# After Effects Template Tutorial
Thank you for downloading this After Effects template.
Please read this help file before starting.

1. install fonts from the links, if it is necessary.Font
https://www.fontsquirrel.com/fonts/montserrat
https://www.dafont.com/bignoodletitling.font
2. Open the project file in Adobe After Effects.

3. Adding placeholders (photo/video, audio, logo)

In the **"Cinematic Glitch Slideshow"** folder find **"01.Edit Comps"** folder: its contents can be changed.

Images folder include all media scenes of project
Text folder include all texts of project
Images folder include all logos of project

In the **"02.Final Comps"** folder your can find "Final Comp" composition, containing all scenes of project. From here your can make project render. The contents of folder **"03.Other"** should not be changed.

3.1 Adding photo/video

Here we work with **"01.Edit Comps"**/**media** folder

Open any media placeholder by double clicking and drag and drop your media on timeline

Hot key
S -skale
P- position
T- opacity

3.2 Adding text
Here we work with **"01.Edit Comps"**/**Text** folder

Open any text placeholder by double clicking and select text by double clicking, write your own text

Hot key
S -skale
P- position
T- opacity

3.3 Adding logo

Here we work with **"01.Edit Comps"**/**Images** folder

Open **Image 8 - Logo** logo placeholder by double clicking and drag and drop your logo on timeline
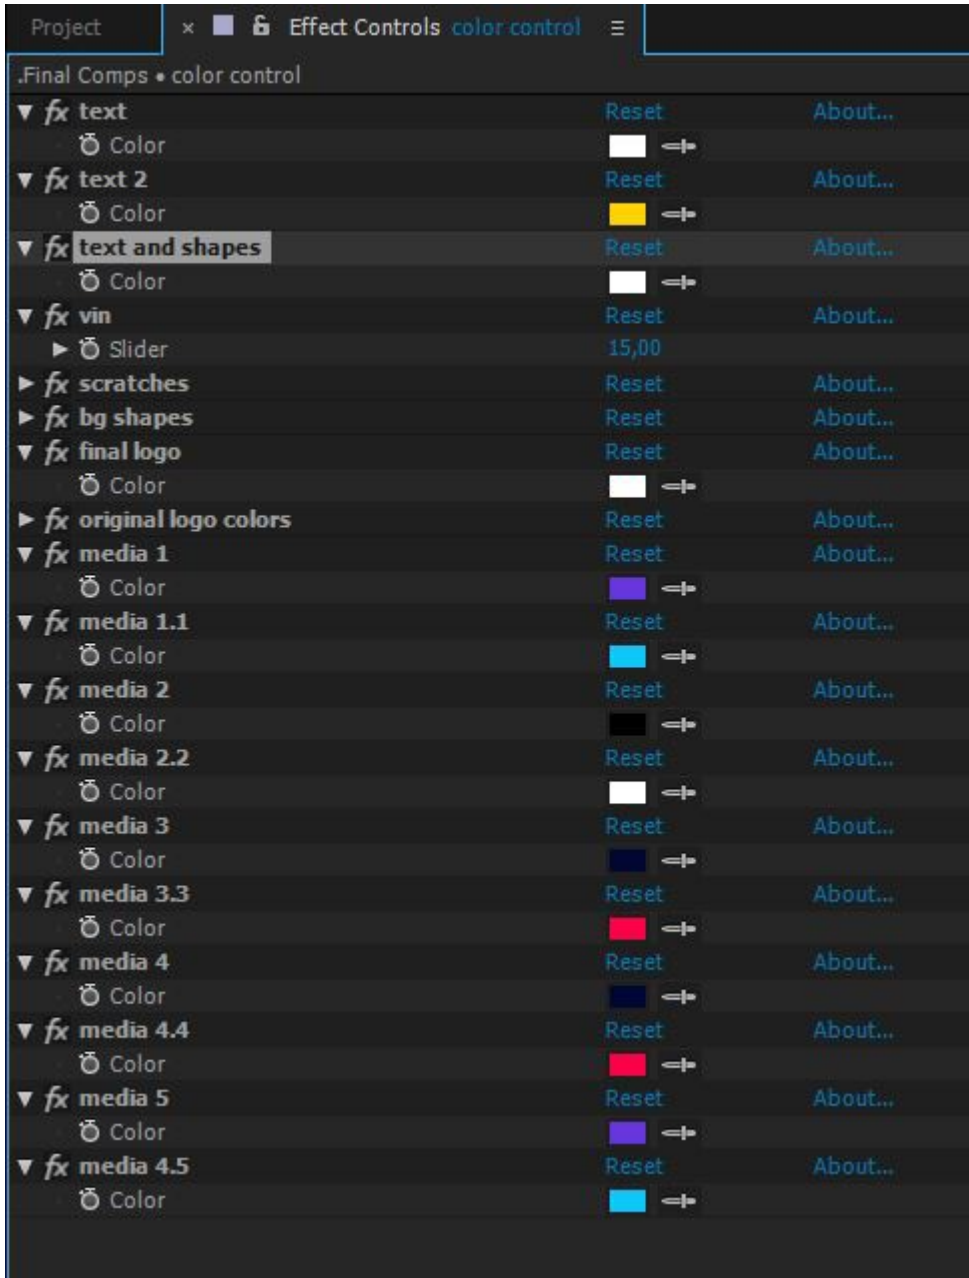

Hot key
S -skale
P- position
T- opacity

4. Scene Customization
