MOTION MEDIA GROUP

California | Retro Opener

After Effects template for making an energetic opener, cheerful YouTube intro. Publish it on your TV channel, website, social media, Vimeo or YouTube channel.

Feel the retro vibes through the muted colors, bold typography and eye-catching flat shapes: stars, round and toothed shilds, graphic eyes and splashes of lightning. They float and rotate around the text to highlight your message. The bolden retro font is perfectly combined with the color palette to express the vintage-inspired spirit.
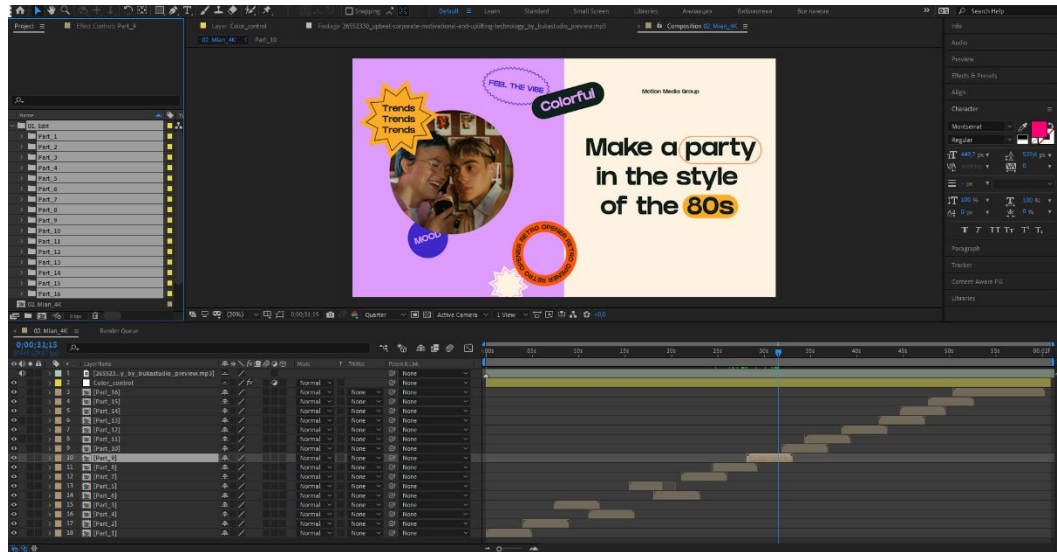

Project features:

- Color control
- 4K and Full HD
- Fast render
- 100 % After Effects
- After Effects CC18 and above
- No plugins required
- Photos are not included

How to edit a project.

1) To edit a project, open the Edit folder. In it, you will see compositions with text and images that you can change. All of them are marked on the timeline, so you can edit the project sequentially and not get confused

2) for example, open the song Part_3. Text editing layers are highlighted in green. Double click and you will be able to enter your text. In addition, you can see the composition for your placeholder on the timeline or in the Part_3 folder. Open it to insert your photos or videos.

Other compositions in the project are edited using the same principle.
