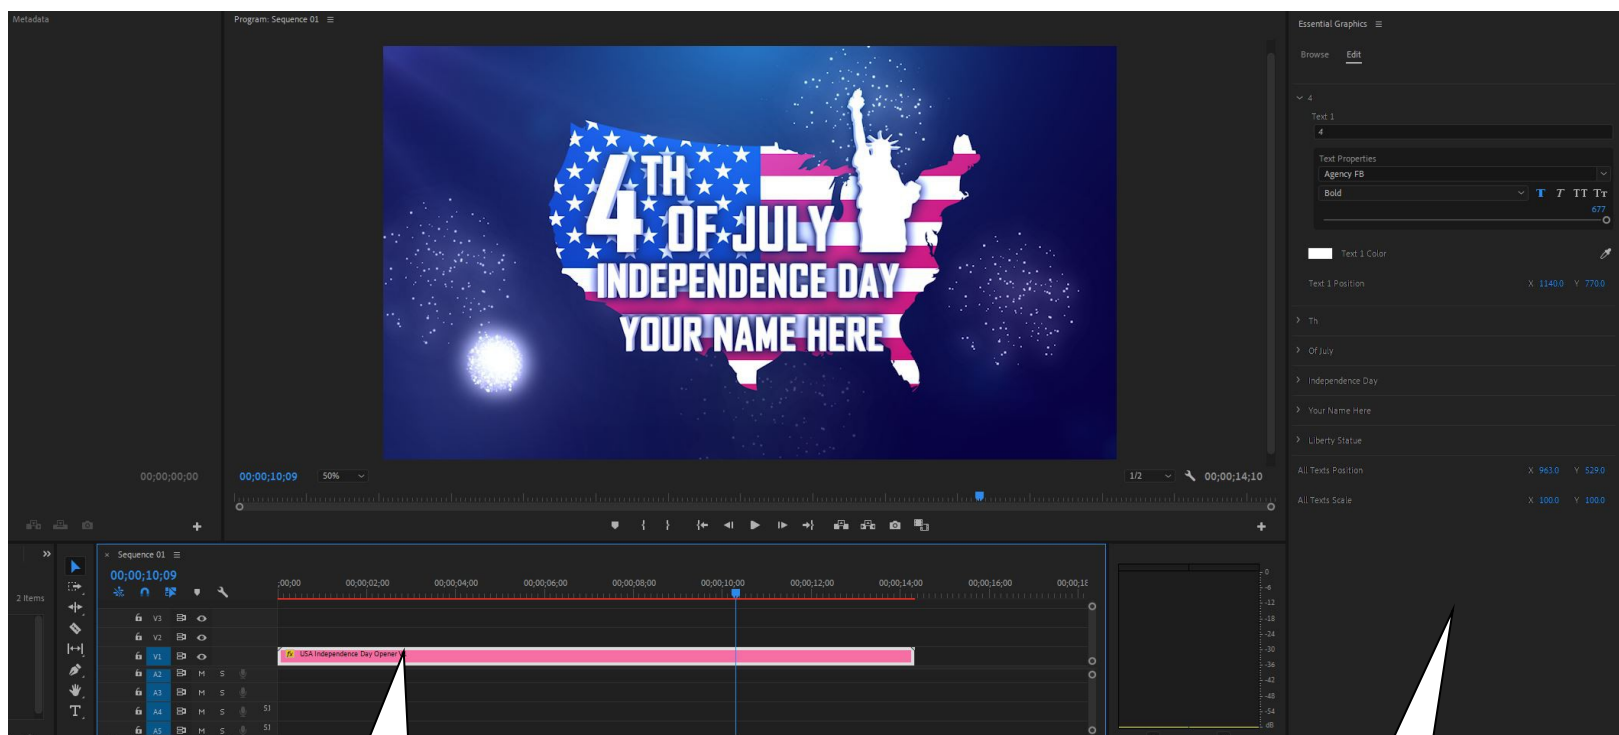

2, Drag the installed Project and drop
It in a timeline

1, Drag and drop the required
projects from Essential Graphics
panel to a timeline

