Step 2 :

Name a Project and Save it in a Preferred Location

The screenshot shows the 'New Project' dialog box in Adobe Premiere Pro. The dialog has a title bar 'New Project' with a close button (X) on the right. Below the title bar, there is a 'Name' field with the text 'Untitled' and a 'Location' dropdown menu showing 'F:\Strokevorkz\Premiere Templates\Awards Promo'. To the right of the location dropdown is a 'Browse...' button. Below these fields are three tabs: 'General' (selected), 'Scratch Disks', and 'Ingest Settings'. The 'General' tab contains several sections: 'Video Rendering and Playback' with 'Renderer' set to 'Mercury Playback Engine GPU Acceleration (CUDA)' and 'Preview Cache' set to 'None'; 'Video' with 'Display Format' set to 'Timecode'; 'Audio' with 'Display Format' set to 'Audio Samples'; and 'Capture' with 'Capture Format' set to 'DV'. At the bottom of the 'General' tab is a checkbox labeled 'Display the project item name and label color for all instances', which is currently unchecked. At the very bottom of the dialog are 'OK' and 'Cancel' buttons.

Name:

Location:

General Scratch Disks Ingest Settings

Video Rendering and Playback

Renderer:

Preview Cache:

Video

Display Format:

Audio

Display Format:

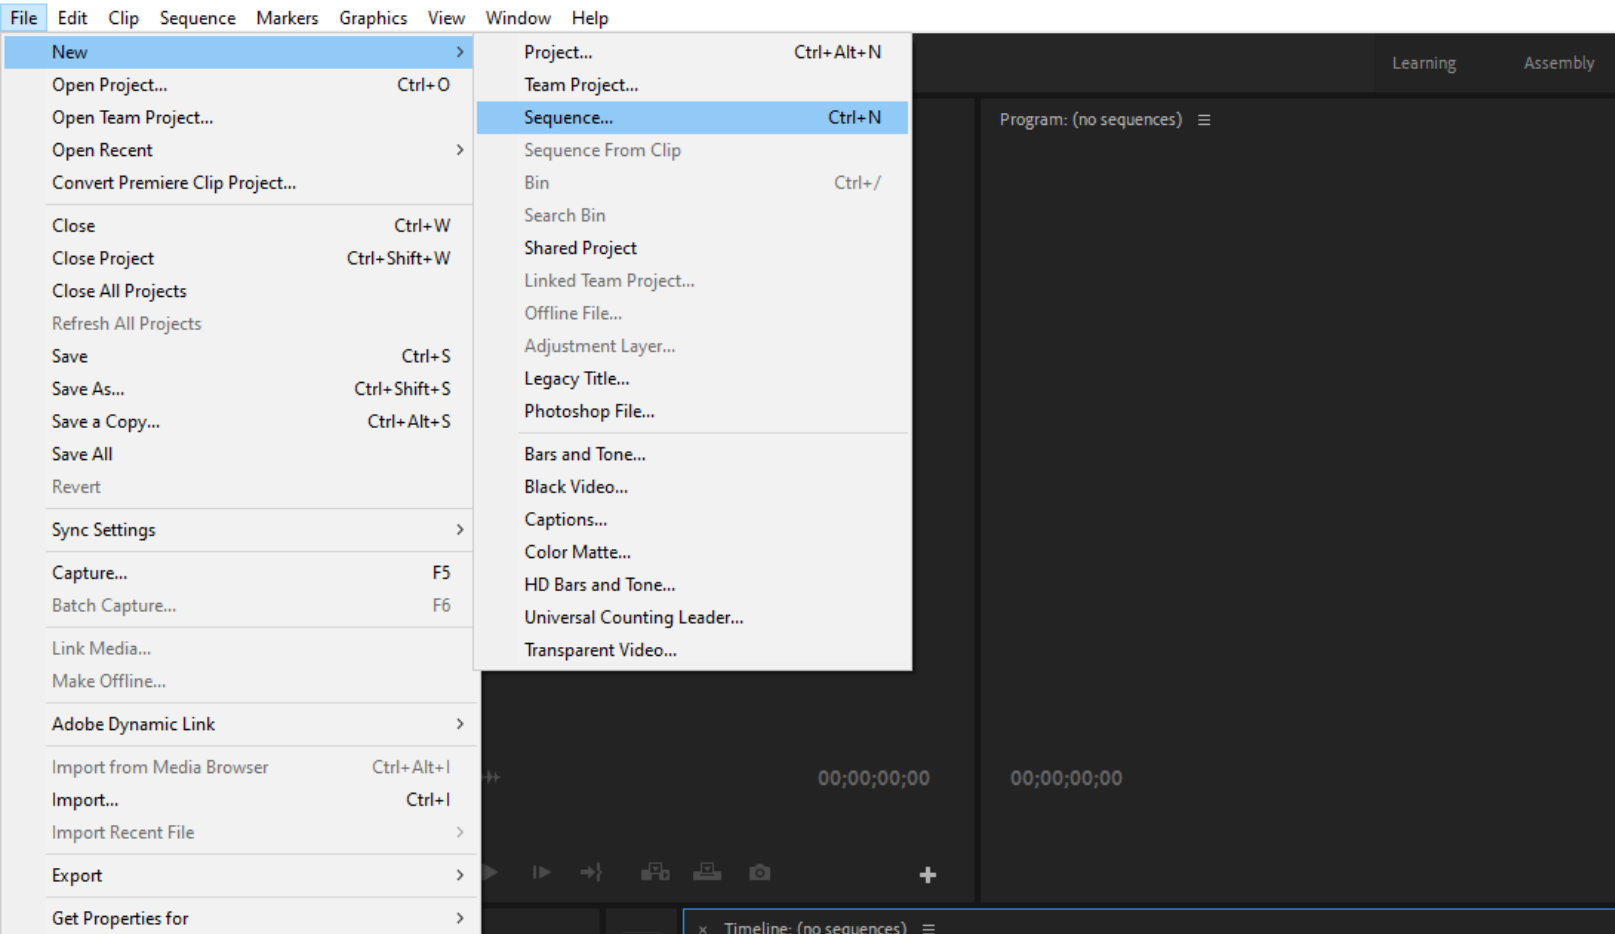

Capture

Capture Format:

