Project: Untitled ≡   Media Browser   Libraries

Untitled.prproj

🔍

1 Item

Sequence 03   0;00

Step 6:

From "Graphics" Menu Select "Install Motion Graphics Template"
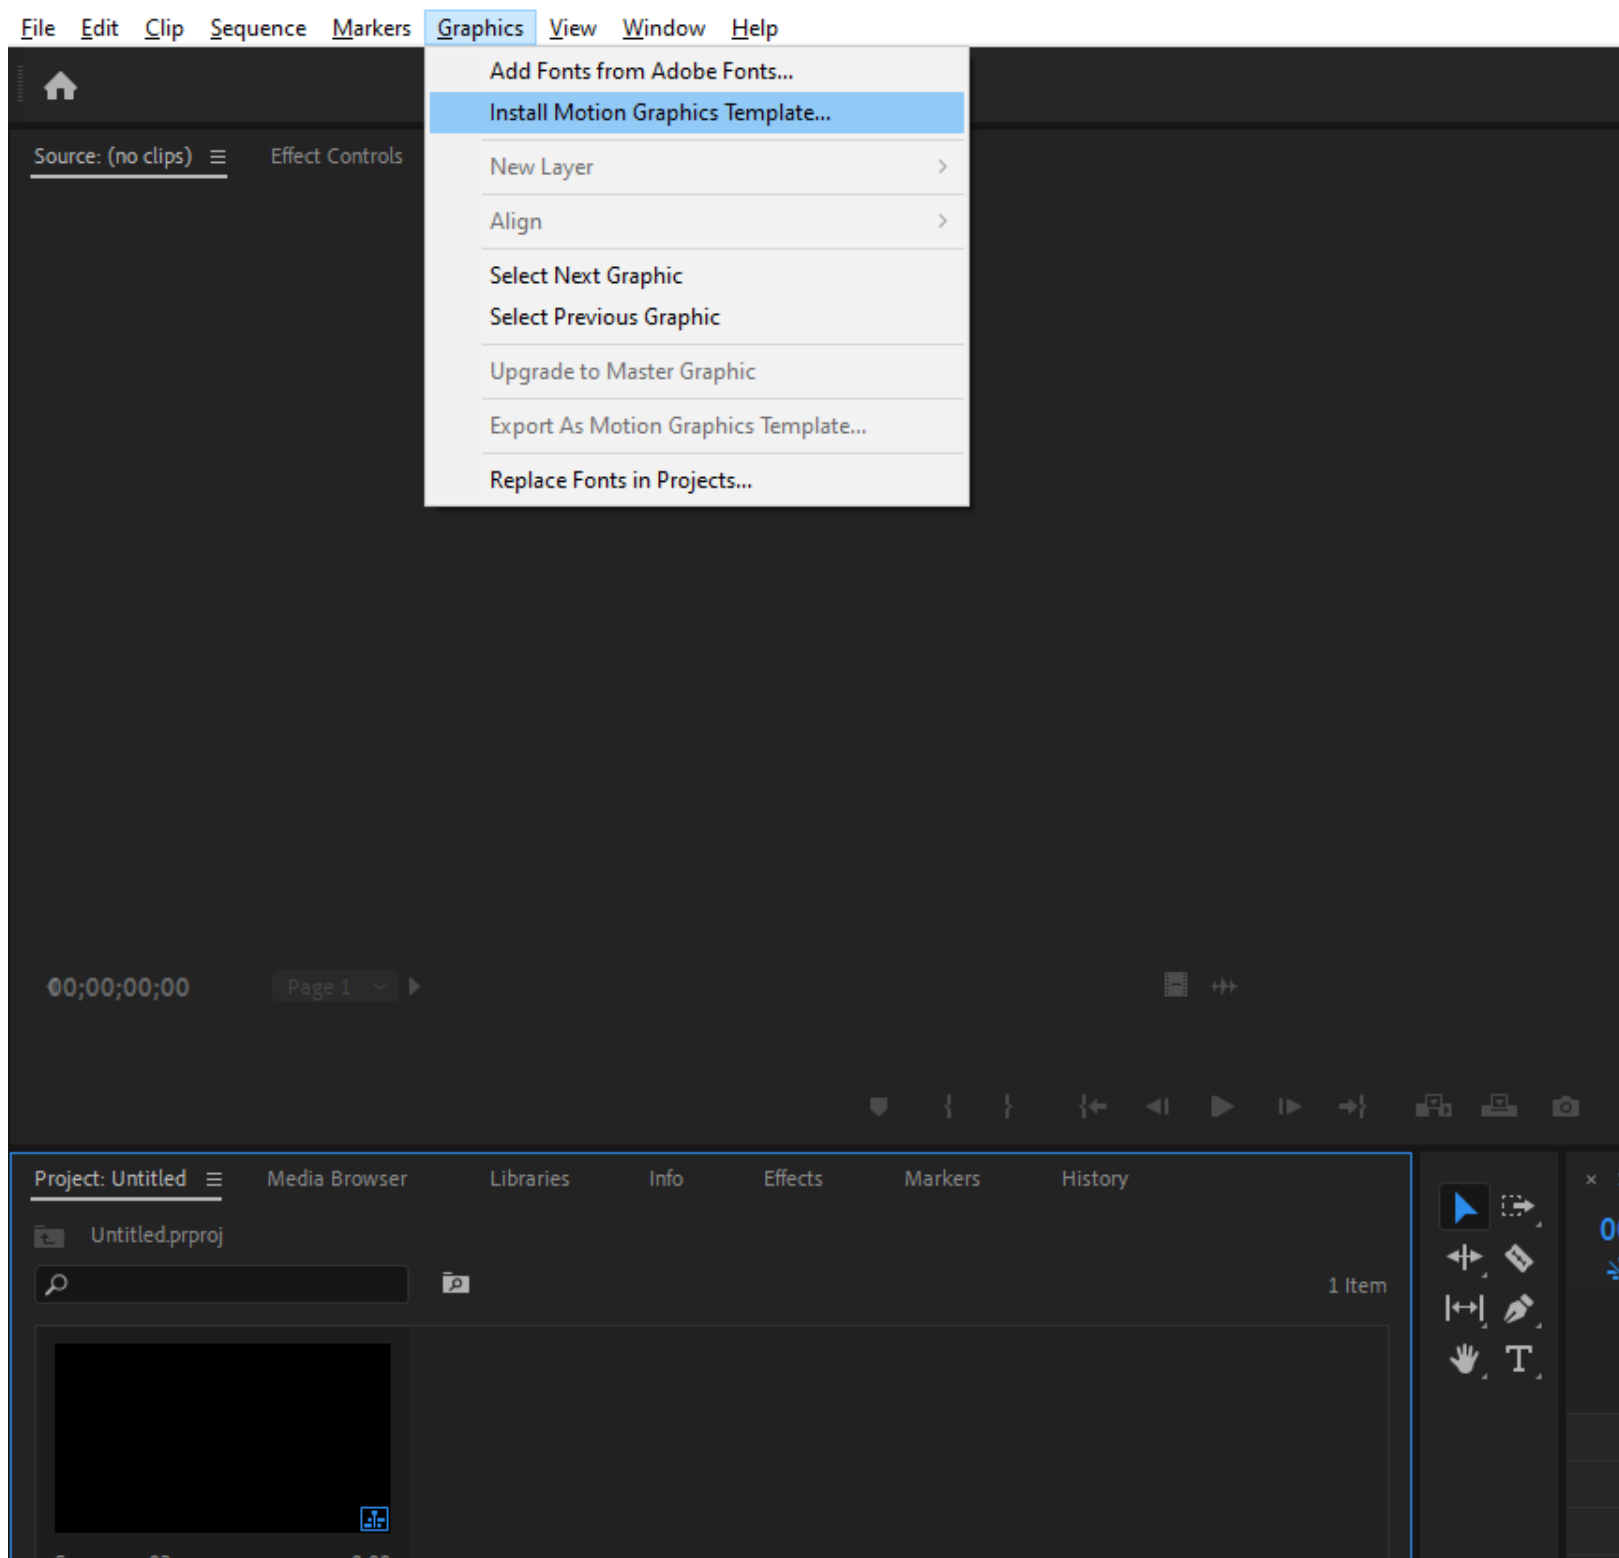