Step 10:

Now you can edit the Project using Essential Graphics Panel, Edit the Text, Change font as required, Font Size can be changes, Position can be adjusted in the same Panel

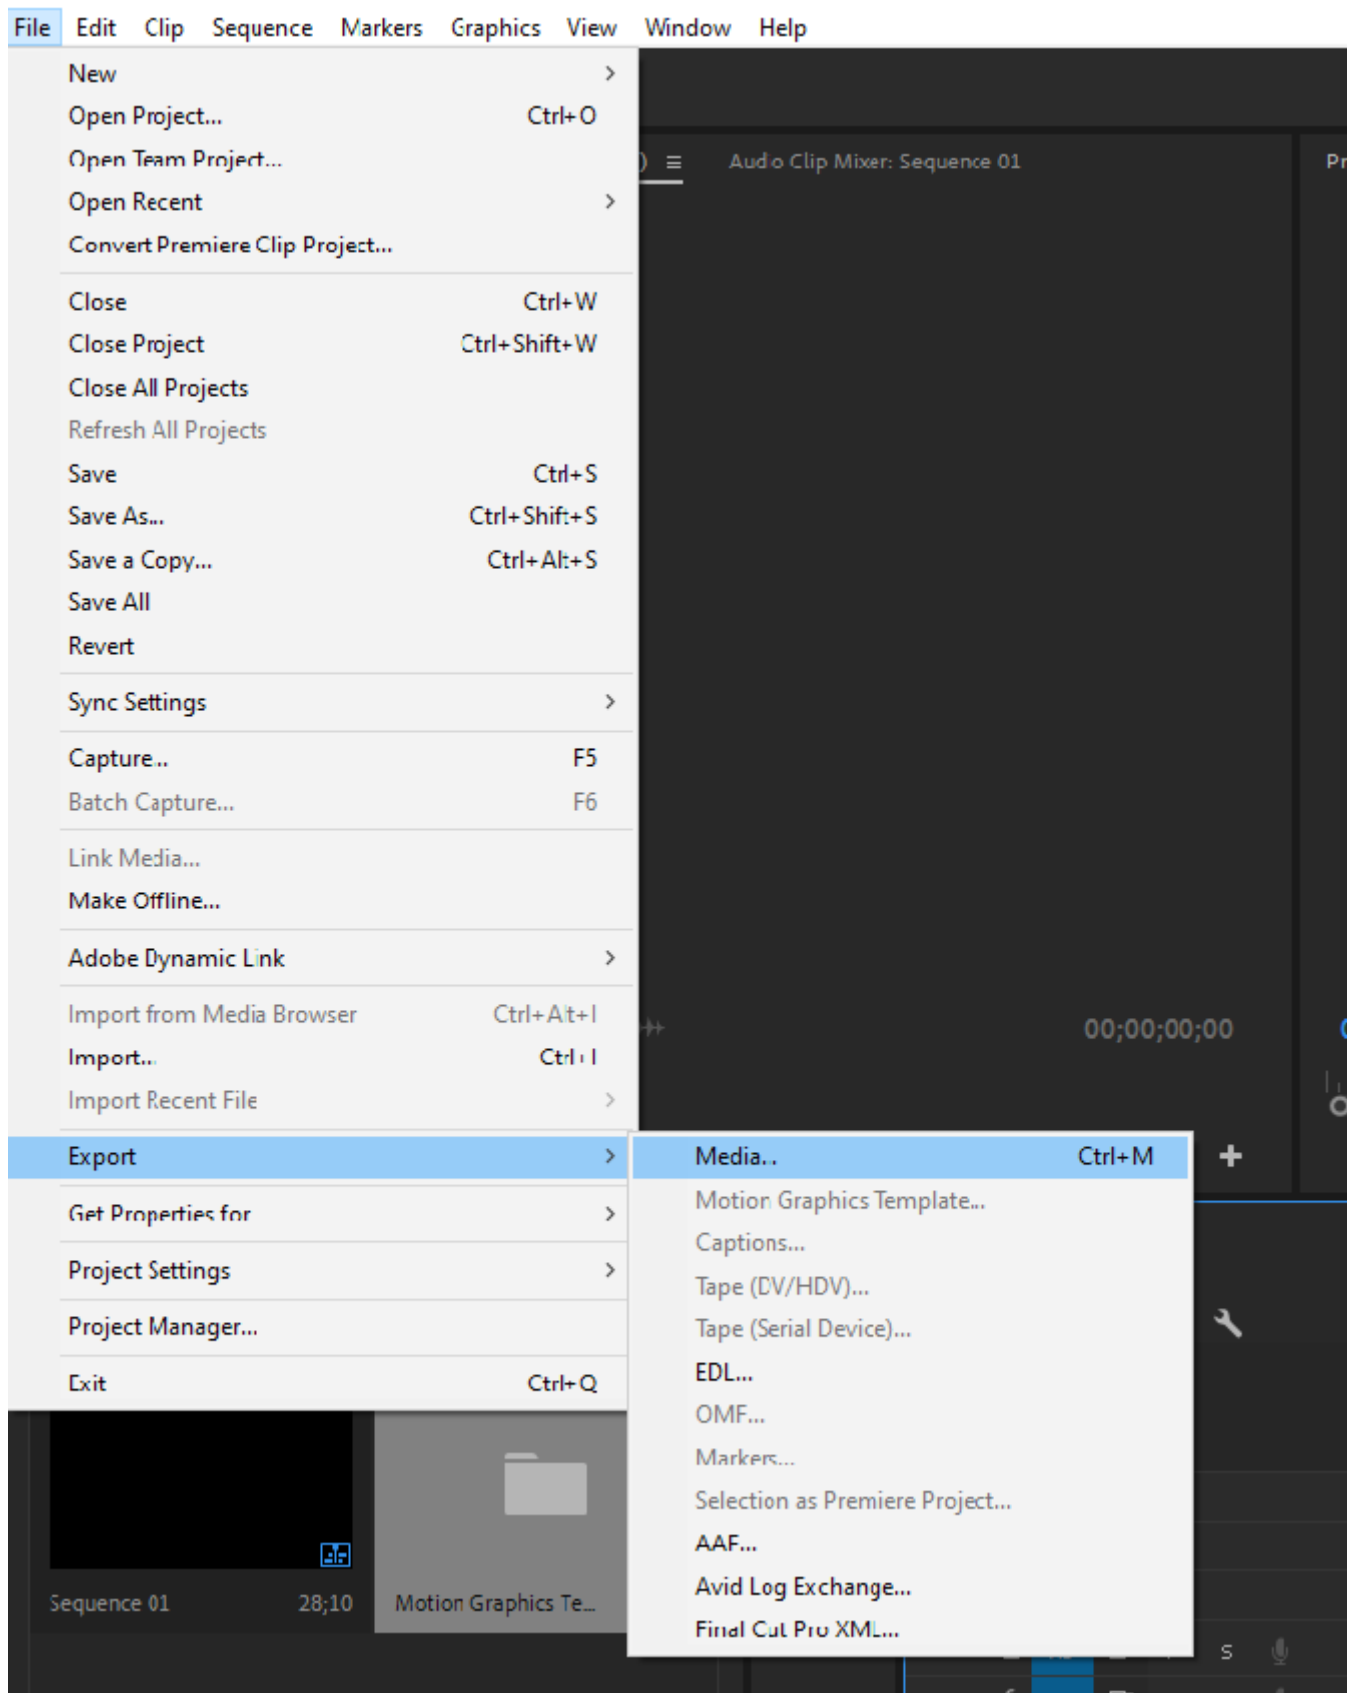

1, Select the Project in timeline

2, Edit your Text and its Parameters here

You can edit both Projects with the same method

Step 11:

Export the media after customization, Open File menu, Select “Export” and select “Media”

Step 12:

Select the Video and Audio format as required and press Export for Final output
