Product Installation

As this product is MOGRT files, you need to install them into your Adobe Premiere Pro Essential Graphics. Follow these steps to install it.

1. Unzip all files.
2. Open your Adobe Premiere Pro
3. Create new project or Open your existing project.
4. Click **Window** on menu bar, then click **Essential Graphics**.

Click Window

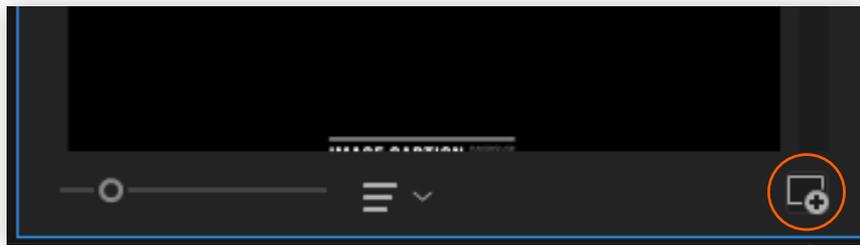

Click Essential Graphics

Product Installation (cont'd)

5. Essential Graphics panel will appear. Normally it appears on the right side of your workspace.
6. Click **plus (+) button** at the bottom of the Essential Graphics panel.

Click Plus Button

7. Locate the MOGRT files and **click Open**.
8. Your MOGRT template will appear on the Essential Graphics panel.

Or you can import multiple MOGRT files at once by copying files into your local templates folder directly.

Local Templates Folder location:

macOS

username/Library/Application Support/Adobe/Common/Motion Graphics Templates/

Windows PC

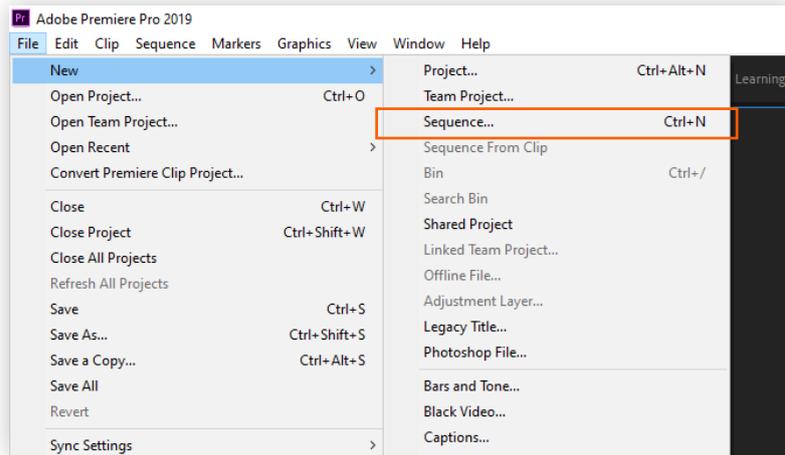

root://Users/username/AppData/Roaming/Adobe/Common/Motion Graphics Templates/

Use and Edit MOGRTs

After you finished import or install MOGRT into your Essential Graphics panel, the MOGRT will appear on Essential Graphics panel.

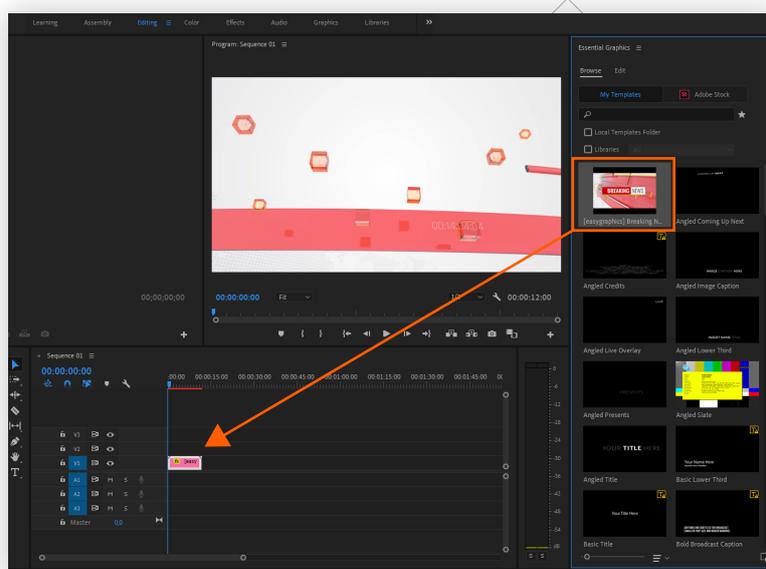

1. Create new Sequence or Open your existing sequence.

Click File > New > Sequence

2. Drag the MOGRT template from Essential Graphics panel to your timeline. Then click your MOGRT on timeline and edit panel will appear on the Essential Graphics Panel.

