Bauhaus | Stories Pack

After Effects template for making a bright creative YouTube or an energetic TV channel opener. It's named after Bauhaus, an art school known to appreciate clean lines and tight shapes, "what is comfortable, is beautiful as well". You can publish the video on Facebook, Twitter, Instagram or any other social networks. It includes 16 animated stories each 15 seconds long.

Round shapes of this project create a uniform style and send a positive emotional message of harmony and protection. The circle is often used to represent unity, commitment, love or community. Circles also have a sense of free movement – like wheels, balls or merry go rounds. Their movement may represent power and hot energy as well.
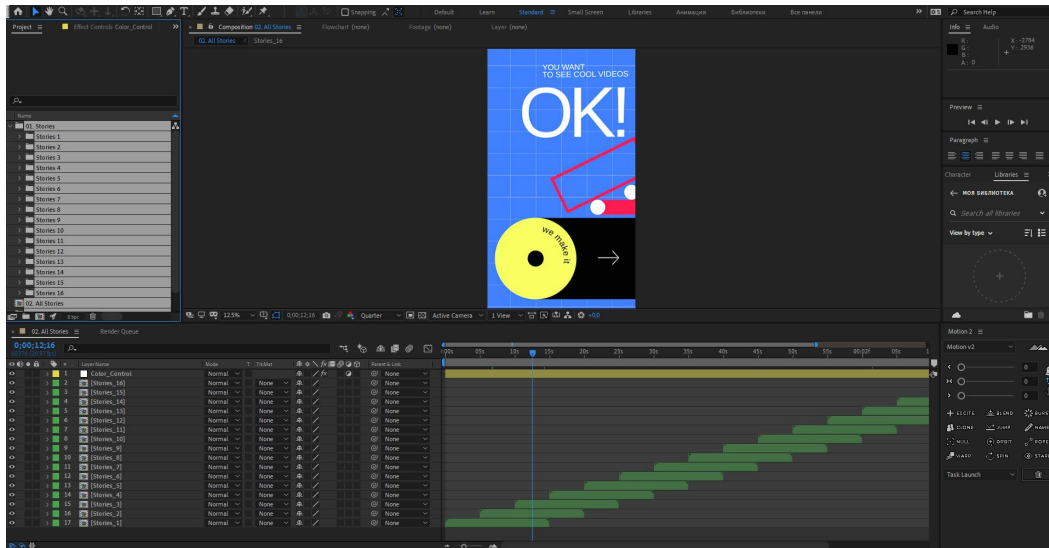

Project features:

- Color control
- Vertically Resolution: 2160×3840
- Fast render
- 100 % After Effects
- After Effects CC18 and above
- No plugins required
- Photos are not included

How to edit a project.

1) To edit a project, open the Edit folder. In it, you will see compositions with text and images that you can change. All of them are marked on the timeline, so you can edit the project sequentially and not get confused

2) for example, open the song Stories_4. Text editing layers are highlighted in green. Double click and you will be able to enter your text. In addition, you can see the composition for your placeholder on the timeline or in the Stories_4 folder. Open it to insert your photos or videos.

Other compositions in the project are edited using the same principle.
