

Nature Spring Logo

Resolution : 1920x1080 Pixels

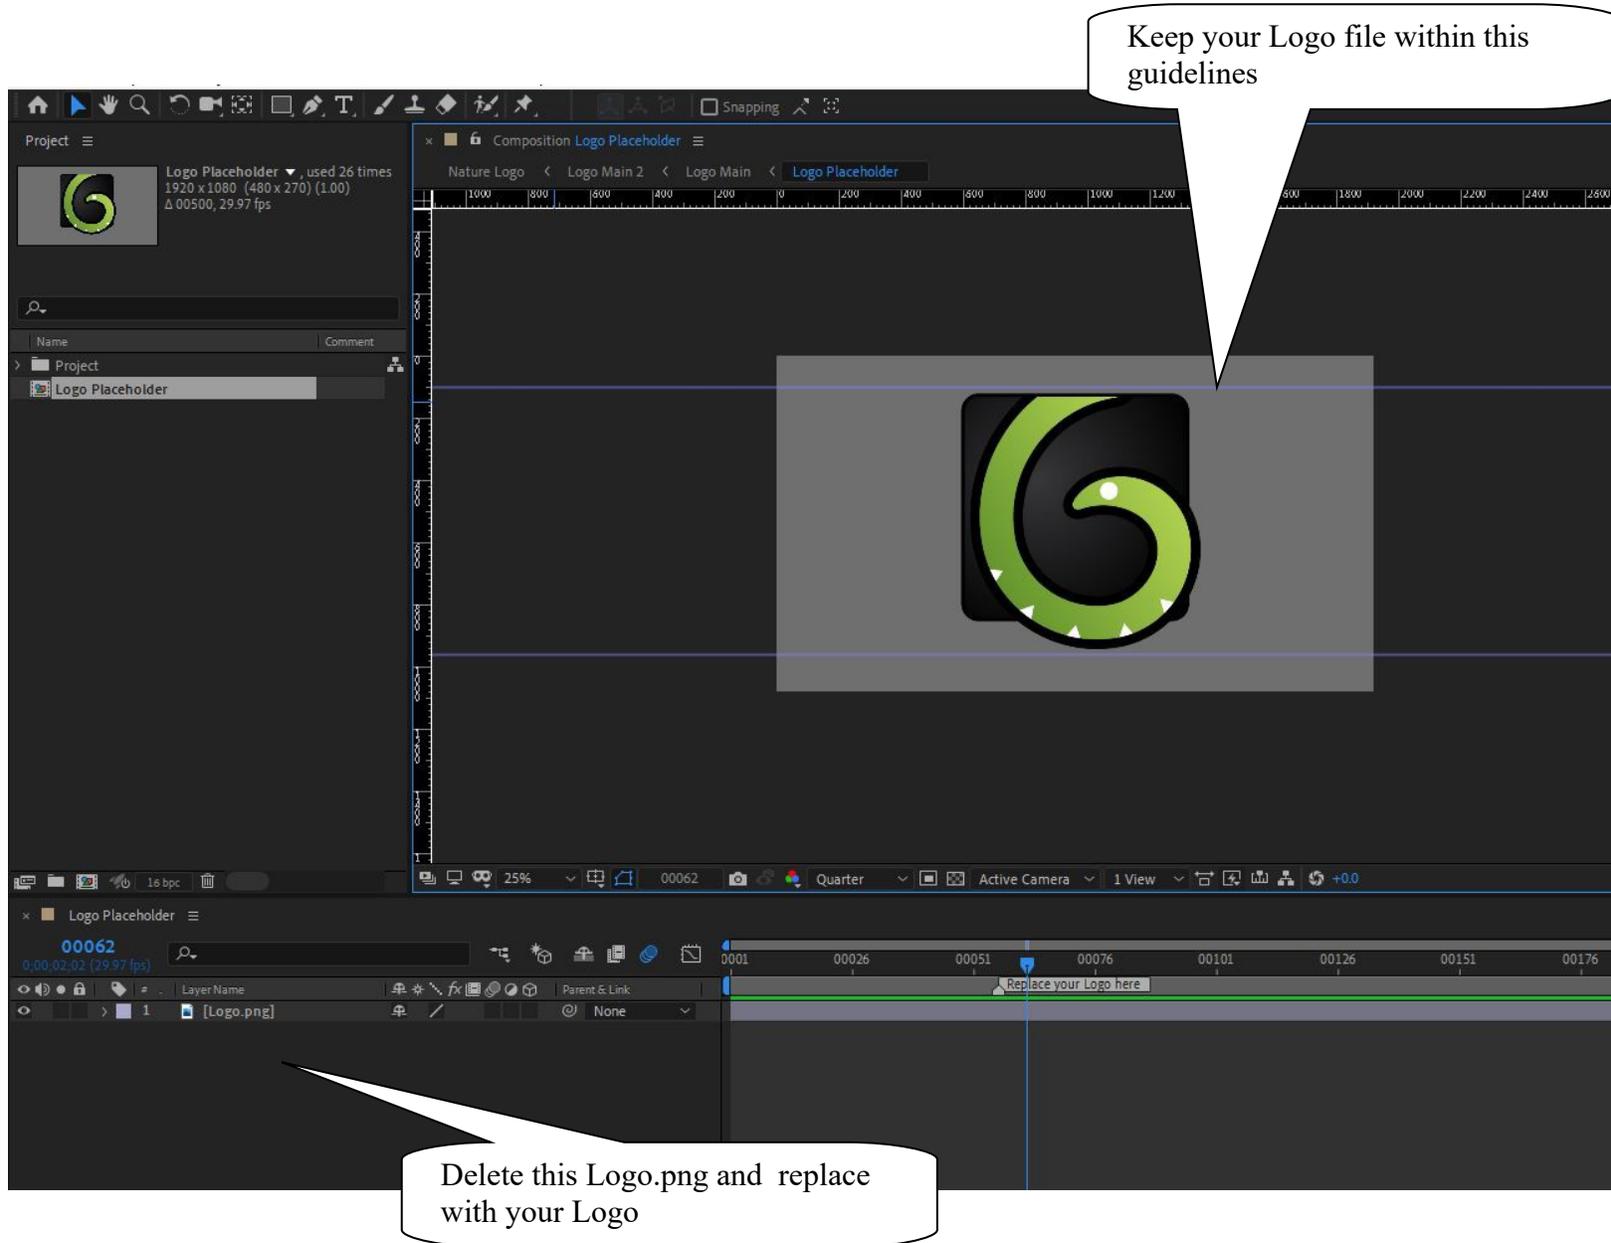

Audio :
not included [Cinematic Logo](#)

Software : Adobe After Effects CC 2019, Adobe Premiere pro CC 2019

Important : Install the Font from the above link before Customizing the Project

Step 1 :

Open the “Nature Logo After Effects Project” folder and open After Effects file in it, Which works in Adobe After Effects CC 2019 and above

