EDITING PROJECT

Go to folder "EDIT":

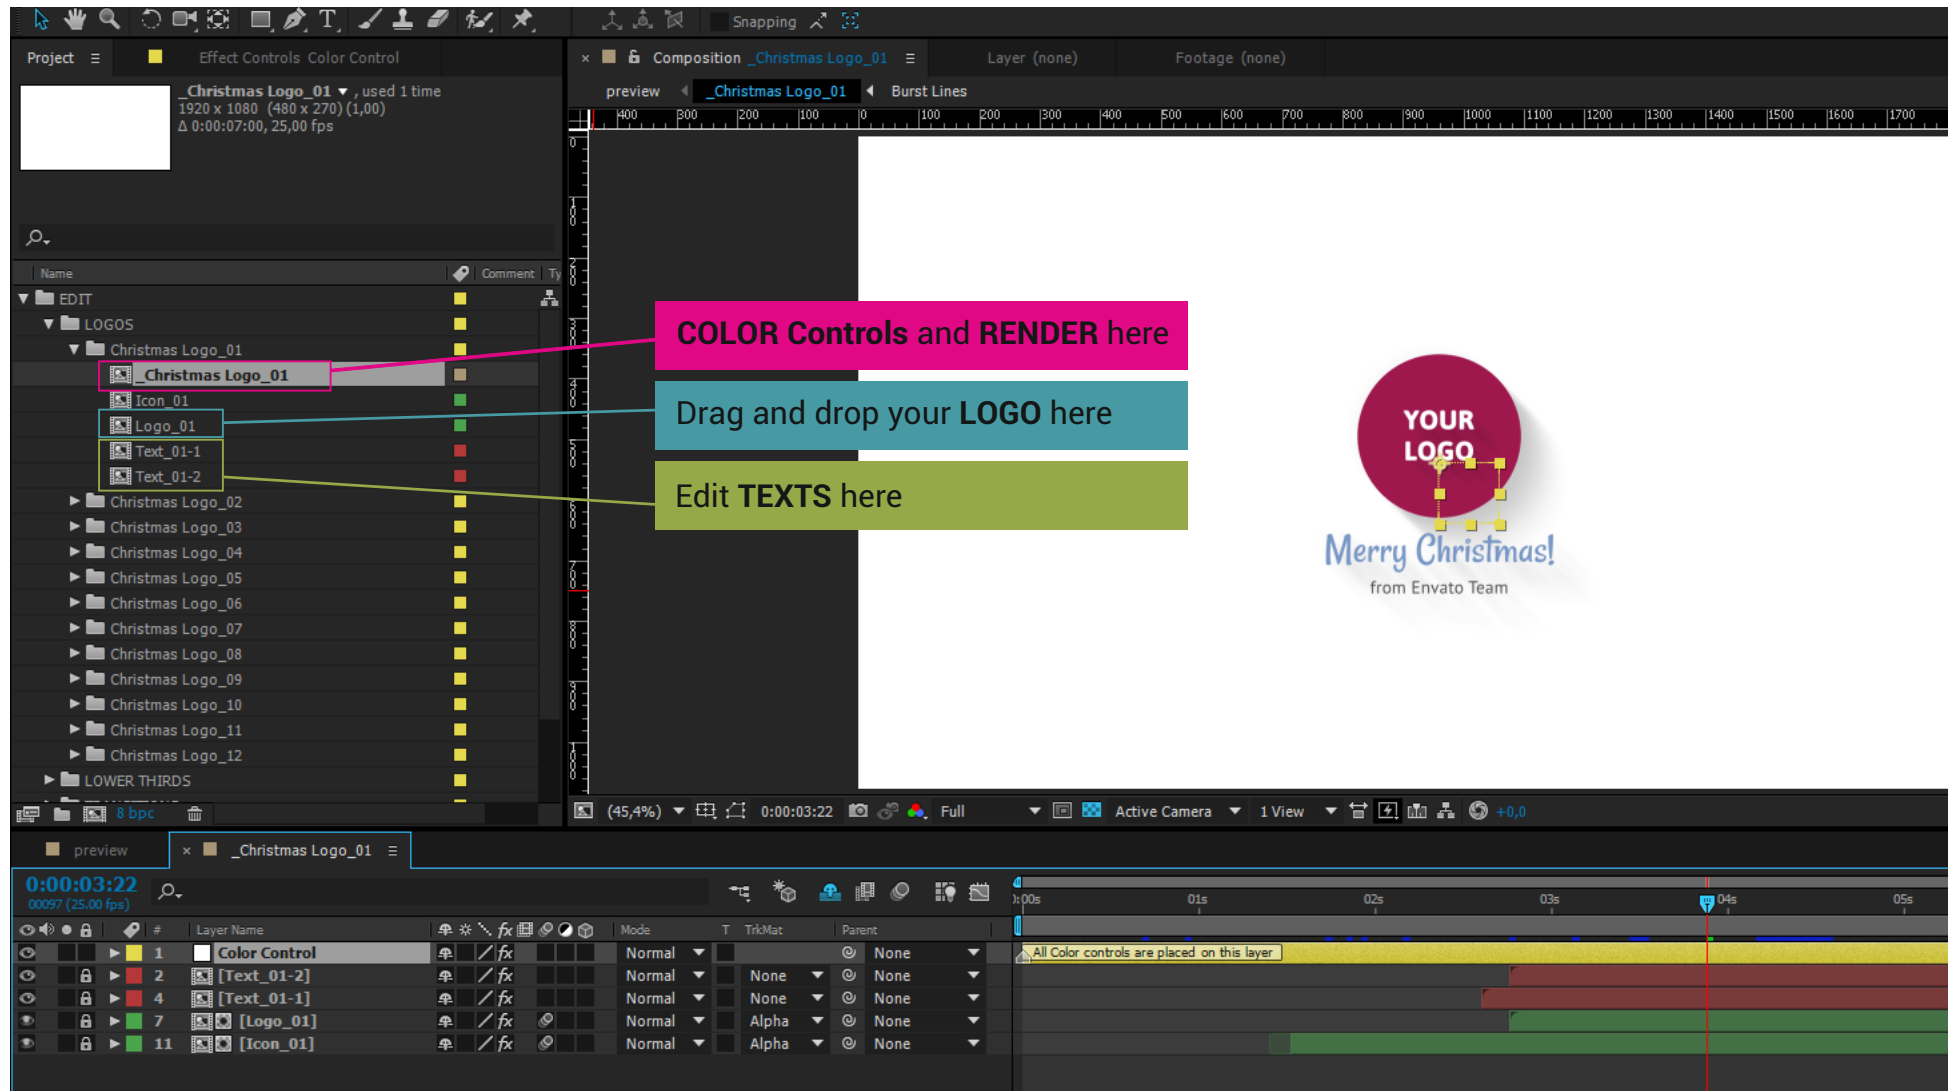

all editable compositions are grouped in folders "LOGOS", "LOWER TIRDS" and "TRANSITIONS".

EDITING LOGO

Go to folder "EDIT" - "LOGOS" - "Christmas Logo_##":

