To edit the **stories** open the **project file in After Effects**

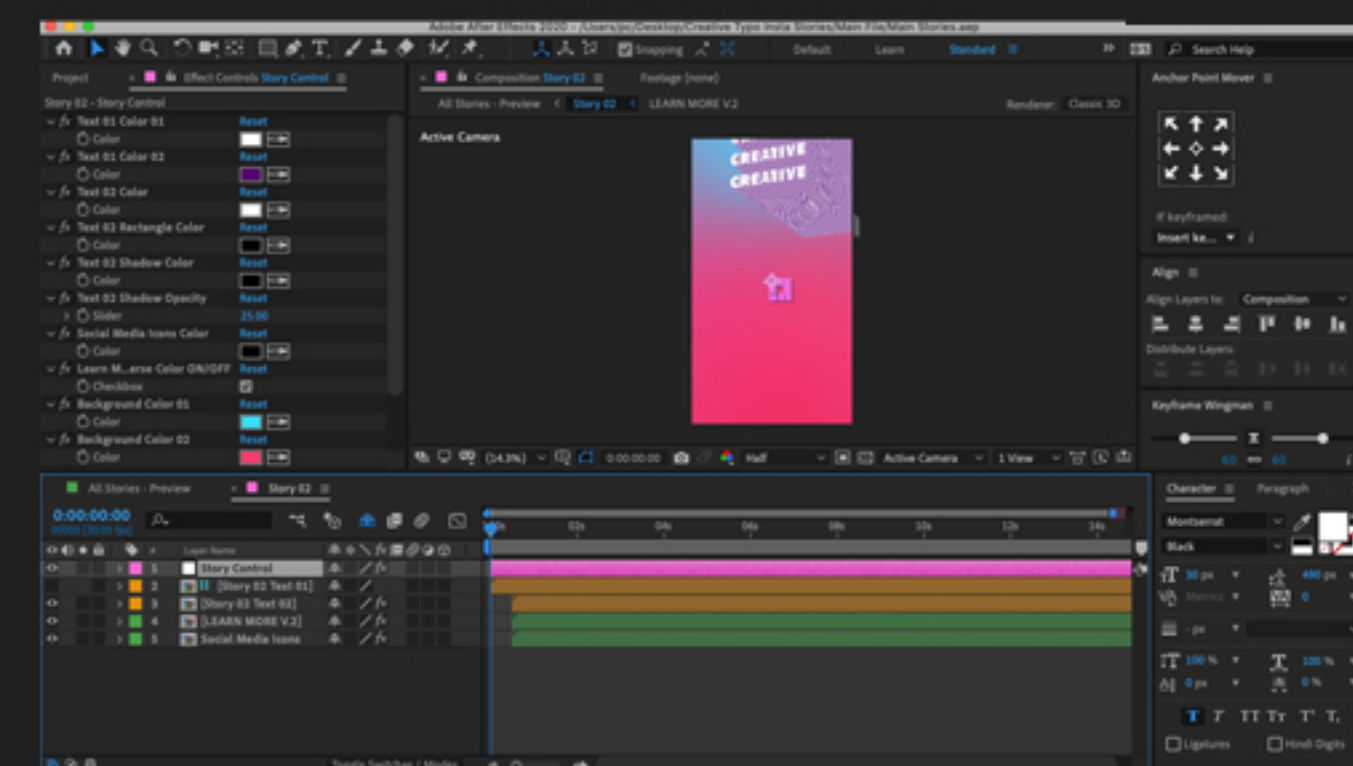

01. Choose 1 of The Stories.

When you open your project file you'll get all stories in 01 comp as a preview, just choose 01 of the them and open it, to edit the texts.

02. Change/Edit The Texts.

Every story has minimum 02 texts comps when you open the story comp, you'll get the editable comps, just open them, and edit the texts as you want. Also you can get the editable comps in project preview, inside All Stories Folder.

03. Edit The Colors & Story FX.

Every story has a "Story Control" layer, select it and open "Effects Control Panel" and you'll see all the story colors and FX, just edit them as you want. if you can't get to "Effects Control Panel", go to: Windows -> Effects Control Panel.
