🖼 25% ▼ 0:00:07:01
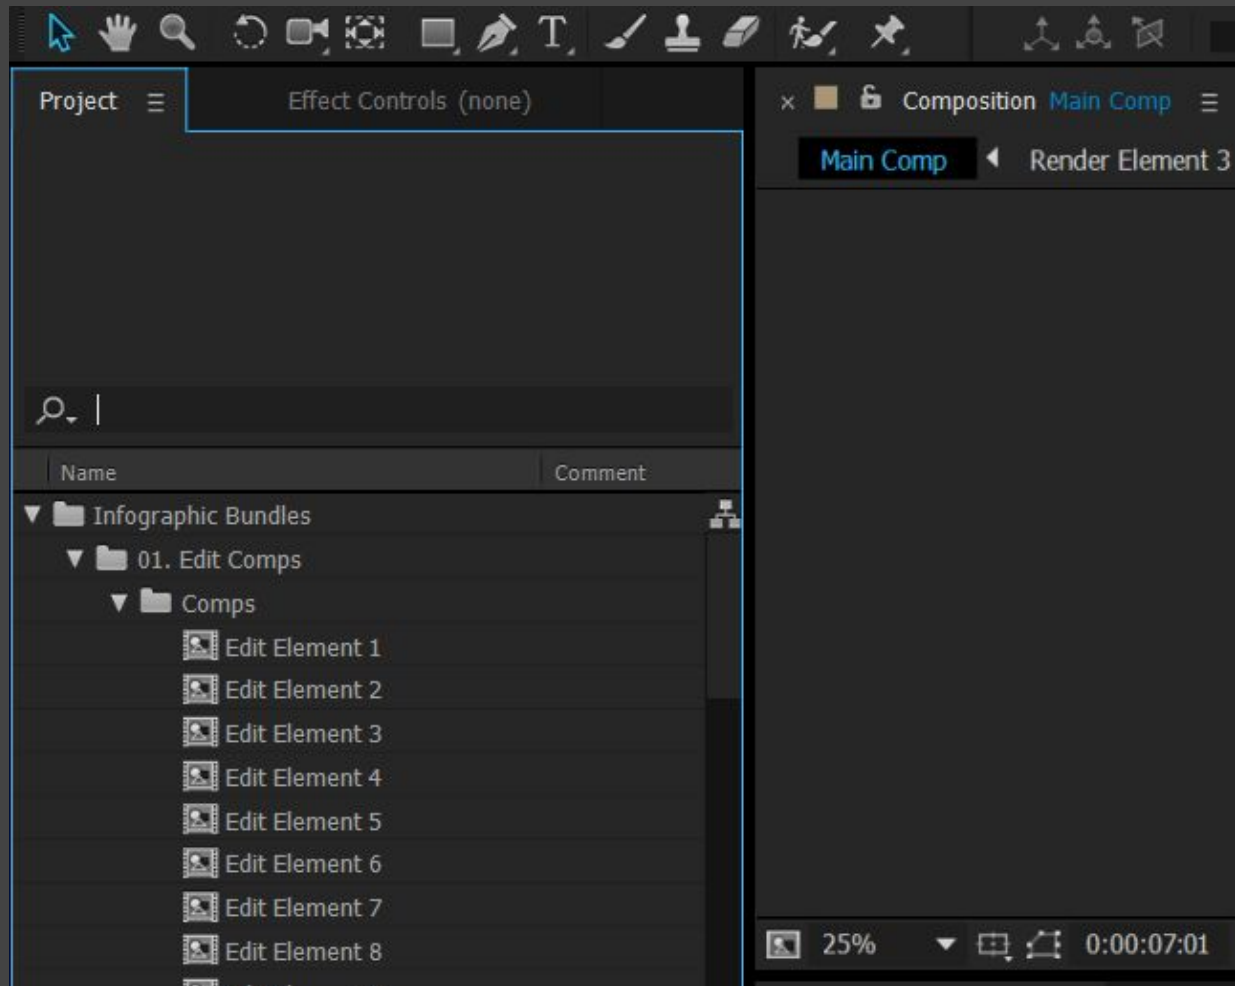

Step 02

Inside each composition will
be a layer with a color
controller and other
controllers.

Use them if you want to change the
value of color or numbers.
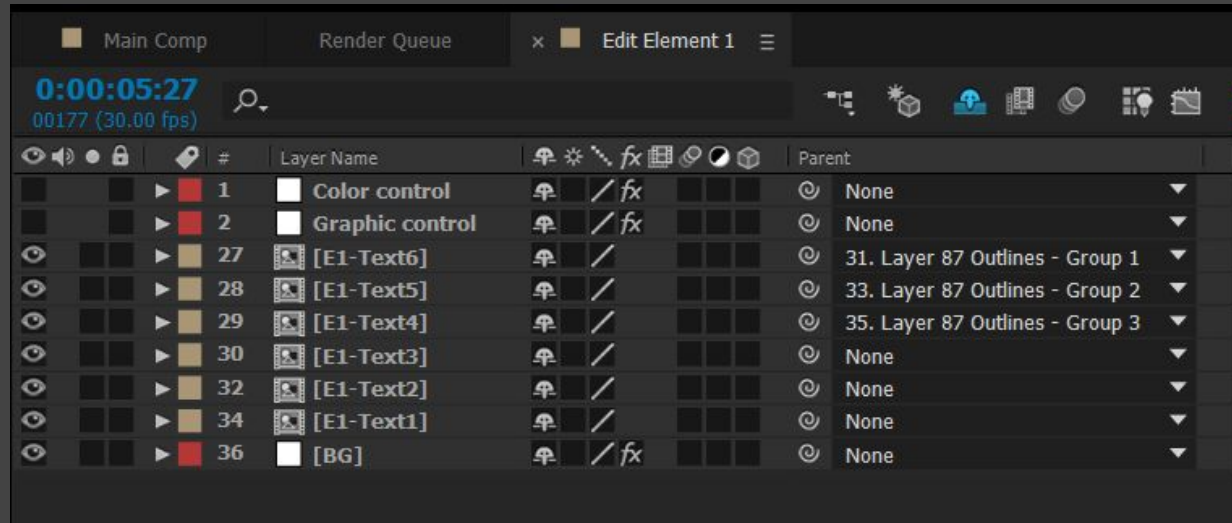

Step 03

Simply select the color
controller layer and open the
Effect Controller tab

Here you can change any color to the
one you want.

Step 04

Select the Graph Controller layer and open the Effect Controller tab

Here you can change the value of charts.

Step 05

Each compositions has pre-compositions with text. Inside there is a text layer that can be changed.

To change the color of the text, go back to step 3.

Step 06

Enjoy
