

Thank you  
for purchasing "Elegant Clean or Glitch Logo Intro" project

### Adding your own Logo:

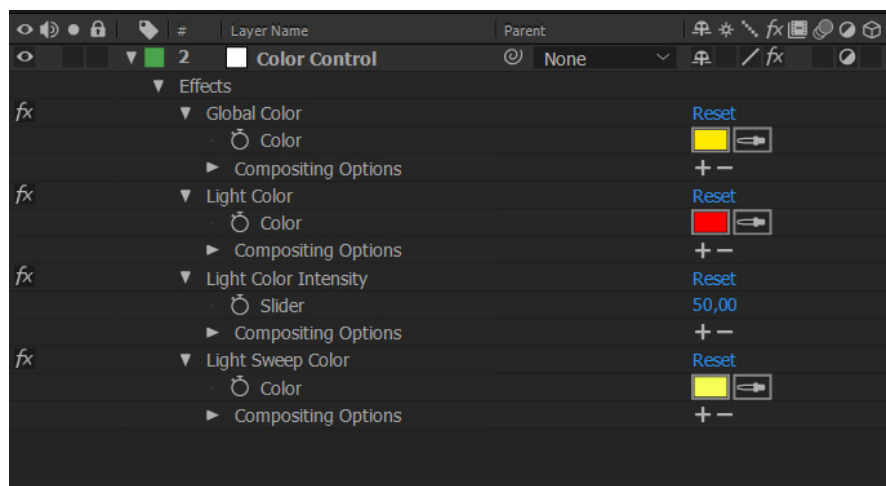

There are a place holder Composition called "Place Your Logo Here" in the "\_Logo" Folder in the Project Panel for you to substitute your own logo or text.

Double click on "Place Your Logo Here" comp and Then put your Logo or text in this comp, you may want to scale it up or down to suite the template (either select the layer and press the "s" key or use the twirly beside the layer in the Timeline panel and twirl down the Transform parameters to access the scale function). You can check if your scale and adjustments is correct by going in the Final composition and deciding if it looks right.

### Color Customization:

If you want you can choose colors and adjust the light intensity in the layer "Color Control"

## Audio:

You can buy the soundtracks from these links:

A Glitch Logo
