

# Holiday Photo Slideshow

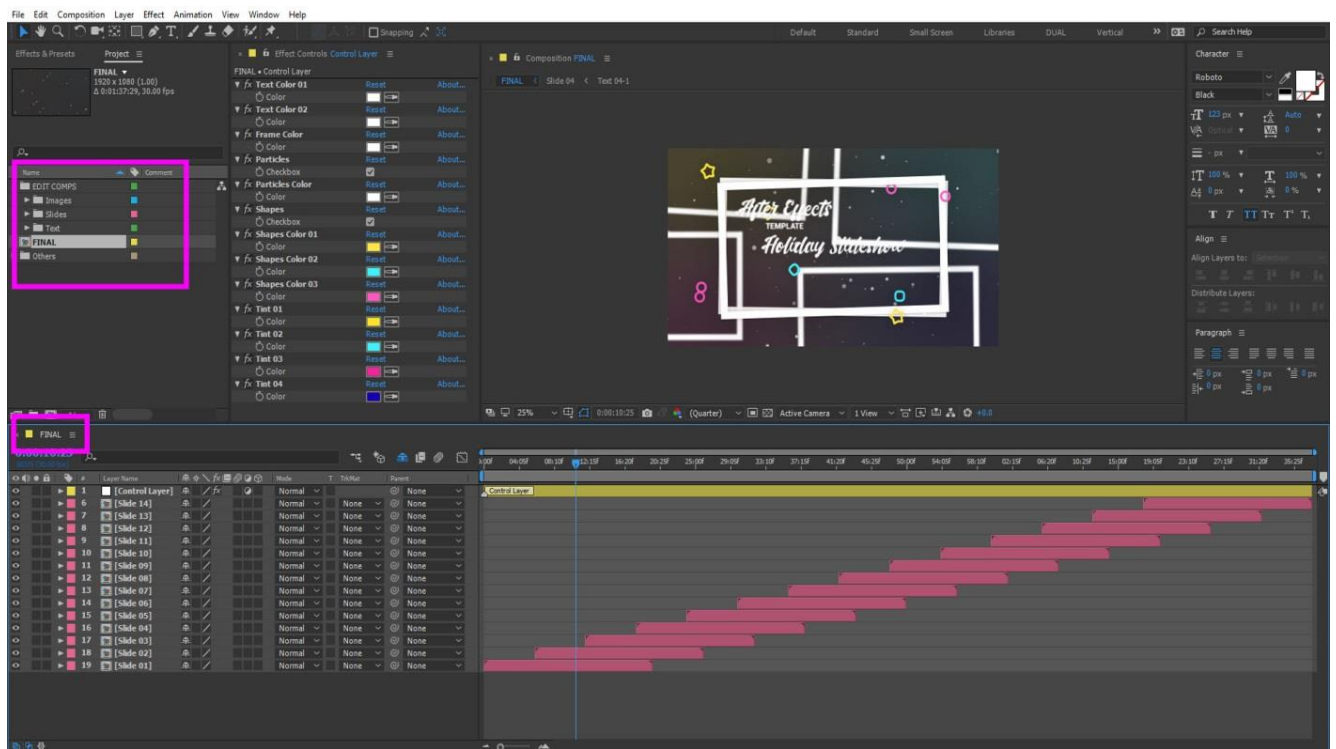

## Customization:

Before opening this project please download free fonts:

<https://www.dafont.com/roboto.font>

<https://www.dafont.com/handleletterink.font>

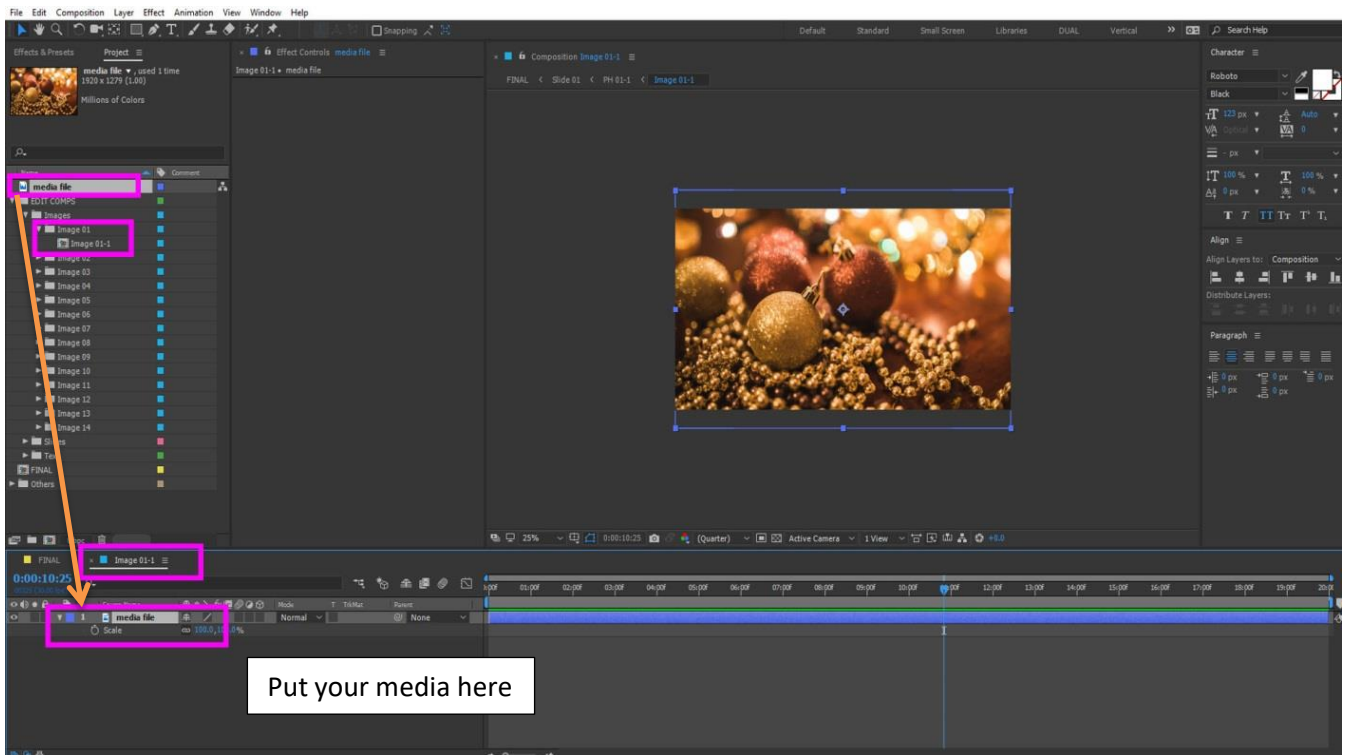

## 1. Project Overview:

- Composition **FINAL** is a final composition for render;
- Folder **Edit Comps** includes all compositions for editing;
- Ignore Folder **Others**.