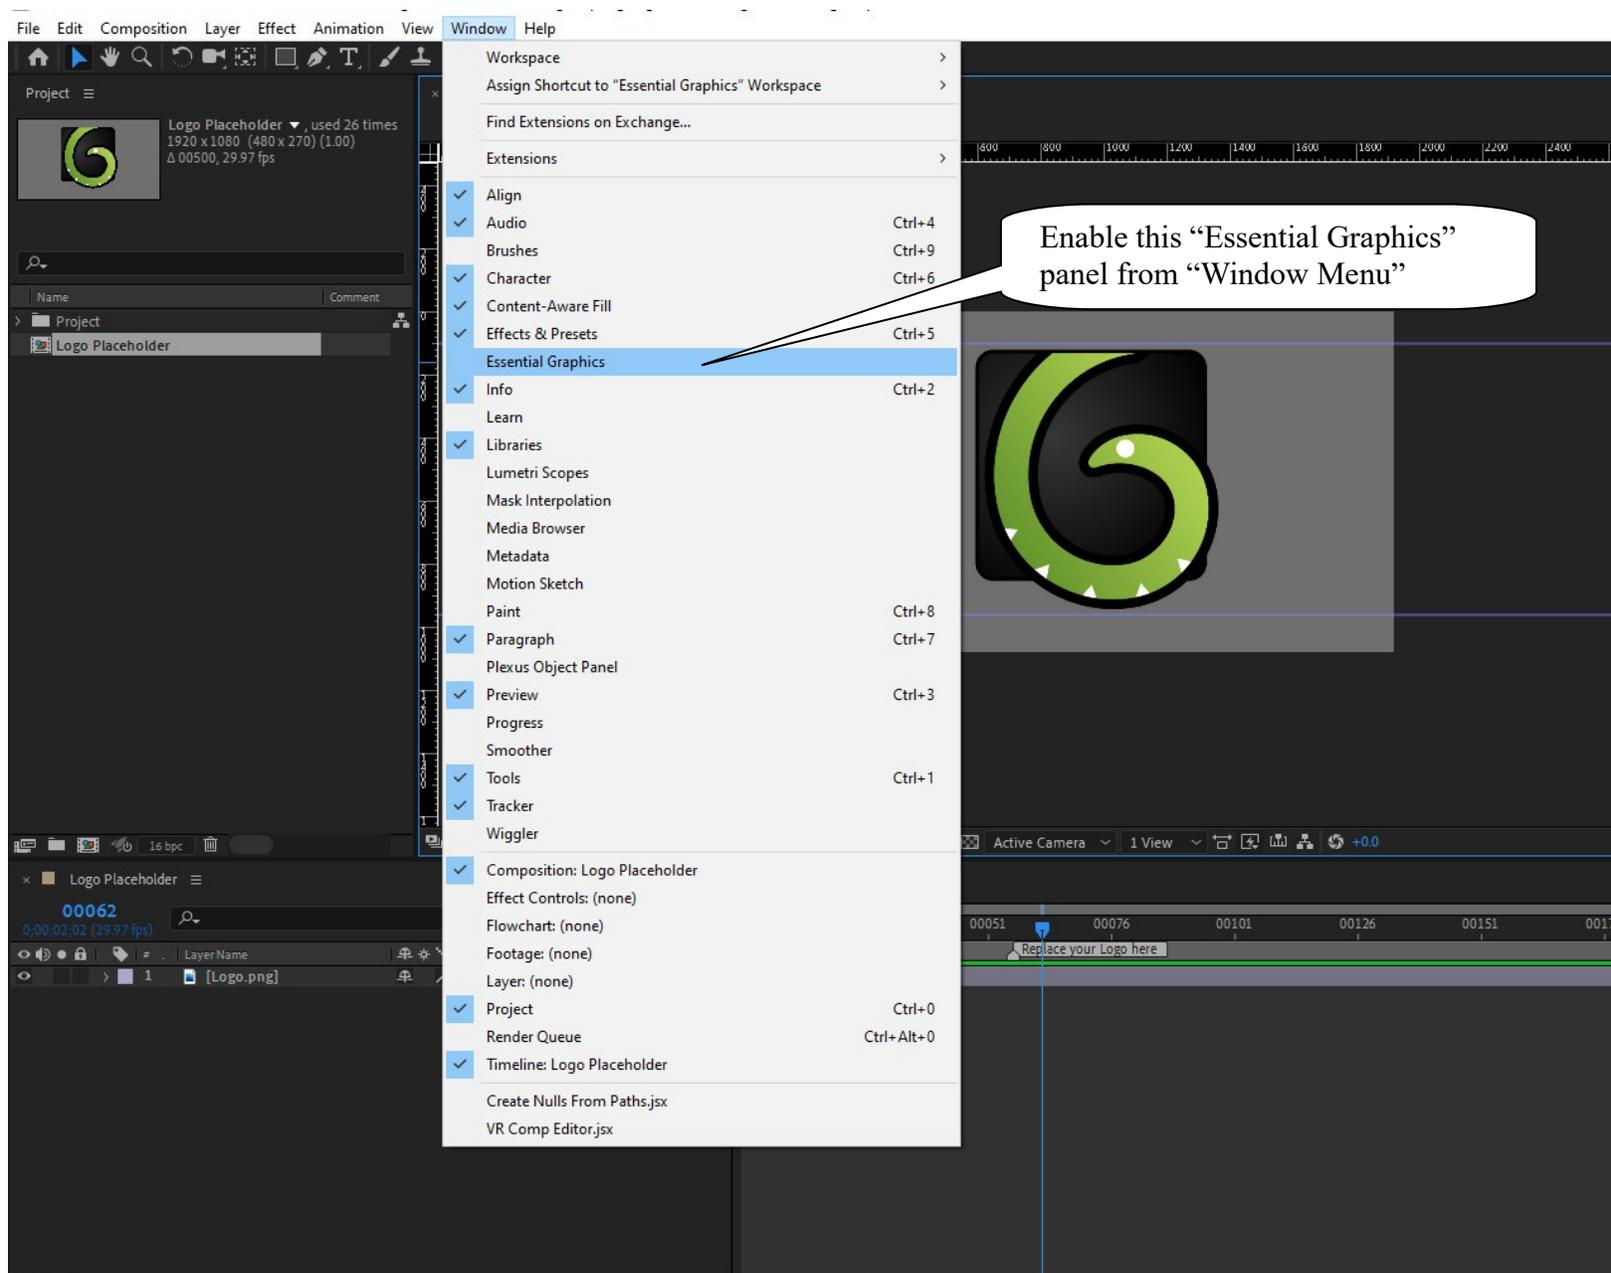

Use Logo with Transparency for better results, Adjust the Logo size to fit inside the guidelines

By default Composition is Full HD, 1920x1080 Pixels

Step 3 :

After Replacing the required Logo, Goto “Window” Menu and enable “Essential Graphics Panel”

Step 4 :

