

Cheers.

This **Cube Reflection** Project.

Features:

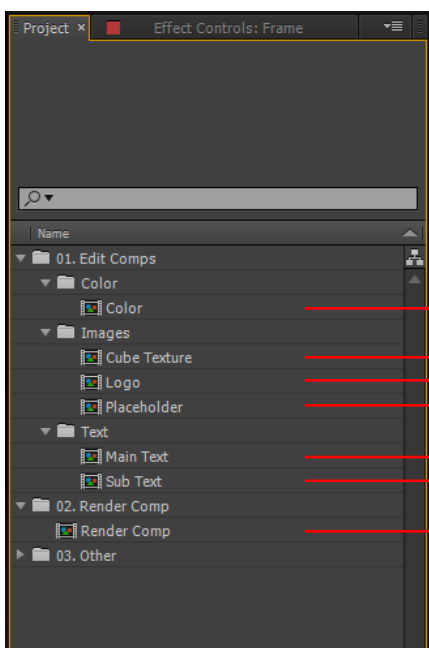

3 versions - Left, Right and Center versions.

Lense Flare or prerendered versions.

Resolution - 1920x1080 25FPS.

Clean After Effects template featuring a stylish animation. Excellent as an intro/outro logo reveal, opener, intro, outro to your presentations, events, promos and social media channels. Just replace the text or insert logo, add video to background, change the colors, drop your logo in and render.

Project structure:

Main settings panel

Add some transparent image for additional cube texture

Insert main logo here

Place image background or video

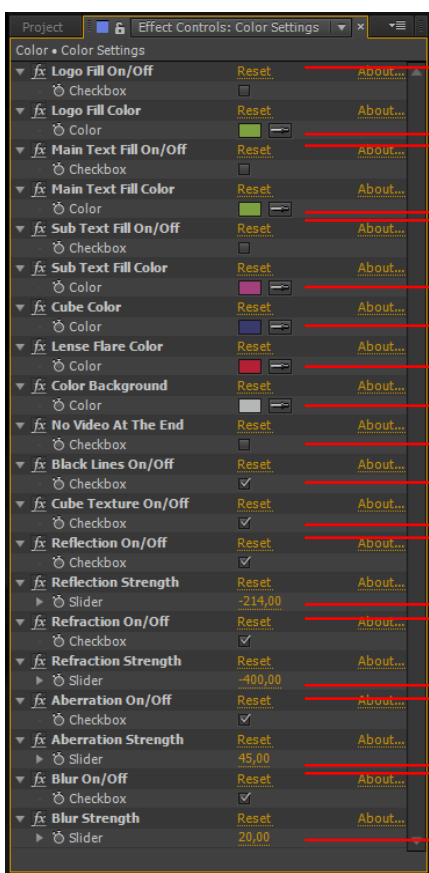

Placeholder for image or text company name

Additional text placeholder for slogan/site etc.

Render this comp after all edits

Navigate a folder "01. Edit Comps/**Color**":

Composition "Color" contains "Color Settings" layer.

Enable to set logo color

Text color settings

Subtitle Text color settings

Set Cube color here

Lense Flare color

Background color

Animation ends without video (on the flat background)

Add this for widescreen video

Use additional custom texture on the cube

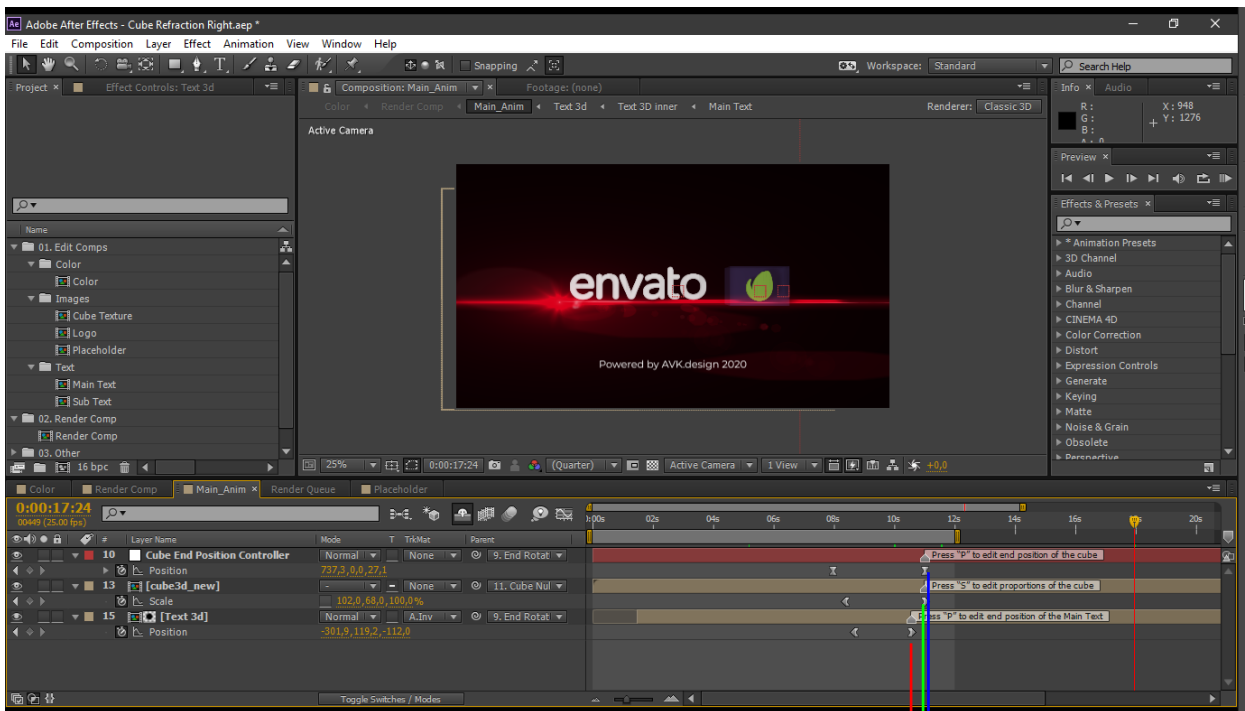

Reflection on Cube

Refraction strength

Aberrations inside Cube

Muddy Cube

Open «**Main_Anim**» composition to fine-tune the final frame:

Set Time indicator here, select «Text 3d» layer and press «P» to edit end position of the Main Text

Set Time indicator here, select «cube 3d_new» layer and press «S» to edit size and proportions of the cube

Set Time indicator here, select «Cube End Position Controller» and press «P» to edit end position of the cube

Navigate a folder «02. Render Comp»:

Composition «Render Comp». You can render composition after all edits. Hit Ctrl+M. Then press «Render».

Folder «03. Other». Typically you don't need to edit nothing here, but this alternative way to find «**Main_Anim**» composition:)