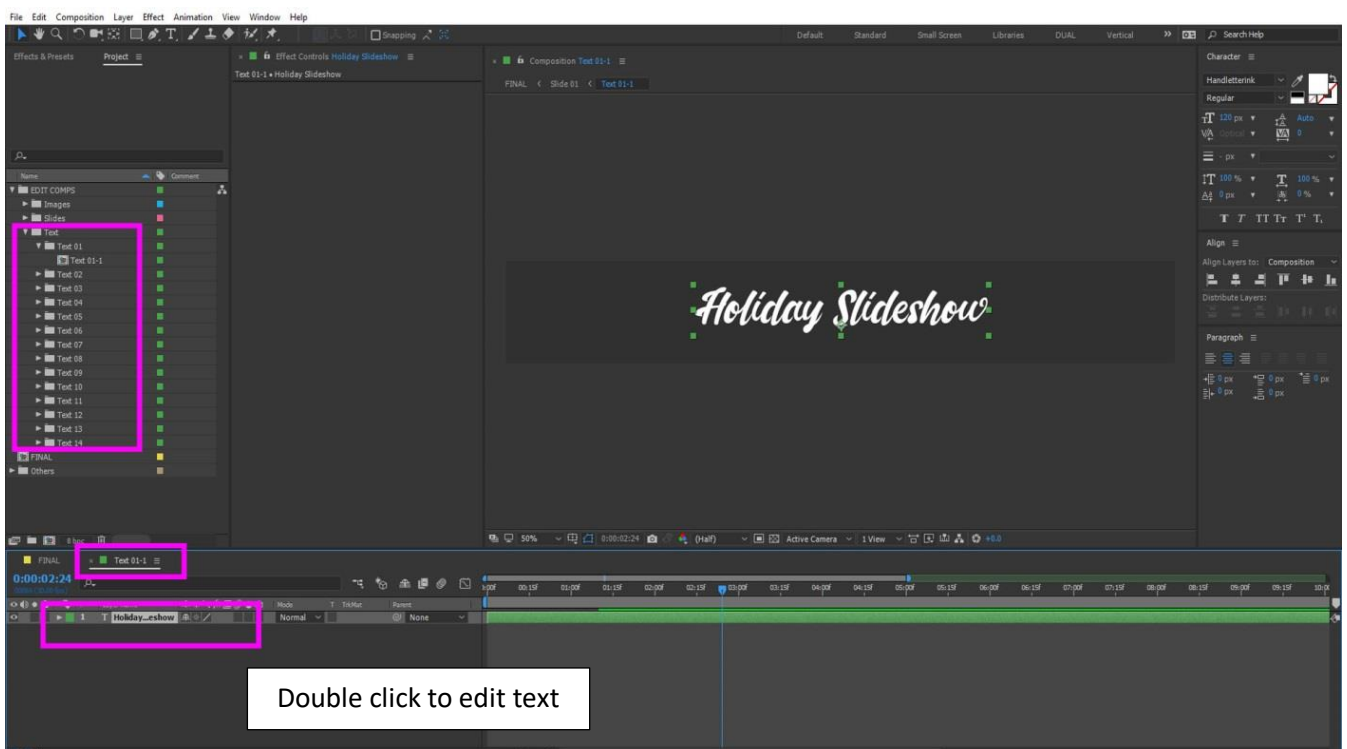

## 2. Edit Images:

Drag the image you want to insert from the Project Panel into the **Image N**. Resize your image according to the composition size ("S" key).

