# Thank you!

Thank you very much for purchasing this template.

The typeface used in the project file can be downloaded here for free:

https://www.fontspace.com/waukegan-ldo-font-f1682

The SoundFX are included for free, the Sound by MatSteiner you heard in preview can be found here:

https://audiojungle.net/item/fire-glitch-explosion-logo/26945313

**How to customize the template:**

Please read the helpfile.pdf for instructions on how to customize this project.

**Please don't forget to rate your purchase:**

You probably hear this a lot from authors, but it really does help us to get our work noticed. I would greatly appreciate it if you would take a moment (if you haven't already) to rate your purchase.

To rate an item simply navigate (when logged into your Videohive account) to the menu at the top right of the page and select "downloads". It will then bring up your recent downloads where you can rate each item.

If you have any questions or problems with the customization of this project, feel free to contact me via my videohive profile.