☐ Display the project item name and label color for all instances

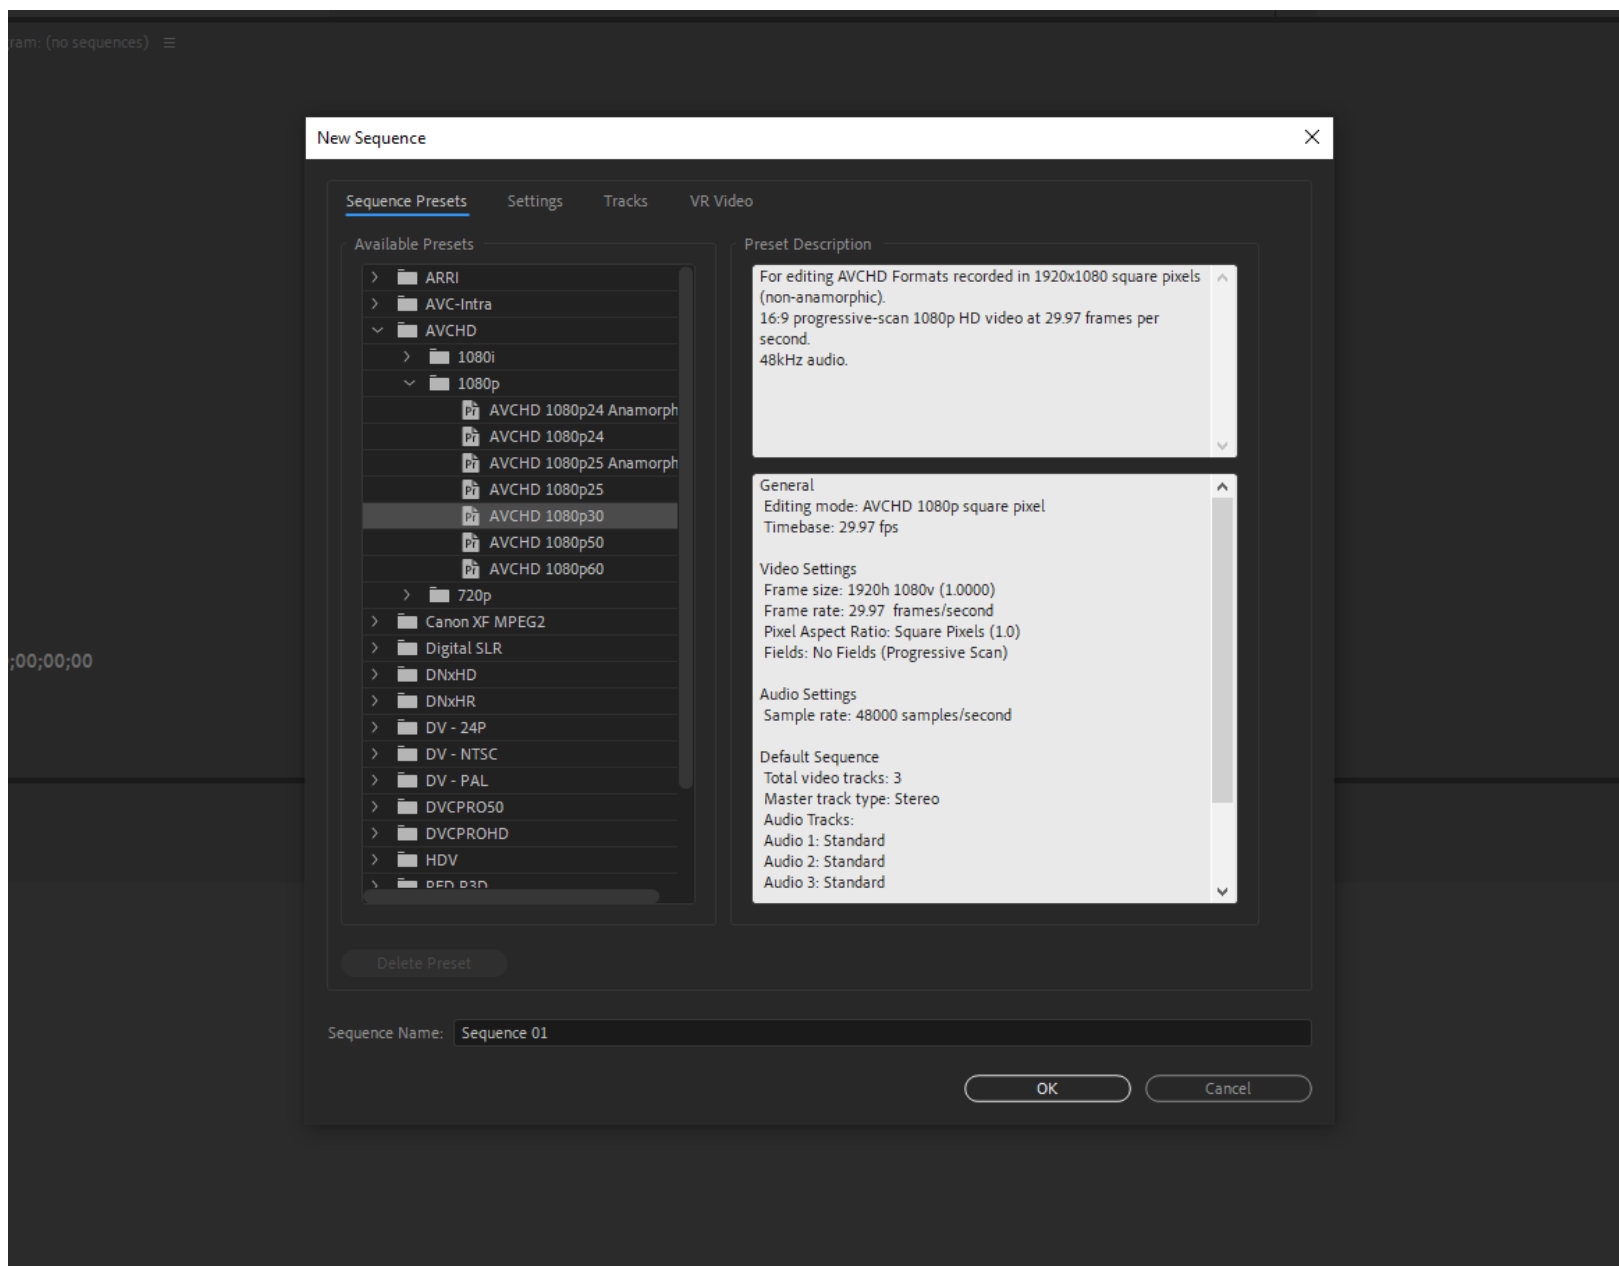

Step 3:

Create a New Sequence

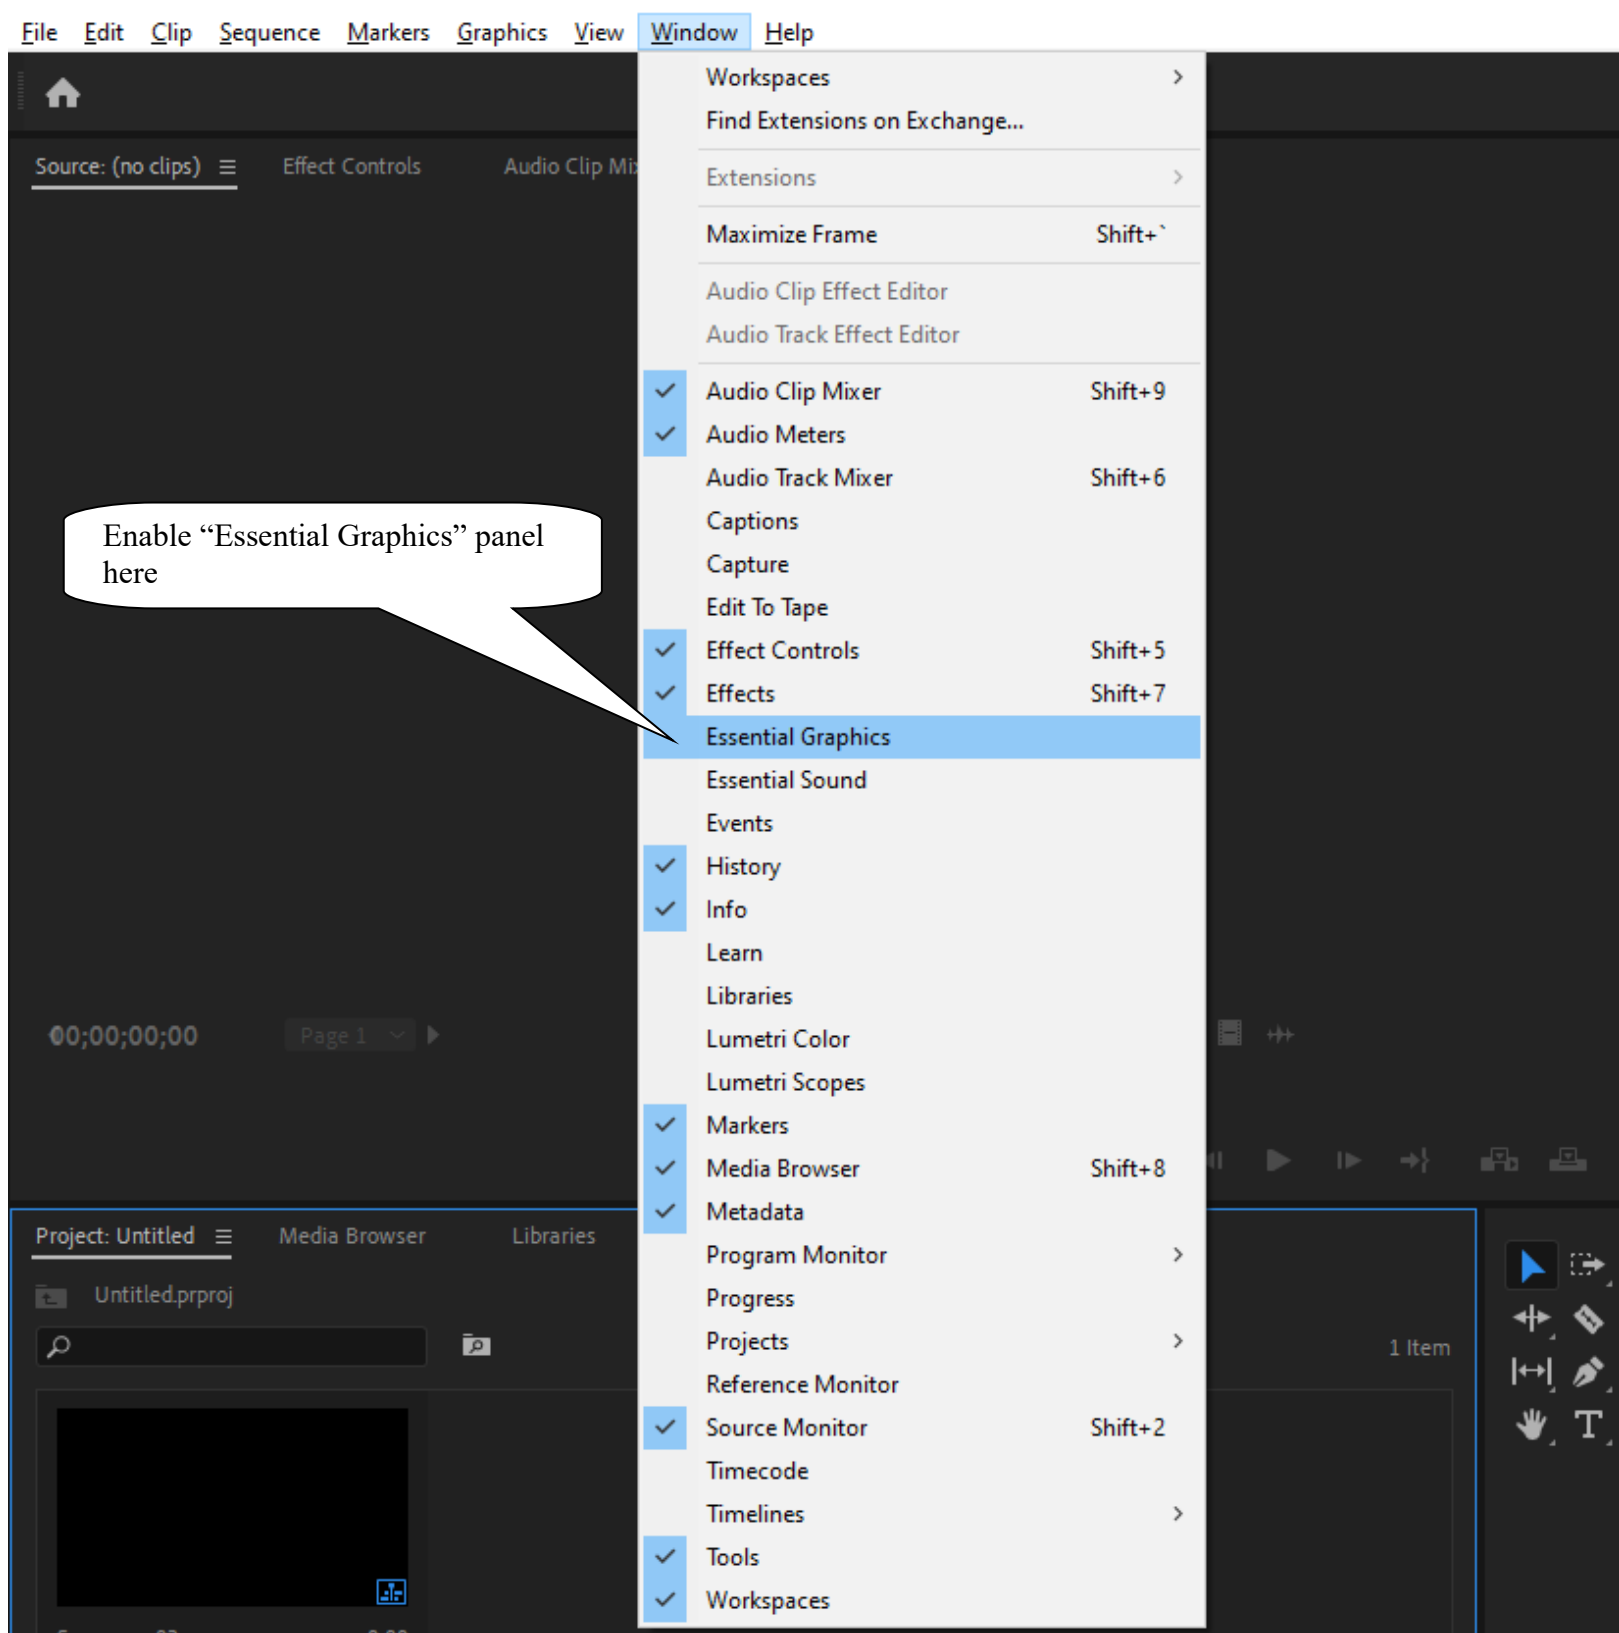

Step 4:

