01. Install .mogrt files

Copy and paste .mogrt files to local Premiere Pro folder:

Windows:

C:\Users\<yourusername>\AppData\Roaming\Adobe\Common\Motion Graphics Templates

Mac:

/Users/<yourusername>/Library/Application Support/Adobe/Common/Motion Graphics Templates

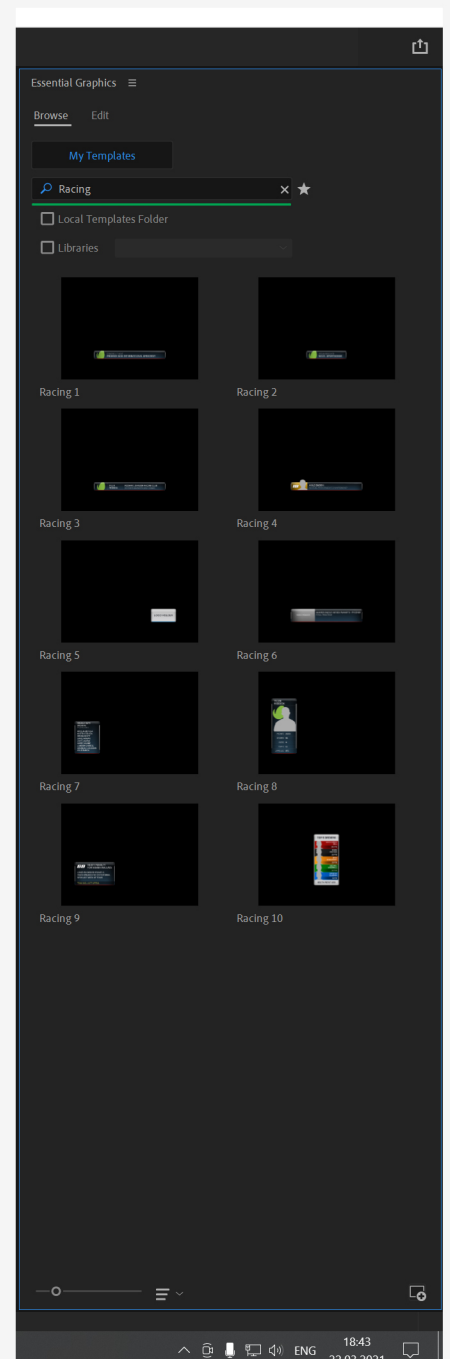

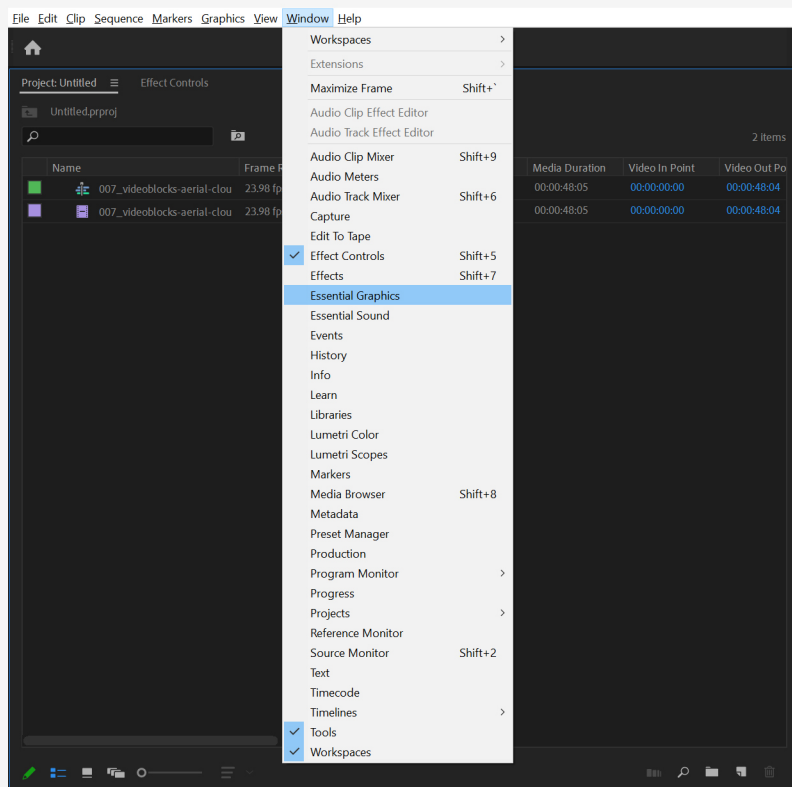

You can create your own folder or put the files into the folder Motion Graphics Templates!

