## Instruction Steps

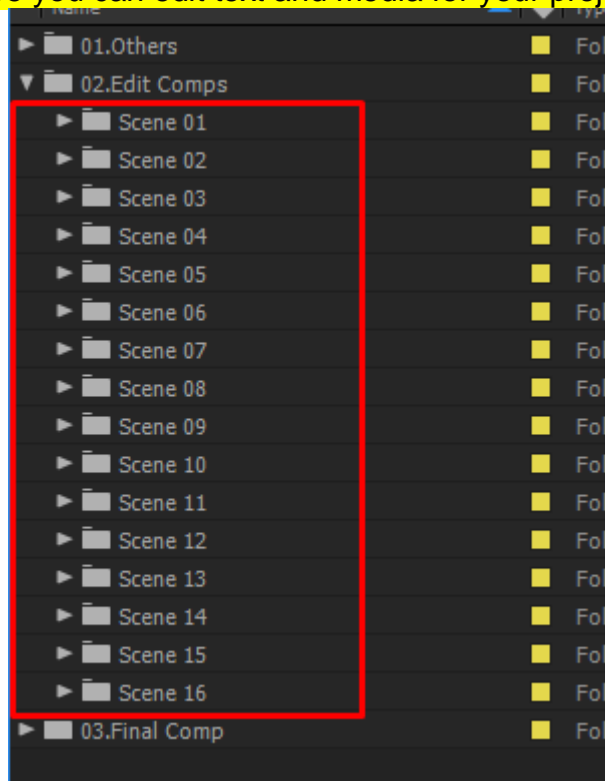

Adobe After Effects CS 6 (software) or newer version ( CC 2019) required to open and edit the template file.