Select 1080P (Full HD) Settings and Name the Sequence as required

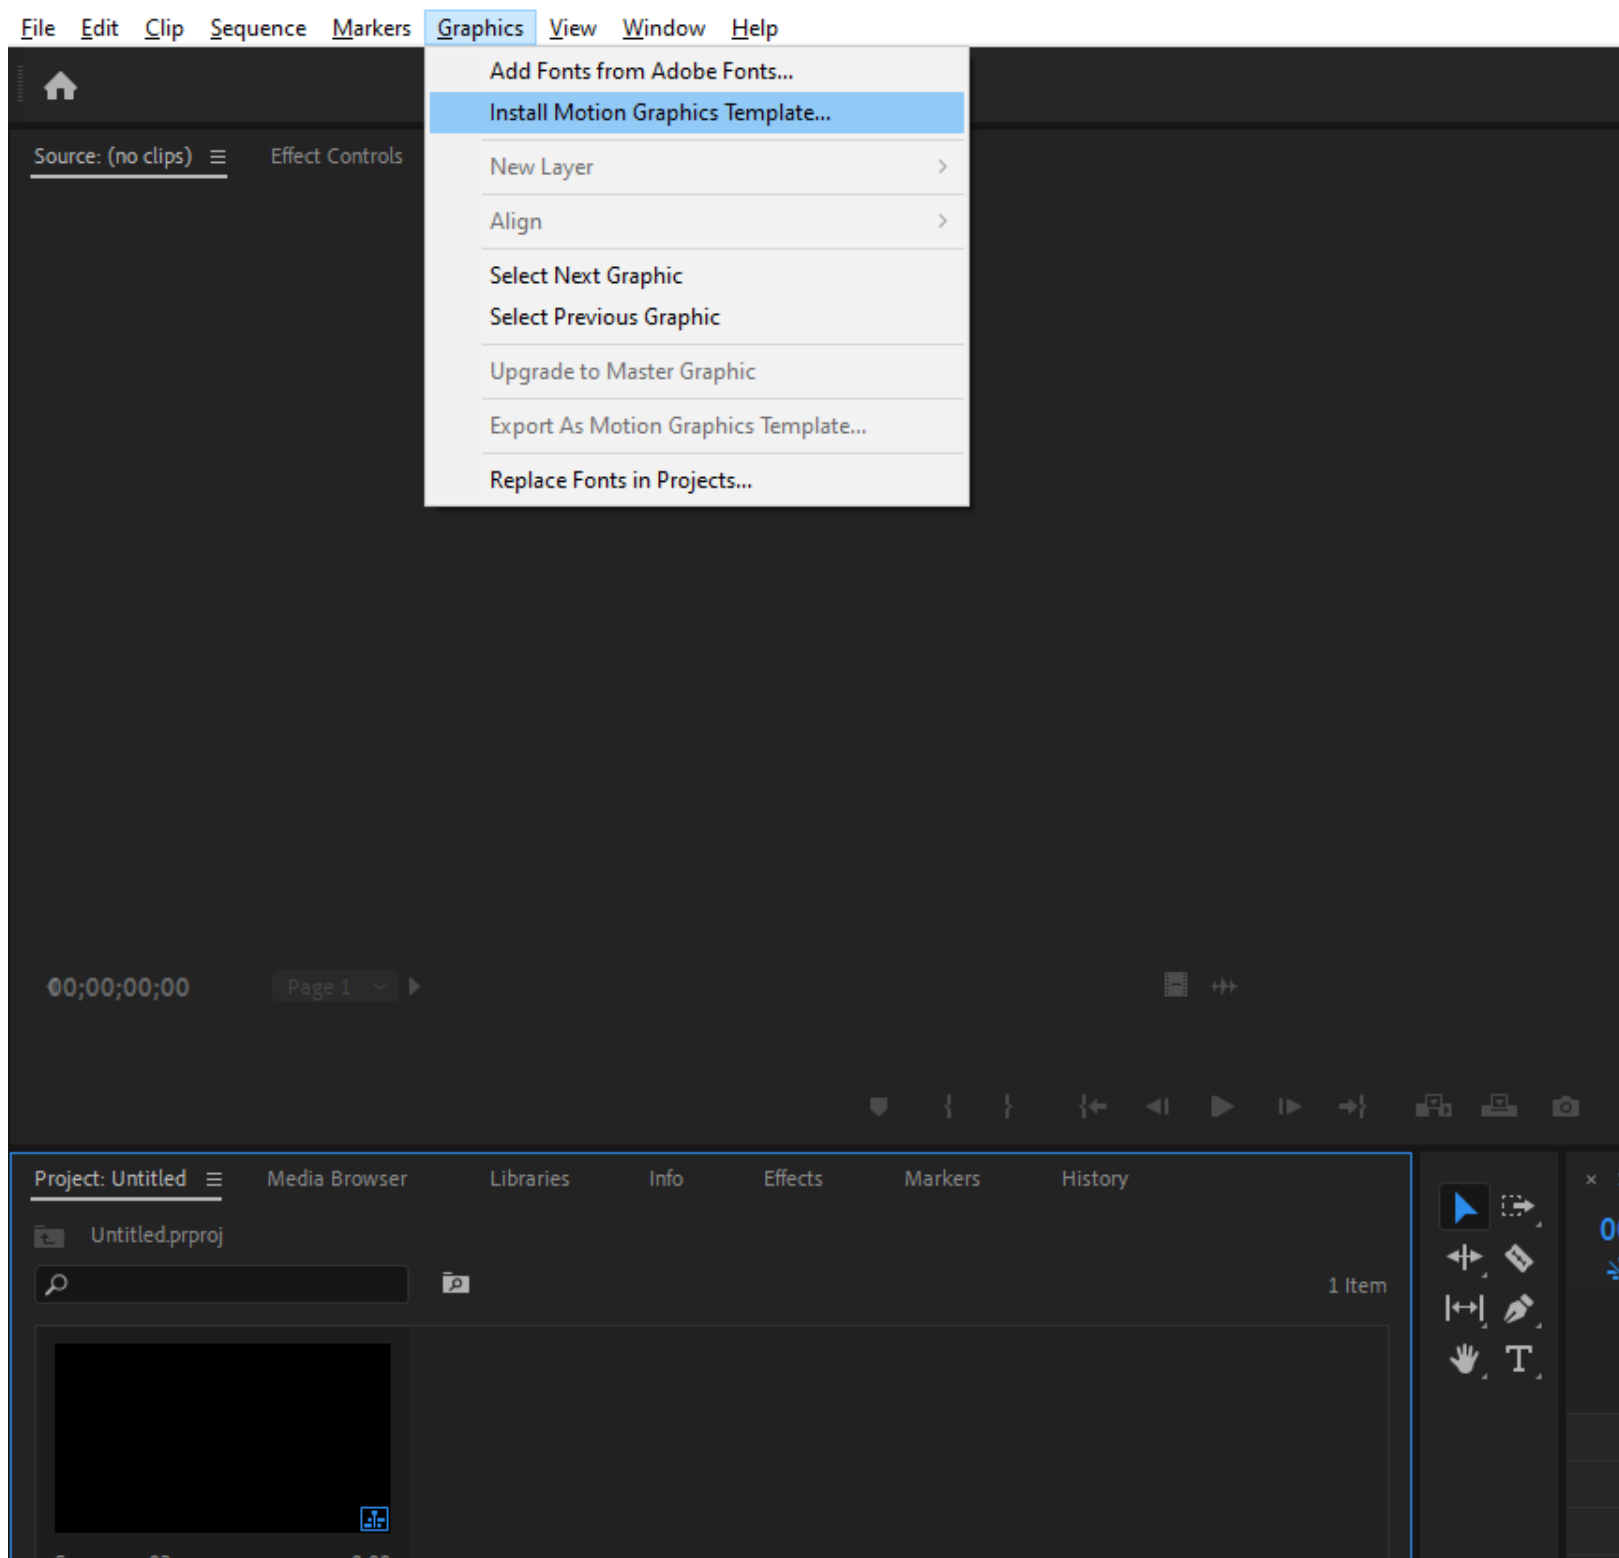

Step 5:

From Window Menu Select “Essential Graphics” Panel

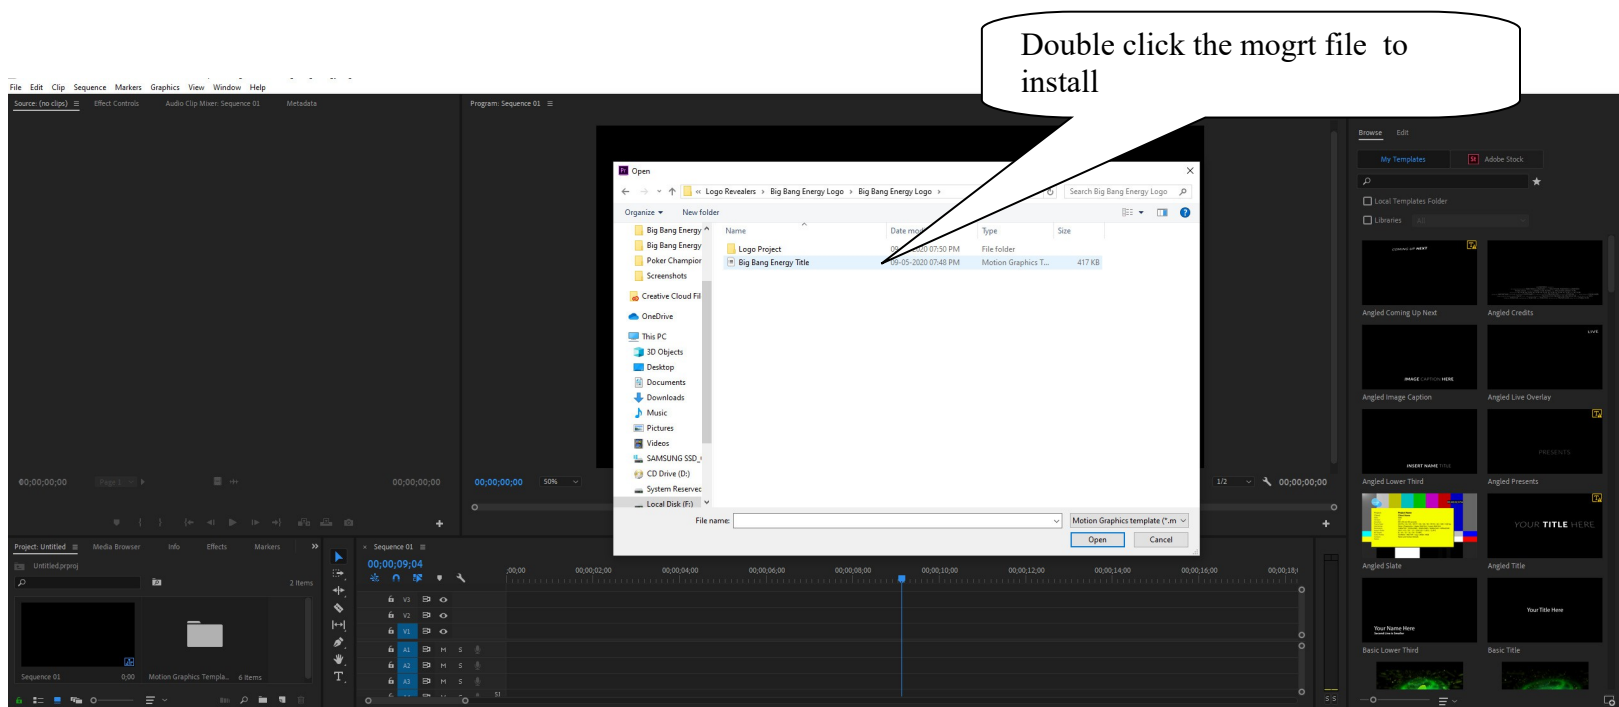

Step 6:

From “Graphics” Menu Select “Install Motion Graphics Template”

Step 7:

Unzip the Project downloaded from Videohive and Open the the Mogrt file (Big Bang Energy Title)

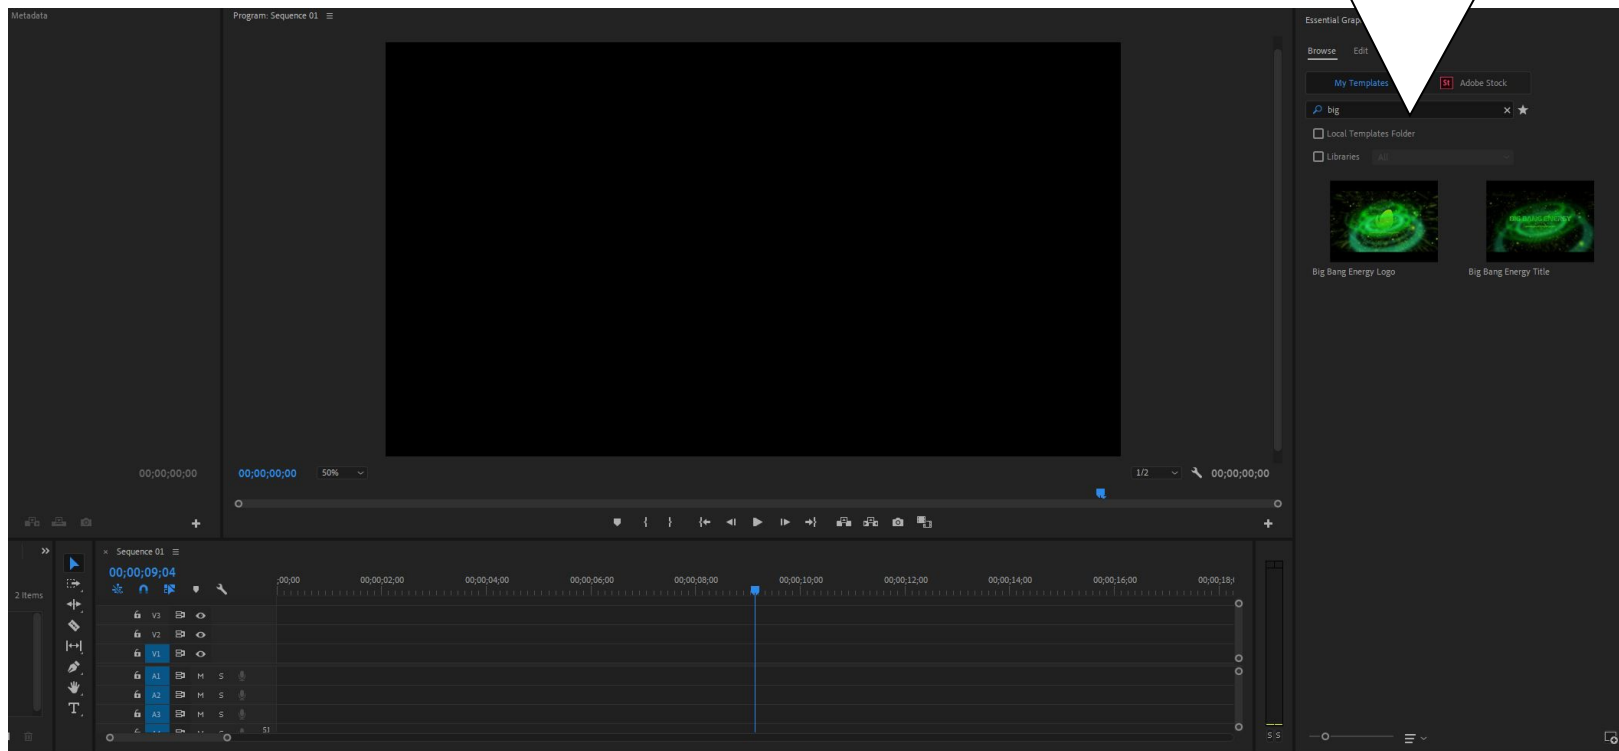

For Logo Version, Install the Mogrt file created by you after replacing the Logo in Adobe After Effects