02. Open .mogrt files in Premiere Pro

-Go to Windows and select Essential graphics.

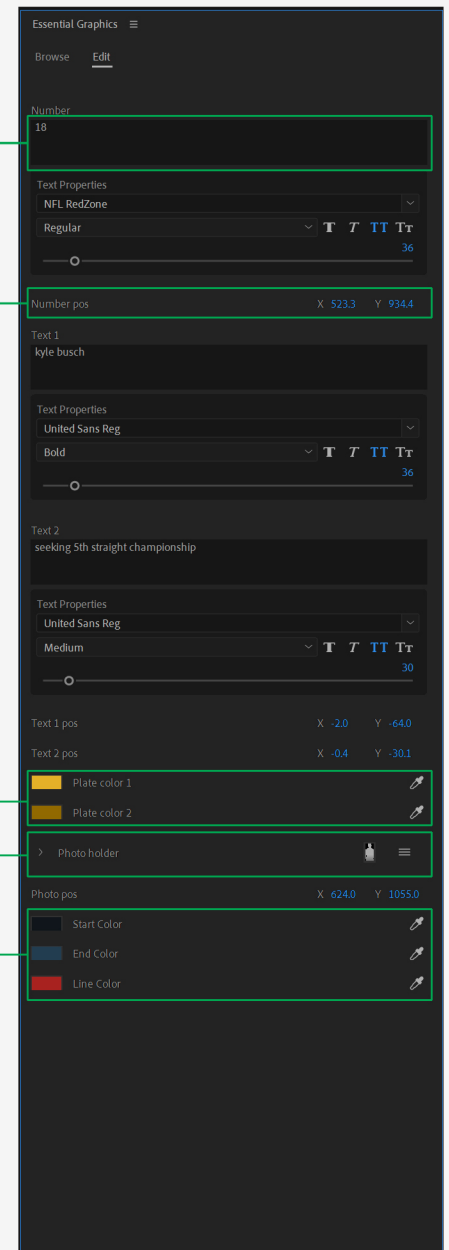

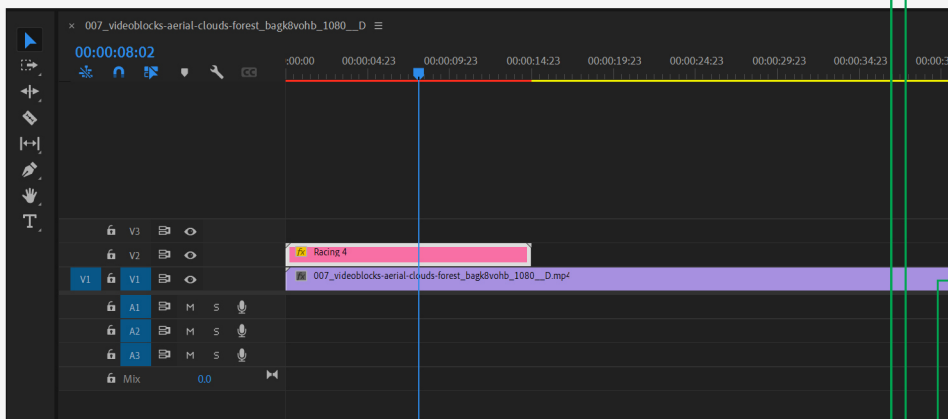

-When the panel will be opened, in the search field type the word Racing and press Enter on keyboard.

-Now you see all .mogrt files for the racing project.

03. How to edit .mogrt file

- Drag one of the Racing files to the timeline (Racing 4, for example).
- Select it by the left mouse button.
- An Edit panel will open.
- Now you can change the text, colors and add your photo.

- Change the number.
- Position of a number.
- Colors.
- Pick your photo in the Project panel and drag it to the Photo holder line.
- Colors of the lower third.