### First download font and install

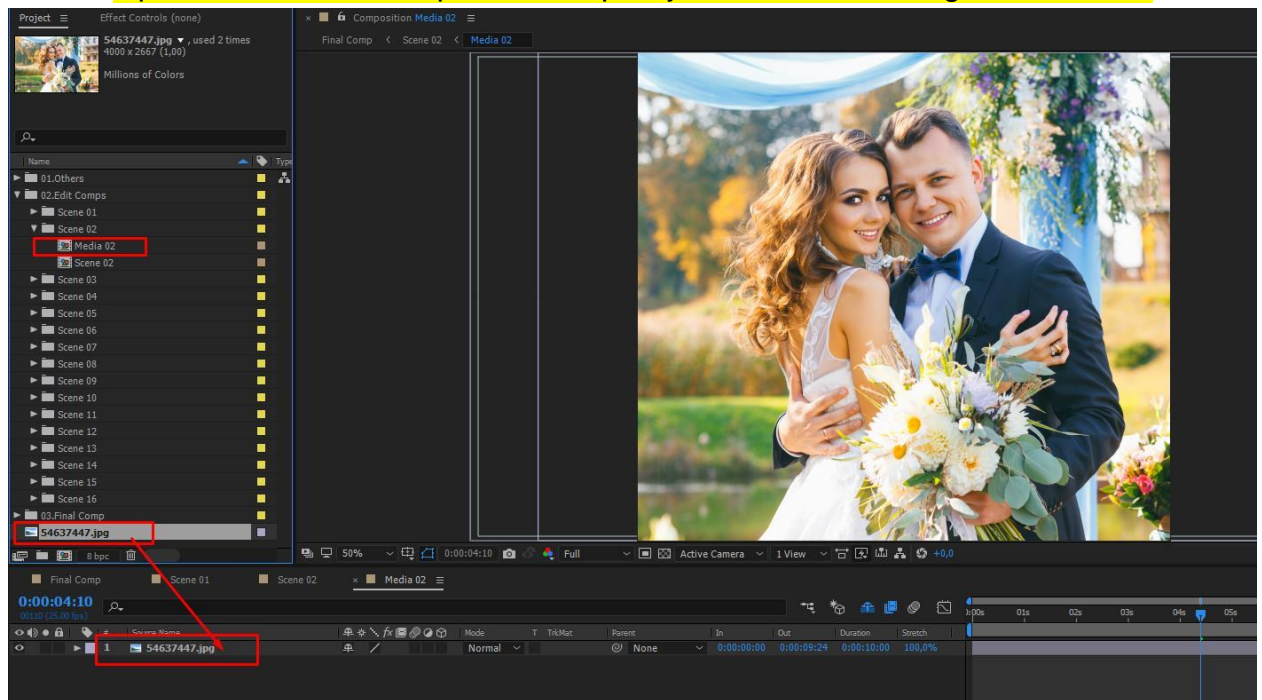

-----Here are a few instructions that will help-----

Folder "02. Edit Comps"

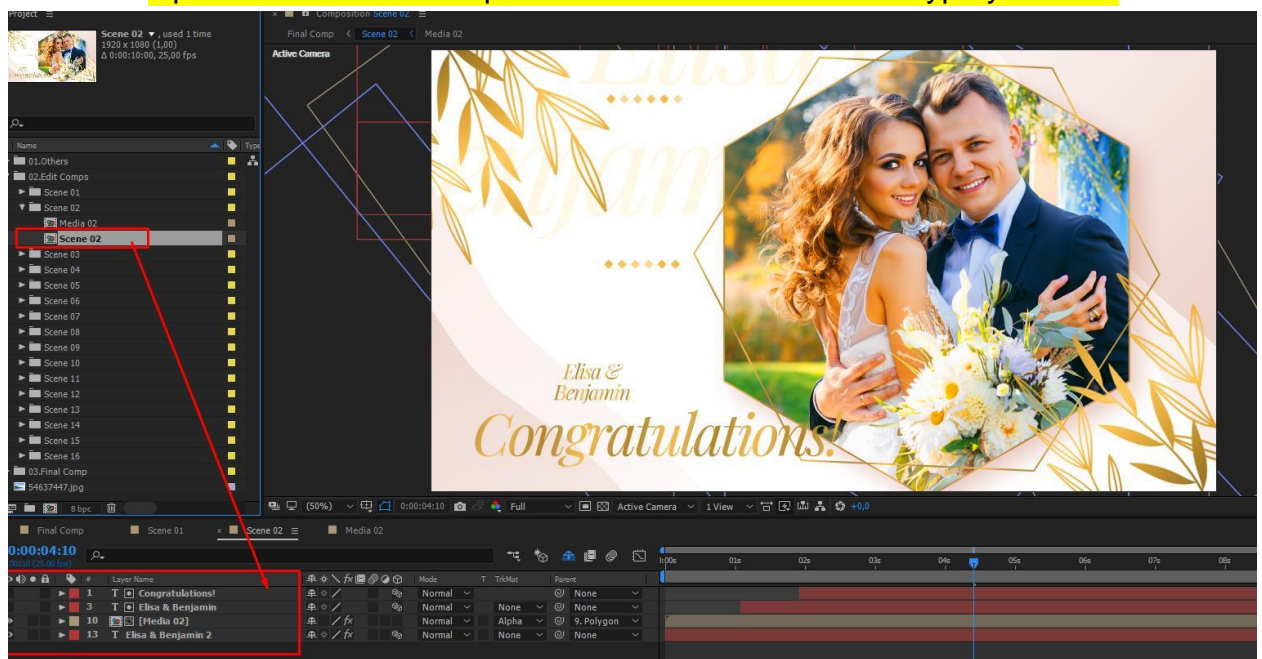

Here you can edit text and media for your project .

