Thanks for buying this template.

This **ADOBE AFTER EFFECTS CC 2019 & PREMIERE PRO CC 2019** project is very easy to customize.

---

The font is available for free download here :

<https://www.fontsquirrel.com/fonts/montserrat>

The audio is available here :

<https://audiojungle.net/item/becoming/26267> by the author “bluegestalt”

---

The zip contains

After Effects project file **“Elegant Opener Slideshow (After Effects CC 2019)”** – **After Effects CC 2019** required to edit this project.

Use this AEP file to place your logo and footage media (image or video) to the placeholders in the AEP file.

The first 5 steps in the following screen shots will discuss about how to place the footage in AEP file.

Then you have to export a new MOGRT template file and use it in PREMIERE PRO to edit the text and others.

In the remaining steps you will know how to edit the MOGRT files in **ADOBE PREMIERE PRO CC2019**

Also we kept one Mogrt project file **“Elegant Opener Slideshow\_Mogrt”** – **Premiere Pro CC 2019** required for your reference.

If you want you can use this MOGRT file and create a title sequence with different color in Premiere Pro CC 2019.

Please check the images in the following pages which will help you in customizing the project.