Step 8:

Mogrt file will be installed in Essential Graphics, It may take few minutes to shown up in the panel

You can search and find using the project name for easy navigation

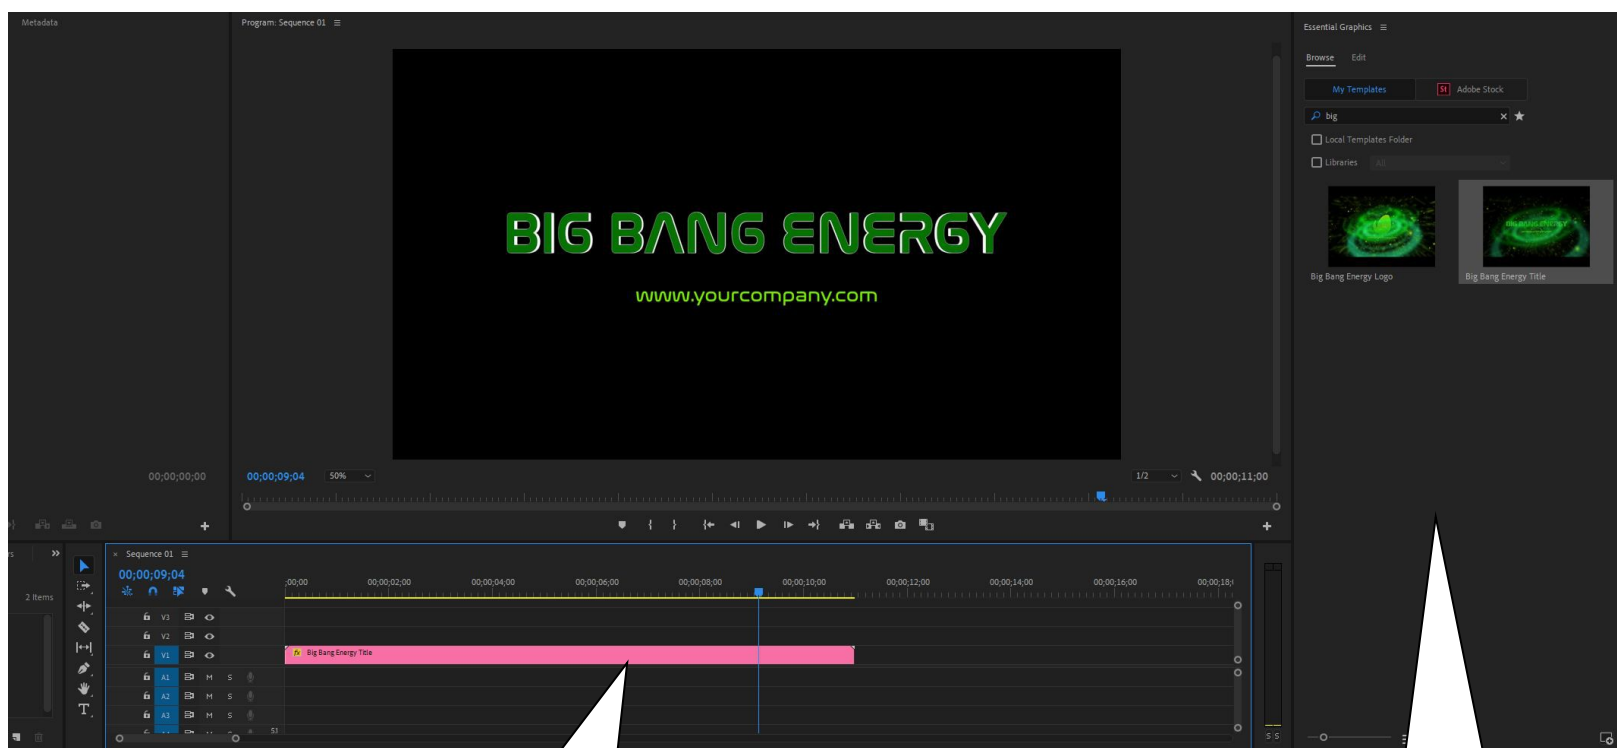

You can also search using the few words of project name (Big) here

Search “Big” as a word in the search box, Your installed .mogrt files will show up

Step 9:

**Drag and drop the installed file from Essential Graphics panel to a Timeline,
Select the required option in the Pop up Window**

