

Hello! Thank you for purchasing this project.

All editable comps are open by default.
But if you close them, you can find them in
"Project" window in "1. Edit" Folder.

Logo, texts, icons and backgrounds

Drop your logo In composition called "Logo"
or go to "Icons" and choose icon which you need
by press on "Eye" beside the icon.

To change the scale press "s".

Then, open composition "Text". Here you need
click twice on the text layer and write your text.
If you use photo or video as a BG, open
"Background Image" and drop you footage here
and hide "background" layer (press on "Eye").

Also you can make transparent BG.

Customization & Render

Open "Final Comp" and click on
"Control Layer". Go in "Effects Control"
window. Here you can change all what
you need.

When you finish, just add "Final Comp"
to Render Queue.