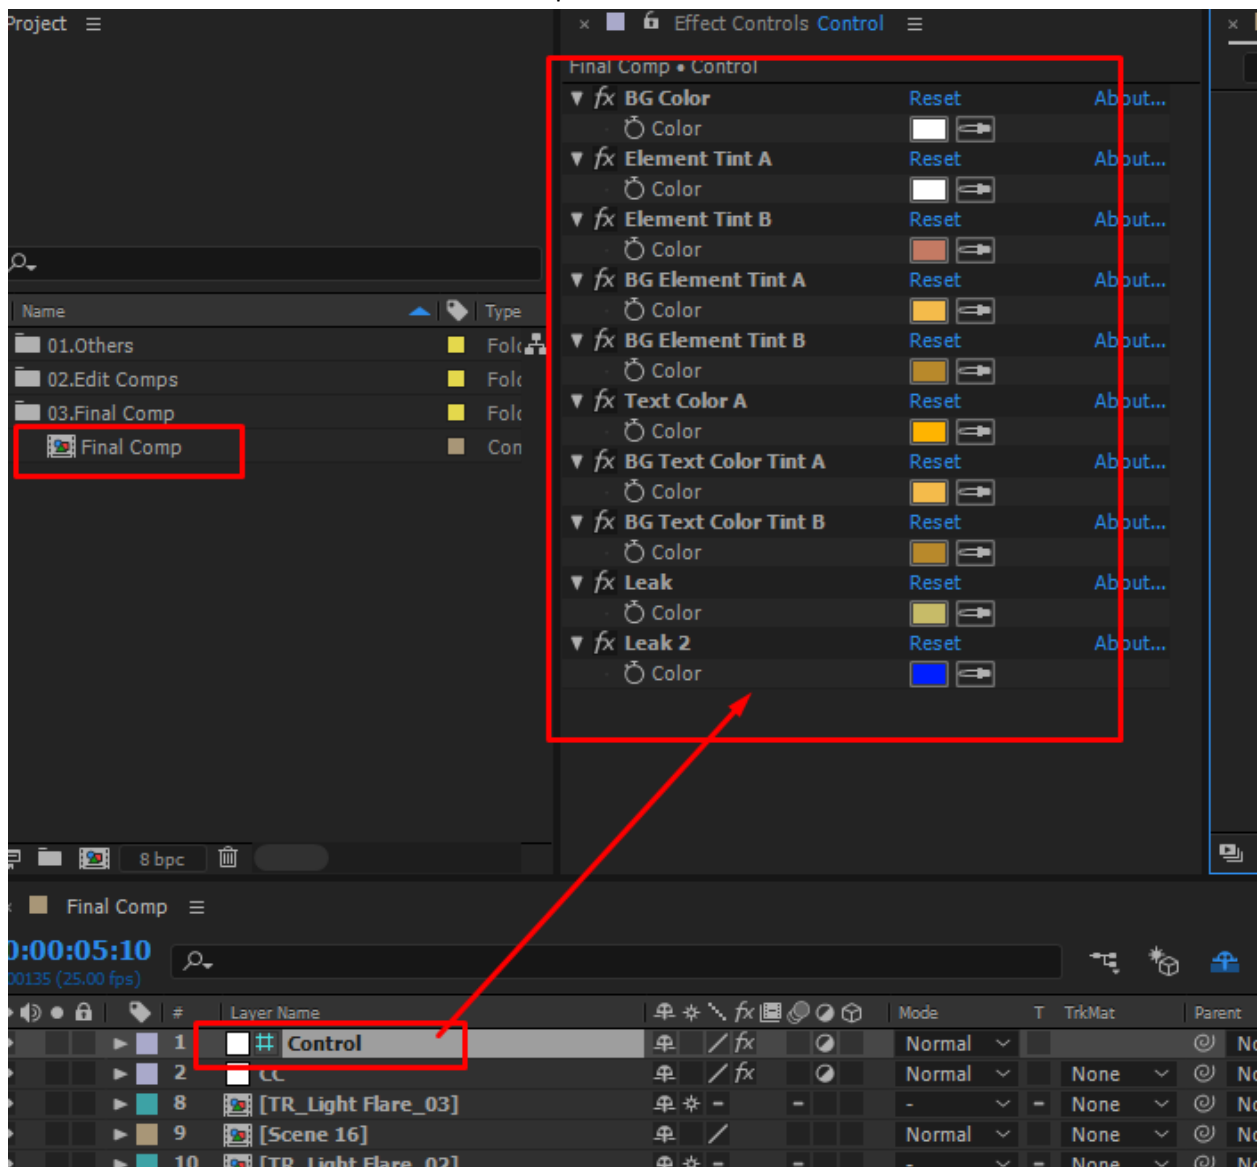

Open “Media ##” composition. Import your media and drag into timeline.