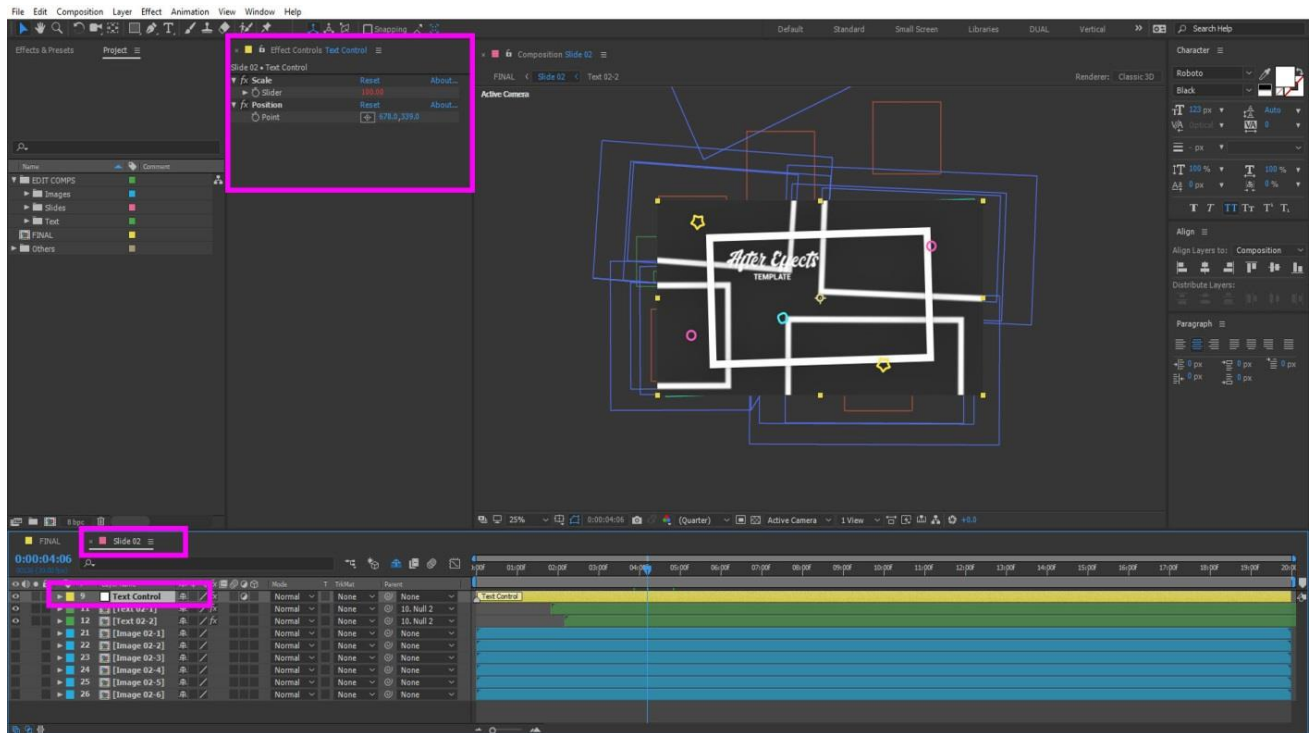

## 3. Edit Text:

Open up **Text N** composition, double click on text layer and make changes to say whatever you want.

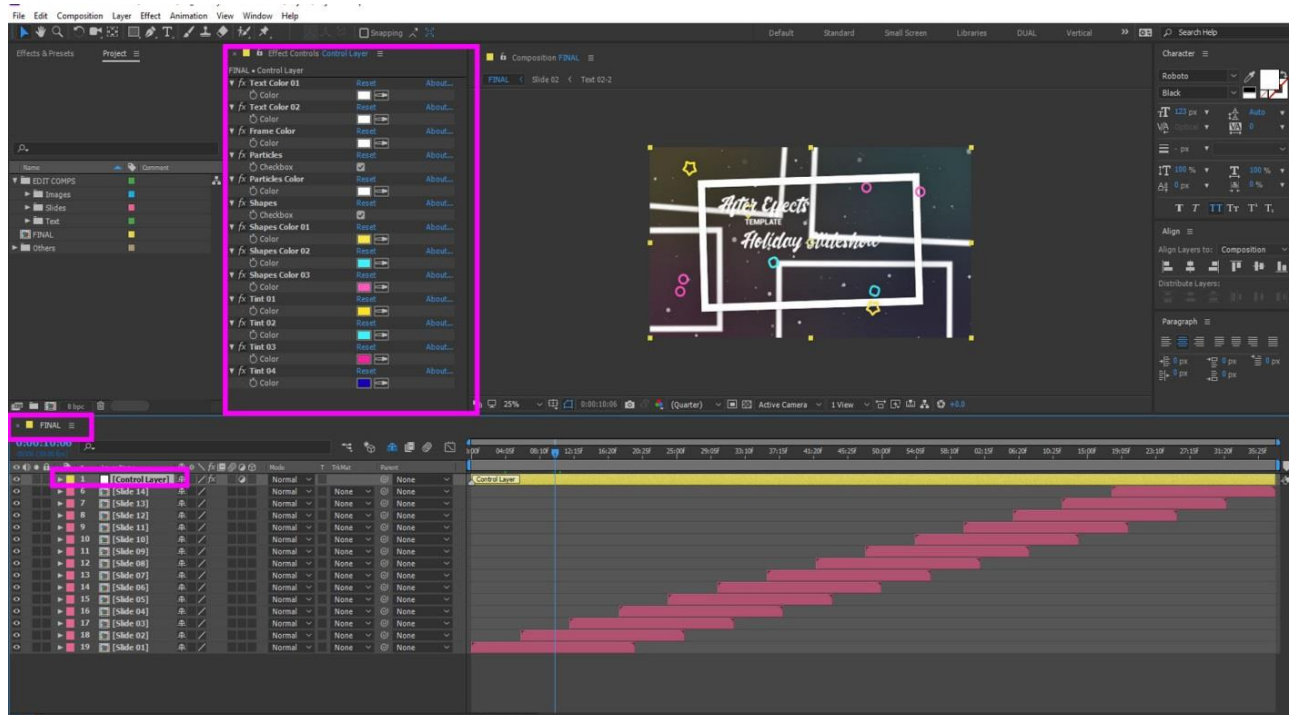

## 4. Text Control

If you want to change scale and position of the text in particular slide just open it and find **Text Control** layer.

## 5. Control Layer

Using the **Control Layer** (in **Final** composition), you can change colors of the project.

The project has modular structure, so you can use any part of the project as you like.

Well, that's it. I hope you enjoy this template.