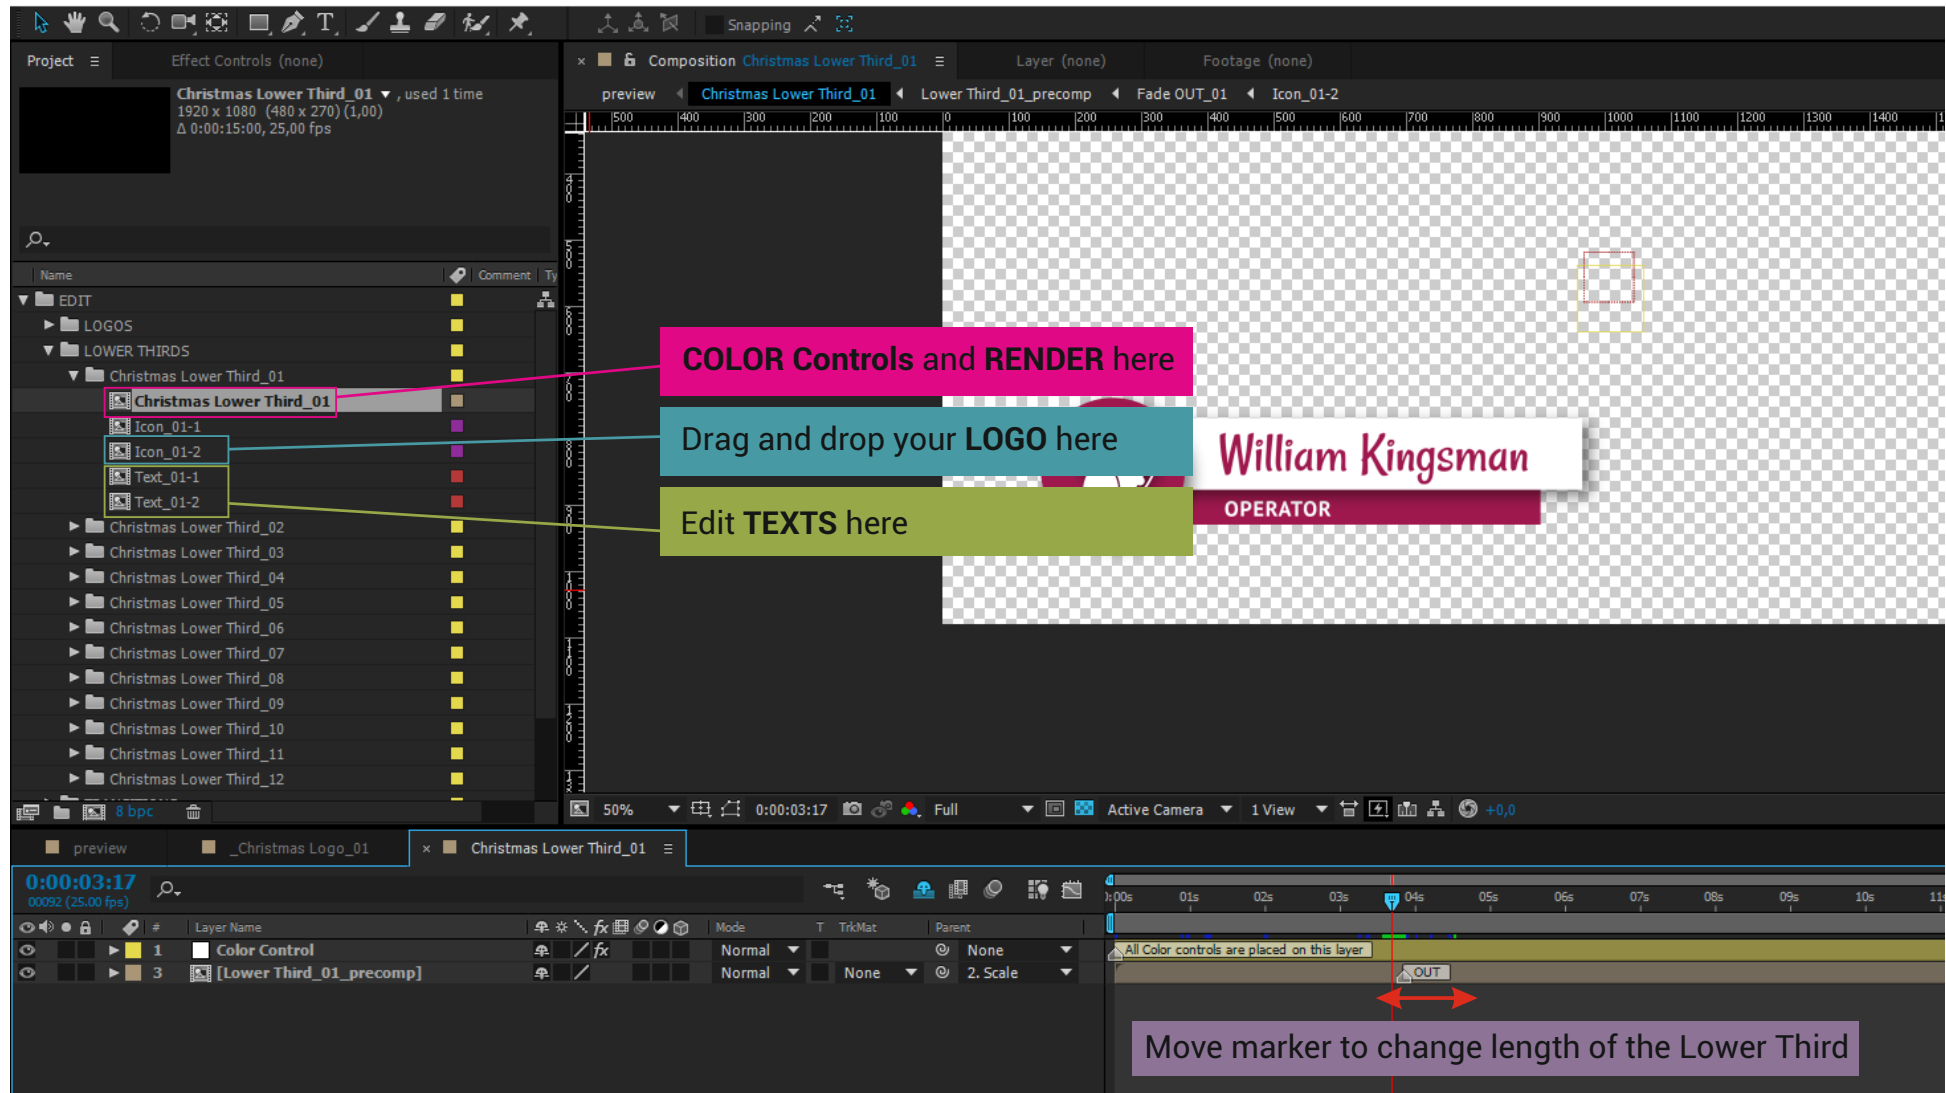

- put your LOGO in comp "Logo_##"
- edit text in comps "Text_##-1" and "Text_##-2"
- choose layer "Color Control" in comp "_Christmas Logo_##" and go to **Effect Controls Panel** to change colors.