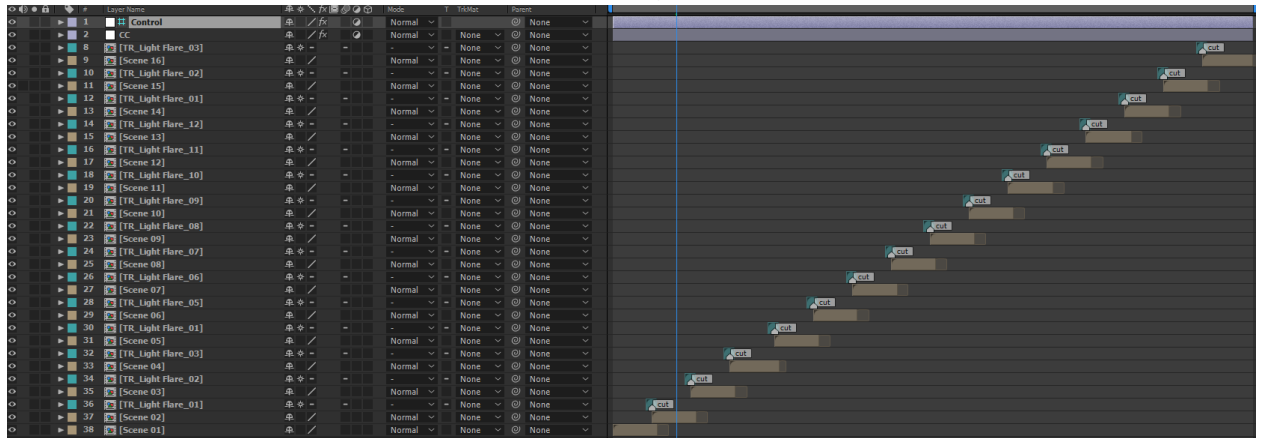

Open “Scene ##” composition. Double click text and type your text.

**You can edit color on “Control” panel** After Effects must have keyframes selected from one layer in order to export them as text. After Effects must have keyframes selected from one layer in order to export them as text.

## Modular Structure. You can change duration and scene position

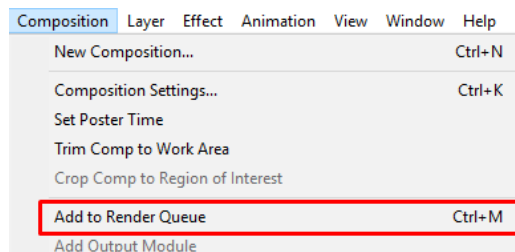

## AUDIO

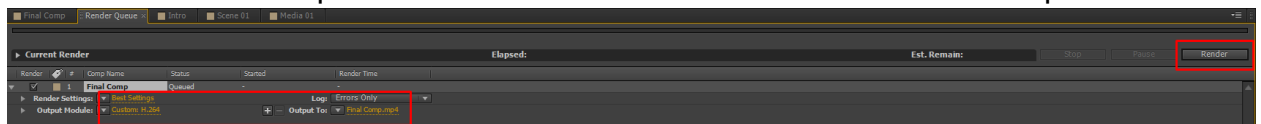

In After Effects click on the menu option: File > Import > File (search the audio file, click on it, then click Open). Open the "Final Comp" folder. Open the composition Final Comp. Drag and drop your audio in this composition.

## RENDER VIDEO

Open "Final Comp" composition. click on the menu option Composition > Add to render queue

Select the desired output format and the video location. Click on Render option.