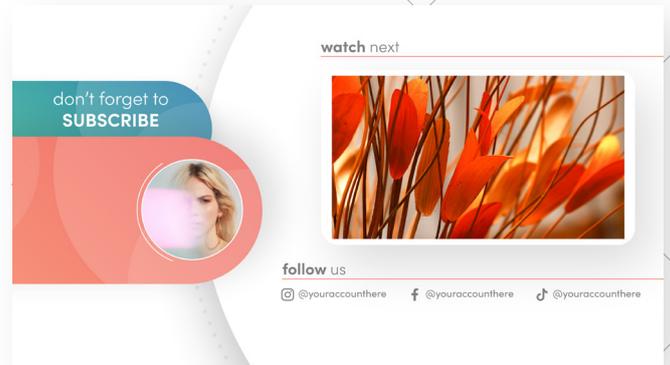

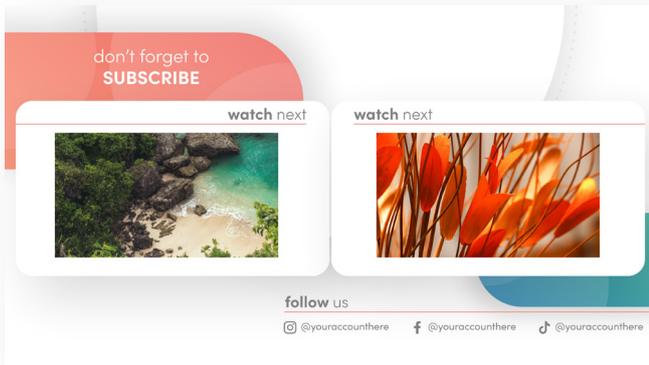

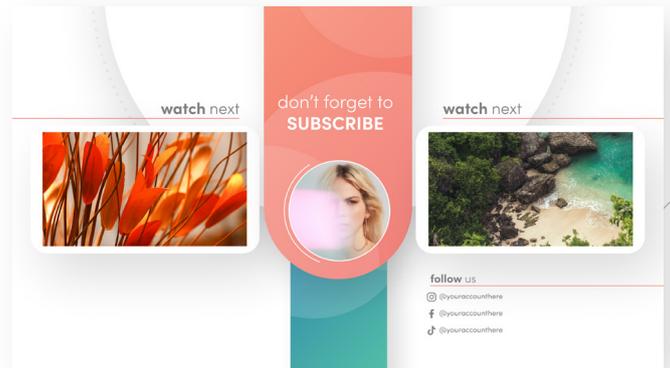

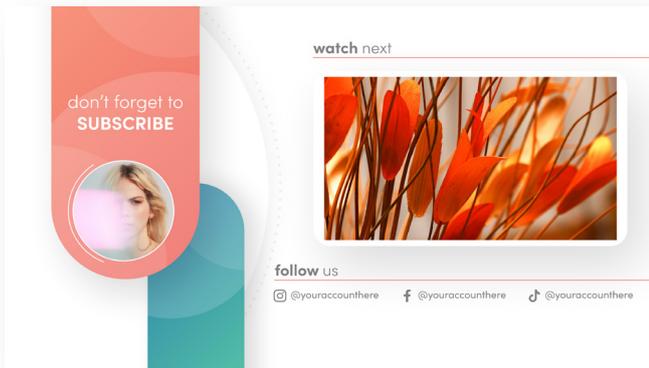

(Note: If you can't drag into timeline, please update your Adobe Premiere Pro to latest update.)