EDITING LOWER THIRDS

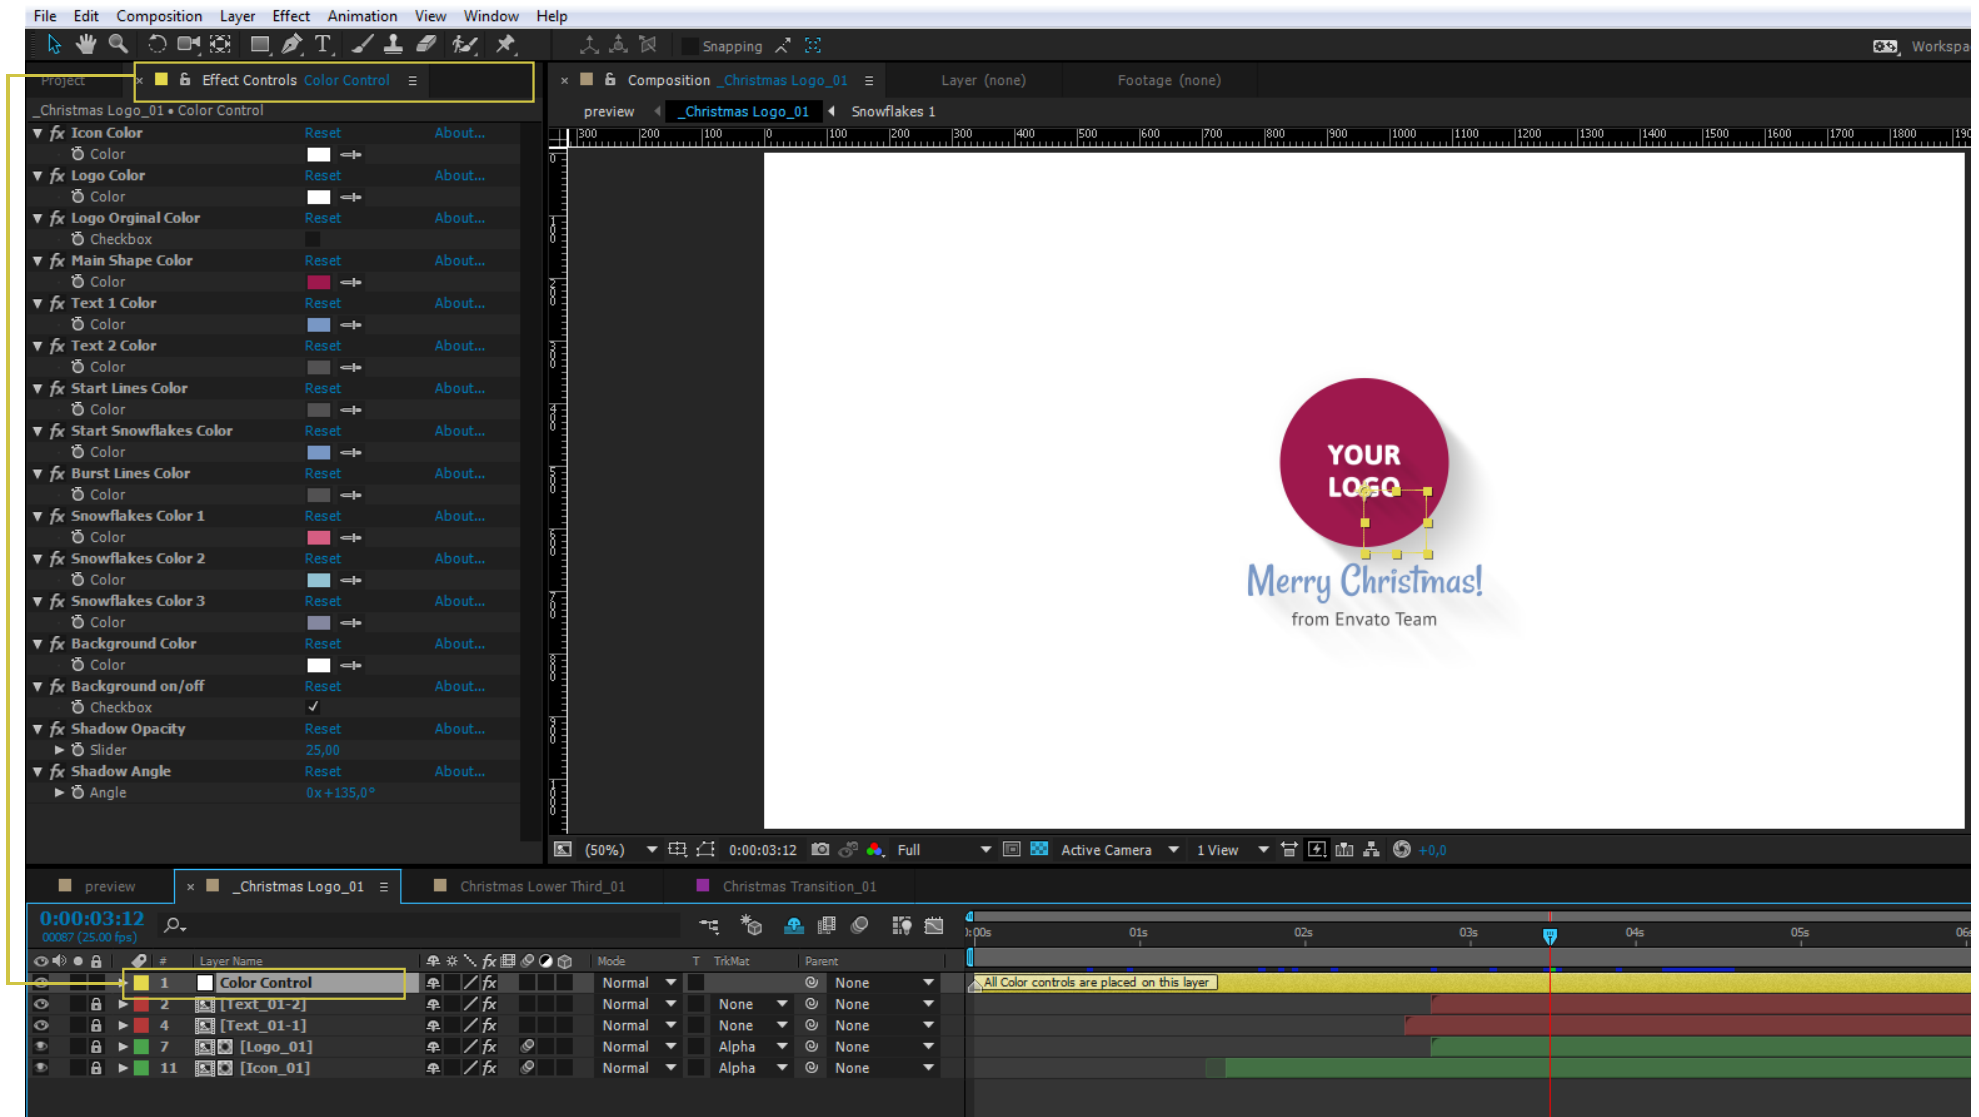

Go to folder "EDIT" - "LOWER THIRDS" - "Christmas Lower Third_##":

- put your LOGO in comp "Icon_##-2" if you need
- edit text in comps "Text_##-1" and "Text_##-2"
- choose layer "Color Control" in comp "Christmas Lower Third_##" and go to **Effect Controls Panel** to change colors.

COLOR CONTROLS for LOGO

- Open comp "_Christmas Logo_###"
- Choose layer "Color Control", right click on layer and choose "Open Effect Controls".
- Click color you want to change and change it in **Color Picker**.

COLOR CONTROLS for LOWER THIRDS

- Open comp "Christmas Lower Third_###"
- Choose layer "Color Control", right click on layer and choose "Open Effect Controls".
- Click color you want to change and change it in **Color Picker**.
- You can also change **Shadow opacity**, **size** and **position** of the Lower Third.