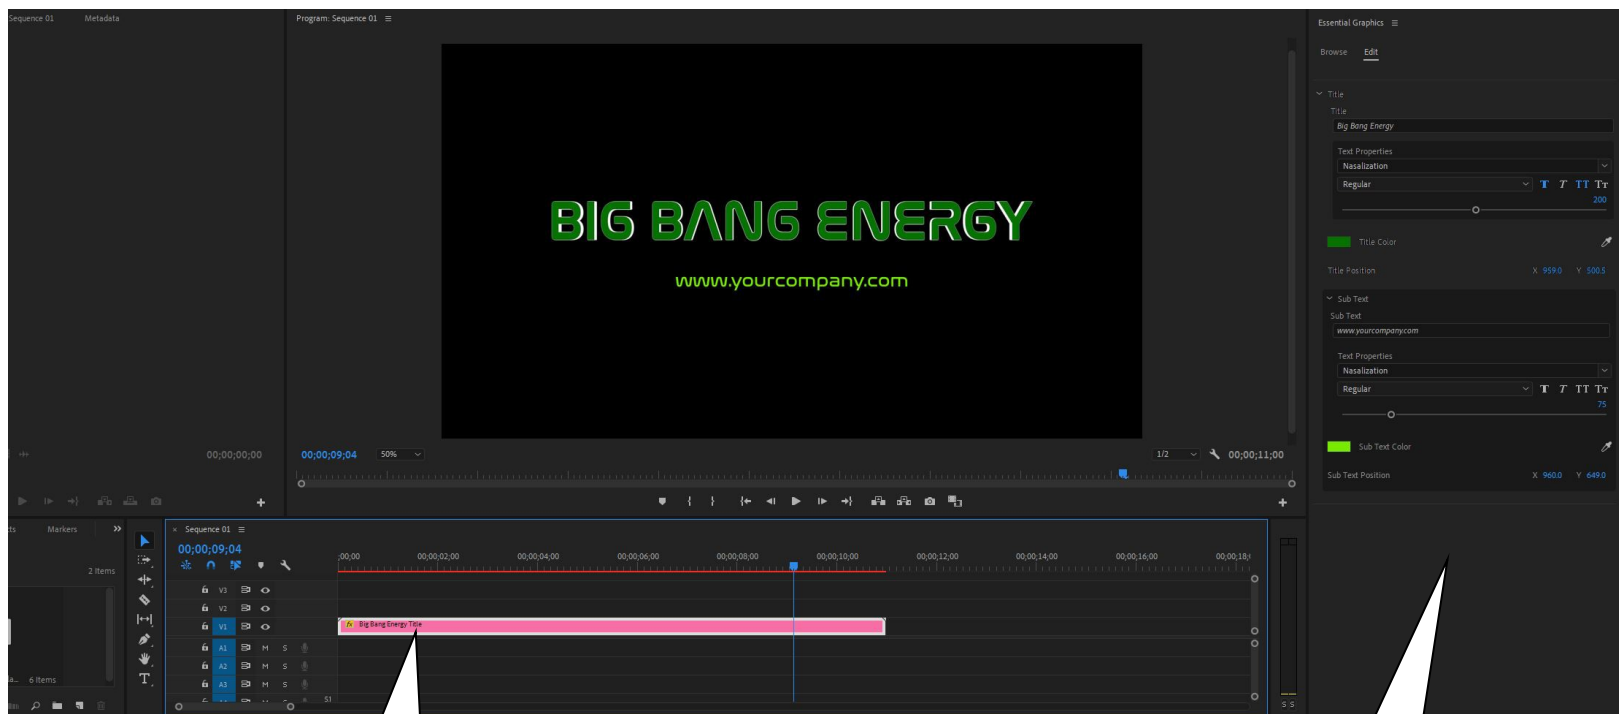

Drag the installed Project and drop
It in a timeline

Drag and drop the required projects
from Essential Graphics panel to a
timeline

Step 10:

Now you can edit the Project using Essential Graphics Panel, Edit the Text, Change font as required, Font Size can be changes, Position can be adjusted in the same Panel