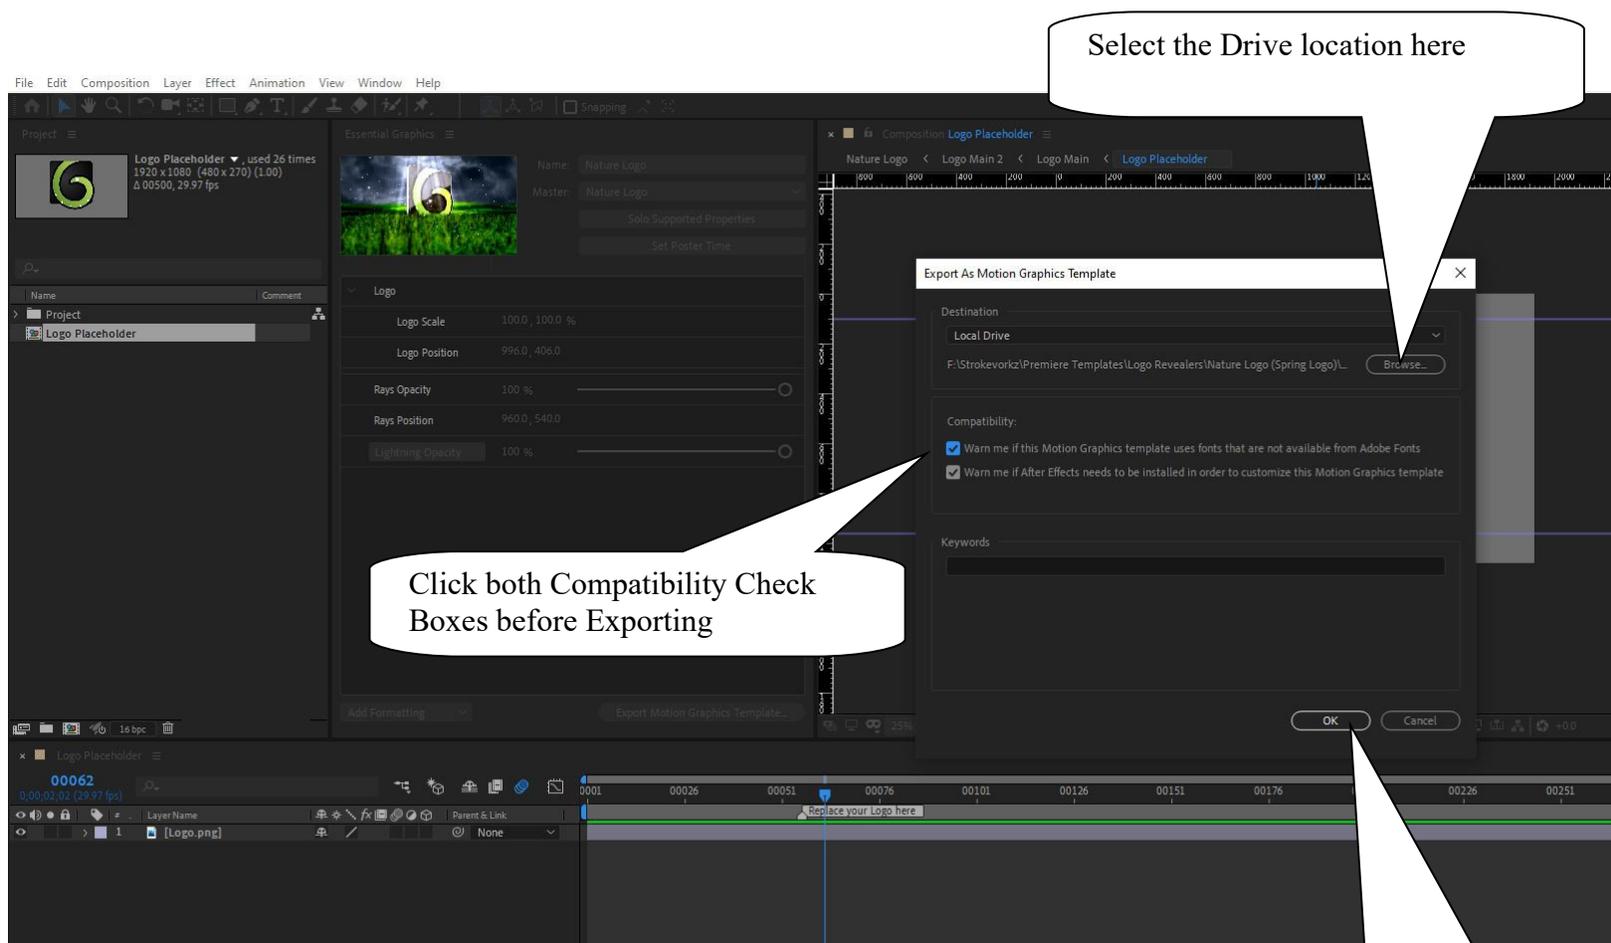

The screenshot displays the Adobe After Effects interface. The 'Essential Graphics' panel is open, showing the 'Nature Logo' composition. The panel includes the following settings:

- Name: Nature Logo
- Master: Nature Logo
- Solo Supported Properties
- Set Poster Time
- Logo Scale: 100.0, 100.0 %
- Logo Position: 996.0, 406.0
- Rays Opacity: 100 %
- Rays Position: 960.0, 540.0
- Lightning Opacity: 100 %

The 'Export Motion Graphics Template...' button is highlighted by a callout bubble with the text: "Click this button to export project to Premiere as .mogrt file".

Step 5 :

Save the project in a preferred Location, .mogrt file will be generated with your Logo in the saved Location

Step 5 :

After .mogrt file generated then Refer the "Help to Change Title" PDF help file to use this exported .mogrt file in Adobe Premiere