Tips

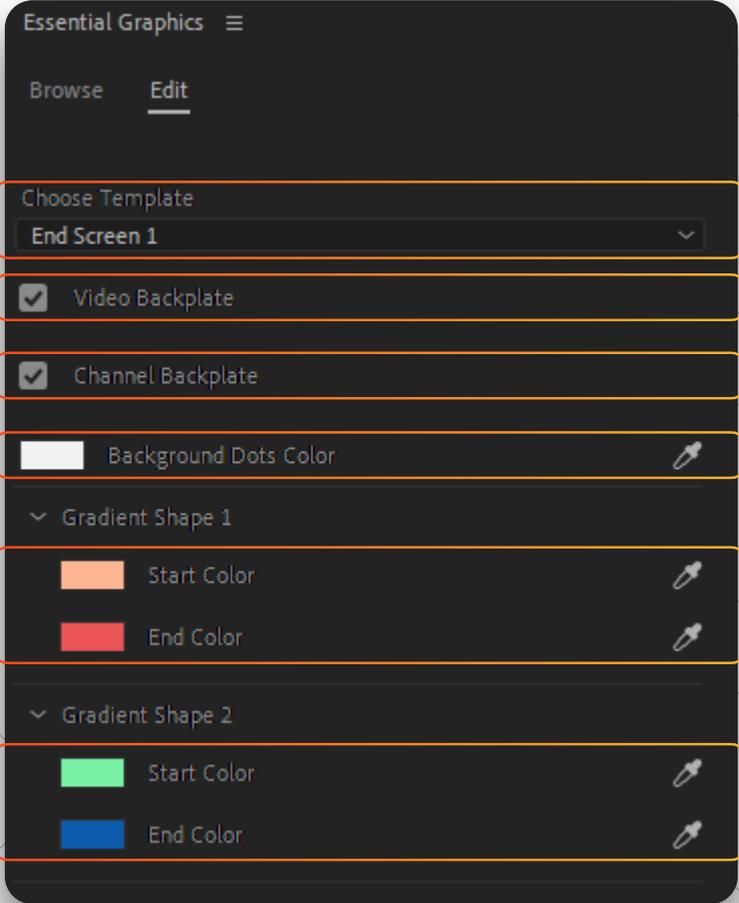

All the images are demonstration only. If you want to add your image, please refer to Youtube End Screen editor. For further information please visit <https://support.google.com/youtube/answer/6388789>.

If you want to change the gradient color with perfect combination, you can visit <https://uigradients.com/> for the palettes.

Master Controller

Description

The screenshot shows the 'Essential Graphics' interface with the 'Edit' tab selected. The interface is annotated with lines pointing to various controls:

- Choose template version:** Points to the 'Choose Template' dropdown menu, which currently displays 'End Screen 1'.
- Enable/disable Video Backplate:** Points to the 'Video Backplate' checkbox, which is checked.
- Enable/disable Channel Pict Backplate:** Points to the 'Channel Backplate' checkbox, which is checked.
- Change dots color:** Points to the 'Background Dots Color' color selection area, currently showing white.
- Modify gradient color on Shape 1:** Points to the 'Gradient Shape 1' section, specifically to the 'Start Color' (orange) and 'End Color' (red) swatches.
- Modify gradient color on Shape 2:** Points to the 'Gradient Shape 2' section, specifically to the 'Start Color' (green) and 'End Color' (blue) swatches.

Color

The image shows a dark-themed control panel for text. At the top, there's a 'Text Lines Color' control with a red color swatch and a pencil icon. Below it is a section for 'Text 1 Properties' containing a text preview area with the text 'don't forget to SUBSCRIBE'. Underneath is the 'Text Properties' section, which includes a font family dropdown, a font size dropdown, and a font size slider set to 355. Below that is the 'Position' section showing X and Y coordinates (1920,0 and 1000,0). At the bottom is the 'Color' control with a white color swatch and a pencil icon. Orange lines connect the text labels on the left to their respective controls in the interface.

Change Text color

The screenshot shows a dark-themed control panel for social media. It features several sections: 'Enable Social Media' with a checked checkbox; 'Header' containing 'Source Text' (follow us) and 'Text Properties' (font, size, styles); 'Social Media 1' containing 'Enable' (checked), 'Icon' (Instagram), 'Icon Color', 'Text' (@youraccountthere), and its own 'Text Properties' (font: Sofia Pro, size: 199). Orange lines connect descriptive labels on the left to these specific UI elements.

Frequently Asked Questions (FAQ)

Q: My MOGRT can't drag into timeline, the cursor show hand with cross sign.

A : Update your Adobe Premiere Pro 2020 to latest update. Because there are some bug with MOGRT on the earlier version of Adobe Premiere Pro 2020.

Q: How to resize the template to 720p or 1080p version?

A : Click on the MOGRT at your timeline, and click Scale to Frame Size.

Q: Is this template worked on Final Cut Pro X, Camtasia, or Edius?

A : MOGRT Files only worked on Adobe Premiere Pro CC.

Q: How to see my Adobe Premiere Pro version?

A : You can see your Adobe Premiere Pro version through Help at menu bar and click About Premiere Pro

Q: How to make perfect gradient colors?

A : If you want to change the gradient color with perfect combination, you can visit <https://uigradients.com/> for the palettes.