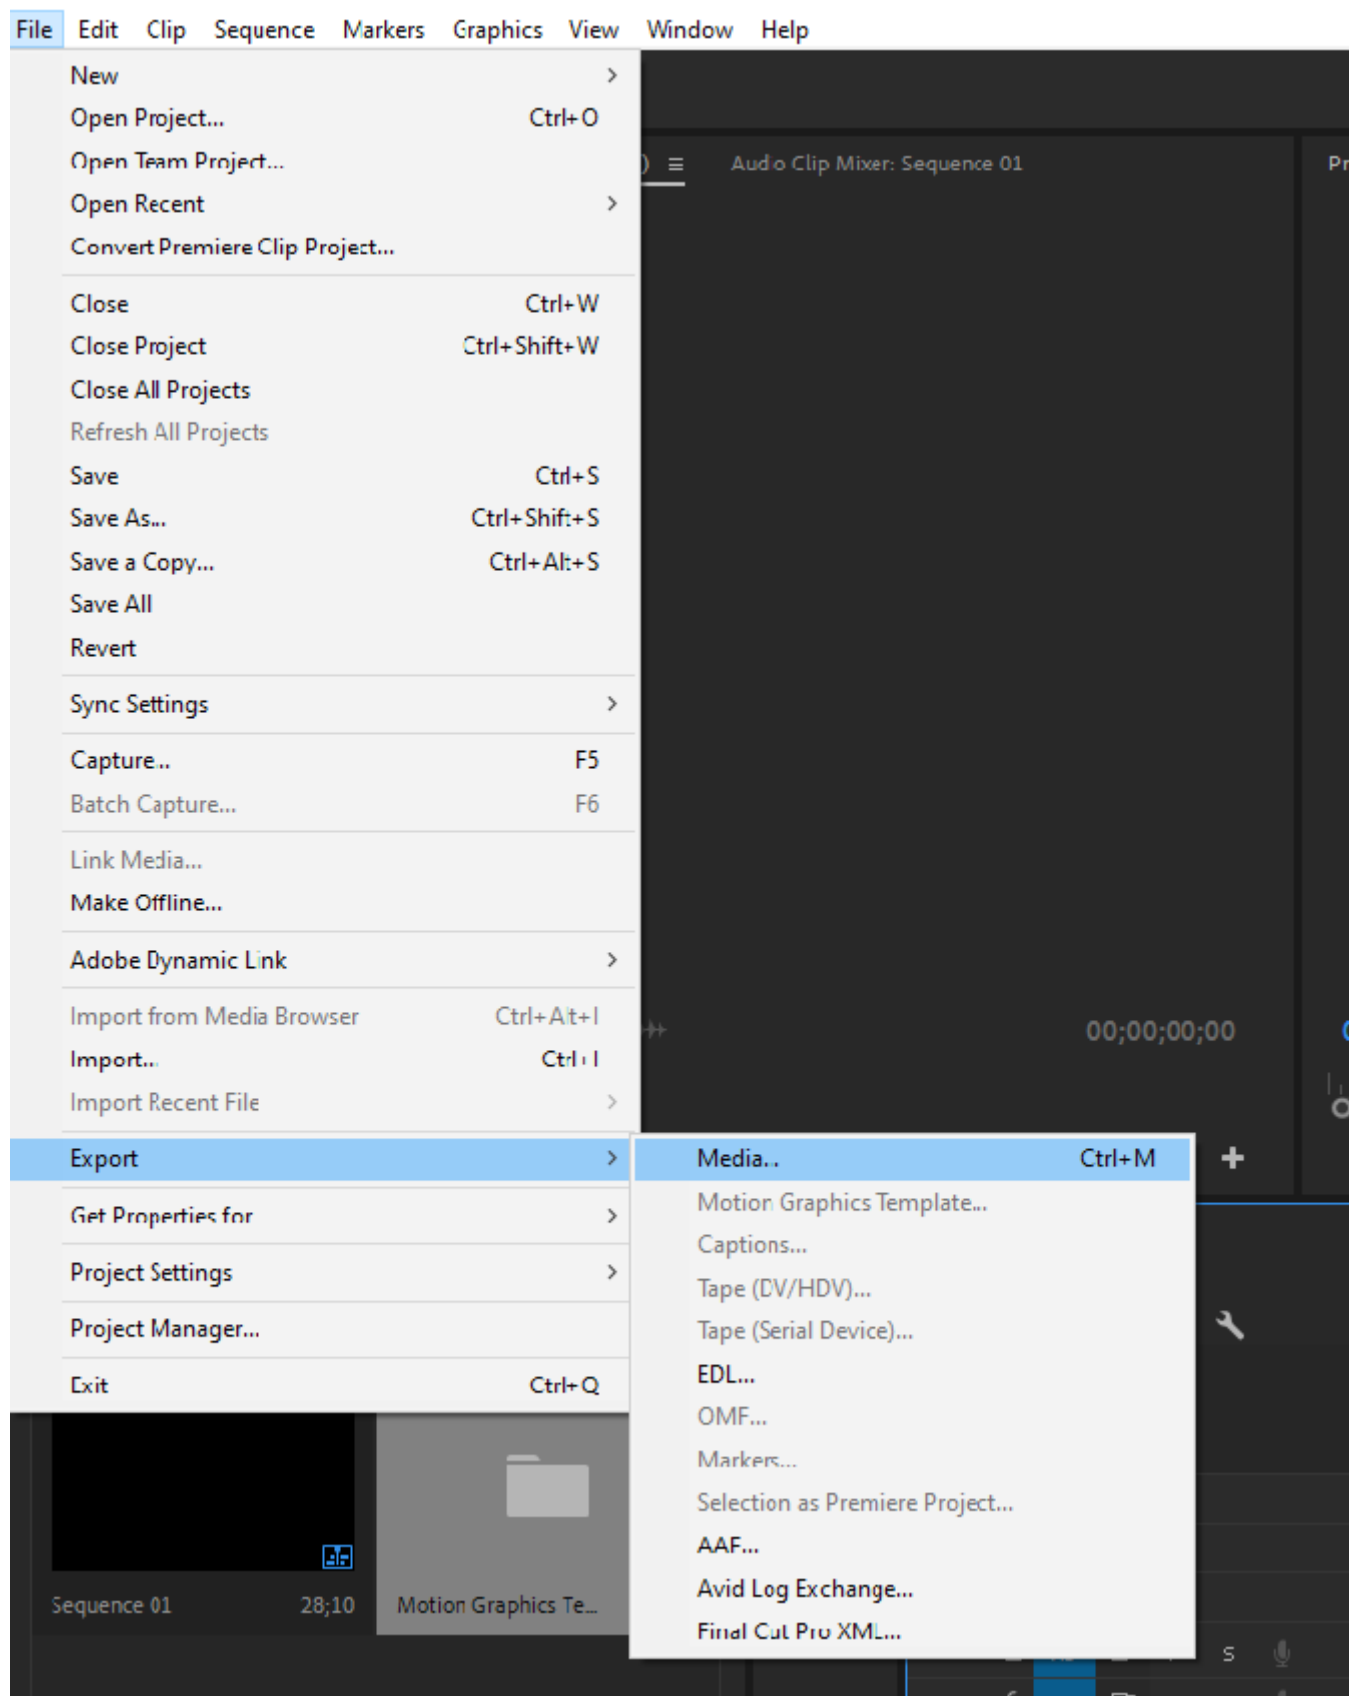

1, Select the Project in timeline

2, Edit your Text and Logo Parameters here

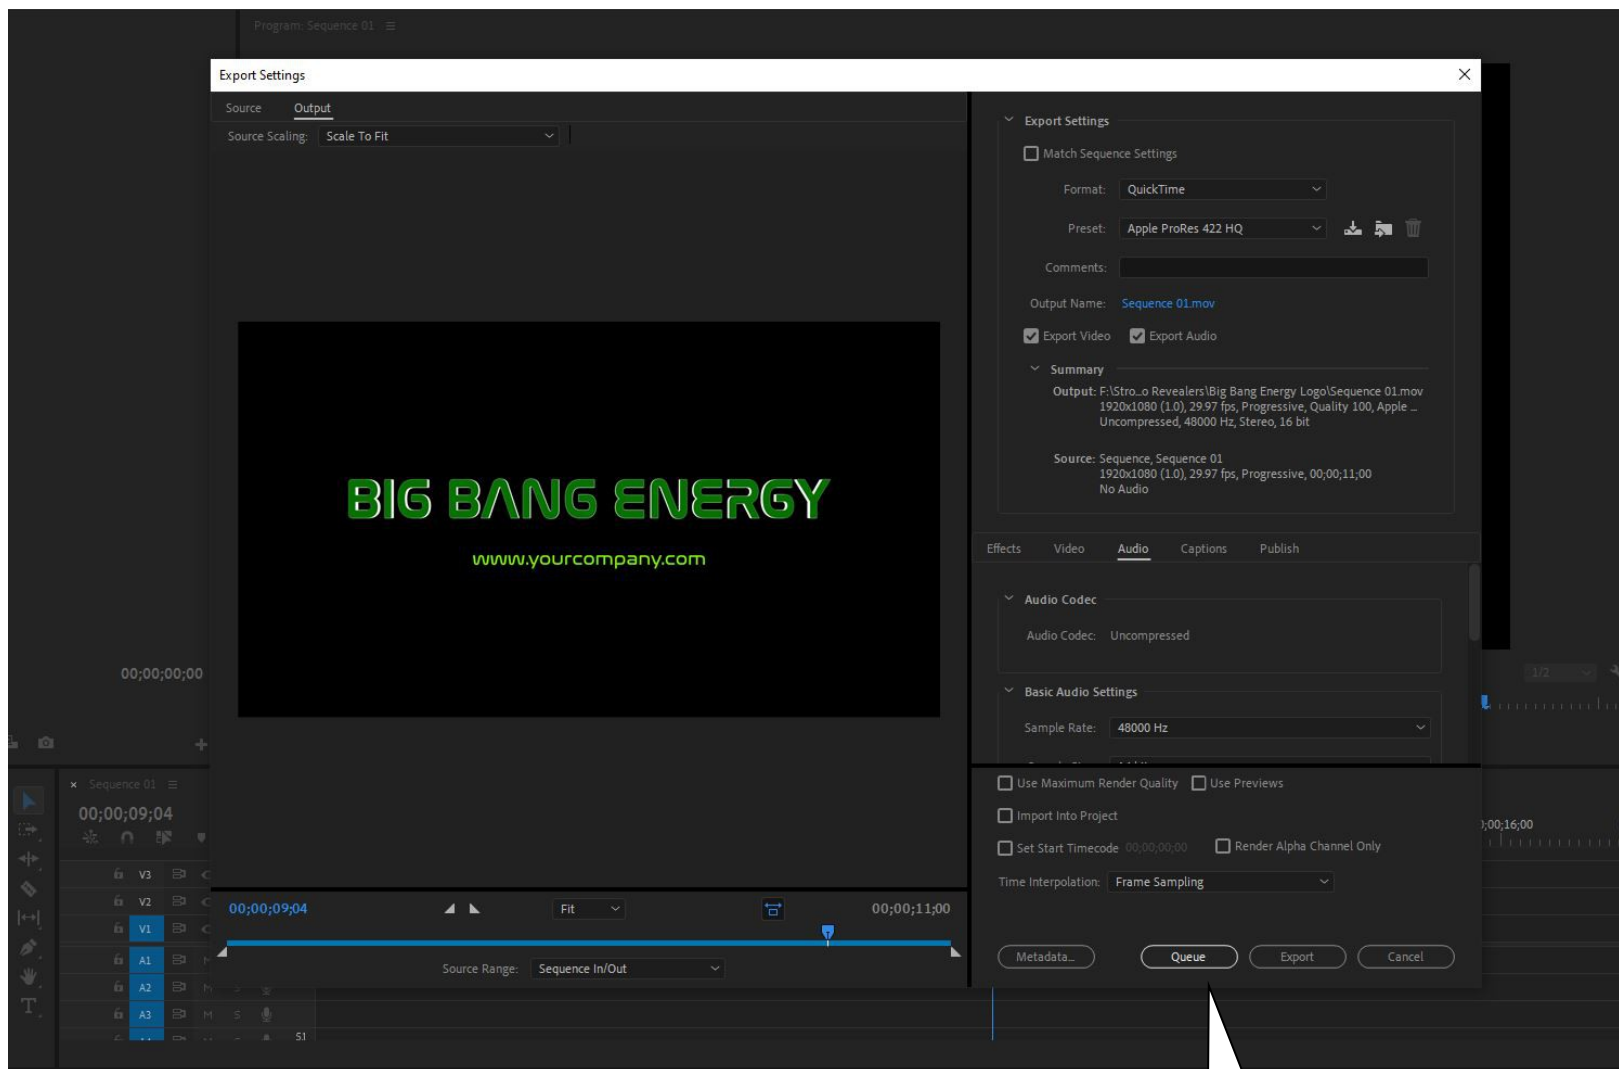

Step 11:

Export the media after customization, Open File menu, Select “Export” and select “Media”

Step 12:

Select the Video and Audio format as required and press Export for Final output

Set the required format here and Export