Step 7:

Unzip the Project downloaded from Videohive and Open the the Mogrt files

Double click the saved mogrt file to install

Install all 3 Mogrt projects in the Same method

Step 8:

Mogrt files will be installed in Essential Graphics, It may take few minutes to shown up in the panel

**You can search and find using the project name for easy navigation**

You can also search using the few words of project name (USA) here

Search "USA" as a word in the search box, Your installed .mogrt files (3 Projects) will show up

Step 9:

**Drag and drop the installed file from Essential Graphics panel to a Timeline,
Select the required option in the Pop up Window**

Drag the installed Project and drop
It in a timeline

Drag and drop the required projects
from Essential Graphics panel to a
timeline

Step 10:

Now you can edit the Project using Essential Graphics Panel, Edit the Text, Change font as required, Font Size can be changes, Position can be adjusted in the same Panel

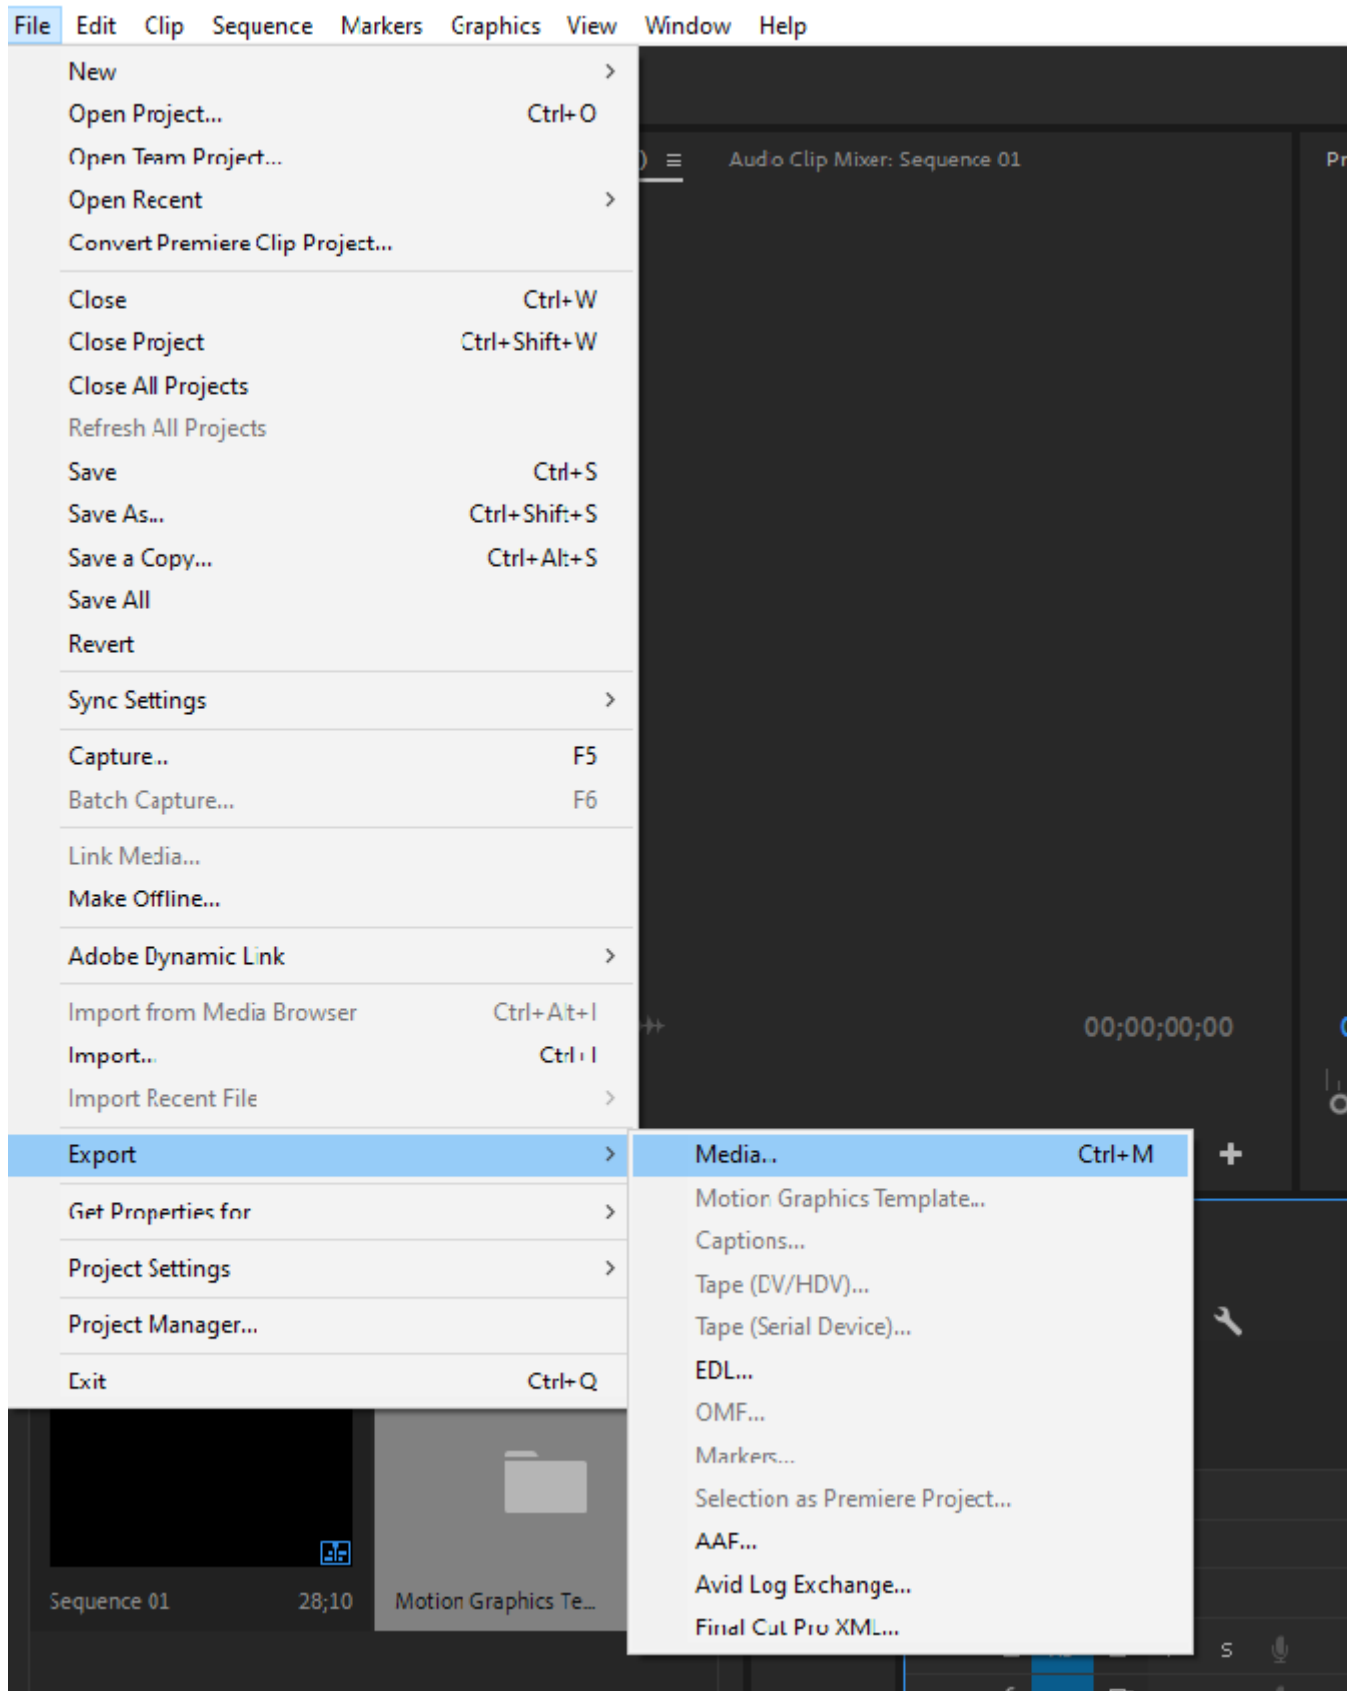

Select the Project in timeline

Edit your Text and its Parameters here
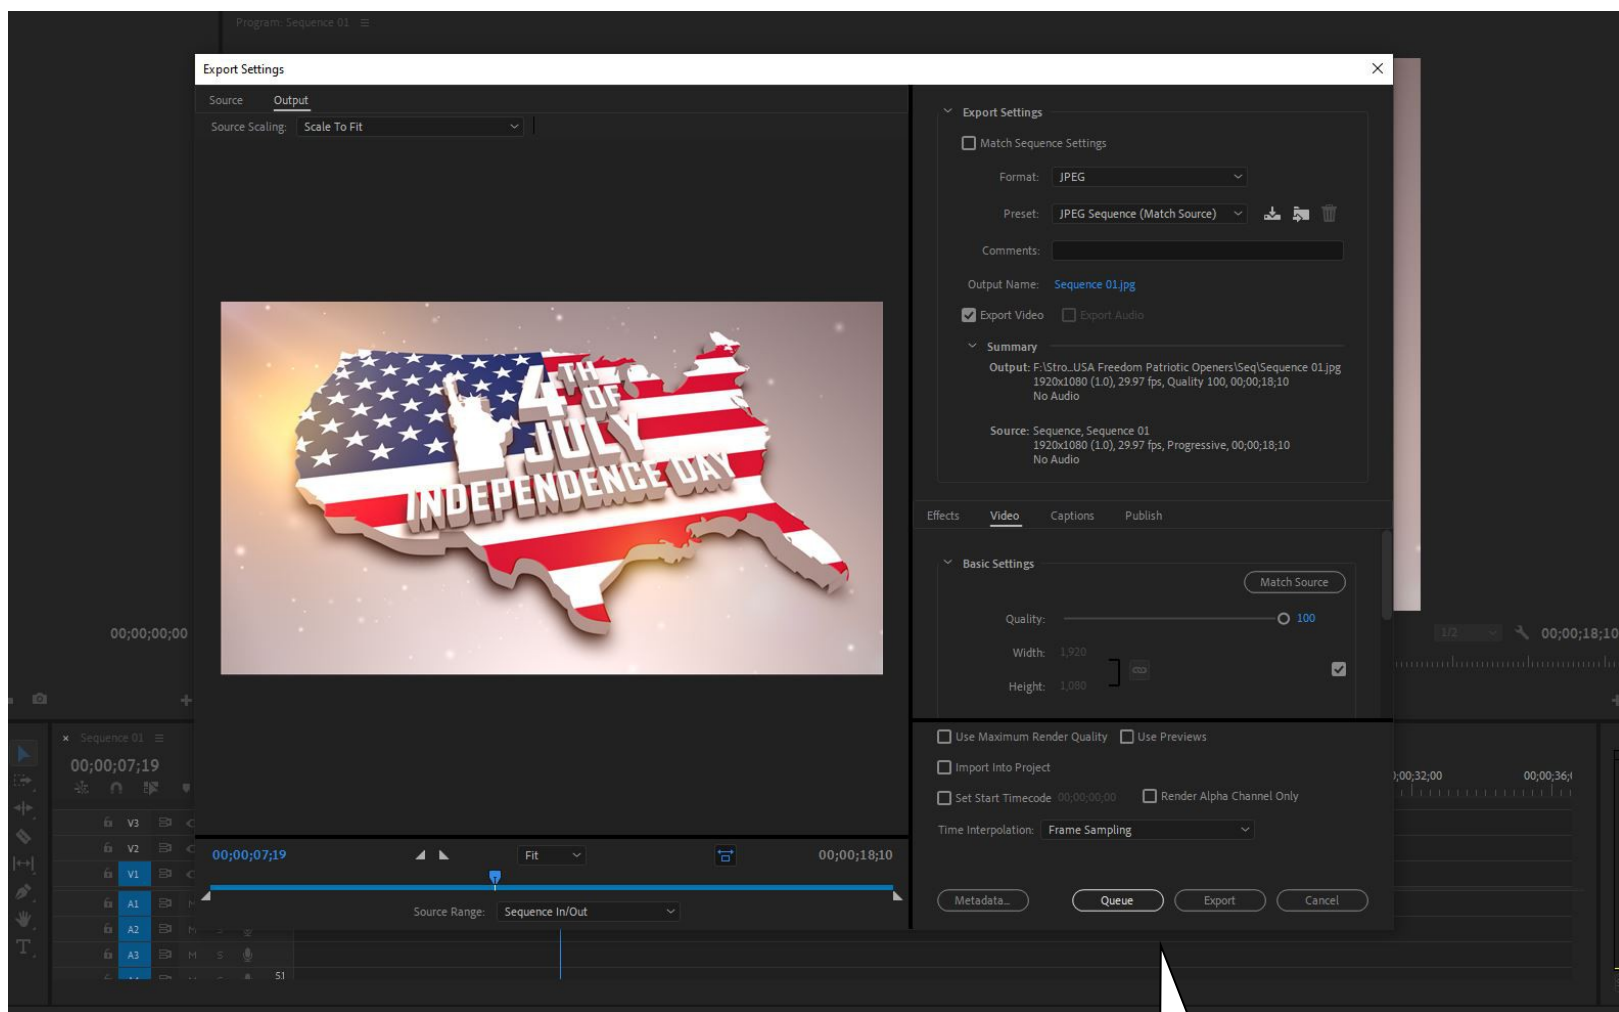

You can edit all 3 Projects with the same method

Step 11:

Export the media after customization, Open File menu, Select "Export" and select "Media"

Step 12:

Select the Video and Audio format as required and press Export for Final output

Set the required format here and Export