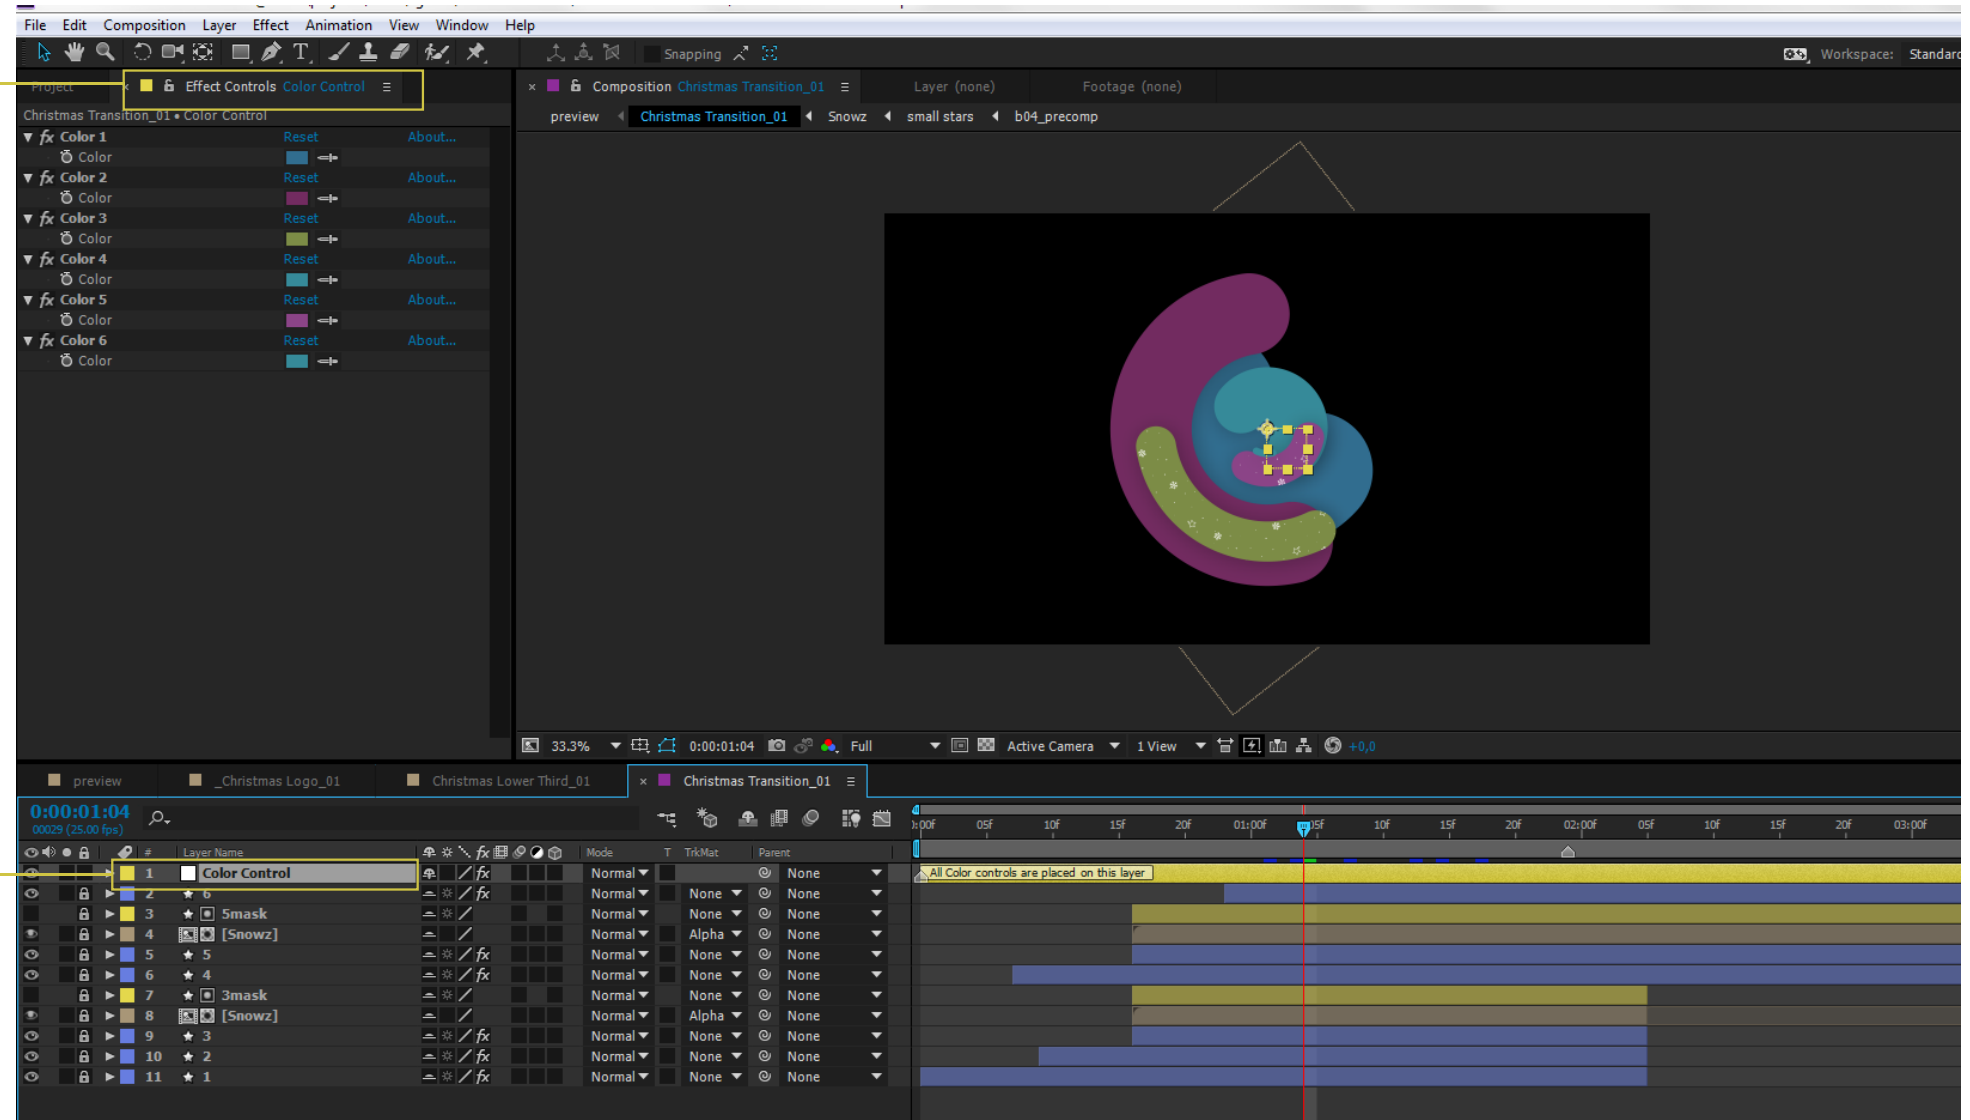

The screenshot displays the Adobe After Effects interface. On the left, the 'Effect Controls' panel for the 'Color Control' effect is visible. It lists various properties with 'Reset' and 'About...' buttons:

- fx Color 1**: Color (red), Reset, About...
- fx Color 2**: Color (white), Reset, About...
- fx Icons Color**: Color (white), Reset, About...
- fx Logo Original Color**: Color (white), Reset, About...
- fx Text 1 Color**: Color (red), Reset, About...
- fx Text 2 Color**: Color (white), Reset, About...
- fx Small Snowflakes Color**: Color (white), Reset, About...
- fx Shadow Opacity**: Slider (50,00), Reset, About...
- fx Lines Width**: Slider (70,00), Reset, About...
- fx Small Snowflakes Position**: Slider (1105,00), Reset, About...
- fx Size**: Slider (75,00), Reset, About...
- fx Position Horizontal**: Slider (970,00), Reset, About...
- fx Position Vertical**: Slider (520,00), Reset, About...

On the right, the 'Composition' window shows a lower third graphic for 'William Kingsman OPERATOR'. The graphic consists of a circular logo with a bell icon and a white text box with the name and title. A yellow box highlights the 'Color Control' layer in the timeline, with a note stating 'All Color controls are placed on this layer'. A yellow box also highlights the 'Color Control' effect controls panel. A green box highlights the 'Text 1 Color' and 'Text 2 Color' properties, with a note stating 'Change these if you need to feet the Text Lines to the text'. A red box highlights the 'Position Horizontal' and 'Position Vertical' properties, with a note stating 'Change the size and the position of the whole Lower third'.

COLOR CONTROLS for TRANSITIONS

- Open comp "**Christmas Transition_##**"
- Choose layer "**Color Control**", right click on layer and choose "**Open Effect Controls**".
- Click color you want to change and change it in **Color Picker**.

Thank You for purchase!
