

# **SOCIAL MEDIA** **LOWER THIRD**

By : adhan1901

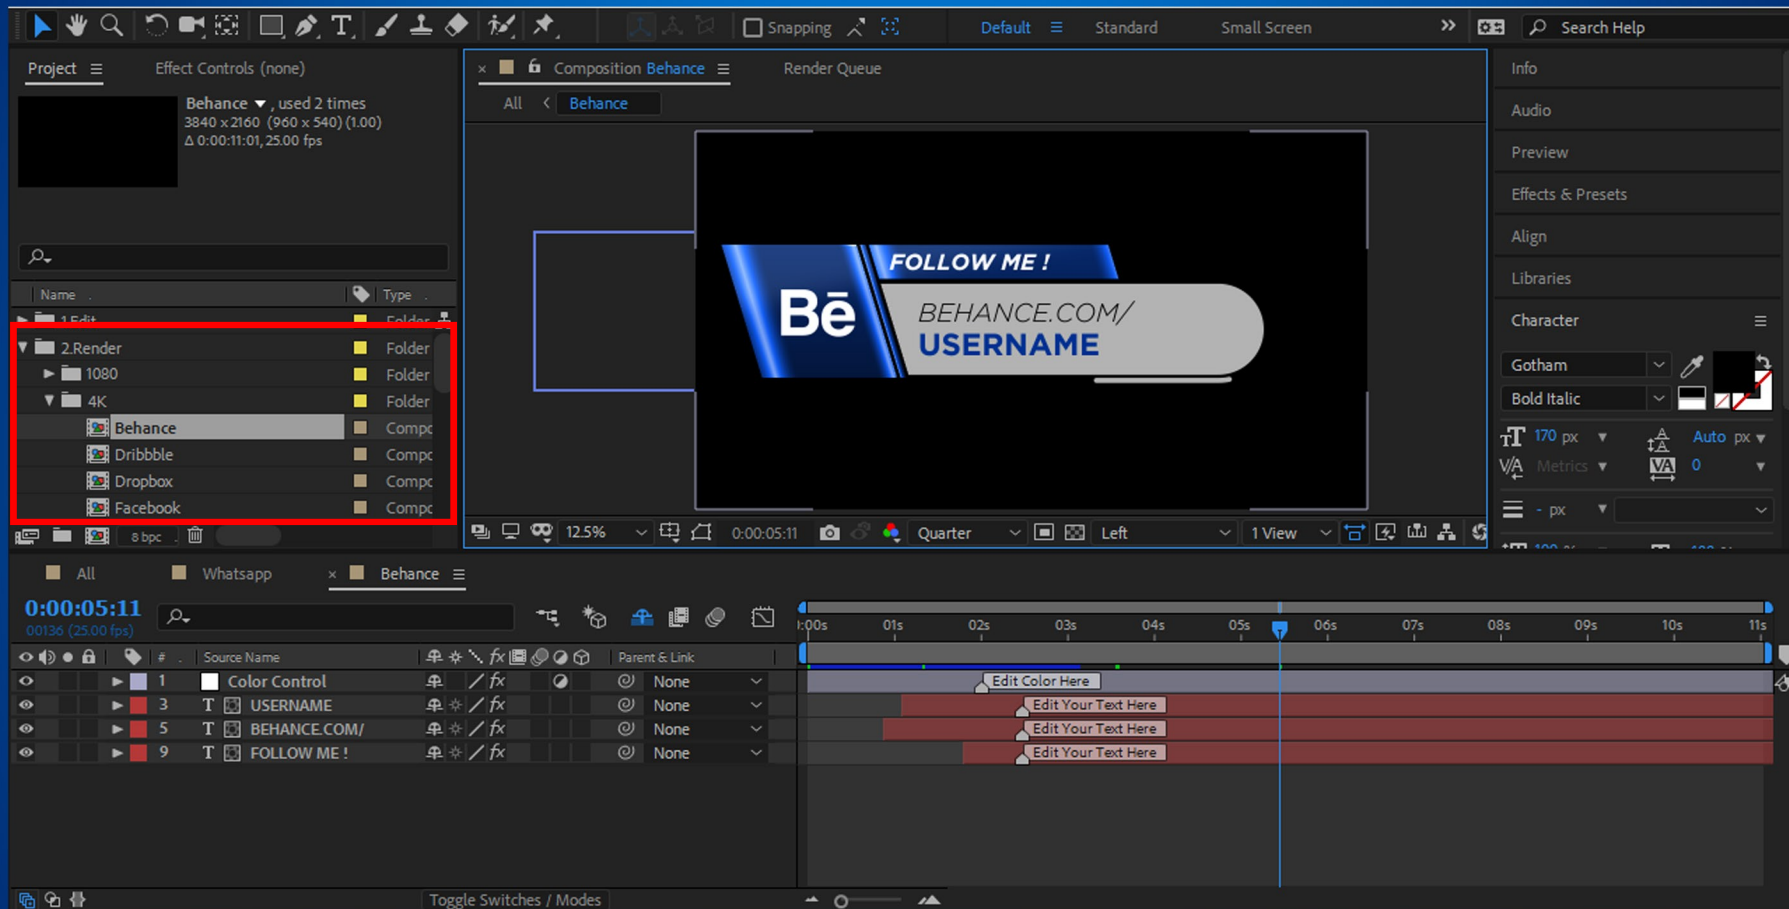

## **AFTER EFFECTS TEMPLATE**

to change the contents of this project, open folder “1.edit”, open composition “All”, then select and double click on the social media that you want to change

in the comp you selected, select the “color control” layer and look at the “Effect Controls tab”, here you can change the color. and to change the text please double click on the “text layer” then change it as desired

when finished, open the folder "2.render", there you will see 2 more folders, please specify the resolution to be used, then open the folder and select the social media to be rendered, finally you can render as needed.

**THANK YOU**
