

Sky Logo Reveal FCPX 2020

Introducing our Sky Logo Reveal for Apple Motion 5.4.5 and Final Cut Pro X 10.4.7 or newer versions.

Installation for Final Cut Pro X:

Copy folder Sky Logo Reveal FCPX 2020 to:
"MacOs\Users\<user>\Movies\Generators"

Once you finish installation, open Final Cut Pro X,
Under "Titles and Generators sidebar" find the template and drag in
in your timeline.
Set resolution up to 4k UHD.

Now on the right side open "Generator Inspector" and replace your
logo, edit the tagline and you are ready for rendering.

Usage:

There is a lot of options that i left available in "Generator
Inspector" if you want to change your logo animation style, cloud
texture, scale clouds, change sun light, background opacity and
colours. In one word everything for advanced customisation.

If you want to modify project, make sure you have Apple Motion 5.4.5
installed.

Open the project in Apple Motion and under "Main Scene" > "Logo" you
can replace logo, logo animation style, tagline, tagline animation
etc...

Under "Background" group you can adjust your Background colours.
You can duplicate and reposition clouds if you want to make your
logo animation a little bit different etc...
